Our company’s attempt to retain its position in the industry in which it operate and further build its reputation by maintaining quality and constantly striving to improve its value proposition to customers. As the market becomes increasingly competitive, maintaining and enhancing our company’s brand will become critical to ensure that it continues to remain a competitive products and services provider relating to education solutions. Prospective clients gain awareness of our company’s services through interactions with its existing clients. While our Company still believes that considering the time period since we have started, it has achieved reasonable scale in its business, any decrease in the number of customers which avail our services or delay in its expansion plans may lead to slowdown in its growth and scale. If our

clients are consistently provided with inaccurate services, or are provided with sub-standard services, they may become dissatisfied with the quality of the services provided by us which may in turn dilute the company's branding and materially adversely affect its reputation and consequently its business. Failure to maintain and enhance the company's reputation or any actual or perceived reasons leading to reduction of benefits from its projects and services or any negative publicity against us may adversely impact our ability to retain and attract new customers which shall consequently affect the brand reputation and consequently its business and results of operations.

As a result, our Promoters, together with the members of the Promoter Group, will continue to exercise a significant degree of influence over the Company and will be able to control the outcome of any proposal that can be approved by a majority shareholder vote, including, the election of members to our Board, in accordance with the Companies Act, 2013 and our Articles of Association. Such a concentration of ownership may also have the effect of delaying, preventing or deterring a change in control of our Company. In addition, our Promoters will continue to have the ability to cause us to take actions that are not in, or may conflict with, our interests or the interests of some or all of our creditors or other shareholders, and we cannot assure you that such actions will not have an adverse effect on our future financial performance or the price of our Equity Shares.

24. Our Promoters play key role in our functioning and we heavily rely on their knowledge and experience in operating our business and therefore, it is critical for our business that our Promoters remain associated with us.

Through this issue our Company proposes to get listed on the SME Platform of BSE and further increase its asset base in order to take the Company to the next level of operational and financial strength. Our Company will be severely dependent on its promoters to effectively implement its growth strategies. Our Promoters have been actively involved in the day to day operations and management. If our Promoters are unable or unwilling to continue in their present position, we may not be able to replace them easily or at all. Financial impact of the aforesaid risk cannot be reasonably quantified.

25. *Our success depends largely on our senior management and our ability to attract and retain our key personnel.*

Our success depends on the continued services and performance of our senior management and sales agents. Competition for senior employees and sales agents in the industry is intense and we may not be able to retain our existing team members or attract and retain new team members in the future. Further, we have not executed any Non-Compete Agreement with the said Company not to engage in businesses similar to that of our Company. As a result, conflicts of interests may arise in allocating business opportunities amongst our Company and our other Promoter Group Entities in such circumstances where our respective interests diverge. In cases of conflict, our Promoters may favour our Group Entities in which our Promoters have interests. There can be no assurance that our Promoters/Promoter Group will not compete with our existing business or any future business that we may undertake or that their interests will not conflict with ours. Any such present and future conflicts could have a material adverse effect on our business, results of operations and financial condition. *For further details please refer to chapter titled "Our Group Entities" beginning on page no.134 of this Prospectus.*

28. *The Objects of the Issue for which funds are being raised, are based on our management estimates and any bank or financial institution or any independent agency has not appraised the same. The deployment of funds in the project is entirely at our discretion, based on the parameters as mentioned in the chapter titles "Objects of the Issue".*

The fund requirement and deployment, as mentioned in the –Objects of the Issue on page 67 of this Prospectus is based on the estimates of our management and has not been appraised by any bank or financial institution or any other independent agency. These fund requirements are based on our current business plan. We cannot assure that the current business plan will be implemented in its entirety or at all. In view of the highly competitive and dynamic nature of our business, we may have to revise our business plan from time to time and consequently these fund requirements. The deployment of the funds as stated

under chapter –Objects of the Issuance is at the discretion of our Board of Directors and is not subject to monitoring by any external independent agency. Further, we cannot assure that the actual costs or schedule of implementation as stated under chapter –Objects of the Issuance will not vary from the estimated costs or schedule of implementation. Any such variance may be on account of one or more factors, some of which may be beyond our control. Occurrence of any such event may delay our business plans and/or may have an adverse bearing on our expected revenues and earnings.

- 29. *There is no monitoring agency appointed by our Company and the deployments of funds are at the discretion of our Management and our Board of Directors, though it shall be monitored by the Audit Committee.***

Further, our Company shall inform about material deviations in the utilization of Issue proceeds to the stock exchange and shall also simultaneously make the material deviations / adverse comments of the audit committee public.

- 30. *Our ability to pay dividends in the future will depend upon our future earnings, financial condition, cash flows, working capital requirements, capital expenditure and restrictive covenants in our financing arrangements.***

We may retain all our future earnings, if any, for use in the operations and expansion of our business. As a result, we may not declare dividends in the foreseeable future. Any future determination as to the declaration and payment of dividends will be at the discretion of our Board of Directors and will depend on factors that our Board of Directors deem relevant, including among others, our results of operations financial condition, cash requirements, business prospects and any other financing arrangements.

