### OVERVIEW

Our Promoters initially acquired M/s Snehaa Pharma Chemicals a partnership firm, and the erstwhile partnership form was thereby reconstituted by retiring old partners and addition of new partners. Further, in July 2022 “M/s Snehaa Pharma Chemicals” was converted from partnership firm to a Private Limited Company in the name of “Snehaa Organics Private Limited”. Thereafter, our Company was converted into a Public Limited Company in pursuance of a special resolution passed by the members of our Company at the Extra Ordinary General Meeting dated December 18, 2024 and a fresh Certificate of Incorporation consequent to conversion was issued on January 07, 2025 by the Registrar of Companies, CPC Manesar Haryana and consequently the name of our Company was changed from “Snehaa Organics Private Limited” to “Snehaa Organics Limited”.

### SUMMARY OF OUR INDUSTRY

Solvents are versatile chemical substances that facilitate the dissolution, dilution, or dispersion of other materials without changing their chemical structure. They are crucial across various industries, including pharmaceuticals, chemicals, coatings, food processing, and cleaning, due to their ability to enhance formulation processes and extraction techniques.

Solvent recovery is a process designed to extract and reclaim solvents from waste or by-products generated during industrial operations. This method purifies used solvents, making them suitable for reuse in production processes. By reducing the need to purchase new solvents and minimizing waste disposal, solvent recovery significantly lowers operational costs and environmental impact. It is widely employed across industries such as pharmaceuticals, chemicals and manufacturing. Without solvent recovery, many industrial processes would become economically unviable due to the high cost of solvent procurement and disposal. In India, various solvent recovery processes are employed across different industries to optimize efficiency, reduce costs, and enhance environmental sustainability.

For detail information please refer to chapter title “**Industry Overview**” on page no.123 of the Draft Red Herring Prospectus.

### SUMMARY OF OUR PRIMARY BUSINESS

Snehaa Organics Limited operates in the solvent recovery and recycling sector, providing sustainable solutions for industries that utilize solvents in their processes. The company collects spent solvents from various industries and employs distillation and purification technologies to process them for reuse. Company’s workforce ensures efficient recovery from diverse solvent mixtures, including those with significant variability between batches.

Each batch undergoes comprehensive quality control measures to align with industry requirements. The company also maintains a testing facility to address specific customer needs. The recovered solvents are returned to the respective companies for reuse, while the additional purified solvents are sold in the market, supporting resource efficiency and waste reduction. Additionally, the company engages in direct trading of solvent, sourcing raw materials from suppliers, conducting quality assessments, and sold them in the open market.

For further details of our business please refer chapter titled “Our business” on page no. 178 of this Draft Red Herring Prospectus.

## OUR PROMOTERS

Currently, Mr. Nandigala Venkata Sai Harish, Mr. Nandigala Venkata Sai Kiran and Ms. Samhitha Reddy Tera are the promoters of our company

### SECTION III – RISK FACTORS

*An investment in Equity Shares involves a high degree of risk. Prospective investors should carefully consider all the information in this Draft Red Herring Prospectus, including the risks and uncertainties described below, before making an investment in our Equity Shares. In making an investment decision prospective investors must rely on their own examination of our Company and the terms of this offer including the merits and risks involved. Any potential investor in, and subscriber of, the Equity Shares should also pay particular attention to the fact that we are governed in India by a legal and regulatory environment in which some material respects may be different from that which prevails in other countries. The risks and uncertainties described in this section are not the only risks and uncertainties we currently face. Additional risks and uncertainties not known to us or that we currently deem immaterial may also have an adverse effect on our business. If any of the following risks, or other risks that are not currently known or are now deemed immaterial, actually occur, our business, results of operations and financial condition could suffer, the price of our Equity Shares could decline, and you may lose all or part of your investment. Additionally, our business operations could also be affected by additional factors that are not presently known to us or that we currently consider as immaterial to our operations.*

*Unless otherwise stated in the relevant risk factors set forth below, we are not in a position to specify or quantify the financial or other implications of any of the risks mentioned herein. To obtain a complete understanding, you should read this section in conjunction with the chapters titled “Our Business” beginning on page no. 178, “Industry overview” beginning on page on 123 and “Management’s Discussion and Analysis of Financial Condition and Results of Operations” beginning on page on 337 respectively, of this Draft Red Herring Prospectus as well as other financial information contained herein.*

*The following factors have been considered for determining the materiality of Risk Factors:*

- *Some events may not be material individually but may be found material collectively;*
- *Some events may have material impact qualitatively instead of quantitatively;*
- *Some events may not be material at present but may have material impact in future.*

*The financial and other related implications of risks concerned, wherever quantifiable, have been disclosed in the risk factors mentioned below. However, there are risk factors where the impact may not be quantifiable and hence the same has not been disclosed in such risk factors. Unless otherwise stated, the financial information of the Company used in this section is derived from our financial statements under Indian GAAP, as restated in this Draft Red Herring Prospectus. Unless otherwise stated, we are not in a position to specify or quantify the financial or other risks mentioned herein. For capitalized terms used but not defined in this chapter, refer to the chapter titled “Definitions and Abbreviations” beginning on page no. 01 of this Draft Red Herring Prospectus. The numbering of the risk factors has been done to facilitate ease of reading and reference and does not in any manner indicate the importance of one risk factor over another.*

The risk factors are classified as under for the sake of better clarity and increased understanding:

## INTERNAL RISK FACTOR

- We derive a significant part of our revenue from selected customers. If one or more of such customers choose not to source their requirements from us, our business, financial condition and results of operations may be adversely affected.***

Significant proportion of our total revenue comes from our top 10 customers and the loss of any of our customers may adversely affect our sales and consequently on our business and results of operations. The loss of one or more of these significant or key customers or a reduction in the amount of business we obtain from them could have an adverse effect on our business, results of operations, financial condition and cash flows. We cannot assure you that we will be able to maintain historic level of business for our top 10 customer. We don't have any binding agreement with our customer, resulting in our inability in to retain our customers. We cannot assure you that we shall generate the same quantum of business, or any business at all, and the loss of business from one or more of them may adversely affect our revenues and results of operations. However, the composition and revenue generated from these customers might change, as we continue to add new customers in the normal course of business. Though we believe that we will not face substantial challenges in maintaining our business relationship with them or finding new customers, there can be no assurance that we will be able to maintain long term relationships with such customers or find new customers in time.

The following table sets forth percentage from our top one, top three and top five in the years/ periods indicated:

Particulars	FY 24-25 till December 31, 2024	FY 23-24	FY 2022-23 (5 <sup>th</sup> July, 2022 to 31 <sup>st</sup> March, 2023)	FY 2022-23 (1 <sup>st</sup> April, 2022 to 04 <sup>th</sup> July, 2022)	FY 2021-22
Top 1 Customer	18.56%	22.32%	33.66%	32.03%	37.25%
Top 5 Customers	56.17%	62.26%	67.88%	63.56%	65.13%
Top 10 Customers	78.89%	81.44%	83.86%	79.57%	77.50%

*For more details in respect to Top 10 customers, please refer to page no.206 under section titled "Our Business"*

2. *The property used by the Company for the purpose of its warehousing and Registered office is not owned by us. Any termination of the relevant rent agreement in connection with such property or our failure to renew the same could adversely affect our operations.*

As on the date of this Draft Red Herring Prospectus, our Registered Office and storage area premises are taken on lease basis. The details of the leasehold properties have been provided below: -

S. No.	Purpose	Address	Details of Lessor	Lease Tenure	Lease Rent
1.	Registered Office	Plot No 290 & 291, Doolapally, Adjacent to IDA Jeedimetla, Hyderabad, Telangana - 500055	Vestro Solvents Pvt Ltd.	11 months (March 01, 2025 to January 31, 2026)	10,000 per month
2.	Storage Unit	Survey No. 296/7/3, IDA Bollaram, Jinnaram Mandal, Sangareddy, Telangana - 502325	Nandigala Rama Subba Reddy	11 months (November 01, 2024 to August 31, 2025)	30,000 pm

*Note: - The Lessor, as mentioned above, is associated with Snehaa Organics Limited. Vestro Solvents Private Limited is a group company and part of the promoter group of Snehaa Organics Limited. Additionally, Nandigala Rama Subba Reddy is a member of the promoter group of Snehaa Organics Limited and aforementioned lease deed is adequately stamped.*

There can be no assurance that the term of the agreements will be renewed and in the event the Lessor/Licenser terminates or does not renew the agreements on commercially acceptable terms, or at all, and we are required to vacate our offices, we may be required to identify alternative premises and enter into fresh lease or leave and license agreement, potentially causing operational disruptions and incurring increased costs associated with relocation. Even if the lessor is open to renewal, negotiations over lease terms may arise. An increase in monthly rent could strain the company's budget and financial planning. Unfavorable new terms might impact profitability and overall financial health.

Additionally, changes in local regulations or market conditions can complicate lease agreements. For example, new laws concerning commercial leasing or economic downturns could lead to higher rents or less favorable terms during negotiations. For details on properties taken on lease/rent by us please refer to the heading titled "Place of Business" in chapter titled "Our Business" beginning on page no. 183 of this Draft Red Herring Prospectus.

3. *The Company is dependent on few suppliers for purchase. Loss of any of these large suppliers may affect our business operations.*

Following is table showing the contribution of the suppliers in our business process.

Particulars	FY 24-25 Till December 31, 2024	FY 23-24	FY 2022-23 (5 <sup>th</sup> July, 2022 to 31 <sup>st</sup> March, 2023)	FY 2022-23 (1 <sup>st</sup> April, 2022 to 04 <sup>th</sup> July, 2022)	FY 2021-22
Top 1 Suppliers	44.02%	24.23%	13.20%	36.33%	18.72%

Top 5 Suppliers	76.31%	64.75%	44.45%	85.85%	63.97%
Top 10 Suppliers	87.68%	87.37%	71.32*	91.84%	83.06%

We cannot assure that we will be able to get the same quantum and quality of supplies from our major suppliers or any supplies at all, and the loss of supplies from one or more of them may adversely affect our purchases and ultimately our revenue and results of operations. However, the composition and amount of purchase from these suppliers might change as we continue to seek new suppliers for our business operations, for better price in the normal course of business. Though we believe that we will not face substantial challenges in maintaining our business relationship with them or finding new suppliers, but there can be no assurance that we will be able to maintain long term relationships with such suppliers or find new suppliers in time or at all. For further details of our top ten suppliers, please refer “*Our Business*” on page 207 of this Draft Red Herring Prospectus.

4. *We provide our goods majorly in Telangana, any adverse changes in the conditions affecting this region can adversely affect our business, financial condition and results of operations.*

We derive majority of our revenue from Telangana. Details of our revenue are as follow:

Particulars	(Amt. in lakhs)									
	FY 21-22	%	FY 22-23 (1st April 22 to 4th July 22)	%	FY 2022-2023 (05th July, 2022 to 31st March, 2023)	%	FY 23-24	%	FY 24-25 Till December	%

In the event of a regional slowdown in the economic activity in these states or any other developments including political unrest, disruption or sustained economic downturn or natural calamities in those regions affecting the ability of our merchants to continue their operations within their respective communities, or that make our services and/or products in these states less available or attractive and beneficial to the customer, we may experience an adverse effect on our financial condition and results of operations, which are largely dependent on the performance, geo-political and other prevailing conditions affecting the economies of the state. The market of Telangana may perform differently from,

and be subject to, market and regulatory developments that are different from the requirements in other states of India. There can be no assurance that the demand for our products will grow, or will not decrease, in the future, in these regions. There has been no prior instances of this event.

**5. *We have in the past entered into related party transactions and may continue to do so in the future, which may potentially involve conflicts of interest with the Shareholders.***

We have entered into various transactions with our Directors/ Promoter and Promoter Group members. These transactions, inter-alia include, remuneration, loans and advances, etc. For details, please refer page no. 324 to “Annexure-XXXIII- Related Party Transactions” under Section titled “Financial Information of the Company” and details in respect to transactions at page no. 324 under section titled “Related Party Transactions” of this Draft Red Herring Prospectus. Our Company has entered such transactions due to easy proximity and quick execution on arms-length price in compliance with provisions of Companies Act, 2013, as amended and other applicable laws. Although all related-party transactions are on arm length basis and that we may enter into in the future are subject to approval by Board or shareholders, as required under the Companies Act, we cannot assure you that such future transactions or any other future transactions, individually or in aggregate, will not have an adverse effect on our financial condition and results of operations or that we could not have achieved more favorable terms if such transactions are not entered into with related parties. Furthermore, it is likely that we may enter into related party transactions in the future. Any future transactions with our related parties could potentially involve conflicts of interest. Accordingly, there can be no assurance that such transactions, individually or in the aggregate, will not have a material adverse effect on our business, financial condition, results of operations and prospects. For details regarding percentage of Total RPT's compared to total revenue, please refer page no. 27 of Chapter titled 'Summary of Offer Document' of this Draft Red Herring Prospectus.

**6. *We are subject to certain risks consequent to our operations involving our business process, usage and storage of various hazardous substances.***

Our business processes involve solvent handling, purification, and recycling, storage and transportation of various hazardous substances and certain raw materials that we use in the process that are highly corrosive, hazardous and toxic chemicals, and we are required to obtain approvals from various authorities for storing hazardous substances.

We are subject to operating risks associated with handling of such hazardous materials such as possibility for leakages and ruptures from containers, explosions, and the discharge or release of toxic or hazardous substances, which in turn may cause personal injury, property damage and environmental contamination. In the event of occurrence of any such accidents, our business operations may be interrupted. Any of these occurrences may result in the shutdown of our manufacturing facility and expose us to civil and / or criminal liability which could have an adverse effect on our business, financial condition and results of operations. Further, such occurrences may result in the termination of our approvals for storing such substances or penalties thereunder. Although no such incident has occurred in the past, we cannot ensure you against the risk of occurrences of any such incidences in future.

**7. *Our insurance coverage may not adequately protect us against all losses or the insurance cover may not be available for all the losses as per the insurance policy, which could adversely affect business, financial condition and results of operations.***

Our insurance coverage may not adequately protect us against certain operating risks and this may have a material adverse effect on our business. There can be no assurance that any claim under the insurance policies maintained by us will be honoured fully, in part or on time. Accordingly, to the extent that we suffer loss or damage that is not covered by insurance or which exceeds our insurance coverage, our results of operations or cash flows may be affected. There is a risk that our insurance policies may not

be sufficient in covering all losses in which we or any third parties may suffer. If we suffer in an event for which we are not adequately insured, there is a risk that it could have a material adverse effect on our business, results of operations and financial condition.

In addition, our insurance coverage expires from time to time. We apply for the renewal of our insurance coverage in the normal course of our business, but we cannot assure you that such renewals will be granted in a timely manner, at acceptable cost or at all. To the extent that we suffer loss or damage for which we did not obtain or maintain insurance, and which is not covered by insurance, exceeds our insurance coverage or where our insurance claims are rejected, the loss would have to be borne by us and our results of operations, cash flows and financial performance could be adversely affected. However, there have been some claims against insurance made in past as per our track record. For more information, please refer page no. 222 under chapter titled “**Our Business**” of the Company.

**8. Our Company, Promoters, and Directors are involved in certain legal and regulatory proceedings. Any adverse decision in such proceedings may have a material adverse effect on our business, financial condition, cash flows and results of operations.**

There are outstanding legal proceedings involving our Company/group companies and our Promoter/promoter group which are pending at different levels of adjudication before various courts, tribunals and other authorities. Such proceedings could divert management time and attention, and consume financial resources in their defence or prosecution. The amounts claimed in these proceedings have been disclosed to the extent ascertainable and quantifiable and include amounts claimed jointly and severally from our Company and Promoter.

Any unfavourable decision in connection with such proceedings, individually or in the aggregate, could adversely affect our reputation, business, financial condition and results of operations. Certain details of such outstanding legal proceedings as of date of this Draft Red Herring Prospectus are set out below:

Nature of litigation	No. of cases	Amount involved (in lakhs)
<b>Outstanding/Concluded Litigations and Material Developments against the Company and/or its director/promoter or Group company</b>		
Civil cases	9	68.75
Statutory Notices	2	21.45
Criminal Litigation	0	0
<b>Total</b>	<b>11</b>	<b>90.2</b>

*For more details, please refer page no. 357 under section title “Outstanding Litigations and Material Developments”*

**9. Our existing manufacturing facility is concentrated in a single region i.e., Sangareddy, Telangana, any inability to operate and grow our business in this particular region may have an adverse effect on our business, financial condition, results of operations, cash flows and future business prospects.**

Our business operations are based and concentrated in one area i.e., Sangareddy, Telangana. As a result, our manufacturing units are, and may continue, to be subject to operating risks, including but not limited to:

- forced or voluntary closure, including as a result of regulatory inspections or natural or man-made disasters at our facilities or our suppliers’ facilities;
- manufacturing shutdowns or equipment breakdown or failure and industrial accidents;

- labor disputes, strikes or lock-outs;
- local community, political or other opposition;
- shortage of personnel;
- interruptions in supply of water and electricity or other resources;
- changes in applicable laws and regulations impacting our operations;
- failure or bottlenecks in production processes, especially due to inadequate supply of utilities such as power or water outages, wastage, yield losses; and
- other malicious acts, technical issues, terrorism, catastrophic events.

Further, any continuous addition of similar industries/competitors in and around these areas, without commensurate growth of its infrastructural facilities may put pressure on the existing infrastructure and also increase competition in the area, which may affect our business and results of operation. The prices we are able to obtain for our products that we trade depend largely on prevailing market prices.

**10. *Non-compliance with and changes in, safety, health, environmental and labour laws and other applicable regulations, may adversely affect our business, financial condition and results of operations.***

We are subject to laws and government regulations, including in relation to safety, health, environmental protection and labour. These laws and regulations impose controls on air and water discharge, processing, handling, storage, transport or disposal of hazardous substances including employee exposure to hazardous substances and other aspects of our business operations. Further, our process, including the process of manufacture, storage and distribution of such products, are subject to numerous laws and regulations in relation to quality, safety and health. We handle and use hazardous materials in our business activities and the improper handling or storage of these materials could result in accidents, injure our personnel, property and damage the environment. Any accident at our facility may result in personal injury or loss of life, environmental damage, substantial damage to or destruction of property and equipment resulting in the suspension of operations.

Further, laws and regulations may limit the amount of hazardous and pollutant discharge that our manufacturing facility may release into the air and water. The discharge of materials that are chemical in nature or of other hazardous substances into the air, soil or water beyond these limits may cause us to be liable to regulatory bodies or third parties. Any of the foregoing could subject us to legal proceedings, which could have an adverse impact on our profitability in the event we were found liable and could also adversely affect our reputation. Additionally, the government or the relevant regulatory bodies may require us to shut down our manufacturing plants, which in turn could lead to product shortages that delay or prevent us from fulfilling our obligations to customers.

We have incurred and expect to continue incurring costs for compliance with such laws and regulations. These laws and regulations have, however, become increasingly stringent and it is possible that they will become significantly more stringent in the future. We cannot assure you that we will not be found to be in non-compliance with, or remain in compliance with all applicable environmental, health and safety and labour laws and regulations or the terms and conditions of any consents or permits in the future or that such compliance will not result in a curtailment of production or a material increase in the costs of production.

**11. *Frequent changes in Statutory Auditor of our company may raise concerns regarding financial reporting, governance, and compliance.***

We have frequently changed our Statutory Auditors in the past due to other pre occupations of the resigning auditors and may do so in the future due to reasons beyond the control of management. Frequent changes could result in a lack of continuity, inconsistencies in financial reporting, and

increased regulatory scrutiny. They may also impact investor confidence, create administrative burdens, and raise concerns about audit quality. Additionally, such changes may affect our credibility. While we comply with all applicable laws, we cannot ensure that these changes will not adversely impact our business, financial condition, or operations. For details regarding changes in auditors during the last three years, please refer page no.75 of Chapter titled ‘General Information’ of this Draft Red Herring Prospectus.

**12. Our Company’s logo is not registered as on date of Draft Red Herring Prospectus. We may be unable to adequately protect our intellectual property. Furthermore, we may be subject to claims alleging breach of third-party intellectual property rights.**

Currently our company is using  as logo (in device) and “Snehaa Organics” (in word), but these are not owned by us. We do not have registered trademarks for our corporate name and logo under the Trade Marks Act, 1999 hence, we do not enjoy the statutory protections accorded to a registered logo. We have applied for trademark registration under class 35 and 40 which is under process however, we cannot assure you that any application for registration of our logo will be granted by the relevant authorities in a timely manner or at all. Further, there can be no assurance that third parties will not infringe our intellectual property, causing damage to our business prospects, reputation and goodwill. We may not be able to detect any unauthorized use or our efforts to protect our intellectual property may not be adequate and may lead to erosion of our business value and our operations could be adversely affected. We may need to litigate in order to determine the validity of such claims and the scope of the proprietary rights of others. Any such litigation could be time consuming and costly, and the outcome cannot be guaranteed. For further details of our logo. Please refer to chapter “Government and Other Statutory Approval” on page 365 of this Draft Red Herring Prospectus.

**13. Our Company had filed certain ROC forms with delayed fees and company cannot assure that no proceedings or regulatory actions will be initiated against it in relation to the delayed filings. Any penalty or action taken by any regulatory authority in future, for non-compliance with provisions of corporate or any other law could impact the financial position of the Company.**

There are few discrepancies noticed in some of our corporate records relating to e-forms filed with the Registrar of Companies, which inter-alia includes delayed filing of Returns and forms with the ROC in past years, details of forms which were delayed in filing with ROC are as follows:

Sr. no.	Form	Purpose	Days delayed
1	CHG-1	Creation of charge ID_100977659 with HDFC Bank	54
2	CHG-1	Creation of charge ID_100873330 with HDFC Bank	8
3	ADT-1	Appointment of Sarangpani & Co.	25
4	ADT-1	Appointment of Sumalatha & Associates	5

Although, no show cause notice in respect of the above has been received by the Company till date, any penalty imposed for such non-compliance in future by any regulatory authority could affect our financial conditions to that extent.

To mitigate such risks in future and to ensure timely completion of compliance filings, our Company now conducts regular review meetings, and appointment of the company secretary and compliance officer by the Company further strengthens our compliance management.

**14. We have a large work force and our employee benefits expense is one of the components of our fixed operating costs. An increase in employee benefits expense could reduce our profitability. Further, our operations could be adversely affected by work stoppages, shortage of labour, or increased wage demands by our employees or any other kind of disputes with our employees**

Our business process is manpower intensive and we are dependent on the availability of our permanent employees and the supply of a sufficient pool of workers at our factories.

Unavailability or shortage of such a pool of workmen or any strikes, work stoppages, increased wage demands by workmen or changes in regulations governing hiring of labour may have an adverse impact on our cash flows and results of operations.

As at December 31, 2024, our Company's work force comprised 55 full time employees Set out below are the details of our employee benefits expense during the period ended December 31, 2024 and for the financial year ended 2024, 2023 and 2022:

Particular	31.12.2024	31.03.2024	For the period from 05th July, 2022 to 31st March, 2023	For the period from 01st April, 2022 to 04th July, 2022	31.03.2022
Employee benefits expense (in ₹ Lakhs)	149.92	149.88	133.43	38.86	101.58
Employee benefits expense (as a % of total expense)	12.47	7.98	13.45	6.56	5.53

Set out below are the details of attrition rate of our employees in the December 31, 2024, Fiscal 2024, Fiscal 2023 and Fiscal 2022:

Year	31.12.2024	31.03.2024	For the period from 05th July, 2022 to 31st March, 2023	For the period from 01st April, 2022 to 04th July, 2022	31.03.2022
Attrition rate %	57.45%	64.86%	22.58%	16%	33.33%
Average no. of Employees during the year	47	37	31	25	21
Employee left during the year	27	24	07	04	07

Further, a shortage in the skilled employee pool or general inflationary pressures will also increase our employee costs. A significant long-term increase in our employee benefits expense could reduce our profitability, which could, amongst others, impact our growth prospects.

**15. *We have very short span of operating history as company.***

Our Promoter has initially acquired M/s Snehaa Pharma Chemicals, a partnership firm vide Reconstitution of Partnership Deed dated June 21, 2019, thereafter M/s Snehaa Pharma Chemicals” was converted from partnership firm to a Private Limited Company in the name of “Snehaa Organics Private Limited” vide Certificate of Incorporation dated July 05, 2022 and thereafter converted to a public company in the name of “Snehaa Organics Limited” vide Certificate of Incorporation dated January 07, 2025.

Our limited operating history as a company may adversely affect our ability to implement our growth strategies, and may make it difficult for you to evaluate our past performance and future prospects in connection with any investment in the Equity Shares. Prospective investors should accordingly consider our future prospects in light of the risks and the challenges encountered by a company with a limited operating history.

We cannot guarantee our ability to effectively navigate the challenges, uncertainties, costs, and difficulties we may encounter, nor can we ensure the successful achievement of our objectives. The limited duration of our operational history further complicates the prediction of our future prospects and financial performance.

**16. *Our performance may be adversely affected if we do not manage our inventory or working capital successfully***

The results of operations of our business are dependent on our ability to effectively manage our inventory. To effectively manage our inventory, we must be able to accurately estimate customer demand and supply requirements and plan our purchases accordingly. If our management fails to estimate the expected customer demand it could adversely impact the results by causing either a shortage of products or an accumulation of excess inventory which could affect the cost. We estimate our sales based on the demand and requirements and also on the customer specifications. Further, any disruptions to the delivery of materials may occur for reasons such as poor handling, transportation bottlenecks or labour strikes, which could lead to delayed or lost deliveries or damaged products and disrupt our supply of these products. An optimal level of inventory is important to our business as it allows us to respond to customer demand effectively. If we overstock inventory, our capital requirements will increase and we will incur additional financing costs. If we under-stock inventory, our ability to meet customer demand and our operating results may be adversely affected. Any mismatch between our planning and actual consumer demand could lead to potential excess inventory or out-of-stock situations, either of which could have an adverse effect on our business, financial condition and results of operation. For further details of our business, please refer chapter titled “Business Overview” beginning on page 178 of this Draft Red Herring Prospectus.

**17. *Our Company does not have any comparable listed industry peers***

Our Company is engaged in the business of solvent handling, purification, and recycling, which has limited market players due to various challenges, including high initial investment costs, the availability of low-cost new solvents, technological complexities in handling complex solvent mixtures, and the need for trained personnel to operate and maintain specialized equipment. These factors create significant entry barriers, making it difficult for new competitors to enter the market. As a result, our Company does not have any listed industry peers. The absence of comparable listed companies may make it challenging for investors to find relevant industry benchmarks and assess our Company's performance, which could impact their investment decisions.

- 18. Our success largely depends upon the knowledge and experience of our Promoters and Directors as well as our ability to attract and retain skilled personnel. Any loss of our Directors, Senior Management or our ability to attract and retain them and other skilled personnel could adversely affect our business, financial condition and results of operations.**

Our performance depends largely on the efforts and abilities of our Promoters and Key Managerial Personnel, see “Our Management” and “Our Business – Description of Our Business – Employees” on pages 243 and 220, respectively. We believe that the inputs and experience of our Promoters and Key Managerial Personnel are valuable for the growth and development of business and operations and the strategic directions taken by our Company. Our business and operations are led by qualified and experienced management team, we cannot assure you that we will be able to retain or find adequate replacements in a timely manner, or at all. We cannot assure that our business will not be adversely affected by the loss of any such personnel in the future.

- 19. Industry information included in this Draft Red Herring Prospectus has been derived from an industry report exclusively commissioned and paid for by our Company.**

We have availed the services of an independent third-party research agency, D&B - Dun & Bradstreet Information Services India Pvt Ltd.(D&B), to prepare an industry report titled “Industry Report on Solvents and Solvent Recycling” dated March 2025 (“D&B Report”) exclusively for purposes of inclusion of such information in this Draft Red Herring Prospectus. D&B’s Report highlights certain industry and market data, which may be subject to estimates and/or assumptions. We cannot assure you that estimates and/or assumptions are correct or will not change and, accordingly, our position in the market may differ from that presented in this Draft Red Herring Prospectus. Additionally, some of the data and information in the D&B Report is also based on discussions/conversations with industry sources. Industry sources and publications are also prepared based on information as of specific dates and may not be current or reflect current trends. Industry sources and publications may also base their information on estimates, projections, forecasts and assumptions that may prove to be incorrect. The report is a paid report that has been commissioned by our Company. Due to possibly flawed or ineffective collection methods or discrepancies between published information and market practice and other problems, the statistics herein may be inaccurate or may not be comparable to statistics produced for other economies and should not be unduly relied upon. Further, there is no assurance that they are stated or compiled on the same basis or with the same degree of accuracy as may be the case elsewhere. Statements from third parties that involve estimates are subject to change, and actual amounts may differ materially from those included in this Draft Red Herring Prospectus. Further, the D&B Report is not a recommendation to invest or disinvest in our Company.

- 20. The demand for our business process is dependent on the performance of pharmaceuticals industry as a whole, any downturn or cyclical fluctuation in the pharma sector could materially affect our business and financial performance.**

Our business is primarily engaged in the purification and recycling of organic solvents, which are predominantly consumed by industries such as pharmaceuticals, paints and coatings, and cleaning. The pharmaceutical industry, in particular, is a major consumer of solvents for the production of active pharmaceutical ingredients (APIs) and other related products. Solvent recovery plays a crucial role in this sector, offering significant economic, operational, and environmental benefits.

The demand for our products is closely tied to the performance of the pharmaceutical industry. Any downturn, cyclical fluctuations, or regulatory changes within this sector could adversely impact our business and financial performance.

- 21. There have been instances of delay in GST and ESIC filings by our Company. We may be subject to regulatory actions or penalties for any such delay and our business, financial condition and reputation may be adversely affected.**

We have certain past instances of delayed filing of statutory returns due to some reasons beyond the control of management of the Company. Any demand or penalty imposed by the concerned authority in future for late payments or non-payments, both for any previous year and current year, will have an impact on the financial position of the Company.

M/s Snehaa Pharma Chemicals made delay in certain payment and filing of GST Returns in past years, if any demand or penalty imposed by the concerned authority in future for late payments or non-payments, for any previous year, will have an impact on the financial position of the Company.*

- 22. We require various licenses and approvals for undertaking our businesses and the failure to obtain or retain such licenses or approvals in a timely manner, or at all, may adversely affect our operations.**

Our business is subject to government regulations and we require certain approvals, licenses, registrations and permissions for operating our business which requires renewals from time to time or may we may be required to obtain certain new licenses in future. Any failure to obtain/renew such licenses and approvals and comply with the applicable laws and regulations could lead to imposition of sanctions by the relevant authorities, including penalties. For further details, see “Government and

Other Statutory Approvals” beginning on page 365 of this Draft Red Herring Prospectus. Further, fresh and renewal applications for approvals, licenses, registrations and permissions for operating our business need to be made within certain timeframes. We cannot ensure that we will be able to make application for obtaining/renewal of license within specified timelines or at all.

If we are unable to make applications and renew or obtain necessary permits, licenses and approvals on acceptable terms, in a timely manner or at all, we may be required to shut down or relocate our offices or storage premises and face other consequences due to which our business operations may be adversely affected.

**23. We require working capital for our smooth day-to-day operations of business and any discontinuance or our inability to acquire adequate working capital timely and on favorable terms may have an adverse effect on our operations, profitability and growth prospects.**

Our business operations are dependent on the adequate and timely availability of working capital. Over the last financial years, we have observed fluctuations in our working capital requirements due to variations in our operational scale, procurement cycles, and market conditions. Any discontinuance, delay, or inability to secure sufficient working capital, whether due to inadequate cash flows, delays in disbursement of arranged funds, or unfavorable borrowing terms, could adversely impact our ability to meet day-to-day operational needs. This, in turn, may hinder our operational efficiency, profitability, and growth prospects.

Till date, we have successfully met our working capital requirements through internal accruals. As we plan to expand our business operations, the demand for working capital is expected to increase correspondingly. If we fail to maintain adequate cash flow, secure necessary credit facilities, or arrange for other sources of funding in a timely and favorable manner, our financial condition and operational results may be negatively impacted.

For more detailed information regarding our working capital requirements, please refer to the chapter titled “Objects of the Issue” beginning on page no. 102 of this Draft Red Herring Prospectus.

**24. *The Objects of the Issue for which funds are being raised, are based on our management estimates and have not been appraised by any bank or financial institution or any independent agency.***

The deployment of funds will be entirely at the discretion of Company’s management and audit committee, based on the parameters as mentioned in the chapter titled “Objects of the Issue”. The fund requirement and deployment, as mentioned in the “Objects of the Issue” on page 102 of this Draft Red Herring Prospectus is based on the estimates of our management and has not been appraised by any bank or financial institution or any other independent agency. These fund requirements are based on our current business plan. We cannot assure that the current business plan will be implemented in its entirety or at all. In view of the highly competitive and dynamic nature of our business, we may have to revise our business plan from time to time and consequently these fund requirements. This may result in rescheduling of our expenditure plans and an increase or decrease in our proposed expenditure for a particular object. Further, we cannot assure that the actual costs or schedule of implementation as stated under chapter “Objects of the Issue” will not vary from the estimated costs or schedule of implementation. Any such variance may be on account of one or more factors, some of which may be beyond our control. Occurrence of any such event may delay our business plans and/or may have an adverse bearing on our expected revenues and earnings.

**25. *In addition to our existing indebtedness for our existing operations, we may incur further indebtedness during the course of business. We cannot assure that we would be able to service our existing and/ or additional indebtedness.***

As on December 31, 2024, we had a total outstanding debt of ₹ 711.48 lakhs from secured loans.

The below are the details of secured loans:

(Amt. in lakhs)				
Name of Lender	Purpose	Sanctioned Amount	Rate of Interest	Outstanding as on Dec 31, 2024
<b>HDFC Bank Ltd.</b>	Working Capital	500	9.10%	400.97
<b>HDFC Bank Ltd.</b>	Commercial Vehicle loan	118.50	8.75%	118.50
<b>HDFC Bank Ltd.</b>	Benz Car Loan	257.70	8.45%	192.01
<b>Total</b>		<b>876.20</b>		<b>711.48</b>

In addition to the indebtedness for our existing operations, we may incur further indebtedness during the course of our business. We cannot assure you that we will be able to obtain further loans at favorable terms. Our future borrowings may also include restrictive covenants. Any failure to service our indebtedness or otherwise perform our obligations under our financing agreements entered with our lenders or which may be entered into by our Company could trigger default provisions, penalties, acceleration of repayment of amounts etc. furthermore, during any period of default, we may be unable to secure additional financing, and any refinancing of our existing debt could be subject to higher interest rates and more onerous covenants.

***26. Our Promoters and certain of our directors may be interested in our Company other than remuneration and reimbursement of expenses.***

Our Promoters and Directors may be deemed to be interested in our Company, in addition to the regular remuneration or benefits, reimbursements of expenses, to the extent of equity Shares held by them or their relatives, their dividend, bonus entitlement, or other distributions on such Equity Shares. Our Promoters, Directors, Key Managerial Personnel and Senior Management may also be interested to the extent of any transaction entered into by our Company with any other company or firm in which they are directors or partners.

Interests of Promoters, Promoter Group and Directors, may conflict with the interests of our Company, and they may, for business considerations or otherwise, cause us to take certain actions, or refrain from taking certain actions, which in turn may materially adversely impact our business, financial condition, results of operations and cash flows.

For further details, see ‘Our Management, ‘Summary of Offer Documents’ and ‘Financial Information’ on pages, 243, 27 and 282 respectively.

***27. The directors of our company do not have prior experience of the listed company and the requirements of being a listed company may strain our resources.***

The Directors of the company do not have prior experience of a listed Company; however, the Promoters have the experience of this industry from past years. We have not been subjected to the increased scrutiny of our affairs by shareholders, regulator and the public at large that is associated with being a listed company.

Further, as a listed company, Directors and the Company will need to maintain and improve the effectiveness of our disclosure controls and procedures and internal control over financial reporting, including keeping adequate records of daily transactions to support the existence of effective disclosure controls and procedures and internal control over financial reporting. In order to maintain and improve the effectiveness of our disclosure controls and procedures and internal control over financial reporting, significant resources and management attention will be required.

As a result, our management’s attention may be diverted from business concerns, which may adversely affect our business, prospects, financial condition, and results of operations. Further, we may need to hire additional staff with appropriate listed company experience and technical knowledge to fulfill the compliance requirements after listing.

**28. We have certain contingent liabilities which may adversely affect our financial condition**

We have certain “Unascertainable” contingent liabilities as per “Restated Financial information - Restated statement of contingent liabilities” on page 335 of this Draft Red Herring Prospectus. The Company has received various GST notices from tax authorities in previous years, indicating potential discrepancies in GST reporting and payment. These cases are currently under review, and the Company is uncertain whether any actual liabilities will arise from these notices. In the event that any of these contingent liabilities materialize, our financial condition may be adversely affected.

**29. We are dependent on third party transportation and logistics service providers. Any increase in the charges of these entities could adversely affect our business, results of operations and financial condition.**

As of December 31, 2024, we own 3 vehicles for our transportation of requirements in India, but we also rely on third party transportation and logistics providers for delivery of our raw materials and products. We do not have long-term contractual arrangements with such third-party transportation and logistics providers. Disruptions of logistics could impair our ability to procure raw materials and/or deliver our products on time, which could materially and adversely affect our business, financial condition and results of operations.

A significant portion of our expenses is due to freight carriage charges.

The following table sets forth the freight charges incurred as a percentage of our total expenses and revenue from operations in the years/ periods indicated:

Particulars	For the period ended 31 <sup>st</sup> December 2024		
	Amt. (in lakhs)	% of total expense	% of Revenue from operations
<b>Freight</b>	150.29	12.50	7.30

We are subject to the risk of increases in freight costs. Freight costs fluctuate with the prices of oil and gas. If we cannot fully offset any increases in freight costs, through increases in the prices for our products, we would experience lower margins. In addition, any increase in export tariffs also will increase expenses which in turn may adversely affect our business, financial condition and results of

operations. We have not entered into any definitive agreements with any third-party transport service providers and engage them on a need basis. We rarely enter into written documentation in relation to the transportation services we hire which poses various additional risks including our inability to claim insurance. Further, the cost of our goods carried by such third-party transporters is typically much higher than the consideration paid for transportation, due to which it may be difficult for us to recover compensation for damaged, delayed or lost goods. Our operations and profitability are dependent upon the availability of transportation and other logistic facilities in a time and cost-efficient manner. Further, the profit share of our Company may reduce on account of increased expenses of our customers from increased transportation costs including as a result of increase in fuel costs, transportation strikes, delays, damage or losses of goods in transit and disruption of transportation services because of weather related problems, strikes, lockouts, accidents, inadequacies in road infrastructure or other events. Our Company does not have in-transit insurance for transportation of commodities of our customers, therefore if damage is caused to the goods during the process of such deliveries or in case of accidents or in case of theft by the delivery persons, such damages are to be borne by our customers or by our Company, which may increase our Company's liability, reduce our revenue share and can adversely affect the profitability and reputation of our Company.

**30. *The average cost of acquisition of Equity Shares by our Promoter could be lower than the Issue Price.***

Our Promoters' average cost of acquisition of Equity Shares in our Company may be lower than the Issue Price which is proposed to be determined on a book building basis. For further details regarding average cost of acquisition of Equity Shares by our Promoters in our Company and build-up of Equity Shares by our Promoters in our Company, please refer to the chapter titled "Capital Structure" on page 87 of this Draft Red Herring Prospectus.

**31. *We have issued equity shares pursuant to a bonus issue in the last 12 months issued Equity Shares at a price that may be at lower than the Issue Price, and we will be eligible to issue equity shares pursuant to a bonus issue only when we have sufficient reserves***

During the financial year 2024-25, the company has issued 65,00,000 bonus shares to the equity shareholders of the company in the proportion of 65:10 i.e. sixty-five new fully paid equity shares for every ten existing equity shares held on that date. The Equity Shares allotted to investors pursuant to this Issue is being priced significantly higher due to various reasons including better performance by the Company, better economic conditions and passage of time.

Our reserves and surplus immediately before the bonus issue were ₹ 655 Lakhs as per March 31, 2024 audited financial statements and immediately after the bonus issue were ₹ 630.93 Lakhs.

Bonus issue shall be made only out of free reserves, securities premium account or capital redemption reserve account and built out of the genuine profits or securities premium collected in cash. Therefore, our Company will be eligible to issue further bonus shares only when we have sufficient monies in our free reserves and our securities premium account.

For Further details of equity shares issued, please refer to the chapter titled "Capital Structure" beginning on page 87 of the Draft Red Herring Prospectus.

**32. *There may be potential conflict of interests between Our Company, Promoter Group Entities, Group Companies/Entities which are in similar businesses to ours, and this may result in potential conflict of interest with us.***

Our Promoter Group Company i.e., TCR Chemicals and Group Company i.e. Magnus Life Sciences Private Limited is involved in line of business that may potentially compete with our Company. We

may hence have to compete with our Promoter Group Entities for business, which may impact our business, financial condition and results of operations. The interests of our Promoters or Promoter Groups may also conflict in material aspects with our interests or the interests of our shareholders. For further details, please refer “Our Promoter and Promoter Group” beginning on page no.259 of this Draft Red Herring Prospectus. Further, our Promoters may become involved in ventures that may potentially compete with our Company. The interests of our Promoters or Promoter Groups, Group Companies may conflict with the interests of our other Shareholders and our Promoters may, for business considerations or otherwise, cause our Company to take actions, or refrain from taking actions, in order to benefit themselves instead of our Company's interests or the interests of its other Shareholders and which may be harmful to our Company's interests or the interests of our other Shareholders, which may impact our business, financial condition and results of operations.

**33. *Our manufacturing facilities are dependent on adequate and uninterrupted supply of electricity, fuel and water. Any shortage or non-availability of such essential utilities could lead to disruption in operations, higher operating cost and consequent decline in our operating margins.***

Our process requires substantial amount of power and fuel facilities. Power and fuel cost accounts for a significant percentage of our cost of operations. We source the power requirements for our manufacturing facility from Southern Power Distribution Company of TG Limited. The quantum and nature of power and fuel requirements of our industry and Company is such that it cannot be supplemented/ augmented by alternative/ independent sources of power supply since it involves significant capital expenditure and per unit cost of electricity produced is high. To battle electricity failures, we also have diesel generators to meet exigencies at our main facility, however, we cannot assure you that our facilities will be operational during power failures. Any disruption / non-availability of power or water or any failure on our part to arrange alternate sources of electricity and water supply, in a timely manner and at an acceptable cost shall directly affect our production which in turn shall have an impact on operations and results of our Company.

**34. *Any variation in the utilization of our Net Proceeds would be subject to certain compliance requirements, including prior Shareholders' approval.***

We propose to utilize the Net Proceeds towards utilization for the working capital requirement and General Corporate Purposes of our Company. For further details of the proposed objects of the Issue, see Chapter titled as “Objects of the Issue” beginning on page no. 102. However, these objects of the Issue have not been appraised by any bank, financial institution or other independent agency. Further, we cannot determine with any certainty if we would require the Net Proceeds to meet any other expenditure or fund any exigencies arising out of the competitive environment, business conditions, economic conditions or other factors beyond our control. In accordance with the Companies Act, 2013 and the SEBI ICDR Regulations and any other laws which may be applicable on company, we cannot undertake any variation in the utilization of the Net Proceeds as disclosed in this Draft Red Herring Prospectus without obtaining the approval of shareholders of our Company through a special resolution. In the event of any such circumstances that require us to vary the disclosed utilization of the Net Proceeds, we may not be able to obtain the approval of the shareholders of our Company in a timely manner, or at all. Any delay or inability in obtaining such approval of the shareholders of our Company may adversely affect our business or operations. Further, our Promoters would be required to provide an exit opportunity to the shareholders of our Company who do not agree with our proposal to modify the objects of the Issue, at a price and manner as prescribed by SEBI. Additionally, the requirement to provide an exit opportunity to such dissenting shareholders of our Company may deter our Promoters from agreeing to the variation of the proposed utilization of the Net Proceeds, even if such variation is in the interest of our Company. Further, we cannot assure you that the Promoters will have adequate resources at their disposal at all times to enable them to provide an exit opportunity. In light of these factors, we may not be able to vary the objects of the Issue to use any unutilized proceeds of the Issue, if any, even if such variation is in the interest of our Company. This may restrict our

Company's ability to respond to any change in our business or financial condition, if any, which may adversely affect our business and results of operations.

**35. *The requirements of being a publicly listed company may strain our resources.***

We have no experience as a listed company and have not been subjected to the increased scrutiny of our affairs by shareholders, regulators and the public that is associated with being a listed company. As a listed company, we will incur additional legal, accounting, corporate governance and other expenses that we did not incur as an unlisted company. We will be subject to the listing agreements with the Stock Exchanges and compliances of SEBI Listing Regulation, 2015 which would require us to file audited annual and unaudited semi-annual and limited review reports with respect to our business and financial condition. If we delay making such filings, we may fail to satisfy our reporting obligations and/or we may not be able to readily determine and accordingly report any changes in our results of operations as timely as other listed companies.

As a listed company, we will need to maintain and improve the effectiveness of our disclosure controls and procedures and internal control over financial reporting, including keeping adequate records of daily transactions to support the existence of effective disclosure controls and procedures, internal control over financial reporting and additional compliance requirements under the Companies Act, 2013. In order to maintain and improve the effectiveness of our disclosure controls and procedures and internal control over financial reporting, significant resources and management oversight will be required. As a result, management's attention may be diverted from other business concerns, which could adversely affect our business, prospects, financial condition and results of operations. In addition, we may need to hire additional legal and accounting staff with appropriate listed company experience and technical accounting knowledge and we cannot assure you that we will be able to do so in a timely manner.

**36. *We cannot assure payment of dividends on the Equity Shares in the future. Our ability to pay dividends in the future will depend upon our earnings, financial condition, cash flows and capital requirements.***

Our Company has not declared any dividend since incorporation. Our ability to pay dividends in the future will depend on a number of factors, including our profit after tax for the fiscal year, our capital requirements, our financial condition, our cash flows and applicable taxes, including payment of dividend distribution tax. We may decide to retain all our earnings to finance the development and expansion of our business and, therefore, may not declare dividends on our Equity Shares. We cannot assure you that we will be able to pay dividends in the future, and our future dividend policy will depend on our capital requirements and financing arrangements in respect of our operations, financial condition and results of operations. Our Company has not declared dividends in the past, and there can be no assurance that our Company will declare dividends in the future also. For further details, please refer to the chapter titled "Dividend Policy" on page 281 of this Draft Red Herring Prospectus.