Additionally, we may not be permitted to declare any dividends under the loan financing arrangement that our Company may enter into future, if there is a default under such loan agreements or unless our Company has paid all the dues to the lender up to the date on which the dividend is declared or paid or has made satisfactory provisions thereof.

Accordingly, realization of a gain on shareholders investments may largely depend upon the appreciation of the price of our Equity Shares. There can be no assurance that our Equity Shares will appreciate in value. For details regarding our dividend policy, please see –Dividend Policy on page no. 138 of this Prospectus.

- 31. *Our future funds requirements, in the form of fresh issue of capital or securities and/or loans taken by us, may be prejudicial to the interest of the shareholders depending upon the terms on which they are eventually raised.***

We may require additional capital from time to time depending on our business needs. Any fresh issue of shares or convertible securities would dilute the shareholding of the existing shareholders and such issuance may be done on terms and conditions, which may not be favorable to the then existing shareholders. If such funds are raised in the form of loans or debt, then it may substantially increase our interest burden and decrease our cash flows, thus prejudicially affecting our profitability and ability to pay dividends to our shareholders.

32. *Delay in raising funds from the IPO could adversely impact the implementation schedule.*

The proposed use of issue proceeds, as detailed in the section titled –Objects of the Issuance on page no. 67 is to be partially and/or wholly funded from the proceeds of this IPO. We have not identified any alternate source of funding and hence any failure or delay on our part to mobilize the required resources or any shortfall in the Issue proceeds may delay the implementation schedule. We therefore, cannot assure that we would be able to execute the expansion process within the given time frame, or within the costs as originally estimated by us. With the increased scrutiny of the affairs of a public listed company by shareholders, regulators and the public at large, we will incur significant legal, accounting, corporate governance and other expenses that we were not required to incur in the past. We will also be subject to the provisions of the listing agreements signed with the Stock Exchange. In order to meet our financial control and disclosure obligations, significant resources and management supervision will be required. As a result, management’s attention may be diverted from other business concerns, which could have an adverse effect on our business and operations.

There can be no assurance that we will be able to satisfy our reporting obligations. In addition, we will need to increase the strength of our management team and hire additional legal and accounting staff with appropriate public company experience and accounting knowledge and we cannot assure that we will be able to do so in a timely manner. Failure of our Company to meet the listing requirements of stock exchange, if any, could lead to imposition of penalties, including suspension of trading in shares of the Company.

The Government notified the RERA in the official gazette on May, 01 2016. The RERA has imposed certain obligations on real estate developers, including us, such as mandatory registration of real estate projects, not issuing any advertisements or accepting advances unless real estate projects are registered under RERA, maintenance of a separate account for amounts realized from each real estate project and restrictions on withdrawal of amounts from such accounts and taking customer approval for major changes in sanction plan. RERA has inter-alia prescribed

- a) Registration of construction projects,
- b) Conditions to monitor the funds allocated towards each project and placed restrictions on the usage of the same
- c) Submission of specific details of the projects for public access

- e) Regulation of the advertising of the projects.

In addition, we will have to comply with state-specific rules and regulations which will be enacted by the relevant state government where our ongoing projects are or our future projects may be located, due to the introduction of RERA. While most of the state governments have notified rules in relation to RERA, other states are in the process of doing so. To ensure compliance with the requirements of the RERA, we may need to allocate additional resources, which may increase our regulatory compliance costs and divert management attention. Further, we may face challenges in interpreting and complying with the provisions of the RERA due to limited jurisprudence on them. In the event our interpretation of provisions of the RERA differs from, or contradicts with, any judicial pronouncements or clarifications issued by the Government in the future, we may face regulatory actions or we may be required to undertake remedial steps. Any non-compliance of the provisions of RERA or such state-specific legislations may result in punishments (including fines or imprisonment) and revocation of registration of our ongoing projects, which may have an adverse effect on our business, operations and financial condition.

Our core business is plotting of land, demand for which is significantly affected by the general level of economic conditions in the regions in which we operate. An economic downturn in a region in which we operate may adversely affect our operations in that region, as the buying power of our prospective/existing customers may fall due to shift towards fulfillment of basic necessities of life and postponing any investment plans. We may also experience more competitive pricing pressure during periods of economic downturn. Also, declining unemployment levels can make it harder for us to identify customers willing to invest in real estate. 44. *We operate in highly competitive markets and our inability to compete effectively may lead to lower market share or reduced operating margins, and adversely affect our results of operations.*

India is our primary market and we face high competition in our business from local as well as nationwide players in our industry. Our key services are available from a large number of players providing same or similar services in our industry. Thus, factors affecting our competitive success include, amongst other things, price, demand for our services, and availability of land, brand recognition and reliability. As a result, to remain competitive in our market, we must continuously strive to reduce our procurement and administrative costs and improve our operating efficiencies. If we fail to do so, our competitors may be able to provide their services at prices lower than our prices, which would have an adverse effect on our market share and results of operations. Promoting and positioning our brand will depend largely on the success of our marketing efforts and our ability to provide high quality services. The brand promotion activities that we may undertake may not yield increased revenues, and even if they do, any increased revenues may not offset the expenses we incur in building our brand. If we are unable to promote and maintain our brand, our business, financial condition and results of operations could be adversely affected.