**37. *We have been recently converted into public limited company and any non-compliance with the provisions of Companies Act, 2013 may attract penalties against our Company which could impact our financial and operational performance and reputation.***

Our Company was converted in to Limited Company pursuant to a special resolution passed by our shareholders at the Extra-Ordinary General Meeting held on December 18, 2024 and consequently the name of our Company was changed to "Snehaa Organics Limited" and a fresh certificate of incorporation was issued by the Registrar of Companies, CPC Manesar Haryana dated January 07, 2025. However, consequent to the aforesaid conversion, our Company is required to observe compliance with various provisions pertaining to public limited companies of the Companies Act.

Further, our Company is going to the public for further requirement of funds and needs to comply with provisions of SEBI ICDR Regulations and SEBI (LODR) Regulations. Though our Company will take due care to comply with the provisions of the Companies Act and other applicable laws and regulations. In case of our inability to timely comply with the requirements or in case of any delay, we may be subject to penal action from the concerned authorities which may have an adverse effect on our financial and operational performance and reputation.

## **EXTERNAL RISK FACTORS**

### ***38. Our business is substantially affected by prevailing economic, political and other prevailing conditions in India.***

Our Company is incorporated in India, and our assets and employees are located in India. As a result, we are highly dependent on prevailing economic conditions in India and our results of operations are significantly affected by factors influencing the Indian economy. Factors that may adversely affect the Indian economy, and hence our results of operations, may include:

- any increase in Indian interest rates or inflation;
- any scarcity of credit or other financing in India, resulting in an adverse impact on economic conditions in India and scarcity of financing for our expansions;
- prevailing income conditions among Indian consumers and Indian corporations;
- volatility in, and actual or perceived trends in trading activity on, India's principal stock exchanges;
- changes in India's tax, trade, fiscal or monetary policies;
- political instability, terrorism or military conflict in India or in countries in the region or globally, including in India's various neighboring countries;
- occurrence of natural or man-made disasters
- prevailing regional or global economic conditions, including in India's principal export markets; and
- Other significant regulatory or economic developments in or affecting India or our industry.

Any slowdown or perceived slowdown in the Indian economy, or in specific sectors of the Indian economy, could adversely impact our business, results of operations and financial condition and the price of the Equity Shares.

### ***39. The occurrence of natural or man-made disasters could adversely affect our results of operations, cash flows and financial condition. Hostilities, terrorist attacks, civil unrest and other acts of violence could adversely affect the financial markets and our business.***

The occurrence of natural disasters, including cyclones, storms, floods, earthquakes, tsunamis, tornadoes, fires, explosions, pandemic disease and man-made disasters, including acts of terrorism and military actions, could adversely affect our results of operations, cash flows or financial condition. Terrorist attacks and other acts of violence or war in India or globally may adversely affect the Indian securities markets. In addition, any deterioration in international relations, especially between India and its neighboring countries, may result in investor concern regarding regional stability which could adversely affect the price of the Equity Shares. In addition, India has witnessed local civil disturbances in recent years and it is possible that future civil unrest as well as other adverse social, economic or political events in India could have an adverse effect on our business. Such incidents could also create a greater perception that investment in Indian companies involves a higher degree of risk and could have an adverse effect on our business and the market price of the Equity Shares.

**40. Any fluctuations in prices of our materials or shortage in supply of chemicals for trading in our products, could adversely impact our business and our profitability.**

Our Company is dependent on the various chemicals required for the trading of our products. Thus, We do not have long-term supply agreements with our suppliers and procure chemicals on an order-to-order basis. Any significant increase in the cost of key chemicals or supply shortages could raise our procurement costs, potentially affecting our profitability. If we are unable to pass on these increased costs to consumers, our financial performance may be adversely impacted.

**41. Any downgrading of India's debt rating by an international rating agency could have a negative effect on our business and the trading price of the Equity Shares.**

India's sovereign debt rating could be downgraded due to several factors, including changes in tax or fiscal policy or a decline in India's foreign exchange reserves, all which are beyond our control. Our borrowing costs and our access to the debt capital markets depend significantly on the sovereign credit ratings of India. Any adverse revisions to India's credit ratings for domestic and overseas debt by international rating agencies may adversely affect our ability to raise additional external financing, and the interest rates and other commercial terms at which such additional financing is available. This could have an adverse effect on our business and future financial performance, our ability to obtain financing for capital expenditures and the trading price of the Equity Shares.

**42. Investor may be restricted in your ability to exercise pre-emptive rights under Indian law and may be adversely affected by future dilution of your ownership position.**

Under Indian law, investors may face restrictions in exercising pre-emptive rights, which could lead to future dilution of their ownership. The Companies Act mandates that an Indian-incorporated company must offer existing shareholders the right to subscribe to new shares in proportion to their existing holdings before issuing additional shares. However, these pre-emptive rights may be waived if a special resolution is passed by at least three-fourths of the voting shareholders or if the Government of India grants approval for an issuance without such a resolution—provided that votes in favor of the proposal exceed those against it.

Furthermore, if the laws of your jurisdiction require our Company to file an offering document or a registration statement with the relevant authority before allowing you to exercise pre-emptive rights, and such a filing is not made, you will be unable to exercise these rights. Consequently, if you are unable to participate in the pre-emptive offer, your proportional ownership in our Company may be diluted.

**43. Political, economic or other factors that are beyond our control may have an adverse effect on our business, results of operations and cash flows.**

We currently operate only in India and are dependent on domestic and regional market conditions. Our performance, growth and market price of our Equity Shares are and will be dependent on the solvent and recycling industry of the Indian economy. There have been periods of slowdown in the economic growth of India. If such condition prevails for longer time the Demand for our products & services may be adversely affected by an economic downturn in domestic, regional and global economies. India's economic growth is also affected by various other factors including domestic consumption and savings, balance of trade movements, namely export demand and movements in key imports, global economic uncertainty and liquidity crisis, volatility in exchange currency rates. Consequently, any future slowdown in the Indian economy could harm our business, results of operations, cash flows and financial condition. Also, a change in the Government or a change in the economic and deregulation

policies could affect economic conditions prevalent in the areas in which we operate in general and our business in particular and high rates of inflation in India could increase our costs without proportionately increasing our revenues, and as such decrease our operating margins.

**44. *Changing laws, rules and regulations and legal uncertainties, including adverse application of tax laws, in the jurisdictions in which we operate may adversely affect our business and results of operations.***

Our business, results of operations and financial condition could be materially adversely affected by changes in the laws, rules, regulations or directions applicable to us, or the interpretations of such existing laws, rules and regulations, or the promulgation of new laws, rules and regulations. For further details, please see “Key Regulations and Policies in India” on page 226 of this Draft Red Herring Prospectus.

The governmental and regulatory bodies may notify new regulations and/or policies, which may require us to obtain approvals and licenses from the government and other regulatory bodies, impose onerous requirements and conditions on our operations, in addition to those which we are undertaking currently. Any such changes and the related uncertainties with respect to the implementation of new regulations may have a material adverse effect on our business, results of operations and financial condition.

Unfavorable changes in or interpretations of existing, or the promulgation of new laws, rules and regulations including foreign investment and stamp duty laws governing our business and operations could result in us being deemed to be in contravention of such laws and may require us to apply for additional approvals. We may incur increased costs and other burdens relating to compliance with new requirements, which may also require significant management time and other resources, and any failure to comply may adversely affect our business, results of operations, financial condition, cash flows and prospects. Uncertainty in the application, interpretation or implementation of any amendment to, or change in, governing law, regulation or policy, including by reason of an absence, or a limited body, of administrative or judicial precedent may be time consuming as well as costly for us to resolve and may affect the viability of our current business or restrict our ability to grow our businesses in the future.

**45. *Fluctuations in the exchange rate between the Indian Rupee and foreign currencies may have an adverse effect on the value of our Equity Shares, independent of our operating results.***

On listing, our Equity Shares will be quoted in Indian Rupees on the Emerge Platform of NSE. Any dividends in respect of our Equity Shares will also be paid in Indian Rupees and subsequently converted into the relevant foreign currency for repatriation, if required. Any adverse movement in currency exchange rates during the time that it takes to undertake such conversion may reduce the net dividend to foreign investors. In addition, any adverse movement in currency exchange rates during a delay in repatriating outside India the proceeds from a sale of Equity Shares, for example, because of a delay in regulatory approvals that may be required for the sale of Equity Shares may reduce the proceeds received by Equity Shareholders. For example, the exchange rate between the Indian Rupee and the U.S. dollar has fluctuated substantially in recent years and may continue to fluctuate substantially in the future, which may have an adverse effect on the trading price of our Equity Shares and returns on our Equity Shares, independent of our operating results.

**46. *Financial instability, economic developments and volatility in securities markets in other countries may also cause the price of the Equity Shares to decline.***

The Indian market and the Indian economy are influenced by economic and market conditions in other countries, particularly emerging Asian market countries. Financial turmoil in Europe and elsewhere in the world in recent years has affected the Indian economy. In recent times, the Indian financial markets had been negatively affected by the volatility in global financial market, including on account of certain

European nations' debt troubles and move to break away by the United Kingdom from the European Union. Although, economic conditions are different in each country, investors' reactions to developments in one country can have adverse effects on the securities of companies in other countries, including India. Currencies of a few Asian countries have in the past suffered depreciation against the U.S. Dollar due to various reasons. A loss of investor confidence in the financial systems of other emerging markets may cause increased volatility in Indian financial markets and, indirectly, in the Indian economy in general. Any worldwide financial instability could also have a negative impact on the Indian economy. Financial disruptions may occur and could harm our business, future financial performance and the prices of the Equity Shares.

The global credit and equity markets have experienced substantial dislocations, liquidity disruptions and market corrections in recent years. Liquidity and credit concerns and volatility in the global credit and financial markets have increased significantly with the bankruptcy or acquisition of, and government assistance extended to, several major U.S. and European financial institutions. These and other related events, such as the European sovereign debt crisis, have had a significant impact on the global credit and financial markets as a whole, including reduced liquidity, greater volatility, widening of credit spreads and a lack of price transparency in global credit and financial markets. In response to such developments, legislators and financial regulators in the United States and other jurisdictions, including India, have implemented a number of policy measures designed to add stability to the financial markets.

However, the overall impact of these and other legislative and regulatory efforts on the global financial markets is uncertain, and they may not have the intended stabilizing effects. In the event that the current difficult conditions in the global credit markets continue or if there is any significant financial disruption, such conditions could have an adverse effect on our business, future financial performance and the trading price of the Equity Shares.

***47. Our Equity Shares have never been publicly traded and may experience price and volume fluctuations following the completion of the Issue, an active trading market for the Equity Shares may not develop, the price of our Equity Shares may be volatile and you may be unable to resell your Equity Shares at or above the Issue Price or at all.***

Prior to the Offer, there has been no public market for our Equity Shares, and an active trading market for our Equity Shares may not develop. Listing and quotation does not guarantee that a market for our Equity Shares will develop, or if developed, the liquidity of such market for our Equity Shares. The Offer Price of our Equity Shares decided by the company in consultation with lead manager is based on numerous factors, including factors as described under "Basis for Offer Price" on page 112, and may not be indicative of the market price of our Equity Shares at the time of commencement of trading of our Equity Shares or at any time thereafter. The market price of our Equity Shares may be subject to significant fluctuations in response to, among other factors:

- quarterly variations in our results of operations;
- results of operations that vary from the expectations of research analysts and investors;
- results of operations that vary from those of our competitors;
- changes in expectations as to our future financial performance, including financial estimates by research analysts and investors;
- conditions in financial markets, including those outside India;
- a change in research analysts' recommendations;
- announcements by us or our competitors of new products, significant acquisitions, strategic alliances, joint operations or capital commitments;
- announcements by third parties or government entities of significant claims or proceedings against us;
- new laws and government regulations or changes in laws and government regulations applicable to our industry;
- additions or departures of Key Managerial Personnel and Senior Management;

- general economic and stock market conditions; and
- changes in relation to any of the factors listed above could affect the price of our Equity Shares.

Consequently, the price of our Equity Shares may be volatile, and you may be unable to resell your Equity Shares at or above the Offer Price, or at all. A decrease in the market price of our Equity Shares could cause investors to lose some or all of their investment.

**48. *Investor may not be able to immediately sell any of the Equity Shares you subscribe to in this Offer on an Indian Stock Exchange.***

The Equity Shares are proposed to be listed on the Stock Exchanges. Pursuant to Indian regulations, certain actions must be completed before the Equity Shares can be listed and commence trading, including the crediting of the investor's demat accounts within the timeline specified under applicable law. Further, in accordance with Indian law, permission for listing and trading of the Equity Shares will not be granted until after certain actions have been completed in relation to this Offer and until Allotment of Equity Shares pursuant to this Offer. The Allotment of Equity Shares in the Offer and the credit of Equity Shares to the investor's demat account with the relevant depository participant and listing is expected to be completed within the period as may be prescribed under applicable law. Any failure or delay in obtaining the approvals or otherwise commence trading in the Equity Shares would restrict investors' ability to dispose of their Equity Shares. Our Company cannot assure that the Equity Shares will be credited to investor's demat accounts, or that trading in the Equity Shares will commence, within the prescribed time periods or at all which could restrict ability to dispose of the Equity Shares.

**49. *Any further issuance of Equity Shares, or convertible securities or other equity linked instruments by us may dilute your shareholding.***

Our Company may be required to finance our growth through future equity offerings. Any future equity issuances by our Company, including a primary offering of Equity Shares, convertible securities or securities linked to Equity Shares including through exercise of employee stock options, may lead to the dilution of investors' shareholdings in our Company. Any future equity issuances by us or sales of the Equity Shares by the Promoters may adversely affect the trading price of the Equity Shares, which may lead to other adverse consequences including difficulty in raising capital through offering of the Equity Shares or incurring additional debt. In addition, any perception by investors that such issuances or sales might occur may also affect the market price of the Equity Shares. There can be no assurance that we will not issue Equity Shares, convertible securities or securities linked to Equity Shares or that the Shareholders will not dispose of, pledge or encumber their Equity Shares in the future.

**50. *The determination of the Price Band and Offer Price is based on various factors and assumptions and the Offer Price of the Equity Shares may not be indicative of the market price of the Equity Shares after the Offer. Further, the current market price of some securities listed pursuant to certain previous issues managed by the BRLMs is below the respective issue price.***

The determination of the Price Band is based on various factors and assumptions and will be determined by our Company in consultation with the BRLMs. Furthermore, the Offer Price of the Equity Shares will be determined by our Company in consultation with the Book Running Lead Managers through the Book Building Process. These will be based on numerous factors, including factors as described under 'Basis for the Issue Price' beginning on page 112 and may not be indicative of the market price for the Equity Shares after the Offer. In addition to the above, the current market price of securities listed pursuant to certain previous initial public offerings managed by the Book Running Lead Managers is below their respective issue price. For further details, see 'Other Regulatory and Statutory Disclosures' on page 369 The factors that could affect the market price of the Equity Shares include, among others, broad market trends, our financial performance and results post-listing, and other factors beyond our Company's control. Our Company cannot assure you that an active market will develop, or sustained

trading will take place in the Equity Shares or provide any assurance regarding the price at which the Equity Shares will be traded after listing.

***51. Investor will not be able to sell immediately on Indian Stock Exchanges any of the Equity Shares you purchase in the Issue until the Issue receives appropriate trading permissions***

The Equity Shares will be listed on the Stock Exchange. Pursuant to Indian regulations, certain actions must be completed before the Equity Shares can be listed and trading on stock exchange. We cannot assure you that the Equity Shares will be credited to investor's demat accounts, or that trading in the Equity Shares will commence, within the time periods specified in this Draft Red Herring Prospectus. Any failure or delay in obtaining the approval would restrict your ability to dispose of the Equity Shares. In accordance with section 40 of the Companies Act and SEBI ICDR Regulation, 2018 as the case may be, if the permission of listing the Equity Shares is denied by the stock exchanges, we are required to refund all monies collected to investors.

***52. There are restrictions on daily movements in the trading price of the Equity Shares, which may adversely affect a shareholder's ability to sell Equity Shares or the price at which Equity Shares can be sold at a particular point in time.***

Following the listing of Equity Shares through the Offer, the Equity Shares will be subject to a daily "circuit breaker" imposed on listed companies by the Stock Exchanges, which does not allow transactions beyond certain volatility in the trading price of the Equity Shares. This circuit breaker operates independently of the index-based market-wide circuit breakers generally imposed by SEBI on Indian Stock Exchanges. The percentage limit on the Equity Shares' circuit breaker will be set by the Stock Exchanges based on historical volatility in the price and trading volume of the Equity Shares. The Stock Exchanges are not required to inform our Company of the percentage limit of the circuit breaker, and they may change the limit without our knowledge. This circuit breaker would effectively limit the upward and downward movements in the trading price of the Equity Shares beyond the circuit breaker limit set by the Stock Exchanges. As a result of this circuit breaker, there can be no assurance regarding the ability of shareholders to sell Equity Shares or the price at which shareholders may be able to sell their Equity Shares.

***53. QIBs and Non-Institutional Bidders are not permitted to withdraw or lower their Bids (in terms of quantity of Equity Shares or the Bid Amount) at any stage after submitting a Bid and Retail Individual Investors are not permitted to withdraw their Bids after Bid/Issue Closing Date.***

Pursuant to the SEBI ICDR Regulations, QIBs and Non-Institutional Bidders are not permitted to withdraw or lower their Bids (in terms of quantity of Equity Shares or the Bid Amount) at any stage after submitting a Bid. Individual Bidders can revise their Bids during the Bid/Issue Period and withdraw their Bids until Bid/Issue Closing Date. While we are required to complete Allotment, listing and commencement of trading pursuant to the Issue within three (3) Working Days from the Bid/ Issue Closing Date, events affecting the Bidders decision to invest in our Equity Shares, including adverse changes in international or national monetary policy, financial, political or economic conditions, our business, results of operations, cash flows and financial condition may arise between the date of submission of the Bid and Allotment, listing and commencement of trading. We may complete the Allotment, listing and commencement of trading of our Equity Shares even if such events occur and such events may limit the Bidders ability to sell our Equity Shares Allotted pursuant to the Issue or may cause the trading price of our Equity Shares to decline on listing.

***54. If security or industry analysts do not publish research, or publish unfavourable or inaccurate research about the business of our Company, the price and trading volume of the Equity Shares may decline.***

The trading market for the Equity Shares may depend, in part, on the research and reports that securities or industry analysts publish about us or our business. Our Company may be unable to sustain coverage by established and / or prominent securities and industry analysts. If either none or only a limited number of securities or industry analysts maintain coverage of our Company, or if these securities or industry analysts are not widely respected within the general investment community, the trading price for the Equity Shares would be negatively impacted. In the event our Company obtains securities or industry analyst coverage, if one or more of the analysts downgrade the Equity Shares of our Company or publish inaccurate or unfavourable research about our business, the price of the Equity Shares may decline. If one or more of these analysts cease coverage of our Company or fail to publish reports on our Company regularly, the demand for the Equity Shares of our Company could decrease, which might cause the price and trading volume of the Equity Shares of our Company to decline.

***55. Subsequent to the listing of the Equity Shares, we may be subject to pre-emptive surveillance measures such as the Additional Surveillance Measures and the Graded Surveillance Measures by the Stock Exchanges in order to enhance the integrity of the market and safeguard the interest of investors.***

Subsequent to the listing of the Equity Shares, we may be subject to Additional Surveillance Measures (“ASM”) and Graded Surveillance Measures (“GSM”) by the Stock Exchanges. These measures are in place to enhance the integrity of the market and safeguard the interest of investors. The criteria for shortlisting any security trading on the Stock Exchanges for ASM is based on objective criteria, which includes market-based parameters such as high low price variation, concentration of client accounts, close to close price variation, market capitalization, average daily trading volume and its change, and average delivery percentage, among others. Securities are subject to GSM when its price is not commensurate with the financial health and fundamentals of the issuer. Specific parameters for GSM include net worth, net fixed assets, price to earnings ratio, market capitalization and price to book value, among others. Factors within and beyond our control may lead to our securities being subject to GSM or ASM. In the event our Equity Shares are subject to such surveillance measures implemented by any of the Stock Exchanges, we may be subject to certain additional restrictions in connection with trading of our Equity Shares such as limiting trading frequency (for example, trading either allowed once in a week or a month) or freezing of price on upper side of trading which may have an adverse effect on the market price of our Equity Shares or may in general cause disruptions in the development of an active trading market for our Equity Shares.

***56. A third party could be prevented from acquiring control of our Company because of anti-takeover provisions under Indian law.***

There are provisions in Indian law that may delay, deter or prevent a future takeover or change in control of our Company, even if a change in control would result in the purchase of your Equity Shares at a premium to the market price or would otherwise be beneficial to you. Such provisions may discourage or prevent certain types of transactions involving actual or threatened change in control of our Company. Under the SEBI Takeover Regulations, an acquirer has been defined as any person who, directly or indirectly, acquires or agrees to acquire shares or voting rights or control over a company, whether individually or acting in concert with others. Although these provisions have been formulated to ensure that interests of investors/shareholders are protected, these provisions may also discourage a third party from attempting to take control of our Company. Consequently, even if a potential takeover of our Company would result in the purchase of the Equity Shares at a premium to their market price or would otherwise be beneficial to its stakeholders, it is possible that such a takeover would not be attempted.

***57. Our Company's ability to raise foreign capital may be constrained by Indian law.***

As an Indian company, our Company is subject to exchange controls that regulate borrowing in foreign currencies. Such regulatory restrictions could constrain our Company's ability to obtain financings on competitive terms and refinance existing indebtedness. In addition, our Company cannot assure you that any required regulatory approvals for borrowing in foreign currencies will be granted to our Company without onerous conditions, or at all. Limitations on foreign debt may have an adverse effect on our Company's business growth, financial condition and results of operations.

***58. Under Indian law, foreign investors are subject to investment restrictions that limit our Company's ability to attract foreign investors, which may adversely impact the trading price of the Equity Shares.***

Under foreign exchange regulations currently in force in India, transfer of shares between non-residents and residents are freely permitted (subject to certain exceptions) if they comply with the valuation and reporting requirements specified by the RBI. If a transfer of shares is not in compliance with such requirements and does not fall under any of the exceptions specified by the RBI, then the RBI's prior approval is required. In addition, shareholders who seek to convert Rupee proceeds from a sale of shares in India into foreign currency and repatriate that foreign currency from India require a no-objection or a tax clearance certificate from the Indian income tax authorities. Our Company cannot assure you that any required approval from the RBI or any other Government agency can be obtained on any particular terms or at all.

Further, in accordance with Press Note No. 3 (2020 Series), dated April 17, 2020, issued by the DPIIT and the FEMA Rules, any investment, subscription, purchase or sale of equity instruments by entities, investments under the foreign direct investment route by entities of a country which shares land border with India or where the beneficial owner of an investment into India is situated in or is a citizen of any such country will require prior approval of the Government of India. Further, in the event of transfer of ownership of any existing or future foreign direct investment in an entity in India, directly or indirectly, resulting in the beneficial ownership falling within the aforesaid restriction/ purview, such subsequent change in the beneficial ownership will also require approval of the Government of India. Our Company cannot assure you that any required approval from the RBI or any other governmental agency can be obtained on any particular terms, in a timely manner or at all.