47. Our Promoters and Directors may have interest in our Company, other than reimbursement of expenses incurred or remuneration.

In the event interest rates increase, the Company's costs of borrowing will increase, and its profitability and results of operations may be adversely affected.

52. *If we are unable to source business opportunities effectively, we may not achieve our financial objectives.*

This growth strategy will place significant demands on our management, financial and other resources. It will require us to continuously develop and improve our operational, financial and internal controls. Continuous expansion increases the challenges involved in financial management, recruitment, training and retaining high quality human resources, preserving our culture, values and entrepreneurial environment, and developing and improving our internal administrative infrastructure. Any inability on our part to manage such growth could disrupt our business prospects, impact our financial condition and adversely affect our results of operations.

While our Company believes that all such transactions have been conducted on the arm's length basis, there can be no assurance that it could not have been achieved on more favorable terms had such transactions not been entered into with related parties.

Furthermore, it is likely that our Company will enter into related party transactions in the future. 56. Dividend declaration by the Company in the future will depend upon earnings, financial condition, cash flows, working capital requirements, capital expenditure and restrictive covenants in our financing arrangements.

We may retain all our future earnings, if any, for use in the operations and expansion of our business. As a result, we may not declare dividends in the foreseeable future. Any future determination as to the declaration and payment of dividends will be at the discretion of our Board of Directors and will depend on factors that our Board of Directors deem relevant, including among others, our results of operations financial condition, cash requirements, business prospects and any other financing arrangements.

Additionally, we may not be permitted to declare any dividends under the loan financing arrangement that our Company may enter into future, if there is a default under such loan agreements or unless our Company has paid all the dues to the lender up to the date on which the dividend is declared or paid or has made satisfactory provisions thereof. Accordingly, realization of a gain on shareholders investments may largely depend upon the appreciation of the price of our Equity Shares. There can be no assurance that our Equity Shares will appreciate in value.

57. Any future issue of Equity Shares may dilute your shareholding and sales of our Equity Shares by our Promoters or other major shareholders may adversely affect the trading price of the Equity Shares.

Any future equity issues by us, including in a primary offering, may lead to the dilution of investors' shareholdings in us. Any future equity issuances by us or sales of its Equity Shares by the Promoters may

adversely affect the trading price of the Equity Shares. In addition, any perception by investors that such issuances or sales might occur could also affect the trading price of our Equity Shares.

58. *There are restrictions on daily movements in the price of the Equity Shares, which may adversely affect a shareholder's ability to sell, or the price at which it can sell, Equity Shares at a particular point in time.*

Following the Issue, we will be subject to a daily –circuit breakerll imposed by BSE, which does not allow transactions beyond specified increases or decreases in the price of the Equity Shares. This circuit breaker operates independently of the index-based, market-wide circuit breakers generally imposed by SEBI on Indian stock exchanges. The percentage limit on our circuit breakers will be set by the stock exchange based on the historical volatility in the price and trading volume of the Equity Shares. This circuit breaker will limit the upward and downward movements in the price of the Equity Shares. As a result of this circuit breaker, no assurance can be given regarding your ability to sell your Equity Shares or the price at which you may be able to sell your Equity Shares at any particular time.

59. *After this Issue, the price of the Equity Shares may be highly volatile, or an active trading market for the Equity Shares may not develop.*

There has been no public market for the Equity Shares and the prices of the Equity Shares may fluctuate after this Issue. There can be no assurance that an active trading market for the Equity Shares will develop or be sustained after this Issue or that the price at which the Equity Shares are initially traded will correspond to the price at which the Equity Shares will trade in the market subsequent to this Issue.

60. *The Issue price of our Equity Shares may not be indicative of the market price of our Equity Shares after the Issue and the market price of our Equity Shares may decline below the issue price and you may not be able to sell your Equity Shares at or above the Issue Price.*

EXTERNAL RISK FACTORS

62. *Changes in the Government Policy could adversely affect economic conditions in India generally and our business in particular.*

Our business, and the market price and liquidity of our Equity Shares, may be affected by interest rates, changes in Government policy, taxation, social and civil unrest and other political, economic or other developments in or affecting India. Elimination or substantial change of policies or the introduction of policies that negatively affect the Company’s business could cause its results of operations to suffer. Any significant change in India’s economic policies could disrupt business and economic conditions in India generally and the Company’s business in particular.