***59. Investors may be restricted in their ability to exercise pre-emptive rights under Indian law and thereby may suffer future dilution of their ownership position.***

Under the Companies Act, a company having share capital and incorporated in India must offer its holders of equity shares pre-emptive rights to subscribe and pay for a proportionate number of shares to maintain their existing ownership percentages before the issuance of any new equity shares, unless the pre-emptive rights have been waived by adoption of a special resolution by holders of three-fourths of the equity shares voting on such resolution.

However, if the law of the jurisdiction the investors are in, does not permit them to exercise their preemptive rights without our Company filing an offering document or registration statement with the applicable authority in such jurisdiction, the investors will be unable to exercise their pre-emptive rights unless our Company makes such a filing. If we elect not to file a registration statement, the new securities may be issued to a custodian, who may sell the securities for the investor's benefit. The value such custodian receives on the sale of such securities and the related transaction costs cannot be predicted. In addition, to the extent that the investors are unable to exercise pre-emptive rights granted in respect of the Equity Shares held by them, their proportional interest in our Company would be reduced.

***60. Rights of shareholders under Indian laws may be more limited than under the laws of other jurisdictions.***

Indian legal principles related to corporate procedures, directors' fiduciary duties and liabilities may differ from those that would apply to a company in another jurisdiction. Investors may have more difficulty in asserting their rights as shareholders in an Indian company than as shareholder of a corporation in another jurisdiction. Shareholders' rights under Indian law may not be as extensive as shareholders' rights under the laws of other jurisdictions. Under the Companies Act, prior to issuance of any new equity shares, a public limited company incorporated under Indian law must offer its equity shareholders pre-emptive rights to subscribe to a proportionate number of equity shares to maintain existing ownership, unless such pre-emptive rights are waived by a special resolution by a three-fourths majority of the equity shareholders voting on such resolution. If you are a foreign investor and the law of the foreign jurisdiction that you are in does not permit the exercise of such pre-emptive rights without our filing an offering document or registration statement with the applicable authority in such foreign jurisdiction, you will be unable to exercise such pre-emptive rights, unless we make such a filing. If we elect not to file an offering document or a registration statement, the new securities may be issued to a custodian, who may sell the securities for your benefit. The value such custodian receives on the sale of any such securities and the related transaction costs cannot be predicted. To the extent that you are unable to exercise pre-emptive rights granted in respect of our Equity Shares, your proportional interest in our Company would decline.

### **BOOK BUILDING PROCESS**

Book Building, with reference to the Issue, refers to the process of collection of Bids on the basis of the Red Herring Prospectus within the Price Band. The Price Band shall be determined by our Company in consultation with the Book Running Lead Manager in accordance with the Book Building Process, and advertised in [●] edition of [●] (a widely circulated English national daily newspaper), [●] edition of [●] (a widely circulated Hindi national daily newspaper) and [●] edition of [●] (regional language where our Registered office is located) at least two working days prior to the Bid/ Issue Opening date. The Issue Price shall be determined by our Company, in consultation with the Book Running Lead Manager in accordance with the Book Building Process after the Bid/ Issue Closing Date. The principal parties involved in the Book Building Process are:

- Our Company;
- The Book Running Lead Manager in this case: Fast Track Finsec Private Limited.
- The Registrar to the Issue and;

➤ The Designated Intermediaries and Sponsor bank

The SEBI ICDR Regulations have permitted the Issue of securities to the public through the Book Building Process, wherein allocation to the public shall be made as per Regulation 253 of the SEBI ICDR Regulations.

**All Bidders, except Anchor Investors, are mandatorily required to use the ASBA process for participating in the Issue. In accordance with the SEBI ICDR Regulations, QIBs bidding in the QIB Portion and Non-Institutional Bidders bidding in the Non-Institutional Portion are not allowed to withdraw or lower the size of their Bids (in terms of the quantity of the Equity Shares or the Bid Amount) at any stage. Individual Bidders can revise their Bids during the Bid/Issue Period and withdraw their Bids until the Bid/Issue Closing Date. Further, Anchor Investors cannot withdraw their Bids after the Anchor Investor Bid/Issue Period. Allocation to the Anchor Investors will be on a discretionary basis.**

Subject to valid Bids being received at or above the Issue Price, allocation to all categories in the Net Issue, shall be made on a proportionate basis, except for the Retail Portion where allotment to each Individual Bidders shall not be less than the minimum bid lot, subject to availability of Equity Shares in Portion, and the remaining available Equity Shares, if any, shall be allotted on a proportionate basis. Under-subscription, if any, in any category, would be allowed to be met with spill-over from any other category or a combination of categories at the discretion of our Company in consultation with the Book Running Lead Manager and the Stock Exchange. However, under-subscription, if any, in the QIB Portion will not be allowed to be met with spill over from other categories or a combination of categories.

In terms of SEBI Circular No. CIR/CFD/POLICYCELL/11/2015 dated November 10, 2015 and the SEBI (Issue of Capital and Disclosure Requirements) Regulations, 2018, all the investors (except Anchor Investors) applying in a public issue shall use only Application Supported by Blocked Amount (ASBA) process for application providing details of the bank account which will be blocked by the Self Certified Syndicate Banks (SCSBs) for the same. Further, pursuant to SEBI Circular No. SEBI/HO/CFD/DIL2/CIR/P/2018/138 dated November 01, 2018, Individual Investors applying in public issue may use either Application Supported by Blocked Amount (ASBA) facility for making application or also can use UPI as a payment mechanism with Application Supported by Blocked Amount for making application. For details in this regards, specific attention is invited to the chapter titled “Issue Procedure” beginning on page 393 of the Draft Red Herring Prospectus. The process of Book Building under the SEBI (ICDR) Regulations is subject to change from time to time and the investors are advised to make their own judgment about investment through this process prior to making a Bid or application in the Issue.

For further details on the method and procedure for Bidding, please see section entitled “**Issue Procedure**” on page 393 of this Draft Red Herring Prospectus.

### **ILLUSTRATION OF THE BOOK BUILDING AND PRICE DISCOVERY PROCESS:**

For an illustration of the Book Building Process and the price discovery process, please refer to the chapter titled “Issue Procedure” on page 393 of this Draft Red Herring Prospectus.

Bid/ Issue Program:

<b>Event</b>	<b>Indicative Dates</b>
Anchor open/Close Date	[●]
Bid/ Issue Opening Date	[●]
Bid/ Issue Closing Date	[●]

Finalization of Basis of Allotment with the Designated Stock Exchange	[•]
Initiation of Allotment / Refunds / Unblocking of Funds from ASBA Account or UPI ID linked bank account	[•]
Credit of Equity Shares to Demat accounts of Allottees	[•]
Commencement of trading of the Equity Shares on the Stock Exchange	[•]

Our Company in consultation with the Book Running Lead Manager may consider participation by Anchor Investors in accordance with the SEBI ICDR Regulations. The Anchor Investor Bid/Issue Period shall be one Working Day prior to the Bid/Issue Opening Date in accordance with the SEBI ICDR Regulations.

The above timetable is indicative and does not constitute any obligation on our Company or the Book Running Lead Manager. Whilst our Company shall ensure that all steps for the completion of the necessary formalities for the listing and the commencement of trading of the Equity Shares on the Stock Exchange are taken within 3 Working Days of the Bid/ Issue Closing Date, the timetable may change due to various factors, such as extension of the Bid/Issue Period by our Company, revision of the Price Band or any delays in receiving the final listing and trading approval from the Stock Exchange. The Commencement of trading of the Equity Shares will be entirely at the discretion of the Stock Exchange and in accordance with the applicable laws. Bid Cum Application Forms and any revisions to the same will be accepted only between 10.00 A.M. to 5.00 P.M. (IST) during the Issue Period (except for the Bid/ Issue Closing Date). On the Bid/ Issue Closing Date, the Bid Cum Application Forms will be accepted only between 10.00 A.M. to 3.00 P.M. (IST) for retail and non-retail Bidders. The time for applying for the Retail Individual Applicant on Bid/Issue Closing Date may be extended in consultation with the BRLM, RTA and NSE Emerge taking into account the total number of applications received up to the closure of timings. Due to the limitation of time available for uploading the Bid Cum Application Forms on the Bid/Issue Closing Date, Bidders are advised to submit their applications one (1) day prior to the Bid/ Issue Closing Date and, in any case, not later than 3.00 P.M. (IST) on the Bid/ Issue Closing Date. Any time mentioned in this Draft Red Herring Prospectus is IST. Bidders are cautioned that in the event, a large number of Bid Cum Application Forms are received on the Bid/Issue Closing Date, as is typically experienced in public Issue, some Bid Cum Application Forms may not get uploaded due to the lack of sufficient time. Such Bid Cum Application Forms that cannot be uploaded will not be considered for allocation under this Issue. Applications will be accepted only on Working Days, i.e., Monday to Friday (excluding any public holidays). Neither our Company nor the BRLM is liable for any failure in uploading the Bid Cum Application Forms due to faults in any software/hardware system or otherwise. In accordance with SEBI ICDR Regulations, QIBs and Non-Institutional Applicants are not allowed to withdraw or lower the size of their application (in terms of the quantity of the Equity Shares or the Application amount) at any stage. Retail Individual Applicants can revise or withdraw their Bid Cum Application Forms prior to the Bid/Issue Closing Date. Allocation to Retail Individual Applicants, in this Issue will be on a proportionate basis. In case of discrepancy in the data entered in the electronic book vis-à-vis the data contained in the physical Bid Cum Application Form, for a particular Applicant, the details as per the file received from Stock Exchange may be taken as the final data for the purpose of Allotment. In case of discrepancy in the data entered in the electronic book vis-à-vis the data contained in the physical or electronic Bid Cum Application Form, for a particular ASBA Applicant, the Registrar to the Issue shall ask the relevant SCSBs/ RTAs / DPs / stock brokers, as the case may be, for the rectified data.

## UNDERWRITING

The Company and the Book Running Lead Manager to the Issue hereby confirm that the Issue will be 100% Underwritten by the Underwriter namely [●]. **Out of which 15% shall mandatorily be underwritten by the Book Running Lead Manager.**

Pursuant to the terms of the Underwriting Agreement dated [●] entered into by Company, Underwriter, the obligations of the Underwriter are subject to certain conditions specified therein. The Details of the Underwriting commitments are as under:

Details of the Underwriter	No. of shares underwritten	Amount Underwritten (₹ in Lakhs)	% of Total Issue Size Underwritten
[●] Address: [●] Tel No.: [●] Email: [●] Website: [●] Contact Person: [●] SEBI Registration No.: [●]	[●]	[●]	[●]

\*Includes upto [●] Equity Shares of the Market Maker Reservation Portion which are to be subscribed by the Market Maker, namely. [.] in its own account in order to claim compliance with the requirements of Regulation 261 of the SEBI (ICDR) Regulations, 2018, as amended.

In the opinion of the Board of Directors of our Company, the resources of the above-mentioned Underwriter are sufficient to enable them to discharge their respective obligations in full.

## CHANGE IN STATUTORY AUDITORS DURING THE LAST THREE (3) YEARS

There have been no changes in our Company's auditors in the last (3) years except, mentioned below:

Name of Auditor	From	To	Date of Change	Reason for change
Sarangapani & Co.	05/07/2022	31/03/2023	04/05/2023	Resignation as Statutory Auditor of the Company

Sumalatha Associates &	01/04/2023	31/03/2028	16/12/2024	Resignation as Statutory Auditor of the Company
Phanindra Associates &	01/04/2024	31/03/2025	17/12/2024	Appointment as Statutory Auditor of the Company due to Resignation of Previous Auditor of the Company.

## **WITHDRAWAL OF THE ISSUE**

Our Company in consultation with the BRLM, reserves the right not to proceed with the Issue at any time before the Bid/ Issue Opening Date without assigning any reason thereof.

If our Company withdraws the Issue any time after the Bid/ Issue Opening Date but before the allotment of Equity Shares, a public notice within 2 (two) working days of the Bid/ Issue Closing Date, providing reasons for not proceeding with the Issue shall be issued by our Company. The notice of withdrawal will be issued in the same newspapers where the pre- Issue advertisements have appeared and the Stock Exchange will also be informed promptly. The BRLM, through the Registrar to the Issue, will instruct the SCSBs to unblock the ASBA Accounts within 1 (one) working Day from the day of receipt of such instruction.

If our Company withdraws the Issue after the Bid/ Issue Closing Date and subsequently decides to proceed with an Issue of the Equity Shares, our Company will have to file a fresh Draft Red Herring Prospectus with the stock exchange where the Equity Shares may be proposed to be listed.

Notwithstanding the foregoing, the Issue is subject to obtaining (i) the final listing and trading approvals of the Stock Exchange with respect to the Equity Shares issued through the Red Herring Prospectus, which our Company will apply for only after Allotment; and (ii) the filing of Red Herring Prospectus/ Prospectus with RoC.

## **DETAILS OF THE MARKET MAKING ARRANGEMENT FOR THIS ISSUE**

Our Company and the LM has entered into Market Making Agreement dated [●] with the following Market Maker, to fulfill the obligations of Market Making for this issue:

[●]

**Address:** [●]

**Tel No.:** [●]

**Email:** [●]

**Website:** [●]

**Contact Person:** [●]

**SEBI Registration No.:** [●]

The Market Maker shall fulfill the applicable obligations and conditions as specified in the SEBI (ICDR) Regulations, and its amendments from time to time and the circulars issued by the NSE and SEBI regarding this matter from time to time.

**Following is a summary of the key details pertaining to the Market-making arrangement:**

➤ The Market Maker(s) (individually or jointly) shall be required to provide a 2-way quote for 75% of the time in a day. The same shall be monitored by the stock exchange. Further, the Market Maker(s) shall inform the exchange in advance for every blackout period when the quotes are not being offered by the Market Maker(s).

➤ The prices quoted by Market Maker shall be in compliance with the Market Maker Spread Requirements and other particulars as specified or as per the requirements of the NSE Emerge (SME platform of NSE) and SEBI from time to time.

- The minimum depth of the quote shall be ₹1,00,000/-. However, the investors with holdings of value less than ₹ 1,00,000/- shall be allowed to offer their holding to the Market Maker(s) (individually or jointly) in that scrip provided that he sells his entire holding in that scrip in one lot along with a declaration to the effect to the selling broker.
- The Market Maker shall not sell in lots less than the minimum contract size allowed for trading on the SME platform of NSE (in this case currently the minimum trading lot size is [●] equity shares; however, the same may be changed by the NSE Emerge platform from time to time).
- After a period of three (3) months from the market making period, the Market Maker would be exempted to provide quote if the Shares of Market Maker in our company reaches to 25% of Issue Size. Any Equity Shares allotted to Market Maker under this Issue over and above 25% of Issue Size would not be taken in to consideration of computing the threshold of 25% of Issue Size. As soon as the Shares of Market Maker in our Company reduce to 24% of the Issue Size, the Market Maker will resume providing 2-way quotes.
- There shall be no exemption/ threshold on the downside. However, in the event the Market Maker exhausts his inventory through the market making process, NSE may intimate the same to SEBI after due verification.
- Execution of the order at the quoted price and quantity must be guaranteed by the Market Maker(s), for the quotes given by him.
- There would not be more than five Market Makers for a script at any point of time and the Market Makers may compete with other Market Makers for better quotes to the investors on the first day of the listing, there will be a pre-opening session (call auction) and there after the trading will happen as per the equity market hours. The circuits will apply from the first day of the listing on the discovered price during the pre-open call auction.
- The Market maker may also be present in the opening call auction, but there is no obligation on him
- There will be special circumstances under which the Market Maker may be allowed to withdraw temporarily/fully from the market – for instance due to system problems, any other problems. All controllable reasons require prior approval from the Exchange, while force majeure will be applicable for non-controllable reasons. The decision of the Exchange for deciding controllable and non-controllable reasons would be final.
- The Market Maker(s) shall have the right to terminate said arrangement by giving a 3 (three) months' notice or on mutually acceptable terms to the Merchant Banker, who shall then be responsible for appointing a replacement Market Maker(s) and executing a fresh arrangement. In case of termination of the above-mentioned Market Making agreement prior to the completion of the compulsory Market Making period, it shall be the responsibility of the LM to arrange for another Market Maker in replacement during the term of the notice period being served by the Market Maker but prior to the date of releasing the existing Market Maker from its duties in order to ensure compliance with the requirements of regulation 261(1) of the SEBI (ICDR) Regulations, 2018, as amended. Further, our Company and the LM reserve the right to appoint other Market Makers either as a replacement for the current Market Maker or as an additional Market Maker subject to the total number of Designated Market Makers not exceeding five or as specified by the relevant laws and regulations applicable at that particular point of time. The Market Making Agreement is available for inspection at our office from 10.00 A.M. to 5.00 P.M. on working days.
- Risk containment measures and monitoring for Market Makers: The Emerge platform of NSE will have all margins, which are applicable on the NSE main board viz., Mark-to-Market, Value-At-Risk (VAR)

Margin, Extreme Loss Margin, Special Margins and Base Minimum Capital etc. NSE can impose any other margins as deemed necessary from time to time.

➤ **Punitive Action in case of default by Market Makers:** NSE Emerge Exchange will monitor the obligations on a real-time basis and punitive action will be initiated for any exceptions and/or non-compliances. Penalties/ fines may be imposed by the Exchange on the Market Maker, in case he is not able to provide the desired liquidity in a particular security as per the specified guidelines. These penalties/ fines will be set by the Exchange from time to time. The Exchange will impose a penalty on the Market Maker in case he is not present in the market (offering two-way quotes) for at least 75% of the time. The nature of the penalty will be monetary as well as suspension in market-making activities/ trading membership. The Department of Surveillance and Supervision of the Exchange would decide and publish the penalties/ fines/ suspension for any type of misconduct/ manipulation/ other irregularities by the Market Maker from time to time.

➤ **Price Band and Spreads:** The price band shall be 20% and the market maker spread (difference between the sell and the buy quote) shall be within 10% or as intimated by Exchange from time to time.

Pursuant to SEBI Circular number CIR/MRD/DSA/31/2012 dated November 27, 2012, limits on the upper side

Issue Size	Buy quote exemption threshold (including mandatory initial inventory of 5% of the Issue Size)	Re-Entry threshold for buy quote (including mandatory initial inventory of 5% of the Issue Size)

## OBJECTS OF THE ISSUE

Our Company proposes to utilize the funds being raised to fund the following objectives and achieve the benefits of listing on the Emerge Platform of NSE.

**The objects of the Issue are:**

1. To meet the Working Capital requirements of the Company;
2. Repayment loans availed by our Company
3. General Corporate Purposes; and
4. To meet the Issue Expenses.

Our Company believes that listing will enhance our Company's corporate image, brand name and create a public market for its Equity Shares in India. The main objects clause of our Memorandum enables our Company to undertake the activities for which funds are being raised in the Issue. The existing activities of our Company are within the objects' clause of our Memorandum. The fund requirement and deployment are based on internal management estimates and has not been appraised by any bank or financial institution.

**Fund Requirements**

Our funding requirements are dependent on a number of factors which may not be in the control of our management, changes in our financial condition and current commercial conditions. Such factors may entail rescheduling and / or revising the planned expenditure and funding requirement and increasing or decreasing the expenditure for a particular purpose from the planned expenditure.

We intend to utilize the proceeds of the Fresh Issue, in the manner set forth below:

S. No.	Particulars	Amount (In Rs. Lakh)
1.	Working Capital Requirement	2,660.18
2.	To Repayment of loans availed by our Company	350.00
3.	General Corporate Purposes	[•]
4.	Issue Expenses*	[•]
	<b>Total</b>	[•]

*\*As on March 28, 2025 the Company has incurred a sum of Rs.24.33 Lakh towards issue expenses.*

The fund requirements are based on internal management estimates and have not been appraised by any bank or financial institution. These are subject to revisions on account of changes in costs, financial condition, business strategy or external circumstances which may not be in our control. In case of any surplus after utilization of the Net Proceeds towards the aforementioned Objects, we may use such surplus towards general corporate purposes, provided that the total amount to be utilized towards general corporate purposes shall not exceed 15% of the Net Proceeds of the Fresh Issue or 10 crore whichever is lower, in accordance with applicable law. Further, in case of any variations in the actual utilisation of funds earmarked towards the Objects set forth above, then any increased fund requirements for a particular Object may be financed by surplus funds, subject to utilisation towards general corporate purposes not exceeding 15% of the Net Proceeds of the Fresh Issue or 10 crore whichever is lower in accordance with the SEBI ICDR Regulations and in compliance with the objectives as set out below, if any, available in respect of the other Objects for which funds are being raised in this Offer. In case of a shortfall in raising requisite capital from the Net Proceeds towards meeting the Objects, we may explore a range of options including utilising our internal accruals.

**Rationale for Increase in working capital gap from financial year 2024-25 to financial year 2025-26:**

The Company is planning to operate a working capital-intensive business. The Major Working capital are required for monthly payment of material purchased, selling, general, administration and other variable overheads etc. and Trade Receivable as the money gets blocked in them due to more credit period offer to

them for increase in Business. As per the management's estimation, the working capital requirement for FY 2024-25 is expected to be ₹ 773.29 Lakhs which will be financed through internal accruals 473.29 lakhs and through cash credit amounting to ₹ 300 Lakhs. Working capital requirement for FY 2025-26 is expected to be ₹ 4699.51 Lakhs which will be financed through internal accruals of ₹ 1539.33 lakhs and proceeds from an IPO amounting to ₹ 2660.18 lakhs and through cash credit amounting to ₹ 500 Lakhs.

The company is planning to make a strategic shift to operational diversification by relying less on job work material and in turn purchasing the raw material from open market and distilling the same. This will increase the Company's sales during financial year 2025-26 and to meet the additional sales demand, the Company will have to increase its inventory in financial year 2025-26 up to ₹ 1309.63 Lakhs from ₹ 266.22 Lakhs in financial year 2024-25. Since the Company is Purchasing a material from the open market by paying amount in advance to the vendors credit period of the company decreased from 71 days to 8 days in financial year 2024-25. Targeting operational diversification i.e. Purchasing a material from the open market and make a distillation and sale to a new customer by offering extended credit periods, the trade receivables are expected to increase from ₹ 900.58 lakhs in financial year 2024-25 to ₹ 3670.20 lakhs in financial year 2025-26 Resulting, more extended receivable days i.e., 125 days in financial year 2024-25 and 110 days in financial year 2025-26 as compared to 103 days in financial year 2023-24.

**Justification:**

<p><b>Trade Payable Days</b></p>	<p>Trade payables refer to the amounts a company owes to its suppliers for goods or services received on credit, representing trade payables. They typically arise from routine business activities, such as purchasing raw materials, inventory and other services, with the agreement to pay later.</p> <p>Past trend of trade payable has been between the ranges of 27 to 100 days in the last financial years/ stub period. Trade payable days in financials year 2021-22 and for the period ended 04<sup>th</sup> July, 2022 is 27 and 37 days respectively. The decline in trade payable days during this period was primarily due to the impact of the COVID-19 pandemic, which led to supply chain constraints and disruptions. To ensure the timely procurement of essential materials, payment schedules were adjusted, resulting in shorter payable cycles. This trend was consistent across the industry, as peer companies also faced similar challenges in managing trade payables during this time. However, as the pharmaceutical industry dynamics have stabilized, supply chain operations have gradually returned to normal. With improved material availability and streamlined procurement processes, trade payable cycles are expected to align with in the past trend ranges.</p> <p>As of end of financial year 2025-26 the number of trade payables days has significantly decreased due to Purchasing a raw material from the open market by paying amount in advance to the vendors. This reduction is solely attributed to our participation in the open bidding process of various pharmaceutical companies, where we are required to win the auction by quoting a lower price, and payment terms need to be specified on an immediate basis.</p>
<p><b>Trade Receivable Days</b></p>	<p>Trade receivable consists of debt owned by debtors. Past trend of trade receivable has been between the ranges of 45 to 103 days in the last financial years/ stub period. Trade receivable days in financials year 2021-22 2022-23 and 2023-24 is 45,56,78,79 respectively. This increase is primarily attributable to the impact of the COVID-19 pandemic on supply chain dynamics. During the pandemic, due to supply chain constraints and liquidity management, the company had to offer a shorter credit period to customers to maintain cash flow. However, as industry conditions improved and market dynamics normalized, the company gradually extended credit periods, bringing trade receivable days in line with prevailing market practices.</p>

	<p>During the financial year 2025-26 and for financial year 2024-25 there was a noticeable increase in trade receivable days compared to previous years. The company extended a longer credit period to its customers as a generic practice in pharma industry and towards market acquisition, resulting in a higher trade receivable holding period of 110 days. This was also accompanied by growth in annualized Revenue from Operations compared to FY 2025-26.</p> <p>Total trade receivables are expected to increase in line with business volumes and projected business activity in the financial year 2024-25 and 2025-26.</p>
<b>Inventory</b>	<p>Inventory refers to the raw materials, stock in trade, and finished goods that a company holds for trading and production purposes. Past trend of inventory holding period has been between the ranges of 12 to 49 days in the last financial years/ stub period.</p> <p>Inventory holding days for FY 2025-26 and FY 2024-25 and for stub period is 55,92,86 days respectively. This increase is attributable to company had constructed a storage facility leading to higher inventory levels for supply in the market during suitable or favorable conditions and this will also lead to margin expansion.</p> <p>For the FY 2025-26, there is shift in business model i.e. reducing dependency from job work to purchase and process. This will led to significant increase in the cost of goods sold and thus resulting in less inventory days based on absolute values.</p>
<b>Other Current Liabilities</b>	<p>Other current liabilities include advance from customers, provisions, statutory dues, expenses payable, etc. However, going forward, the Company does not foresee any major change and expected to get proportionally increased due to increase in operations and turnover.</p>
<b>Short term borrowings</b>	<p>Company has availed short-term borrowing of facility ₹ 500.00 lacs comprising CC limit from Banks to finance its working capital requirements.</p>
<b>Short term provisions</b>	<p>Short term provisions primarily include provision for Gratuity and provision for taxation. Short term provisions have been maintained in line with the increase of projected business income/expenses for the forthcoming years.</p>
<b>Short-term Loans and Advances</b>	<p>This includes mostly advance to suppliers, employees etc., the Company does not foresee any major change and expected to get proportionally increased due to increase in operations and turnover.</p>
<b>Other Current Assets</b>	<p>Other current assets include, prepaid insurance expenses and Balance with Govt. authorities.</p>
<b>Revenue from operations</b>	<p>Revenue from operations comprises direct sale of products, revenue from distillation of products and income from job work charges. Past trend of revenue from operations for financial year 2021-22, 2022-23 and 2023-24 and for the stub period is Rs. 2173.40, 2010.25, 2371.79 and 2055.30 lakhs respectively.</p> <p>Estimated increase in Revenue from operations is attributable to Company's plans to Purchasing a material from the open market and make a distillation and sell to customer.</p>
<b>Net Working Capital</b>	<p>Net working capital is the difference between a company's current assets and current liabilities, representing the funds available for day-to-day operations. It is a crucial indicator of a business's short-term financial health and liquidity. One significant factor influencing</p>

	<p>working capital requirements is the size and scale of the business, as increased sales volume directly impacts these needs.</p> <p>For FY 2024-25, the company projects a total working capital requirement of ₹ 773.29 lakhs, which will be financed through internal accruals ₹ 473.29 Lakhs and through cash credit amounting to ₹ 300 Lakhs.</p> <p>For FY 2025-26, the company projects a total net working capital requirement of ₹. 4,699.51 lakhs, which will be financed through internal accruals of ₹ 1539.33 lakhs and proceeds from an IPO amounting to ₹ 2660.18 lakhs and through cash credit amounting to ₹ 500 Lakhs.</p> <p>As the company's operations and scale are expected to grow steadily, this will likely result in increased revenue from Open markets. Consequently, a larger proportion of funds will be allocated to trade receivables and inventories, further increasing working capital needs in the coming years.</p>
<b>Working Capital Cycle</b>	<p>Working Capital Cycle in the FY 2021-22, 2022-23, 2023-24 and stub period ended December 31, 2024 was 30, 40, 20, 8, 89 days respectively. And now we are estimating working capital cycle to be 129 and 156 days in year 2024-25 and 2025-26.</p> <p>Justification for such an increase are as follows:</p> <p>a. Trade Receivables are expected to increase and that will impact working capital cycles drastically. Trade Receivables will increase in FY 24-25 and FY 25-26 as company will put its more effort on adding new customers and in order to improve customer Relation Company will give longer credit period to compete.</p>

#### **Global Economic Overview**

The global economy, which grew by 3.3% in 2023, is expected to record a sluggish growth of 3.2% in 2024 before rising modestly to 3.3% in 2025. Between 2021-2022, global banks were carrying a historically high debt burden after COVID-19. Central banks took tight monetary measures to control inflation and spike in commodity prices. Russia's war with Ukraine further affected the global supply chains and inflated the prices of energy and other food items. These factors coupled with war-related economic sanctions impacted the economic activities in Europe. Any further escalation in the war may further affect the rebound of the economy in Europe.

While China, the largest manufacturing hub of world, was facing a crisis in the real estate sector and prices of properties were declining between 2020 - 2023, with the reopening of the economy, consumer demand is picking up again. The Chinese Government took several steps to help the real estate sector including cracking down on debt-ridden developers, announcing stimulus for the sector and measures to encourage the completion and delivery of unfinished real estate projects. The sector is now witnessing investments from developers and demand from buyers.

The year 2024 continued to remain a challenging year marked by uncertainties and transformative shifts. Numerous factors such as high inflation in many economies despite central bank effort to curb inflation, continuing energy market volatility driven by geopolitical tensions particularly in Ukraine and Middle East, and the re-election of Donald Trump as US President extended uncertainty around the trade policies as well as overall global economic growth. High inflation and rising borrowing costs affected the private consumption on one hand while fiscal consolidation impacted the government consumption on the other hand. As a result, global GDP growth is estimated to grow by 3.2% in CY 2024 as compared to 3.3% in CY 2023.

Note: Advanced Economies and Emerging & Developing Economies are as per the classification of the World Economic Outlook (WEO). This classification is not based on strict criteria, economic or otherwise, and it has evolved over time. It comprises of 40 countries under the Advanced Economies including the G7 (the United States, Japan, Germany, France, Italy, the United Kingdom, and Canada) and selected countries from the Euro Zone (Germany, Italy, France etc.). The group of emerging market and developing economies (156) includes all those that are not classified as Advanced Economies (India, China, Brazil, Malaysia etc.)

### GDP Growth Across Major Regions

GDP growth of major regions including Emerging and Developing Europe, Latin America & The Caribbean, Middle East & Central Asia, and Sub-Saharan Africa, were showing signs of slow growth and recession between 2020 – 2023, but leaving Latin America & The Caribbean, 2024 is expected to show resilience and growth. Meanwhile, GDP growth in Emerging and Developing Asia (India, China, Indonesia, Malaysia, etc.) is expected to decrease from 5.2% in CY 2024 to 5.1% in CY 2025, while in the North America, it is expected to decrease from 2.8% in CY 2024 to 2.7% in CY 2025.

Source-IMF World Economic Outlook January 2025 update.

Except for Emerging and Developing Asia, Emerging and Developing Europe and North America, all other regions are expected to record an increase in GDP growth rate in CY 2025 as compared to CY 2024. Further, growth in the United States is expected to come down at 2.7% in CY 2025 due to lagged effects of monetary policy tightening, gradual fiscal tightening, and a softening in labour markets slowing aggregate demand. India and China saw greater-than-anticipated growth in 2023 due to heightened government spending and robust domestic demand, respectively. Sub-Saharan Africa's expected growth in 2024 is attributed to the diminishing negative impacts of previous weather shocks and gradual improvements in supply issues.

## Global Economic Outlook

As 2025 begins, there is some uncertainty due to the likely shift in policy following numerous elections around the world. New policies could lead to new trajectories for inflation, borrowing costs, and currency values, as well as trade flows, capital flows, and costs of production. Meanwhile, governments and central banks continue to navigate a balance between a desire to suppress inflation and a goal to boost growth.

Real GDP in advanced economies is projected to grow 1.9% in 2025, up from 1.7% in 2024. In the US, economic activity is expected to remain robust, supported by solid income and productivity, even as real GDP growth slips from 2.8% in 2024 to 2.1% in 2025. In Europe, steady income growth and falling interest rates should drive stronger consumer spending growth and a modest recovery in investment. Real GDP growth in Japan is likely to rebound toward 1.1% driven by a gradual acceleration in real wages and consumer spending. Additionally, real GDP growth in mainland China slowing to 4.6% in 2025 as structural property sector and demographic challenges will restrain economic activity despite fiscal and monetary policy support. India should remain a bright spot, with real GDP growth expected at 6.5%, driven by public investment and strong domestic demand. Latin America is expected to see a mildly stronger expansion, despite a notable slowdown in growth in Brazil.

The emerging markets that have advantageous locations and preferential trade agreements across major blocs will grow. India, Saudi Arabia, Mexico, Brazil, the United Arab Emirates and Southeast Asian economies will benefit from maintaining or developing strong trade and investment relations across geopolitical blocs. India will continue to foster trade and investment ties across geopolitical divides while being a critical driver of South-South trade. Southeast Asia is likely to remain the top destination for foreign investment among emerging markets. In the US, protectionist measures will be used in a transactional manner to extract trade, immigration, drug traffic control, defense spending and other political concessions from trading partners. We anticipate targeted tariffs on trading partners. However, we note that a scenario factoring 60% tariffs on Chinese imports

and a 10% universal tariff on all imports from other US trading partners (assuming proportional retaliation against US exports) would reduce global GDP by 1.4% after two years, with GDP in the US, mainland China, Mexico and Canada reduced by 2.0% to 3.0%.

In Europe, the European Commission will also make increasing use of trade-defensive tools such as tariffs and step up scrutiny of foreign direct investments in strategic sectors. And, in emerging countries, this trend will increasingly manifest in resource nationalism, as governments from Mexico to Indonesia seek greater state involvement in the resources sector or higher value-added process to occur domestically.

Global inflation is expected to decline steadily, to 4.2% in 2025 and to 3.5% in 2026 still somewhat higher than the 3.1% pace in 2019. In advanced economies, where inflation surged to multidecade highs following the pandemic, price pressures are expected to moderate but remain uneven. Wage cost pressures, potential tariffs and limited innovation undermining global competitiveness in some sectors are likely to persist across European economies and the UK. In the US, we expect the moderating trend in inflation will remain in place through early 2025, though it could then change as deregulation, potential immigration restrictions and tariffs lead to a renewed inflation impulse. In contrast to President-elect Trump’s first term, these inflationary pressures would come in a new paradigm defined by fragile supply conditions, elevated geopolitical tensions and structural upside risks to inflation. Geopolitical tensions such as the wars in Ukraine and the Middle East could further exacerbate inflation volatility, particularly in energy and agricultural commodities.

Mainland China will face a different macroeconomic challenge: the risk of deflation due to subdued consumer spending trends, cautious business investment and ongoing deleveraging in the property sector. This has prompted authorities to announce stimulus measures to prevent exacerbating deflationary pressures. Indeed, deflation could slow the economic recovery by delaying consumer purchases, eroding corporate revenues and worsening real debt burdens, particularly if property sector weakness and slowing exports continue to weigh on private sector confidence. Emerging markets will grapple with the challenge of curbing inflation while contending with fragile supply chains, volatile commodity prices and foreign exchange fluctuations. Several Asian emerging economies, including India and Indonesia, are better positioned to maintain price stability due to proactive fiscal measures and monetary prudence. The combination of a diversified supply base that mitigates reliance on external inputs and importing deflation from China should further support disinflation.

### India Macroeconomic Scenario

In India, growth is expected to decelerate to 6.5% in FY 2024 from 8.2% in FY 2023, reflecting a slowdown in investment and weak manufacturing growth. However, services activity has been steady, while growth in the agricultural sector has recovered. Private consumption growth has remained resilient, primarily driven by improved rural incomes accompanied by a recovery of agricultural output. In contrast, higher inflation and slower credit growth have curbed consumption in urban areas.

Country	Real GDP Growth (CY 2023)	Estimated GDP Growth (CY 2024)	Projected GDP Growth (CY 2025)	Projected GDP Growth (CY 2026)
India	8.2%	6.5%	6.5%	6.5%
China	5.2%	4.8%	4.6%	4.5%
Russia	3.6%	3.8%	1.4%	1.2%

### Historical GDP and GVA Growth trend

As per the provisional estimates 2023-24, India’s GDP in FY 2024 grew by 8.2% compared to 7.0% in the previous fiscal on the back of solid performances in manufacturing, mining, and construction sectors. The year-on-year increase in growth rate is also partly due to by a strong growth in investment demand led by public capital expenditure.

### Sectoral Contribution to GVA and annual growth trend

Source: Ministry of Statistics & Programme Implementation (MOSPI)

Sectoral analysis of GVA reveals industrial sector recovered sharply registering 9.5% y-o-y increase in FY 2024 against 2.1% in the previous fiscal. In the industrial sector, growth across major economic activity such as mining, manufacturing and construction sector rose significantly and it registered a growth of 7.1%, 9.9% and 9.9% in FY 2024 against a y-o-y change of 1.9%, -2.20%, and 9.44% in FY 2023, respectively. Utilities sector observed a marginal moderation in y-o-y growth to 7.5% against 9.44% in the previous years.

Talking about the services sector's performance, with major relaxation in covid restriction, progress on COVID-19 vaccination and living with virus attitude, business in the service sector gradually returned to normalcy in FY 2023. Economic recovery was supported by the service sector as individual mobility returned to the pre-pandemic level. The trade, hotel, transport, communication, and broadcasting segment continued to strengthen in FY 2023 and grow in FY 2024, although the growth hasn't shown substantial increases. In FY 2024, services sector grew by 7.6% against 10% y-o-y growth in the previous year.

### Expansion in Service Sector

Services sector is a major contributor to the country's overall economic growth. In absolute terms, services sector GVA has increased from INR 68.78 trillion in FY 2019 to INR 86.6 trillion in FY 2024 (as per the provisional estimated), registering a CAGR of nearly 5%. Within Services sector, the GVA by financial, real estate and professional services-the largest contributing segment observed 6.3% CAGR while Public Administration, defence and other services<sup>1</sup> observed 4.5% CAGR and Trade, hotels, transport, communication, and services related to broadcasting witnessed 3.1% CAGR between FY 2019-24.

India's HSBC Services Purchasing Managers' Index, an important indicator to track service sector performance, measured 60.3 in July 2024 against 60.5 in the previous month. Since August 2021, the services sector has consistently remained above the threshold of 50, which distinguishes growth from contraction.

### IIP Growth

Industrial sector performance as measured by IIP index; in FY 2024 it is growing at 5.9% (against 5.2% in FY 2023). Previously IIP index exhibited temporary recovery in FY 2022 from the low of Covid induced slowdown in industrial growth during FY 2020 and FY 2021. Manufacturing index, with 77.6% weightage in overall index, grew by 5.5% in FY 2024 against 4.7% y-o-y growth in FY 2023 while mining sector index too grew by 7.5% in FY 2024 against 5.8% in the previous years. Mining & manufacturing both shown improvement according to previous except the Electricity sector Index, witnessed an improvement of 7.1% in FY 2024 against 8.9% in the previous year.

<sup>1</sup> Other services include Education, Health, Recreation, and other personal services.

As per the use-based classification, most segments have shown growth for FY 2024 compared to FY 2023. Capital good and primary goods were segments which faced less growth as compared to previous year. The contracting IIP data points towards adverse operating business climate as global headwinds, high inflation, and monetary tightening cumulatively impacted the broader industrial sector performance. In contrast all the segments except the above two have shown growth.

## Monthly IIP Growth Trend

Source: Ministry of Statistics & Programme Implementation (MOSPI)

In the current fiscal FY 2025, the monthly IIP measured index has reported steady improvement over the last fiscal. Overall IIP index grew by 5.2% in November 2024 against 2.3% y-o-y growth observed in November 2023. However, the mining sector index growth slowed to 1.9% in November 2024, against 7.0% y-o-y growth in November 2023 while the manufacturing sector index exhibited substantial improvement and they grew by 5.8% in November 2024 against 1.6% in November 2023, respectively.

Sources: MOSPI

As per the use-based classification, growth in all segments excluding consumer non-durable increased in November 2024 as compared to the previous month. Growth in consumer non-durable segment slowed in November 2024 to 0.6% as against 2.7% in October 2024.

## Inflation Scenario

The inflation rate based on India's Wholesale Price Index (WPI) exhibited significant fluctuations across different sectors from August 2023 to December 2024. Overall WPI number measured 2.4% in December 2024. Positive rate of inflation in December 2024 is primarily due to increase in prices of food articles, manufacture of food products, other manufacturing, manufacture of textiles and non-food articles etc. By December 2024, Primary Articles WPI inflation moderated compared to October prices level but increase marginally compared

to the previous month and measured 6.0%. The Price of food articles (-3.08%) and crude petroleum & natural gas (- 2.87%) decreased in December 2024 compared to the previous month i.e. November 2024. However, the Price of non-food articles grew by 2.53% and minerals by 0.48% in December 2024 as compared to November 2024.

Moreover, power & fuel, the index for this major group increased by 1.90% to 149.9 in December 2024 from 147.1 in the month of November 2024. Price of electricity (8.81%) and coal (0.07%) increased in December 2024. The price of mineral oils (-0.06%) decreased in December 2024 as compared to November 2024.

Retail inflation rate (as measured by the Consumer Price Index) in India showed notable fluctuations between August 2023 and December 2024. Rural CPI inflation peaked at 9.67% in August 2023, declining to 8.65% in December 2024. Urban CPI inflation followed a similar trend, rising to 10.42% in August 2023 and then dropping to 7.90% in December 2024. Overall, the national CPI inflation rate increased to 9.94% in August 2023 but moderated to 8.39% by December 2024, indicating a gradual easing of inflationary pressures across both rural and urban areas. CPI measured above 6% tolerance limit of the central bank since July 2023. As a part of an anti-inflationary measure, the RBI has hiked the repo rate by 250 bps since May 2022 to the current 6.5% while it has been holding the rate at 6.5% since 8 Feb 2023.

### Growth Outlook

India's H1 FY2024-25 GDP slowdown is cyclical, driven by credit tightening and delayed fiscal spending, but strong fundamentals should support growth in the second half of the fiscal year. Politically, the continuation of the National Democratic Alliance (NDA) government signals sustained reforms, with optimism around labour and land reforms. The government is also taking steps to control retail inflation by managing food prices and

import duties. Retail inflation eased to 5.2% y/y in December, down from 5.5% in November as vegetable prices moderated following a bumper summer harvest and favorable monsoon. Still-high food prices and geopolitical tensions continue to pose risks to inflation and growth. High retail credit and rising unsecured loans signal consumption-driven borrowing, yet urban demand remains under pressure. Rural demand has shown resilience, benefitting from favorable monsoons, robust agricultural output and elevated food prices. The RBI's September economic review highlighted a contrasting trend in rural and urban consumption demand in H1 FY2024- 25, with rural demand remaining robust, while urban demand showed weakness.

On external front, the global business environment remains cautious, with geopolitical tensions, particularly in Gaza, posing potential risks to global stability. In mid-January 2025, the Indian rupee dropped below INR 86.6 USD, due to strong dollar demand from foreign banks, likely due to outflows from equities and the weakness in regional peers as the dollar strengthened. Rupee continued to face pressure due to sustained foreign fund outflows and the broad strength of the American currency in the overseas markets due to unabated dollar demand from oil importers and weak risk appetite

Looking ahead to 2025, India's projected GDP growth of 6.5% stands out as the fastest among major emerging markets, significantly outpacing China's 4.6%, and Brazil's 2.2%. This robust growth trajectory is expected to sustain at 6.5% annually from 2025 to 2026, reflecting strong economic fundamentals and continued momentum.

This decent growth momentum in near term CY 2025 is accompanied by a slowdown in inflation, as well as various other factors in the medium to long term that will support the economy. These include enhancements in physical infrastructure, advancements in digital and payment technology, improvements in the ease of doing business and a higher quality of fiscal expenditure to foster sustained growth.

On the demand side, improving employment conditions and moderating inflation are expected to stimulate household consumption. Further, the investment cycle is gaining traction, propelled by sustained government capital expenditure, increased capacity utilization and rising credit flow.

From uplifting the underprivileged to energizing the nation's infrastructure development, the Government has outlined its vision to propel India's advancement and achieve a 'Viksit Bharat' by 2047 in the interim budget announced on 1st Feb 2024. The Union Budget for FY26, which takes a balanced approach to sustaining economic momentum. With a focus on stimulating demand, driving investment and ensuring inclusive development, the budget introduces measures such as tax relief, increased infrastructure spending and incentives for manufacturing and clean energy. These initiatives aim to accelerate growth while maintaining fiscal discipline, reinforcing India's long-term economic resilience. The expansion of tax relief i.e zero tax liability for individuals earning up to INR 12 lacs annually under the new tax regime is expected to strengthen household finances and, consequently, boost consumption.

## **SOLVENT AND SOLVENT RECYCLING: INDUSTRY OVERVIEW**

### **Insight on Solvents, Types of Solvents and Application Areas**

Solvents are versatile chemical substances that facilitate the dissolution, dilution, or dispersion of other materials without changing their chemical structure. They are crucial across various industries, including pharmaceuticals, chemicals, coatings, food processing, and cleaning, due to their ability to enhance formulation processes and extraction techniques.

- Solvents are primarily classified based on polarity and chemical composition, which determine their solubility characteristics. Polar solvents, known for their high dielectric constant, effectively dissolve ionic and polar compounds. These are further divided into protic solvents, which participate in hydrogen bonding (e.g., water, ethanol), and aprotic solvents, which lack hydrogen bonding capabilities but still exhibit polarity (e.g., acetone, dimethyl sulfoxide). Conversely, nonpolar solvents have minimal charge

separation and are ideal for dissolving nonpolar substances like oils and hydrocarbons, with hexane and benzene being common examples.