63. *Taxes and other levies imposed by the Government of India or other State Governments, as well as other financial policies and regulations, may have a material adverse effect on our business, financial condition and results of operations.*

Taxes and other levies imposed by the Central or State Governments in India that affect our industry include Service tax, STT, income tax and other taxes, duties or surcharges introduced on a permanent or temporary basis from time to time. Imposition of any other taxes by the Central and the State Governments may adversely affect our results of operations.

64. *Any downgrading of India’s sovereign rating by an independent agency may harm our ability to raise financing.*

Any adverse revisions to India's credit ratings for domestic and international debt by international rating agencies may adversely impact our ability to raise additional financing, and the interest rates and other commercial terms at which such additional financing may be available. This could have an adverse effect on our business and future financial performance, our ability to obtain financing for capital expenditures and the trading price of our Equity Shares.

65. You may be subject to Indian taxes arising out of capital gains on sale of Equity Shares.

Under current Indian tax laws and regulations, capital gains arising from the sale of equity shares in an Indian company are generally taxable in India. Any gain realized on the sale of listed equity shares on a stock exchange held for more than 12 months is not subject to capital gains tax in India if securities transaction tax (-STT) is paid on the transaction. STT will be levied on and collected by a domestic stock exchange on which the Equity Shares are sold.

Any gain realized on the sale of equity shares held for more than 12 months to an Indian resident, which are sold other than on a recognized stock exchange and on which no STT has been paid, will be subject to long term capital gains tax in India. Further, any gain realized on the sale of listed equity shares held for a period of 12 months or less will be subject to short term capital gains tax. Any change in tax provisions may significantly impact your return on investments.

66. Natural calamities could have a negative impact on the Indian economy and cause our Company's business to suffer.

India has experienced natural calamities such as earthquakes, tsunami, floods etc. in recent years. The extent and severity of these natural disasters determine their impact on the Indian economy. Prolonged spells of abnormal rainfall or other natural calamities could have a negative impact on the Indian economy, which could adversely affect our business, prospects, financial condition and results of operations as well as the price of the Equity Shares.

67. Terrorist attacks, civil unrests and other acts of violence or war involving India or other countries could adversely affect the financial markets, our business, financial condition and the price of our Equity Shares.

Any major hostilities involving India or other acts of violence, including civil unrest or similar events that are beyond our control, could have a material adverse effect on India's economy and our business. Incidents such as the terrorist attacks, other incidents such as those in US, Indonesia, Madrid and London, and other acts of violence may adversely affect the Indian stock markets where our Equity Shares will trade as well the global equity markets generally. Such acts could negatively impact business sentiment as well as trade between countries, which could adversely affect our Company's business and profitability. Additionally, such events could have a material adverse effect on the market for securities of Indian companies, including the Equity Shares.

ECONOMIC OVERVIEW

GLOBAL ECONOMIC OVERVIEW

- Although recent vaccine approvals have raised hopes of a turnaround in the pandemic later this year, renewed waves and new variants of the virus pose concerns for the outlook. Amid exceptional uncertainty, the global economy is projected to grow 5.5 percent in 2021 and 4.2 percent in 2022. The 2021 forecast is revised up 0.3 percentage point relative to the previous forecast, reflecting expectations of a vaccine-powered strengthening of activity later in the year and additional policy support in a few large economies.
- The projected growth recovery this year follows a severe collapse in 2020 that has had acute adverse impacts on women, youth, the poor, the informally employed, and those who work in contact-intensive sectors. The global growth contraction for 2020 is estimated at -3.5 percent, 0.9 percentage point higher than projected in the previous forecast (reflecting stronger-than-expected momentum in the second half of 2020).

- The strength of the recovery is projected to vary significantly across countries, depending on access to medical interventions, effectiveness of policy support, exposure to cross-country spillovers, and structural characteristics entering the crisis (Figure 1).
- Policy actions should ensure effective support until the recovery is firmly underway, with an emphasis on advancing key imperatives of raising potential output, ensuring participatory growth that benefits all, and accelerating the transition to lower carbon dependence. As noted in the October 2020 World Economic Outlook (WEO), a green investment push coupled with initially moderate but steadily rising carbon prices would yield needed emissions reductions while supporting the recovery from the pandemic recession.
- Strong multilateral cooperation is required to bring the pandemic under control everywhere. Such efforts include bolstering funding for the COVAX facility to accelerate access to vaccines for all countries, ensuring universal distribution of vaccines, and facilitating access to therapeutics at affordable prices for all. Many countries, particularly low-income developing economies, entered the crisis with high debt that is set to rise further during the pandemic. The global community will need to continue working closely to ensure adequate access to international liquidity for these countries. Where sovereign debt is unsustainable, eligible countries should work with creditors to restructure their debt under the Common Framework agreed by the G20.