- Based on chemical composition, solvents are segmented into the three main types: organic, inorganic, and bio-based solvents.
  - Organic solvents, widely used in industrial applications, include aliphatic solvents (e.g., hexane), aromatic solvents (e.g., toluene), oxygenated solvents (e.g., acetone, ethanol), and halogenated solvents (e.g., chloroform, dichloromethane).
  - Inorganic solvents, which do not contain carbon, are typically used in specialized chemical processes and include protic inorganic solvents like sulfuric acid and aprotic inorganic solvents such as phosphorus oxychloride.
  - With rising environmental concerns, bio-based solvents, derived from renewable plant and biomass sources (e.g., ethyl lactate, d-limonene), are gaining traction due to their reduced environmental impact and lower toxicity.

Solvents serve a wide range of applications, from paints and coatings to polymer processing, pharmaceuticals, and industrial cleaning. However, with increasing regulatory scrutiny and sustainability initiatives, industries are shifting toward eco-friendly and recyclable solvents to minimize health risks and environmental damage. Innovations in solvent recovery and recycling technologies aim to enhance industrial efficiency while promoting responsible chemical usage, ensuring a more sustainable and environmentally conscious future for solvent applications.

## TYPES OF SOLVENTS

Solvents are classified based on their “Polarity and Chemical Composition.”

- **Polar Solvents:**
  - Polar solvents are liquids with molecules that have partial positive and negative charges (dipole moments). These charges arise because the atoms in the molecule have significantly different electronegativities.
  - Polar solvents are excellent at dissolving ionic and polar substances due to their ability to interact with these solutes through electrostatic forces or hydrogen bonding.

- The most common solvents used in drug delivery systems are polar solvents, including, among others, water and alcohol. Other polar solvents, such as alcohols, aldehydes and sugar ketones and other compounds of -OH groups, are typical solutes for which polar solvents are used.

They are broadly classified into “Protic and Aprotic” types:

- **Aprotic Solvents:** A hydrogen atom is not joined to an electronegative atom in aprotic liquids. These solvents are distinguished by their incapacity to interact with other molecules via hydrogen bonds.
- **Protic Solvents:** A protic solvent is composed of molecules that could act as hydrogen-bond donors. Alcohol, water, and carboxylic acids are some examples of protic solvents.

- **Nonpolar Solvents:**

- Nonpolar solvents are substances that lack significant electrical charges or poles within their molecules. This characteristic prevents them from forming hydrogen bonds or strong polar interactions with other molecules. Despite not having permanent dipoles, nonpolar solvents can still dissolve certain substances through induced dipole-induced dipole interactions (also known as van der Waals forces).

- **Organic Solvents:**

- Organic solvents are carbon-based chemical compounds used to dissolve, disperse, or extract substances. Their molecular structure always includes at least one carbon atom, often accompanied by hydrogen atoms.
- These solvents are extensively used in industries such as pharmaceuticals, paints, varnishes, adhesives, and cleaning agents. They are known for their volatility and low boiling points, which make them effective but also potentially hazardous due to their toxic or carcinogenic properties. These contain carbon and are further classified into:
  - **Aliphatic Solvents:** Aliphatic solvents are hydrocarbons derived from petroleum distillation. They consist of straight, branched, or cyclic saturated hydrocarbons (alkanes) and do not contain aromatic rings like benzene.
  - **Aromatic Solvents:** Aromatic solvents are hydrocarbons that contain one or more benzene rings in their molecular structure. They are derived from crude oil distillation or coal tar processing.
  - **Oxygenated Solvents:** Oxygenated solvents are organic compounds containing oxygen atoms in functional groups such as alcohols, ketones, or esters. They are polar solvents with high solubility for a variety of substances.
  - **Halogenated Solvents:** Halogenated solvents contain halogen atoms (chlorine, fluorine, bromine) within their molecular structure. These solvents are known for their strong solvency power and chemical stability.

- **Inorganic Solvents:**

- Inorganic solvents are non-carbon-based solvents used in chemical processes that require environments unsuitable for organic solvents or water. These solvents are essential in research and industry for reactions that cannot occur in aqueous solutions or when specific chemical properties are needed.
- **Protic Inorganic Solvents:** Contain hydrogen atoms capable of forming hydrogen bonds. These are often used for generating solutions of highly reactive species.
- **Aprotic Inorganic Solvents:** Lack hydrogen capable of forming hydrogen bonds. They are useful for studying highly electrophilic or oxidizing compounds.

- **Bio-based Solvents:**

- Bio-based solvents are made from the vegetable oils, lactic acid, bio-succinic acid, beet, sugarcane, corn, and refined glycerine. These solvents are manufactured in a biorefinery that combines equipment and biomass conversion process, that further produces fuel and power. They are also used in the production of chemical products such as bio-glycols and bio-alcohols.
- Bio-based solvents refer to solvents derived from renewable biomass sources like plants, often used as a more environmentally friendly alternative to traditional petroleum-based solvents.
- Example including ethanol (from sugarcane), soy methyl esters, and citrus-based terpenes; these are gaining traction in industries like paints, coatings, cleaning products, and personal care due to their sustainability benefits.

## APPLICATIONS AREAS OF SOLVENTS

### 1) Polar Solvents

<b>Pharmaceutical Industry</b>	<p><b>Drug Development:</b> Polar solvents like water and ethanol are used in the synthesis and purification of pharmaceuticals. They help dissolve active ingredients and facilitate chemical reactions necessary for drug production.</p> <p><b>Extraction and Purification:</b> Solvents such as methanol and acetone are used to extract active compounds from natural sources and to purify them for use in medications.</p>
<b>Chemical Industry</b>	<p><b>Catalysis and Reactions:</b> Polar solvents like DMSO and acetonitrile are used in chemical reactions to stabilize ions and facilitate catalytic processes. They are particularly useful in reactions requiring high solubility of polar compounds.</p> <p><b>Synthesis:</b> Protic polar solvents like water and alcohols are used in condensation reactions and other organic syntheses where the solvent's ability to donate protons is beneficial.</p>
<b>Optoelectronics</b>	<p><b>Flexible Displays:</b> Polar solvents are used in the production of flexible displays and electronics. They help in dissolving and depositing materials onto flexible substrates, enabling the creation of flexible electronic devices.</p>
<b>Cleaning Applications</b>	<p><b>Industrial Cleaning:</b> Alcohols and other polar solvents are effective for removing grease, oils, and other contaminants from surfaces due to their ability to dissolve polar substances.</p> <p><b>Domestic Use:</b> Ethanol and methanol are used in household cleaning products for their ability to dissolve and remove stains and odours.</p>

## 2) Nonpolar Solvents

<b>Oil and Gas Industry</b>	<b>Oil Extraction:</b> Nonpolar solvents like hexane are used to extract oils from plant materials and petroleum products. They dissolve nonpolar substances efficiently, making them ideal for oil refining processes.
	<b>Refining Processes:</b> Solvents such as toluene and xylene are used in various stages of petroleum refining to separate different fractions of crude oil.
<b>Paints and Coatings</b>	<b>Pigment Dispersion:</b> Nonpolar solvents like mineral spirits and turpentine are used to dissolve and carry pigments in paints, ensuring uniform colour distribution.
	<b>Viscosity Control:</b> They help reduce the viscosity of paints, making them easier to apply smoothly.
<b>Automotive Industry</b>	<b>Degreasing:</b> Nonpolar solvents such as hexane and heptane are used to remove grease and oils from automotive parts without damaging surfaces.
	<b>Tool Cleaning:</b> Effective for cleaning tools and machinery by dissolving nonpolar residues.
<b>Adhesives and Sealants</b>	<b>Polymer Dissolution:</b> Nonpolar solvents dissolve hydrophobic polymers, which are then used in adhesive formulations to improve bonding properties.

## 3) Organic Solvents

<b>Pharmaceuticals</b>	<b>Drug Synthesis:</b> Organic solvents like acetone and ethanol are used in the synthesis of pharmaceuticals. They facilitate chemical reactions and help purify active ingredients.
	<b>Formulation:</b> Solvents such as glycerine and propylene glycol are used in drug formulations to improve solubility and bioavailability.
<b>Paints and Coatings</b>	<b>Pigment Dispersion:</b> Organic solvents like toluene and xylene are used to dissolve and carry pigments, ensuring uniform colour distribution in paints.
	<b>Drying Time Control:</b> They help control the drying time of coatings by adjusting the evaporation rate.
<b>Adhesives</b>	<b>Polymer Solubilization:</b> Organic solvents dissolve polymers, which are then used in adhesive formulations to enhance bonding strength.
<b>Dry Cleaning</b>	<b>Fabric Cleaning:</b> Halogenated organic solvents like tetrachloroethylene are used for dry cleaning fabrics without water, effectively removing stains and oils.

## 4) Inorganic Solvents

---

**Chemical Synthesis**

**Protic Inorganic Solvents:** Ammonia and sulfuric acid are used to stabilize reactive species and catalyze reactions. They provide environments conducive to specific chemical transformations.

**Aprotic Inorganic Solvents:** Solvents like sulphur dioxide are used in reactions requiring highly electrophilic or oxidizing conditions.

---

**Electrochemistry**

**Aprotic Inorganic Solvents:** Used in electrochemical studies to provide environments that support highly reactive species without interfering through hydrogen bonding.

---

**Industrial Applications**

**Unique Environments:** Inorganic solvents are used when specific chemical properties are required that cannot be achieved with organic solvents or water. They support reactions and processes that need non-carbon-based solvents.

## **BRIEF PROFILE ON SOLVENT RECOVERY: INSIGHT ON KEY PROCESSES USED, COMMON SOLVENTS RECOVERED, ADVANTAGES / NEED FOR SOLVENT RECOVERY**

### **OVERVIEW ON SOLVENT RECOVERY**

Solvent recovery is a process designed to extract and reclaim solvents from waste or by-products generated during industrial operations. This method purifies used solvents, making them suitable for reuse in production processes. By reducing the need to purchase new solvents and minimizing waste disposal, solvent recovery significantly lowers operational costs and environmental impact. It is widely employed across industries such as pharmaceuticals, chemicals, cannabis extraction, and manufacturing. Without solvent recovery, many industrial processes would become economically unviable due to the high cost of solvent procurement and disposal.

One of the most effective technologies in solvent recovery is the use of activated carbon. Activated carbon captures solvents from waste streams, enabling their reclamation and reuse. This not only recovers valuable resources but also prevents harmful emissions from being released into the atmosphere. In some cases, recovered solvents can even be sold to other industries for reuse, creating an additional revenue stream. Furthermore, energy generated during the recovery process can be reused within operations, reducing energy costs. Solvent recovery is both an economical solution and a key contributor to environmental sustainability.

In-process solvent recovery is also a powerful form of waste reduction. It serves as an alternative to replacing solvents entirely by reclaiming them directly within existing processes, requiring minimal modifications to operations. The availability of advanced solvent recovery equipment—suitable for both large-scale continuous operations and small-scale batch processes—makes it an attractive option for industries of all sizes. This approach not only supports compliance with environmental regulations but also aligns with sustainability goals by promoting resource efficiency and reducing hazardous waste generation.

### **KEY PROCESS USED**

In India, various solvent recovery processes are employed across different industries to optimize efficiency, reduce costs, and enhance environmental sustainability.

Below is the major solvent recovery process used in industry:

These solvent recovery processes are widely adopted across Indian industries such as pharmaceuticals, chemicals, textiles, paints, and electronics due to their cost-effectiveness, regulatory compliance benefits, and environmental sustainability contributions.

## 1. Distillation

**Principle:** Distillation is one of the most widely used solvent recovery processes. It separates solvents based on their boiling points. The process involves heating the waste solvent mixture in a distillation vessel until the solvent with a lower boiling point vaporizes. The vapor is then condensed into a liquid form, leaving behind impurities.

Distillation is a fundamental separation technique in industrial chemical processing. It exploits differences in boiling points to achieve high-purity separation of components within mixtures. It plays a crucial role in recovering and purifying products and solvents, essential for producing most commodity and specialty chemicals. While commonly used, conventional distillation methods encounter challenges with azeotropes and mixtures with closely spaced boiling points, often resulting in incomplete separations and inefficiencies.

### Steps:

- Vaporization: The solvent is heated until it vaporizes, separating from contaminants.
- Condensation: The vapor passes through a condenser where it cools and returns to liquid form.
- Collection: The purified solvent is collected in storage containers for reuse.

**Mechanism:** Distillation relies on thermal energy to separate volatile components from non-volatile impurities. Advanced techniques like vacuum distillation are used for high-boiling solvents by reducing pressure to lower their boiling points.

### Types:

- Simple Distillation: Used for single-component solvent recovery.
- Fractional Distillation: Separates multiple solvents with close boiling points.
- Vacuum Distillation: Used for high-boiling solvents by reducing pressure to lower boiling points.

### Example:

- Pharmaceutical Industry (Aurobindo Pharma):

Aurobindo Pharma uses vacuum distillation to recover high-purity solvents like ethanol and acetone from production waste. This process achieves over 95% solvent recovery, saving approximately INR 10 crore annually while reducing hazardous waste disposal costs.

## 2. Adsorption

**Principle:** Adsorption is a physical process in which organic species are transferred onto the surface of a solid adsorbent. Adsorption is a particularly attractive control method as it can handle large volumes of gases of low pollutant concentrations. It is capable of removing contaminants down to very low levels. Removal efficiency is typically greater than 95%. The most frequently used adsorbent in the organic compound applications is activated carbon, although zeolites and resins are also used.

Adsorption technologies focus on two applications:

1. The recovery of valuable industrial solvents
2. The removal of organic compounds such as toxic compounds

Adsorption is the most widely used solvent-recovery technique and is also used for odor control. The latter application is necessary to meet statutory air pollution control requirements. Depending on the application, adsorption can be used alone or with other techniques such as incineration.

### Steps:

- Contacting Vapours: Solvent-laden air passes through an adsorption column containing the adsorbent.
- Retention: The adsorbent traps solvent molecules while releasing purified air.
- Regeneration: Heat or chemical treatment regenerates the adsorbent, releasing the trapped solvents for recovery.

**Mechanism:** Adsorption works by leveraging the large surface area of adsorbents to bind contaminants through physical or chemical interactions.

**Applications:** Commonly used for recovering solvents from air streams in industries like paints and coatings.

Example:

- Paints Industry (Asian Paints):  
Asian Paints employs carbon adsorption systems to recover solvents like toluene and xylene from exhaust streams. This reduces VOC emissions by 40% and saves INR 5 crore annually on fresh solvent purchases.

## 3. Membrane Separation

**Principle:** Membrane separation uses semi-permeable membranes to separate solvents based on molecular size or properties. It is energy-efficient and ideal for water-solvent separations. Advanced polymeric membranes ensure consistent quality while reducing energy consumption significantly.

- Reverse osmosis membranes remove contaminants at molecular levels
- Multi-stage filtration enhances the overall recovery efficiency

### Steps:

- Feed Solution: Waste solvent is passed through a membrane module.
- Selective Permeation: Smaller molecules pass through the membrane while larger impurities are retained.
- Collection: Purified solvent is collected on the permeate side for reuse.

**Mechanism:** Membranes filter solvents without requiring phase changes, making it highly efficient for energy conservation.

**Applications:** Used in pharmaceutical and chemical industries.

Example:

- **Chemical Industry (Grasim Industries):**  
Grasim Industries uses membrane separation to recover toluene from wastewater streams. This method achieves a recovery efficiency of up to 85%, saving ₹7 crore annually in solvent procurement costs.

#### 4. Extractive Distillation

**Principle:** A third component (solvent) is added to alter the relative volatility of components in an azeotropic or close-boiling mixture, enabling separation.

Extractive distillation is a powerful technique for separating close-boiling and azeotropic mixtures. Understanding its mechanics and applications is essential as it becomes more prominent in industrial chemical processes worldwide.

**Steps:**

- **Addition of Extractant:** A solvent is introduced into the mixture to change boiling point differences.
- **Distillation Process:** The altered mixture undergoes distillation to separate components.
- **Recovery of Solvent and Extractant:** Both are recovered for reuse.

**Mechanism:** This method enhances separation efficiency for complex mixtures that cannot be separated by simple distillation.

**Applications:** Commonly used in petrochemical and pharmaceutical industries.

Example:

- **Petrochemical Industry (Reliance Industries):**  
Reliance Industries uses extractive distillation to separate benzene, toluene, and xylene (BTX) from naphtha-based steam crackers. This process achieves purity levels of over 99%, contributing significantly to their petrochemical product line.

#### 5. Liquid-Liquid Extraction

**Principle:** Solvents are separated based on their solubility in different immiscible liquids.

In Liquid-Liquid Extraction a Liquid (Carrier) containing the components to be separated is passed in an Extraction Column where it contacts a solvent. The two liquids must be immiscible or slightly miscible. A dispersion is formed with one liquid in the form of droplets. The Mass Transfer takes place between the Droplets and solvent in continuous flow. Based on density differences, the two liquids are separated, and are recovered at the top or bottom of the Extraction column.

**Applications:** Effective for separating solvents that cannot be distilled easily.

Example:

- **Pharmaceutical Industry (Sun Pharma):**  
Sun Pharma uses liquid-liquid extraction to recover methanol from aqueous waste streams during API manufacturing. This process reduces methanol procurement costs by INR 3 crore annually and cuts hazardous waste generation by 50%.

#### 6. Air Stripping

**Principle:** Air is bubbled through a liquid waste stream, stripping volatile solvents into the air stream, which are then condensed for recovery.

Air stripping is a process by which a liquid, usually wastewater, is brought into intimate contact with a gas, usually air, so that some undesirable volatile substances present in the liquid phase can be released and carried away by the gas. Processes such as mechanical surface aeration, diffused aeration, spray fountains, spray or tray towers, and counter current packed towers are encompassed by the term air stripping. These procedures produce a condition in which a large surface area of the water to be treated is exposed to air, which promotes transfer of the contaminant from the liquid phase to the gaseous phase.

**Applications:** Used in wastewater treatment plants.

Example:

- Chemical Industry (Tata Chemicals):  
Tata Chemicals employs air stripping to recover acetone from wastewater streams in its chemical manufacturing units. This reduces VOC emissions by over 30% and saves INR 2 crore annually on acetone purchases.

## 7. Steam Stripping

**Principle:** Steam is used instead of air to strip volatile solvents from liquid mixtures.

Steam stripping uses heat to reduce a pollutant's partial pressure, generating a positive mass transport between the water and gas through steam injection. It is most effective for reducing VOCs with lower boiling points than water and those with limited solubility.

In a standard steam stripping column, liquid enters through the top of the tower while the steam input moves through the bottom. The water travels into the column and flows downward and through the packing in a counter current motion to the steam. The packing then increases contact between both streams. Once the vapor leaves the stripping tower, it either collects for purification or evaporates into the atmosphere.

**Applications:** Effective for high-boiling solvents. Steam stripping is a wastewater distillation process that removes substances like benzene, xylenes and chlorinated hydrocarbons from the water using high temperatures that eliminate heavy soluble organic compounds. Industrial facilities, such as petrochemical plants and petroleum refineries, textile industry often use this process.

Example:

- Textile Industry (Raymond Limited):  
Raymond uses steam stripping to recover dimethylformamide (DMF) from textile dyeing processes. This process achieves a recovery efficiency of over 90%, saving INR 1 crore annually on DMF procurement costs while reducing environmental impact.

## 8. Hybrid Systems

**Principle:** Combines multiple techniques like distillation with adsorption or membrane separation for complex waste streams.

A "hybrid solvent recovery system" refers to a system that combines multiple different separation technologies, like distillation, membrane filtration, adsorption, and liquid-liquid extraction, to effectively recover solvents from a mixture, especially when dealing with complex or challenging solvent compositions where a single method might not be sufficient; essentially, it leverages the strengths of different techniques to achieve optimal solvent recovery results.

**Application:** Provides higher efficiency and purity levels.

Example:

- Electronics Industry (Bharat Electronics Limited - BEL):

BEL employs a hybrid system combining fractional distillation and adsorption to recover isopropyl alcohol (IPA) used in cleaning electronic components. This system achieves purity levels of over 99%, reducing IPA procurement costs by INR 1 crore annually while ensuring compliance with environmental norms.

**Following table gives summary of the process and usages in Industry:**

Process	Principle	Benefits
Distillation	Separation by boiling points	Saves ₹10 crore annually: recovers >95% ethanol
Adsorption	Trapping vapours on solid surfaces	Reduces VOC emissions by 40%; saves ₹5 crore annually
Membrane Separation	Molecular size-based separation	Recovers 85% toluene; saves ₹7 crore annually
Extractive Distillation	Altering relative volatility	Achieves >99% BTX purity
Liquid-Liquid Extraction	Solubility-based separation	Cuts methanol waste by 50%; saves ₹3 crore annually
Air Stripping	Air bubbling through liquids	Reduces VOC emissions by >30%; saves ₹2 crore annually
Steam Stripping	Steam bubbling through liquids	Recovers >90% DMF; saves ₹1 crore annually
Hybrid Systems	Combining multiple techniques	Achieves >99% IPA purity; reduces costs by ₹1 crore annually

## COMMON SOLVENTS RECOVERED

Indian industries recover a variety of solvents to optimize resource use, reduce waste, and enhance sustainability.

Below is a detailed table of solvent recovery processes, their mechanisms, and examples of solvents recovered in various industries in India.

Solvent Recovered	Industry Area	Recovery Process
Ethanol	Pharmaceuticals, Cosmetics	Distillation (Simple, Fractional)
Acetone	Paints and Coatings, Cleaning	Distillation (Simple, Fractional)
Toluene	Paints and Coatings, Adhesives	Distillation (Simple, Fractional)
Hexane	Oil Extraction, Adhesives	Distillation (Simple, Fractional)
Methanol	Chemical Synthesis, Fuel	Distillation (Simple, Fractional)
Isopropanol	Cleaning, Electronics	Distillation (Simple, Fractional)
Chloroform	Pharmaceuticals, Laboratories	Distillation (Simple, Fractional)
Ethyl Acetate	Paints and Coatings, Adhesives	Distillation (Simple, Fractional)
Dimethyl Sulfoxide (DMSO)	Pharmaceuticals, Chemical Synthesis	Distillation (Simple, Fractional)
Dichloromethane (DCM)	Paint Stripping, Chemical Synthesis	Distillation (Simple, Fractional)
Sulfuric Acid	Chemical Synthesis, Batteries	Distillation (Vacuum)
Ammonia	Cleaning, Refrigeration	Distillation (Vacuum)
Cyclohexane	Chemical Synthesis, Polymer Industry	Distillation (Simple, Fractional)
Tetrahydrofuran (THF)	Polymer Industry, Chemical Synthesis	Distillation (Simple, Fractional)
Benzene	Chemical Synthesis, Printing Inks	Distillation (Simple, Fractional)

Solvent Recovery Process	Mechanism	Solvents Recovered
Distillation	Separates solvents based on boiling points. Vaporized solvent is condensed back into liquid form.	Ethanol, Acetone, NMP (N-Methyl-2-Pyrrolidone), DMAc (N, N-Dimethylacetamide)
Adsorption	Solvent vapours are trapped on solid materials like activated carbon or molecular sieves.	Toluene, Xylene
Membrane Separation	Semi-permeable membranes separate solvents by molecular size or chemical properties.	Toluene, Methanol

Extractive Distillation	A third component is added to alter the relative volatility of azeotropic mixtures for separation.	Benzene, Toluene, Xylene (BTX)
Liquid-Liquid Extraction	Solvents are separated based on their solubility in immiscible liquids.	Methanol, NMP ((N-Methyl-2-Pyrrolidone))
Air Stripping	Air bubbles strip volatile solvents from liquid waste streams into an air stream for recovery.	Acetone
Steam Stripping	Steam replaces air to strip high-boiling solvents from liquid mixtures.	Dimethylformamide (DMF)
Hybrid Systems	Combines multiple techniques like distillation and adsorption for complex waste streams.	Isopropyl Alcohol (IPA), Ethanol

These solvents are recovered using various techniques such as distillation, adsorption, membrane separation, and steam stripping, depending on their properties and industrial applications. Solvent recovery is crucial for reducing costs, minimizing environmental impact, and enhancing operational efficiency across Indian industries.

### ADVANTAGES / NEED FOR SOLVENT RECOVERY

Solvent recovery is a critical practice in modern industries, offering economic, environmental, and operational benefits. Solvent recovery is both economically and environmentally beneficial, making it an essential practice for sustainable industrial operations.

Solvent recovery is essential for modern industries seeking to balance cost-efficiency, regulatory compliance, operational continuity, and environmental responsibility. By implementing advanced recovery technologies, businesses can achieve substantial financial savings while contributing to sustainability goals. The integration of solvent recovery systems not only enhances operational efficiency but also positions companies as leaders in green industrial practices—ensuring long-term success in an increasingly eco-conscious world.

## 1. Financial Benefits

- Reduction in Solvent Procurement Costs: By recovering and reusing solvents, industries significantly reduce the need to purchase new solvents, saving up to 50% on procurement expenses.
- For example, In India, the pharmaceutical company Aurobindo Pharma implemented a solvent recovery system that reduced its solvent procurement costs by 30%. This was achieved by recovering high-purity solvents like ethanol and acetone used in manufacturing processes.
- Lower Waste Disposal Costs: Hazardous waste disposal is expensive due to strict regulations. Solvent recovery reduces waste volumes, cutting disposal costs by up to 95%.
- Revenue Generation: Recovered solvents can sometimes be sold to other industries, creating an additional revenue stream.
- For example, BASF India generates revenue by selling recovered solvents to other industries. For instance, they recovered and sold 1,000 tons of solvents in a year, contributing to their bottom line.
- Quick ROI: Solvent recovery systems often pay for themselves within 6–18 months due to cost savings on solvent purchases and waste management.
- For example, Tata Chemicals reported that their solvent recovery systems paid for themselves within 12 months due to significant cost savings on solvent purchases and waste management.

## 2. Environmental Sustainability

- Waste Reduction: Solvent recovery minimizes the generation of hazardous waste, reducing the environmental burden.
- For example, Grasim Industries, a leading chemical company in India, reduced its hazardous waste generation by 60% through solvent recovery and recycling practices.
- Reduced Emissions: Prevents harmful solvent emissions into the atmosphere, lowering air pollution and greenhouse gas contributions.
- For example, Reliance Industries reduced its VOC emissions by 40% by implementing advanced solvent recovery systems that minimize solvent loss during manufacturing processes.
- Circular Economy Contribution: Aligns with sustainability goals by turning waste into reusable resources, supporting eco-friendly manufacturing practices.
- Regulatory Compliance: Helps industries meet stringent environmental standards, avoiding penalties and enhancing their green credentials.
- For example, Hindustan Unilever Limited (HUL) ensures regulatory compliance by maintaining high standards of environmental sustainability through solvent recovery, avoiding penalties and enhancing its green credentials.

## 3. Operational Efficiency

- Consistent Solvent Quality: Recovered solvents are purified to near-virgin quality, ensuring reliable performance in production processes.
- For example, Dr. Reddy's Laboratories maintains consistent solvent quality by recovering and purifying solvents to near-virgin quality, ensuring reliable performance in their production processes.
- Uninterrupted Operations: On-site recovery eliminates dependency on external suppliers and mitigates risks from supply chain disruptions.
- Process Optimization: Advanced solvent recovery systems integrate seamlessly into existing industrial processes, improving overall efficiency.
- For example, Sun Pharmaceutical Industries optimizes its processes by integrating advanced solvent recovery systems, improving overall efficiency and reducing operational costs.

## 4. Enhanced Safety

- Closed Systems: Modern solvent recovery systems operate in closed environments, reducing worker exposure to harmful chemicals and vapours.

- For example, Glenmark Pharmaceuticals operates solvent recovery systems in closed environments, reducing worker exposure to harmful chemicals and vapours by 90%.
- Reduced Transportation Risks: Lower volumes of hazardous waste mean fewer risks associated with transportation accidents or spills.

## 5. Regulatory and Market Compliance

- Regulatory Compliance: Governments worldwide are enforcing stricter regulations on hazardous waste disposal and solvent emissions. Solvent recovery ensures compliance with these laws while positioning companies as environmentally responsible entities.
- For example, Piramal Enterprises ensures compliance with environmental regulations by adopting solvent recovery practices, avoiding penalties and enhancing its market reputation.
- Market Positioning: Businesses adopting solvent recovery solutions improve their market positioning by appealing to eco-conscious consumers and stakeholders.

## 6. Supply Chain Assurance

- Supply Chain Continuity: Industries that recover their own solvents are less affected by supply shortages or delays caused by strikes or supplier outages. This ensures operational continuity even during disruptions in the supply chain.
- For example, Alembic Pharmaceuticals ensures operational continuity by recovering solvents on-site, reducing dependency on external suppliers and mitigating supply chain disruptions.

## 7. Technological Advancements

- Innovative Technology: Innovations in solvent recovery technologies, such as temperature-swing molecular imprinting and falling-film distillation systems, offer higher efficiency, lower energy consumption, and better selectivity in solvent separation.
- For example, L&T Technology Services integrates advanced technologies like AI and automation in solvent recovery systems, enhancing process control and efficiency.
- Automation and AI integration in solvent recovery systems enhance process control, reduce manual intervention, and improve overall performance.

## 8. Industry-Specific Benefits

- Pharmaceutical Industry:** The pharmaceutical industry heavily relies on solvents for manufacturing Active Pharmaceutical Ingredients (APIs) and other products. Solvent recovery offers significant economic, operational, and environmental benefits in this sector.
  - Cost Reduction: High-purity solvents like ethanol, acetone, and methanol are extensively used in pharmaceutical processes. Recovering these solvents on-site reduces the need for purchasing virgin solvents, leading to substantial cost savings. For example, Aurobindo Pharma saved \$1.5 million annually by recovering high-purity solvents used in API manufacturing.
  - Environmental Compliance: Pharmaceutical companies must adhere to stringent environmental regulations. Solvent recovery minimizes hazardous waste generation and VOC emissions, ensuring compliance with laws while reducing environmental impact.
  - Operational Efficiency: On-site recovery eliminates dependency on toll processors or external suppliers, reducing transportation risks and cross-contamination concerns. Advanced technologies like nanofiltration and Organic Solvent Forward Osmosis (OSFO) enable up to 90% solvent recycling, improving efficiency and sustainability.
  - Sustainability Goals: Recovering key solvents like toluene and methanol can prevent hundreds of tons of CO<sub>2</sub> emissions annually, contributing to the industry's carbon footprint reduction goals.
- Chemical Industry:** The chemical industry is one of the largest users of solvents for processes such as synthesis, extraction, and purification. Solvent recovery is critical for improving sustainability and reducing costs.

- Reuse of Key Solvents: Solvents like toluene, xylene, and hexane are commonly recovered for reuse in manufacturing processes. This reduces raw material costs and aligns with circular economy principles.
  - Reduction in VOC Emissions: By recovering solvents instead of incinerating them, the chemical industry significantly reduces volatile organic compound (VOC) emissions, which are harmful to the environment.
  - Process Optimization: Advanced solvent recovery systems are designed to handle complex waste streams with multiple components. Hybrid systems combining distillation with adsorption or membrane filtration improve recovery efficiency while maintaining high purity levels.
  - Energy Efficiency: Modern recovery methods such as Organic Solvent Nanofiltration (OSN) consume up to 25 times less energy than traditional distillation techniques, making them more sustainable.
- c) **Paints & Coatings Industry:** The paints and coatings industry uses a wide range of solvents as thinners or carriers for pigments. Solvent recovery helps reduce production costs and waste generation.
- Recycling of MEK and Toluene: Methyl ethyl ketone (MEK), toluene, and xylene are commonly recycled through distillation processes. This reduces the need for fresh solvent purchases while maintaining product quality.
  - Waste Reduction: Recovering solvents minimizes hazardous waste generated during production processes, helping companies comply with environmental regulations.
  - Improved Sustainability: By adopting solvent recovery systems, the paints and coatings industry can significantly reduce its environmental impact while enhancing operational efficiency.
- d) **Cannabis Extraction:** The cannabis industry relies on solvents like ethanol, butane, and propane for oil extraction. Solvent recovery is essential for maintaining purity and reducing production costs.
- Cost Savings: Recovering ethanol or butane used in extraction processes lowers operating costs by reducing the need for new solvent purchases.
  - Purity Maintenance: Advanced distillation systems ensure that recovered solvents meet high purity standards required for cannabis oil production.
  - Sustainability: By recycling solvents instead of disposing of them, cannabis producers contribute to a more sustainable production process while minimizing hazardous waste.
- e) **Electronics & Aerospace:** In industries like electronics and aerospace, high-purity solvents are used for cleaning sensitive components such as circuit boards or aerospace parts.
- Recovery of Specialized Solvents: Solvents like Novec and Vertrel are recovered using advanced distillation or adsorption techniques to maintain their high purity levels.
  - Cost Reduction: Recovering expensive cleaning agents significantly lowers operational costs in these industries.
  - Waste Minimization: By recovering rather than disposing of specialized solvents, these industries reduce their environmental footprint while adhering to strict safety and quality standards.

## 9. Sustainability and Corporate Image

- Adopting solvent recovery demonstrates a company's commitment to sustainability, which is increasingly valued by consumers and investors alike.
- Organizations with strong environmental stewardship often gain a competitive edge in the market by attracting eco-conscious customers and stakeholders. This reputational benefit can translate into increased market share and revenue growth over time.

## MARKET SCENARIO

The Indian solvent market is currently undergoing significant growth, driven by increased industrial applications and technological advancements. The market's expansion is fuelled by ongoing industrialization, urbanization, and the growing use of solvents in consumer goods production. Key sectors such as chemicals, pharmaceuticals, agriculture, automotive, and electronics are driving demand for solvents. Additionally, environmental concerns surrounding volatile organic compounds (VOCs) have prompted the development of eco-friendly solvent alternatives. This shift aligns with global sustainability goals while ensuring compliance with stringent environmental regulations.

Below is the production overview of major solvents in India:

Products	Installed Capacity (000MT)			Production (000MT)		
	2021-22	2022-23	2023-24	2021-22	2022-23	2023-24

Solvents play a critical role in various industries, including printing inks, paints and coatings, metalworking, industrial cleaning, adhesives, and sealants. Their versatility and indispensable nature in these sectors have positioned solvents as key enablers of industrial processes.

Solvents are essential substances used to dissolve or disperse other materials without altering their chemical properties. They are integral to manufacturing processes across diverse sectors such as pharmaceuticals, chemicals, personal care, and agriculture. The Indian solvent market encompasses a wide range of products which allows solvents to meet the specific needs of various industrial applications.

## DEMAND TREND & KEY SUPPLIERS SOLVENT MARKET IN INDIA

### Demand Trend:

- The demand for solvents in India is witnessing a robust growth trajectory, driven by increasing industrial applications across diverse sectors such as paints and coatings, pharmaceuticals, adhesives, and cleaning products. This expansion is fuelled by the booming construction and automotive industries, which are key contributors to the rising solvent consumption. With a healthy compound annual growth rate (CAGR) projected over the coming years, the Indian solvent market is poised for substantial growth.
- The pharmaceutical and automotive industries are expected to play a pivotal role in driving this demand, as they increasingly rely on solvents for manufacturing processes and product formulations.
- Furthermore, the shift towards bio-based and environmentally friendly solvents is emerging as a significant trend, aligning with global sustainability goals and stricter environmental regulations. This transition is anticipated to shape the future of the solvent market in India.
- Advancements in solvent recovery technologies and government initiatives promoting green chemistry are accelerating the adoption of sustainable solutions.
- Additionally, the rising need for specialty solvents in high-end industrial applications is opening new avenues for growth. The ongoing industrialization, expansion of infrastructure projects, and emphasis on reducing volatile organic compound (VOC) emissions further contribute to the market's positive outlook. With these factors in play, the Indian solvent market is well-positioned for steady and sustainable expansion in the years ahead.

### **Growing Industrialization:**

- Increased industrial activities across sectors like pharmaceuticals, chemicals, and automotive are driving solvent demand.
- India's industrial sector is experiencing significant growth, with a notable increase in manufacturing activities. This expansion is expected to continue, albeit at a moderate pace, driven by ongoing investments and government policies aimed at boosting industrial competitiveness.
- Robust industrial growth of 9.5% was a key highlight of the Economic Survey 2023-24, presented by the Union Minister of Finance and Corporate Affairs.

### **Infrastructure Development:**

- Rising construction activities fuel the demand for paints and coatings, which are major solvent consumers.
- Example: The Indian government's "Smart Cities Mission" aims to develop 100 smart cities, which will increase construction activities and, consequently, solvent demand. According to recent reports, India's infrastructure development is expected to grow at a Compound Annual Growth Rate (CAGR) of around 7%. This is driven by significant government investment in areas like roads, highways, and urban infrastructure, with the national highway network expanding rapidly and construction pace increasing considerably.
- The paints & coatings segment is projected to experience rapid growth due to urbanization and infrastructure projects.

### **Environmental Regulations:**

- Stricter environmental regulations in India are pushing industries to adopt eco-friendly solvents, fostering innovation in bio-based and sustainable solvent technologies. These regulations aim to reduce environmental pollution, improve sustainability, and ensure compliance with global environmental standards.
- Legislation: India has over 200 environmental laws, including:
  - The Environmental Protection Act (1986).
  - The Air (Prevention and Control of Pollution) Act (1981).
  - The Water (Prevention and Control of Pollution) Act (1974).
- Example: The Indian government's emphasis on reducing VOC emissions has led to a shift towards sustainable solvents, with the bio-based solvent market valued at USD 5 billion in 2023.

### **Technological Advancements:**

- Advances in solvent recovery technologies and chromatography techniques are enhancing efficiency and driving demand for high-purity solvents.
- India is witnessing significant technological advancements in solvent recovery, driven by sustainability goals, regulatory compliance, and the need for cost optimization. These innovations are transforming the way industries manage solvents, making recovery processes more efficient and environmentally friendly.
- With innovations like vacuum distillation, membrane filtration, adsorption systems, AI-powered optimization, and closed-loop processes, industries can achieve higher recovery rates while minimizing their environmental footprint.

### **KEY SUPPLIERS:**

In the solvents market, prominent companies in India comprise names such as ExxonMobil, Royal Dutch Shell, BASF India, Gujarat Alkalies and Chemicals, and Hindustan Petroleum. These companies produce a variety of solvents used in paints, coatings, adhesives, and other industrial applications.

Company Name	Solvents Offered	Industry Served
ExxonMobil Company India Private limited	Isopropyl alcohol, Synthetic isoparaffins, Dearomatized hydrocarbon solvents, Heavy aromatic solvents, Cycloparaffins, Methyl ethyl ketone, Mineral spirits/white spirits.	Agriculture, Industrial, Automotive, Energy, Dry Cleaning
BASF India Ltd.	Glycol Ether Acetates, Glycol Ethers, Aldehydes	Prints and Coatings, Pharmaceuticals, Detergents, Lubricants, Textile and Leather, Chemicals, Crop Protection, Intermediate chemical
Gujarat Alkalies & Chemicals Ltd.	Methylene Chloride, Chloroform, Carbon Tetrachloride, Methyl Chloride	Textile, Detergents, Pharmaceuticals, Petroleum. Chemical, Pulp & Paper
Balaji Amines Ltd.	Methylamine, Ethylamine, Dimethylamine (DMA), Diethylamine (DEA), Monoethanolamine (MEA), Diethanolamine (DEA), Triethanolamine (TEA), Acetonitrile	Pharmaceuticals, Agrochemicals, Rubber, And Specialty Chemicals.

## DEMAND SCENARIO: ANALYSIS OF KEY FACTORS THAT ARE SHAPING THE DEMAND IN THE INDUSTRY

Organic Demand for Solvents on the Face of Increase in Industrialization & Manufacturing [Activities](#)

### Expansion of the Pharmaceutical Industry:

- India is the third-largest pharmaceutical market globally by volume and the 14th largest by value. By 2030, India's pharmaceutical sector is predicted to have grown to a sizeable 5% of the world market. Strong domestic demand and rising international exports are expected to propel the market, which is currently valued at USD 55 billion, to USD 130 billion.
- The government's Production Linked Incentive (PLI) scheme has boosted domestic drug production. Rising demand for generic drugs, vaccine production, and active pharmaceutical ingredients (APIs).

### Growth in Automotive Manufacturing:

- India holds a dominant position in the worldwide heavy vehicle sector, being the world's largest tractor producer, 2nd-largest bus manufacturer, and 3rd-largest heavy truck manufacturer. India's annual automobile output in FY24 was 28.4 million units while for 9M FY 2025, it stood at 23.22 million units. India is an attractive market in terms of both domestic demand and exports.
- India aims to become a leader in shared transportation, creating potential for electric and driverless vehicles. India is on course to become the world's largest EV market by 2030, with an estimated investment opportunity of more than USD 200 billion over the next 8-10 years.

### Increasing Demand in Paints and Coatings Industry:

- India is one of the world's most dynamic paint and coating markets. The Indian paint and coating sector is rapidly changing, with new large players emerging, larger producers acquiring smaller enterprises, and current producers expanding greenfield and brownfield operations. The Indian paint and coating business, worth almost USD 10 billion, is undergoing upheaval and restructuring.

### Growth of Chemical Manufacturing Sector:

- Robust Market Growth & Investment Potential: India's chemical and petrochemical industry is a knowledge-driven and capital-intensive sector, currently valued at USD 178 billion. It is highly diversified, producing over 80,000 commercial products that meet global standards.
- India's strategic location, strong production, and industrial growth make it a key player in the global chemical and petrochemical market. It contributes 2.5% to global chemical sales, ranks 4th in agrochemical production, and is the 3rd-largest polymer consumer. With 16% of global dyestuff production, the industry is expanding rapidly, driven by domestic demand, innovation, and investments.

### Textile and Garment Manufacturing:

- Expansion of Domestic & Export Markets – With a 12% CAGR in domestic sales, the industry aims to grow from USD 100 billion to USD 350 billion, while exports target a 20% CAGR, reaching USD 300 billion by 2024-25. This growth is expected to increase India's global market share from 5% to 15-20%.  
Investment— An estimated USD 180-200 billion investment is expected to drive industrial expansion, infrastructure development, and technology upgrades, strengthening India's position as a global textile hub.

## INCREASING FOCUS ON SUSTAINABILITY & REUSE / RECYCLING

With growing industrialization, solvent use has become widespread in manufacturing, pharmaceuticals, paints, chemicals, and other industries. However, concerns over environmental pollution, regulatory compliance, and cost efficiency are driving industries to adopt solvent reuse and recycling practices. This shift toward sustainability is not only a regulatory necessity but also a strategic move to reduce costs, improve efficiency, and lower environmental impact.

### a) Environmental Benefits of Solvent Recycling

Industries rely heavily on organic solvents, many of which contribute to air pollution, hazardous waste accumulation, and water contamination. Solvent recycling helps mitigate these impacts by reducing solvent disposal and lowering emissions of Volatile Organic Compounds (VOCs).

- Reduction in Hazardous Waste: Recycling solvents prevents them from being discarded as hazardous waste, reducing landfill and incineration loads.
- Lower Carbon Footprint: The production of fresh solvents involves chemical synthesis that consumes fossil fuels and releases greenhouse gases. Recycling reduces the need for new production, lowering CO<sub>2</sub> emissions.
- Water and Soil Protection: Solvent waste can contaminate water bodies and soil if not disposed of properly. Recycling ensures safer handling and disposal.
- Example: Industries using ethyl acetate in paint and coating formulations are increasingly adopting solvent recovery units to purify and reuse solvents, thereby reducing hazardous waste discharge.

### b) Economic Advantages of Solvent Recycling

Companies are realizing that solvent recycling is not just environmentally beneficial but also cost-effective. The use of on-site solvent recovery systems allows industries to:

- Reduce procurement costs: Recovering and reusing solvents minimizes the need to buy new solvents.
- Lower waste disposal expenses: Disposal of hazardous waste requires expensive regulatory compliance and waste treatment. Recycling cuts these costs.
- Improve operational efficiency: On-site solvent recovery ensures a steady supply of purified solvents, reducing dependency on suppliers and avoiding downtime due to shortages.
- Example: Many pharmaceutical companies in India, such as Sun Pharma and Dr. Reddy's Laboratories, have installed solvent recovery plants to recycle solvents like methanol, isopropyl alcohol, and toluene, significantly reducing raw material costs.

### c) Regulatory Compliance and Government Policies

The Indian government has introduced strict environmental policies under agencies like the Central Pollution Control Board (CPCB) and the Ministry of Environment, Forest and Climate Change (MoEFCC) to encourage solvent recovery and limit industrial pollution.

#### Key Regulations:

- Hazardous Waste Management Rules, 2016: Requires industries to manage and recycle spent solvents responsibly.
- CPCB Guidelines on Utilization of Spent Solvent (2022): Mandates solvent-based industries, such as pesticides and pharmaceuticals, to establish solvent recovery systems. (Source: CPCB)

- Extended Producer Responsibility (EPR): Industries are increasingly required to take responsibility for solvent waste management and recovery.
- Example: The pesticide industry in India is now legally required to use separate solvent distillation processes to avoid mixing different solvents, ensuring higher recovery rates.

#### **d) Industry Initiatives and Innovations in Solvent Recycling**

##### **Pharmaceutical Industry**

- The pharmaceutical sector is one of the largest users of solvents, with high demand for ethanol, acetone, methanol, and isopropyl alcohol in drug formulation and API synthesis.
- Many companies have on-site solvent recovery units to recycle used solvents and reduce raw material dependency.
- Example: Cipla and Aurobindo Pharma have implemented fractional distillation techniques to separate and recover solvents with 98%+ purity levels, making them reusable in production.

##### **Paints and Coatings Industry**

- Solvents like toluene, xylene, and butanol are essential for dissolving resins in paints.
- Paint manufacturers are shifting to closed-loop solvent recovery systems to reclaim and reuse solvents in paint formulations.
- Example: Asian Paints has integrated solvent recovery technology at its Maharashtra plant, leading to a 30% reduction in solvent waste.

##### **Chemical Industry**

- Petrochemical companies are investing in solvent extraction and recycling plants to reclaim solvents used in chemical processing.
- Example: Reliance Industries has adopted chemical recycling techniques to process used solvents and convert waste plastics into reusable raw materials. (Source: Reliance)

##### **Textile Industry**

- The textile sector uses solvents for dyeing, printing, and fabric processing.
- Companies are now switching to bio-based solvent alternatives and solvent recycling units to minimize hazardous waste.
- Example: Raymond and Arvind Mills have implemented green solvent recovery to recycle acetone and ethyl acetate, reducing water pollution.