Considerations for the Global Outlook

A stronger starting point for the 2021–22 forecast. Multiple vaccine approvals and the launch of vaccination in some countries in December have raised hopes of an eventual end to the pandemic. Moreover, economic data released after the October 2020 WEO forecast suggest stronger-than-projected momentum on average across regions in the second half of 2020. Despite the high and rising human toll of the pandemic, economic activity appears to be adapting to subdued contact-intensive activity with the passage of time. Finally, additional policy measures announced at the end of 2020—notably in the United States and Japan—are expected to provide further support in 2021–22 to the global economy. These developments indicate a stronger starting point for the 2021–22 global outlook than envisaged in the previous forecast.

Lingering concerns. However, surging infections in late 2020 (including from new variants of the virus), renewed lockdowns, logistical problems with vaccine distribution, and uncertainty about take-up are important counterpoints to the favorable news. Much remains to be done on the health and economic policy fronts to limit persistent damage from the severe contraction of 2020 and ensure a sustained recovery.

Three questions. These developments raise three interrelated questions for the global outlook. First, how will restrictions needed to curb transmission affect activity in the near term before vaccines begin delivering effective society-wide protection? Second, how will vaccine-rollout expectations and policy support affect activity? Third, how will financial conditions and commodity prices evolve? The baseline forecast requires forming a view on these unknowns.

Infections and restrictions will soften momentum in early 2021.

Third quarter GDP outturns mostly surprised on the upside (Australia, euro area, India, Japan, Korea, New Zealand, Turkey, United States) or were in line with expectations elsewhere (China, Mexico). Among components, private consumption rebounded the most. Investment picked up relatively slowly, except in China (Figure 2). The expenditure decompositions suggest a release of pent-up demand and adjustments to telework. Given the largely one-off nature of such spending, it is likely to dissipate once the adjustments are made. High-frequency data suggests some tapering into the fourth quarter of 2020—for example, in new orders, industrial production, and global trade (Figure 3). The US December employment report also showed the first net decline in nonfarm payrolls since April 2020. Moreover, services output remains subdued and is likely to soften further in the coming months with renewed restrictions to combat rising infections.

The softening in early 2021 is expected to give way to rising momentum in the second quarter as vaccines and therapies become more readily available, allowing contact-intensive activity to strengthen.

Vaccines, therapies, and containment efforts. The baseline assumes broad vaccine availability in advanced economies and some emerging market economies in summer 2021 and across most countries by the second half of 2022—an accelerated timeline relative to expectations at the time of the previous forecast. Vaccine rollout speed is assumed to vary across economies based on country-specific factors. Moreover, therapies are expected to gradually become more effective and more accessible worldwide over the course of 2021–22. The baseline also assumes the possibility of lockdowns, including to contain transmission of new variants, before vaccines become widely available.

The path of the pandemic. With growing vaccine availability, improved therapies, testing, and tracing, local transmission of the virus is expected to be brought to low levels everywhere by the end of 2022. Some regions and countries will get to low local transmission sooner than others depending on country-specific circumstances.

Additional fiscal policy support set to boost activity in some countries, but most are expected to experience lower deficits in 2021. The sizable fiscal support announced for 2021 in some countries, including most recently in the United States and Japan, together with the unlocking of Next Generation EU funds, will help lift

economic activity among advanced economies with favorable spillovers to trading partners. However, as noted in the January 2021 Fiscal Monitor Update, fiscal deficits in most countries are projected to decline in 2021 as revenues rise and expenditures decline automatically with the recovery.

Supportive financial conditions. Major central banks are assumed to maintain their current policy rate settings throughout the forecast horizon to the end of 2022. As a result, financial conditions are expected to remain broadly at current levels for advanced economies while gradually improving for emerging market and developing economies. Within this latter group, differentiation between investment-grade sovereigns (who have been able to issue external debt in large amounts in 2020) and high-yield borrowers (many of whom are constrained in their ability to take on additional debt and until recently have not accessed international markets during the pandemic) is expected to subside as the recovery takes hold. As noted in the January 2021 Global Financial Stability Report Update, markets remain upbeat about prospects for 2021, banking on continued policy support.

Rising commodity prices. Reflecting the projected global recovery, oil prices are expected to rise in 2021 just over 20 percent from the low base for 2020, but will still remain well below their average for 2019. Non-oil commodity prices are also expected to increase with those of metals, in particular, projected to accelerate strongly in 2021.

Government Initiatives

The first Union Budget of the third decade of 21st century was presented by Minister for Finance & Corporate Affairs, Ms Nirmala Sitharaman in the Parliament on February 1, 2020. The budget aimed at energising the Indian economy through a combination of short-term, medium-term, and long-term measures.

In November 2020, the Government of India announced Rs. 2.65 lakh crore (US\$ 36 billion) stimulus package to generate job opportunities and provide liquidity support to various sectors such as tourism, aviation, construction and housing. Also, India's cabinet approved the production-linked incentives (PLI) scheme to provide ~Rs. 2 trillion (US\$ 27 billion) over five years to create jobs and boost production in the country.

Numerous foreign companies are setting up their facilities in India on account of various Government initiatives like Make in India and Digital India. Mr Narendra Modi, Prime Minister of India, launched Make in India initiative with an aim to boost country’s manufacturing sector and increase purchasing power of an average Indian consumer, which would further drive demand and spur development, thus benefiting investors. The Government of India, under its Make in India initiative, is trying to boost the contribution made by the manufacturing sector with an aim to take it to 25% of the GDP from the current 17%. Besides, the Government has also come up with Digital India initiative, which focuses on three core components: creation of digital infrastructure, delivering services digitally and to increase the digital literacy.

Some of the recent initiatives and developments undertaken by the Government are listed below:

- On January 6, 2021, the Government of India and New Development Bank (NDB) signed two loan agreements for US\$ 646 million to upgrade the State Highway network and district road network in Andhra Pradesh.

Road Ahead

India's GDP is expected to reach US\$ 5 trillion by FY25 and achieve upper-middle income status on the back of digitization, globalization, favorable demographics, and reforms.

India is also focusing on renewable sources to generate energy. It is planning to achieve 40% of its energy from non-fossil sources by 2030, which is currently 30%, and have plans to increase its renewable energy capacity from to 175 gigawatt (GW) by 2022.

India is expected to be the third largest consumer economy as its consumption may triple to US\$ 4 trillion by 2025, owing to shift in consumer behavior and expenditure pattern, according to a Boston Consulting Group (BCG) report. It is estimated to surpass USA to become the second largest economy in terms of purchasing power parity (PPP) by 2040 as per a report by PricewaterhouseCoopers.

Indian Real Estate Industry

The real estate sector is one of the most globally recognized sectors. In India, real estate is the second largest employer after agriculture and is slated to grow at 30 per cent over the next decade. The real estate sector comprises four subsectors - housing, retail, hospitality, and commercial. The growth of this sector is well complemented by the growth of the corporate environment and the demand for office space as well as urban and semi-urban accommodations. The construction industry ranks third among the 14 major sectors in terms of direct, indirect and induced effects in all sectors of the economy.

It is also expected that this sector will incur more non-resident Indian (NRI) investments in both the short term and the long term. Bengaluru is expected to be the most favoured property investment destination for NRIs,

followed by Ahmedabad, Pune, Chennai, Goa, Delhi and Dehradun. India's rank in the Global House Price Index has jumped 13 spots to reach the ninth position among 55 international markets, on the back of increasing prices in mainstream residential sector.

Retail, hospitality and commercial real estate are also growing significantly, providing the much-needed infrastructure for India's growing needs. Indian real estate increased by 19.5 per cent CAGR from 2017 to 2028.

A total of 2,17,900 new houses in six Indian states were sanctioned by the Ministry of Housing and Urban Affairs, Government of India under the Pradhan Mantri Awas Yojana (Urban) (PMAY) to push affordable housing in the urban areas of the country.

The private equity investments in real estate increased 26 per cent to a nine-year high of nearly Rs 40,000 crore (US\$ 6.01 billion) in 2016. Sectors such as IT and ITeS, retail, consulting and e-commerce have registered high demand for office space in recent times.

The office space absorption in 2016 across the top eight cities amounted to 34 million square feet (msf) with Bengaluru recording the highest net absorption during the year. Information Technology and Business Process Management sector led the total leasing table with 52 per cent of total space uptake in 2016. Government Initiatives

The Government of India along with the governments of the respective states has taken several initiatives to encourage the development in the sector. The Smart City Project, where there is a plan to build 100 smart cities, is a prime opportunity for the real estate companies. Below are some of the other major Government Initiatives:

- In order to revive around 1,600 stalled housing projects across the top cities in the country, the Union Cabinet has approved the setting up of Rs 25,000 crore (US\$ 3.58 billion) alternative investment fund (AIF).
- Blackstone crosses US\$ 12 billion investment milestone in India.
- Puravankara Ltd, a realty firm plans to invest around Rs 850 crore (US\$ 121.6 million) over the next four years to develop three ultra-luxury residential projects in Bengaluru, Chennai and Mumbai.
- Under Pradhan Mantri Awas Yojana (Urban) [PMAY (U)], 1.12 crore houses have been sanctioned in urban areas creating 1.20 crore jobs.
- Government has created an Affordable Housing Fund (AHF) in the National Housing Bank (NHB) with an initial corpus of Rs 10,000 crore (US\$ 1.43 billion) using priority sector lending short fall of banks/financial institutions for micro financing of the HFCs.
- As of September 16, 2019, India had formally approved 419 SEZs, of which 234 were in operation.
- In February 2018, creation of National Urban Housing Fund was approved with an outlay of Rs 60,000 crore (US\$ 9.27 billion).

Affordable housing

With the urban population expected to reach ~81 crore by 2058, India is on the verge of large scale

urbanization over the next few decades. The government has proposed an initiative ‘Housing for all by 2022’ which entails development of ~11 crore housing units, including closing the current gap of ~6 crore units in urban and rural areas. A projected investment of more than USD2 trillion or ~USD250- 260 billion annual investment is required to achieve the proposed mission by 2022. The mission on low cost affordable housing is proposed to be anchored by National Housing Bank (NHB) and a sum of USD667 million has been earmarked with a view to increase the flow of cheaper credit for affordable housing to the urban poor/Economically Weaker Section (EWS)/Low Income Group. (LIG) segment. The government has identified 305 cities and towns across the states of Madhya Pradesh, Odisha, Rajasthan, Chhattisgarh, Gujarat, Telangana, Jammu and Kashmir, Kerala and Jharkhand, among others, for constructing homes for the urban poor under this scheme.

Post COVID Relief Measures by GOI

- Provident fund contribution for low wage workers and funds for 3.5 million registered construction workers will directly benefit the realty sector
- Auction of airports and additional investment by private players likely to open up new business opportunities for real estate in the areas of retail, office space and logistics
- Extension of CLSS in mid segment coupled with attractive mortgage rates will improve consumer sentiments and boost demand, mainly in affordable and mid segments
- Support to MSMEs will help revitalise them, aid in economic recovery through employment generation. This will have a positive impact in enhancing consumer sentiment and help suppliers of key raw materials such as cement, steel etc., thus have an important bearing on real estate.
- Additionally, the lowering of repo rates and the central bank’s announcement with respect to moratorium on loan instalments and relaxation of NPA classification norms will benefit both homebuyers and developers
- Creation of GIS based database of industrial land bank availability will act as an important tool to identify and aid investment in new land parcels.
- Easing of liquidity is likely to help the NBFCs and HFCs to support the real estate sector through restructuring of existing loans and resetting of repayment schedules.

Competition

We face competition from various small and large Real Estate developers that have a regional presence in the cities we operate. We operate in a competitive environment. The nature of the project is also a determining factor for the level, degree and impact of competition that we face. Other contributory factors to the competitive environment are contract value and potential margins, the size, complexity and location of the project and the risks relating to revenue generation. The segment in which the Company operates in is very small and unorganized and consists of large number of players. We face competition from the other players of our size operating in the same filed as our Company.

This Act was notified by the Parliament on 25th March, 2016 and extends to the whole of India except the State of Jammu and Kashmir. The salient features of the Act are as following:

- Under the Act, instead of a regular forum of consumers, the purchasers of real estate units from a developer would have a specialized forum called the "Real Estate Regulatory Authority" which will be set up within one year from the date of coming into force of the Act. In the interim, the appropriate Government (i.e., the Central or State Government) shall designate any other regulatory authority or any officer preferably the Secretary of the department dealing with Housing, as the Regulatory Authority.
- The promoter has to register their project (residential as well as commercial) with the Regulatory Authority before booking, selling or offering apartments for sale in such projects. In case a project is to be promoted in phases, then each phase shall be considered as a standalone project, and the promoter shall obtain registration for each phase.
- Under the Act, developers can sell units only on carpet area, which means the net usable floor area of an apartment. This excludes the area covered by the external walls, areas under services shafts, exclusive balcony or verandah area and exclusive open terrace area, but includes the area covered by the internal partition walls of the apartment.
- The Act mandates that a promoter shall deposit 70% of the amount realised from the allottees, from time to time, in a separate account to be maintained in a scheduled bank. This is intended to cover the cost of construction and the land cost and the amount deposited shall be used only for the concerned project.
- Stringent penal provisions have been prescribed under the Act against the promoter in case of any contravention or non-compliance of the provisions of the Act or the orders, decisions or directions of the Regulatory Authority or the Appellate Tribunal which are the following: a) If promoter does not register its project with the Regulatory Authority – the penalty may be up to 10% of the estimated cost of the project as determined by the Regulatory Authority; b) If promoter does not comply with the aforesaid order of the Regulatory Authority - imprisonment of up to three years and a further penalty of up to 10% of the estimated cost, or both; and c) In case the promoter provides any false information while making an

application to the Regulatory Authority or contravenes any other provision of the Act – the penalty may be up to 5% of the estimated cost of the project or construction.

STATE LAW

URBAN DEVELOPMENT LAWS

State legislations provide for the planned development of urban areas and the establishment of regional and local development authorities charged with the responsibility of planning and development of urban areas within their jurisdiction. Real estate projects have to be planned and developed in conformity with the norms established in these laws and regulations made thereunder and require sanctions from the government departments and developmental authorities at various stages. For instance, in certain states such as Haryana, for developing a residential colony, a license is required from the relevant local authority. Where projects are undertaken on lands which form part of the approved layout plans and/or fall within municipal limits of a town, generally the building plans of the projects have to be approved by the concerned municipal or developmental authority. Building plans are required to be approved for each building within the project area. Clearances with respect to other aspects of development such as fire, civil aviation and pollution control are required from appropriate authorities depending on the nature, size and height of the projects. The approvals granted by the authorities generally prescribe a time limit for completion of the projects. These time limits are renewable upon payment of a prescribed fee. The regulations provide for obtaining a completion/occupancy certificate upon completion of the project.

AGRICULTURAL DEVELOPMENT LAWS

The acquisition of land is regulated by state land reform laws which prescribe limits up to which an entity may acquire agricultural land. Any transfer of land which results in the aggregate land holdings of the acquirer in the state exceeding this ceiling is void, and the surplus land is deemed, from the date of the transfer, to have been vested in the state government free of all encumbrances. When local authorities declare certain agricultural areas as earmarked for townships, lands are acquired by different entities. After obtaining a conversion certificate from the appropriate authority with respect to a change in the use of the land from agricultural to non-agricultural for development into townships, commercial complexes etc., such ceilings are not applicable. While granting licenses for development of townships, the authorities generally levy development/ external development charges for provision of peripheral services. Such licenses require approvals of layout plans for development and building plans for construction activities. The licenses are transferable on permission of the appropriate authority. Similar to urban development laws, approvals of the layout plans and building plans, if applicable, need to be obtained.

ENVIRONMENTAL REGULATIONS

THE ENVIRONMENT PROTECTION ACT, 1986 (“ENVIRONMENT PROTECTION ACT”)

The purpose of the Environment Protection Act is to act as an "umbrella" legislation designed to provide a frame work for Central government co-ordination of the activities of various central and state authorities established under previous laws. The Act prohibits persons carrying on business, operation or process from discharging or emitting any environmental pollutant in excess of such standards as may be prescribed. Where the discharge of any environmental pollutant in excess of the

prescribed standards occurs or is apprehended to occur due to any accident or other unforeseen act, the person responsible for such discharge and the person in charge of the place at which such discharge occurs or is apprehended to occur is bound to prevent or mitigate the environmental pollution caused as a result of such discharge and should intimate the fact of such occurrence or apprehension of such occurrence; and (b) be bound, if called upon, to render all assistance, to such authorities or agencies as may be prescribed.

AIR (PREVENTION AND CONTROL OF POLLUTION) ACT, 1981

A person intending to commence any new industry, operation or process likely to discharge pollutants must obtain prior consent of the board constituted under the Act.

NATIONAL ENVIRONMENTAL POLICY, 2006

The Policy seeks to extend the coverage, and fill in gaps that still exist, in light of present knowledge and accumulated experience. This policy was prepared through an intensive process of consultation within the Government and inputs from experts. It does not displace, but builds on the earlier policies. It is a statement of India's commitment to making a positive contribution to international efforts. This is a response to our national commitment to a clean environment, mandated in the Constitution in Articles 48 A and 51 A (g), strengthened by judicial interpretation of Article 21. The dominant theme of this policy is that while conservation of environmental resources is necessary to secure livelihoods and well-being of all, the most secure basis for conservation is to ensure that people dependent on particular resources obtain better livelihoods from the fact of conservation, than from degradation of the resource. Following are the objectives of National Environmental Policy:

- Conservation of Critical Environmental Resources
- Intra-generational Equity: Livelihood Security for the Poor
- Inter-generational Equity
- Integration of Environmental Concerns in Economic and Social Development
- Efficiency in Environmental Resource Use
- Environmental Governance
- Enhancement of resources for Environmental Conservation

Phased implementation of Unified Payments Interface

SEBI has issued UPI Circulars in relation to streamlining the process of public issue of equity shares and convertibles. Pursuant to the UPI Circulars, UPI will be introduced in a phased manner as a payment mechanism (in addition to mechanism of blocking funds in the account maintained with SCSBs under the ASBA) for applications by RIIs through intermediaries with the objective to reduce the time duration from public issue closure to listing from six Working Days to up to three Working Days. Considering the time required for making necessary changes to the systems and to ensure complete and smooth transition to the UPI Mechanism, the UPI Circulars proposes to introduce and implement the UPI Mechanism in three phases in the following manner:

- a. Phase I: This phase was applicable from January 01, 2019 and lasted till June 30, 2019. Under this phase, a Retail Individual Bidder, besides the modes of Bidding available prior to the UPI Circulars, also had the option to submit the Bid cum Application Form with any of the intermediary and use his / her UPI ID for the purpose of blocking of funds. The time duration from public issue closure to listing continued to be six Working Days.
- b. Phase II: This phase has commenced with effect from July 01, 2019 and will continue for a period of three months or floating of five main board public issues, whichever is later. Under this phase, submission of the Bid cum Application Form by a Retail Individual Investor through intermediaries to SCSBs for blocking of funds has been discontinued and has been replaced by the UPI Mechanism. However, the time duration from public issue closure to listing continues to be six Working Days during this phase. Application Form
- c. Phase III: Subsequently, the time duration from public issue closure to listing would be reduced to be three Working Days.

This Issue is under Phase II and it may be among one of the first few initial public offerings in which the process of physical movement of Application Forms from intermediaries to SCSBs for blocking of funds is discontinued and is replaced by the UPI Mechanism

All SCSBs offering the facility of making applications in public issues are required to provide a facility to make applications using the UPI Mechanism.