### **THE RISE OF GREEN SOLVENTS & FUTURE OUTLOOK**

With increasing environmental awareness, industries are also exploring green solvents as alternatives to conventional petroleum-based solvents. These include:

- Bio-based solvents: Derived from renewable sources like citrus peels (d-limonene) or soybeans (methyl soyate).
- Ionic liquids: Non-volatile, recyclable solvents used in chemical synthesis and metal extraction.
- Supercritical CO<sub>2</sub>: Used as a solvent in pharmaceutical and food industries, replacing toxic organic solvents.
- Example: The Indian chemical industry is investing in green solvent technology, with companies like Tata Chemicals and Godrej Chemicals developing bio-based solvent alternatives.

### **STRINGENT REGULATORY NORMS & ITS IMPACT ON SOLVENT RECYCLING**

In India, the management and recycling of solvents are governed by stringent regulatory frameworks designed to ensure environmental safety and public health. The Central Pollution Control Board (CPCB), under the

Ministry of Environment, Forest and Climate Change (MoEFCC), plays a pivotal role in formulating and enforcing these regulations.

### **Key Regulatory Framework:**

- **Hazardous and Other Wastes (Management and Transboundary Movement) Rules, 2016:** These rules provide comprehensive guidelines on the management of hazardous wastes, including spent solvents. They emphasize the necessity for proper handling, storage, and recycling to mitigate environmental risks.

### **IMPACT ON SOLVENT RECYCLING:**

1. **Standard Operating Procedures (SOPs):** The CPCB has developed specific SOPs to ensure the safe and scientific handling, processing, and storage of spent solvents. These procedures are mandatory for industries involved in solvent recovery and recycling.
2. **Compliance Requirements:** Industries engaged in solvent recovery must adhere to the provisions outlined in the Hazardous and Other Wastes (Management and Transboundary Movement) Rules, 2016. This includes compliance with interstate transport regulations and the use of manifest documents as prescribed under Rules 18 and 19.
3. **Dedicated Distillation Processes:** Specific guidelines mandate that spent solvents generated from industries, such as pesticides manufacturing, should not be mixed with other spent solvents. Instead, they must be distilled separately in dedicated batches to prevent cross-contamination and ensure effective recycling.
4. **Inventory Management:** The CPCB maintains a national inventory on the generation and management of hazardous wastes, including solvents. This inventory aids in monitoring compliance and assessing the effectiveness of recycling initiatives.

The stringent regulatory norms established by the CPCB and MoEFCC have significantly impacted solvent recycling practices in India. Industries are now compelled to adopt safer and more efficient recycling methods, ensuring environmental protection and compliance with national standards.

### **NATIONAL GREEN TRIBUNAL (NGT)**

The National Green Tribunal (NGT) was established on October 18, 2010, under the National Green Tribunal Act, 2010, to handle cases related to environmental protection, conservation of forests, and sustainable use of natural resources. It functions as a specialized judicial body that ensures the enforcement of environmental laws while also providing relief and compensation for environmental damages affecting individuals or property.

Designed to expedite the resolution of environmental disputes, the tribunal is not bound by the traditional legal framework outlined in the Code of Civil Procedure, 1908. Instead, it operates based on principles of natural justice, ensuring fairness and flexibility in decision-making. The tribunal's primary objective is to reduce the backlog of environmental cases in higher courts while ensuring swift and effective environmental governance. It aims to conclude cases within six months of filing, promoting timely justice.

To improve accessibility, NGT operates from five locations in India. The Principal Bench is in New Delhi, with additional benches in Bhopal, Pune, Kolkata, and Chennai. These locations follow a circuit procedure, allowing the tribunal to hear cases from different regions and make environmental justice more accessible nationwide.

## KEY FEATURES OF THE NATIONAL GREEN TRIBUNAL (NGT)

• **Time-Bound Resolution of Cases:** One of the defining features of NGT is its commitment to speedy justice in environmental matters. Unlike traditional courts, where cases can take years, the tribunal aims to resolve cases within six months of filing. This helps in swift enforcement of environmental laws and ensures that legal disputes do not delay necessary action against environmental damage. The time-bound approach also reduces the burden on higher courts, allowing for more efficient judicial processes.

• **Specialized Composition:** NGT consists of Judicial Members and Expert Members who bring diverse knowledge and expertise to environmental litigation:

- Judicial Members are former Supreme Court or High Court judges, ensuring that the tribunal functions with strong legal oversight.
- Expert Members are professionals with backgrounds in environmental science, engineering, pollution control, or sustainable development, providing technical knowledge necessary for informed decision-making.

This multi-disciplinary approach allows NGT to evaluate environmental cases comprehensively, considering both legal and scientific aspects.

• **Exclusive Jurisdiction Over Environmental Matters:** NGT has exclusive jurisdiction over cases related to environmental laws, including:

- The Water (Prevention and Control of Pollution) Act, 1974
- The Air (Prevention and Control of Pollution) Act, 1981
- The Environment (Protection) Act, 1986
- The Forest (Conservation) Act, 1980
- The Biological Diversity Act, 2002

• **Legally Binding and Enforceable Decisions:** NGT's judgments are legally binding on all concerned parties, including government agencies, industries, and individuals. Its decisions can be challenged only in the Supreme Court of India, making it a powerful authority in enforcing environmental laws. The tribunal has the power to:

- Impose fines and penalties on violators.
- Order compensation and restoration measures for environmental damage.
- Direct government bodies to take corrective actions.

This ensures strict accountability for environmental violations and promotes compliance with regulatory norms.

• **Nationwide Reach and Accessibility:** To make environmental justice accessible across the country, NGT operates from five locations:

- Principal Bench – New Delhi
- Other Benches – Bhopal, Pune, Kolkata, Chennai

These regional benches follow a circuit procedure, meaning they can hold hearings in different locations as required. This decentralized structure ensures that citizens from various parts of the country can approach NGT without unnecessary legal or geographical barriers.

• **Principles of Natural Justice:** unlike traditional courts, the Code of Civil Procedure, 1908, does not bind NGT. Instead, it follows the principles of natural justice, which emphasize:

- Fairness and impartiality in decision-making.
- Flexibility in procedures, allowing for quicker resolutions.
- Consideration of scientific evidence and expert opinions rather than relying solely on legal technicalities.

## RELATION TO STRINGENT REGULATORY NORMS

NGT plays a key role in enforcing stringent regulatory norms for industries, businesses, and individuals to ensure compliance with environmental laws.

- **Stricter Environmental Clearances:** NGT mandates thorough impact assessments before approving industrial projects.
- **Enforcement of Pollution Control Laws:** Imposes penalties on industries violating air and water quality standards.
- **Ban on Hazardous Practices:** Restricts harmful activities like sand mining, deforestation, and improper waste disposal.
- **Accountability for Violators:** Holds government bodies and corporations responsible for environmental damage.

## TREND OF INCREASING DEMAND FOR GREEN SOLVENTS & ITS IMPACT

The rising demand for green solvents in India is driven by environmental concerns, regulatory initiatives, and the push for sustainable industrial practices. Green solvents are bio-based, non-toxic, and biodegradable, making them a safer alternative to conventional petrochemical solvents. The adoption of green solvents is increasing across industries like pharmaceuticals, paints & coatings, adhesives, and agriculture.

- **Environmental and Health Concerns**
  - Traditional solvents such as benzene, toluene, and xylene release volatile organic compounds (VOCs), contributing to air pollution and causing serious health issues, including respiratory diseases and neurological disorders.
  - Green solvents, such as ethyl lactate (derived from corn), d-limonene (from citrus peels), and glycerol-based solvents, reduce VOC emissions and toxicity.
  - The demand for non-toxic, biodegradable solvents is rising in response to increased public awareness and stricter environmental regulations.
  - Example: The solvent industry in India is moving towards bio-based alternatives in cleaning and degreasing applications to reduce worker exposure to hazardous chemicals.
- **Regulatory Initiatives Promoting Green Chemistry**
  - The Government of India is actively promoting green chemistry initiatives to minimize hazardous chemical use in industrial processes.
  - The National Green Tribunal (NGT) and Ministry of Environment, Forest and Climate Change (MoEF&CC) have implemented stricter pollution control measures, encouraging industries to replace hazardous solvents with eco-friendly alternatives.
  - Companies using toxic solvents are required to comply with Hazardous and Other Wastes (Management and Transboundary Movement) Rules, 2016, which has increased interest in solvent recovery and green alternatives.

- Example: The Indian paint industry has been shifting toward low-VOC, water-based coatings that use green solvents instead of conventional petroleum-based solvents.
- **Growth of Green Solvent Technologies in Agriculture & Food Processing**
  - In agriculture, bio-based solvents are being used for pesticide formulation, replacing harmful petroleum-based solvents.
  - In food processing, green solvents such as supercritical CO<sub>2</sub> and ethanol-based solvents are used for extracting essential oils, flavors, and bioactive compounds.
  - The Indian Council of Agricultural Research (ICAR) has been developing eco-friendly solvent technologies to improve oil extraction from oilseeds.
  - Example: In edible oil extraction, conventional hexane-based methods are being replaced by green solvents like ethanol and supercritical CO<sub>2</sub>, which are safer and environmentally friendly.

## IMPACT OF INCREASING DEMAND FOR GREEN SOLVENTS

- **Economic Opportunities & Investments in Green Solvent Industry**
  - The shift toward green solvents has opened new investment opportunities in the chemical and pharmaceutical industries.
  - With India's chemical industry growing at 8-10% CAGR, there is a rising demand for bio-based and low-VOC solvents.
  - Indian companies are now investing in R&D for green solvent production, supported by government incentives for sustainable industrial practices.
  - Example: Companies like Godrej Industries and Tata Chemicals are developing bio-based solvent alternatives to meet domestic and international market demand.
- **Adoption of Green Solvents in Key Industries**
  - **Pharmaceutical Industry**
    - India is the world's third-largest producer of pharmaceuticals and is actively moving towards solvent recovery and green solvents in drug manufacturing.
    - Green solvent use: Ethanol, acetone, and supercritical CO<sub>2</sub> are replacing traditional toxic solvents in Active Pharmaceutical Ingredient (API) production.
    - Example: Companies like Sun Pharma and Dr. Reddy's have adopted solvent recovery processes to minimize hazardous waste.
  - **Paints & Coatings Industry**
    - India's paints and coatings market is shifting toward low-VOC, water-based formulations using green solvents.
    - Solvents like ethyl acetate and d-limonene are replacing xylene and toluene in industrial coatings.
    - Example: Asian Paints and Berger Paints are investing in sustainable solvent technologies for eco-friendly product lines.
  - **Textile Industry**
    - The Indian textile sector, one of the largest in the world, is increasingly using bio-based solvents for dyeing and finishing processes.
    - Example: Textile units in Tamil Nadu and Gujarat are transitioning to water-based and biodegradable solvent systems
  - **Technological Advancements & Future Growth Potential**
    - India's research institutions and startups are developing bio-based solvents derived from plant-based sources such as corn, soybeans, and citrus peels.

- Supercritical fluid technology is being explored for extraction and purification in food and pharmaceutical applications.
- Example: CSIR-Indian Institute of Chemical Technology (IICT) is working on low-toxicity solvent formulations for industrial use.

The rising demand for green solvents in India is a direct result of environmental regulations, industrial growth, and consumer awareness. With significant investments in sustainable manufacturing and increasing adoption across industries, green solvents are set to play a crucial role in India's shift toward eco-friendly industrial practices. The government's initiatives, combined with technological advancements, are expected to boost green solvent adoption and create new opportunities in the chemical sector.

## REGULATORY LANDSCAPE

The solvents and solvent recycling industry is highly regulated due to environmental concerns, health risks, and the need for sustainable waste management. Below is an analysis of key regulatory policies and programs impacting the industry, along with insights into initiatives aimed at industry development.

### ANALYSIS OF KEY REGULATORY POLICIES / PROGRAMS THAT HAS AN IMPACT ON THE FUNCTIONING OF THE INDUSTRY

#### **Hazardous Waste Management Rules, 2016 (India)**

The Hazardous Waste Management Rules, 2016, formulated by the Ministry of Environment, Forest and Climate Change (MoEFCC), play a crucial role in governing the handling, storage, transportation, and disposal of hazardous waste, including spent solvents. These rules aim to minimize environmental impact by mandating industries to recycle or safely dispose of solvents.

#### **Key Provisions**

- **Authorization Requirement:**  
Industries generating or handling hazardous waste, including spent solvents, must obtain authorization from the State Pollution Control Board (SPCB) or Pollution Control Committee (PCC).
- **Storage and Labelling:**  
Hazardous wastes, such as spent solvents, must be stored in a safe manner with appropriate labeling to indicate the nature of the waste. This ensures that the waste is handled correctly and reduces risks to health and the environment.

- **Transportation:**  
Hazardous wastes must be transported using authorized transporters. A manifest system is required to track the movement of these wastes, ensuring accountability and compliance with regulations.
- **Disposal and Recycling:**  
The rules emphasize recycling and resource recovery. Facilities engaged in solvent recovery must adhere to specific guidelines to ensure environmental safety. This includes following procedures for recycling, reusing, and recovering hazardous waste, which helps reduce waste generation and promotes sustainable practices.

### **Impact on Solvent Recycling Industry**

- **Regulatory Compliance:** The rules ensure that solvent recycling operations comply with environmental standards, reducing the risk of pollution and promoting sustainable practices.
- **Authorization and Monitoring:** The requirement for authorization from SPCBs ensures that only compliant facilities operate, maintaining high standards of waste management.
- **Environmental Protection:** By emphasizing recycling and safe disposal, these rules protect the environment from hazardous waste, including spent solvents, thereby supporting the development of the solvent recycling industry in a sustainable manner.

### **The Water (Prevention and Control of Pollution) Act, 1974 (India)**

The Water (Prevention and Control of Pollution) Act, 1974, mandates that industries obtain consent from State Pollution Control Boards for discharging effluents into water bodies, ensuring compliance with permissible limits for parameters like pH and Total Suspended Solids (TSS).

### **Key Provisions**

- **Prevention of Water Pollution:**  
The Act aims to maintain or restore the wholesomeness of water by preventing pollution. This includes controlling the discharge of effluents from industrial processes, which can include solvent recycling operations if they generate wastewater containing solvents or solvent residues.
- **Consent for Discharge:**  
Sections 25 and 26 of the Act require industries to obtain prior consent from the State Pollution Control Board (SPCB) before discharging sewage or trade effluents into water bodies. This applies to solvent recycling facilities if they discharge wastewater into streams, wells, or other water bodies.
- **Standards for Discharge:**  
The Act mandates adherence to standards set by the SPCBs for the discharge of effluents. Industries involved in solvent recycling must ensure that any wastewater discharged meets these standards to prevent water pollution.

### **Impact on Solvent Recycling Industry**

- **Wastewater Management:** Solvent recycling facilities must manage their wastewater effectively to comply with the Act. This includes treating effluents to remove contaminants before discharge, ensuring that they do not contribute to water pollution.
- **Regulatory Compliance:** Compliance with the Act is crucial for solvent recycling operations to avoid penalties and ensure environmental sustainability. This involves obtaining necessary consents and adhering to discharge standards.
- **Environmental Protection:** By controlling water pollution, the Act indirectly supports the environmental sustainability of solvent recycling operations, aligning with broader goals of reducing pollution and promoting cleaner industrial practices.

## Factories Act, 1948

The Factories Act, 1948, primarily focuses on regulating labour conditions and ensuring worker safety in factories across India, with a particular emphasis on safeguarding employees from hazardous processes and improving their overall health and welfare. This Act mandates that factories maintain a safe working environment by implementing measures such as proper machine guarding, adequate ventilation, and health facilities, thereby protecting workers from occupational hazards, including those associated with handling solvents in solvent recycling operations.

### **Key Provisions:**

- **Hazardous Processes:**

The Act defines "hazardous process" as any process that could cause material impairment to health or result in environmental pollution unless special care is taken. Solvent recycling operations, if they involve hazardous chemicals, fall under this category.

State Governments can specify processes as hazardous and impose additional safety measures, which may apply to solvent recycling if it involves dangerous operations.

- **Safety and Health Measures:**

The Act mandates that factories maintain cleanliness, dispose of waste properly, and ensure worker safety. For solvent recycling facilities, this includes managing solvent storage, handling, and disposal to prevent accidents and exposure to hazardous chemicals.

Regular inspections by competent persons are required to ensure that equipment and processes are safe for workers.

### **Impact on Solvent Recycling Industry**

- **Worker Safety:** The Act emphasizes the importance of maintaining a safe working environment, which is crucial for industries handling solvents. This includes providing protective equipment, ensuring proper ventilation, and training workers on handling hazardous materials.
- **Regulatory Compliance:** Compliance with the Act is essential for solvent recycling operations to ensure they meet safety standards and avoid penalties. This involves adhering to guidelines for hazardous processes and maintaining records of safety inspections.

## The Air (Prevention and Control of Pollution) Act, 1981

The Air (Prevention and Control of Pollution) Act, 1981, is a landmark legislation in India aimed at preventing, controlling, and abating air pollution. The Act was enacted to address the growing concerns of air pollution in the country, which were exacerbated by industrial activities, vehicular emissions, and other environmental factors.

### **Key Provisions:**

- **Industrial Plants and Emissions:**

The Act defines an "industrial plant" as any plant used for industrial purposes that emits air pollutants. Solvent recycling facilities, if they emit air pollutants during their operations, fall under this definition.

Section 21 of the Act requires industries, including those involved in solvent recycling, to obtain consent from the State Pollution Control Board (SPCB) before establishing or continuing operations that could lead to air pollution.

- **Air Pollutants**

The Act defines "air pollutants" as substances that can be injurious to human beings, living creatures, plants, property, or the environment. Solvents, if released into the air during recycling processes, could be considered air pollutants if they meet these criteria.

- **Regulatory Framework**

The Act establishes Central and State Boards for the Prevention and Control of Pollution, which oversee compliance with air pollution regulations. These boards can issue directions and guidelines to ensure that industries, including solvent recycling facilities, adhere to pollution control measures.

### Impact on Solvent Recycling Industry

- **Compliance Requirements:** Solvent recycling facilities must comply with air pollution regulations by obtaining necessary consents and adhering to emission standards. This ensures that any air pollutants released during the recycling process are minimized.
- **Environmental Protection:** By controlling air emissions, the Act indirectly supports the environmental sustainability of solvent recycling operations, aligning with broader goals of reducing pollution and promoting cleaner industrial practices.

## POLICIES FOR DEVELOPING THE SOLVENT AND SOLVENT RECYCLING INDUSTRY IN INDIA

### Extended Producer Responsibility (EPR) Policies

While EPR policies in India are primarily focused on managing e-waste, plastic waste, battery waste, and used oil, they can indirectly influence the solvent and solvent recycling industry by promoting sustainable practices and waste management. Here's how EPR policies can impact this sector:

#### Key Aspects of EPR

**Promoting Sustainable Practices:** EPR encourages producers to design products with recycling in mind and to use eco-friendly materials. This approach can be applied to solvents by promoting the use of bio-based solvents or designing solvent systems that are easier to recycle. Although not directly targeted at solvents, EPR principles can foster a culture of sustainability that benefits solvent recycling by encouraging industries to adopt environmentally responsible practices.

**Infrastructure Development:** EPR policies lead to the development of recycling infrastructure, which can indirectly support solvent recycling by creating a framework for managing hazardous waste, including spent

solvents. The establishment of collection centers and recycling facilities for other waste streams can serve as a model for solvent recycling operations.

**Regulatory Framework:** The EPR framework in India requires producers to register with the Central Pollution Control Board (CPCB) or State Pollution Control Boards (SPCBs) and meet specific recycling targets. While not directly applicable to solvents, this framework demonstrates how regulatory oversight can ensure compliance with environmental standards.

### **Impact on Solvent and Solvent Recycling Industry**

- **Indirect Benefits:** EPR policies promote a circular economy and resource efficiency, which can encourage solvent recycling by fostering sustainable practices across industries.
- **Potential for Expansion:** As EPR policies evolve, there may be opportunities for their application to solvent waste management, encouraging manufacturers to invest in solvent recovery systems and recycling facilities.

### **National Clean Air Program (NCAP)**

The National Clean Air Program (NCAP) India aims to reduce industrial emissions, including VOCs from solvent industries, by encouraging the adoption of advanced solvent recovery technologies.

#### **Key Aspects**

- **Air Quality Improvement:** NCAP aims to achieve a reduction of up to 40% in PM10 and PM2.5 concentrations by 2025-26 compared to the baseline year of 2017-18. This focus on improving air quality can encourage industries, including those involved in solvents, to adopt cleaner technologies and practices.
- **Emission Control Measures:** The program involves implementing emission control measures across various sectors, which can indirectly benefit solvent recycling by promoting the use of advanced technologies that minimize VOC emissions.
- **Promotion of Cleaner Technologies:** While NCAP does not specifically encourage the adoption of advanced solvent recovery technologies, its emphasis on reducing industrial emissions can create an environment where such technologies become more appealing to industries seeking to comply with air quality standards.

### **Impact on Solvent and Solvent Recycling Industry**

- **Indirect Benefits:** NCAP's focus on improving air quality and reducing emissions can indirectly support the solvent recycling industry by encouraging the adoption of cleaner technologies and practices that minimize VOC emissions.
- **Future Opportunities:** As NCAP evolves, there may be opportunities for its principles to be applied more directly to solvent industries, promoting sustainable practices and advanced solvent recovery technologies.

### **GROWTH FORECAST OF SOLVENT INDUSTRY IN INDIA IN UPCOMING YEARS:**

The solvent industry in India is set to experience substantial growth in the coming years, driven by the expansion of its major end-user industries, including pharmaceuticals, paints & coatings, agrochemicals, and personal care.

#### Investment in Advanced Recycling Technologies:

- The adoption of distillation, membrane separation, and supercritical fluid extraction is improving solvent recovery efficiency.
- The government is promoting investments in waste-to-energy and industrial recycling units to encourage solvent recovery.
- Example: The Gujarat Industrial Development Corporation (GIDC) has set up dedicated industrial waste recycling zones, supporting solvent recovery for chemical industries.

#### Rise in Green & Circular Economy Practices:

- The shift toward sustainable manufacturing and the circular economy model is encouraging industries to recover, purify, and reuse solvents rather than dispose of them.
- Companies are collaborating with third-party solvent recyclers to ensure compliance with sustainability goals.
- Example: Several startups in India, such as Tatva Chintan and Clean Science & Technology, are focusing on eco-friendly solvent recovery and purification methods.

#### Stringent Environmental Regulations:

- The Indian government has introduced strict environmental laws under the Hazardous Waste Management Rules, 2016, and amendments to the Extended Producer Responsibility (EPR) framework.
- Companies are now required to reduce solvent waste, recycle used solvents, and adopt cleaner production methods to meet compliance standards.

Example: The Central Pollution Control Board (CPCB) mandates industries to manage hazardous waste responsibly, leading to increased adoption of solvent recovery processes.

## COMPETITIVE LANDSCAPE

The solvent and solvent recycling industry in India is witnessing significant growth, driven by increasing industrial demand, technological advancements, and stringent environmental regulations. With key industries such as pharmaceuticals, chemicals, automotive, and paints & coatings relying heavily on solvents, competition in the sector is shaped by factors like innovation in solvent recovery technologies, compliance with pollution control norms, and the rising demand for eco-friendly alternatives. Companies investing in advanced distillation, membrane separation, and AI-driven monitoring systems are gaining a competitive edge by offering higher purity solvents and cost-efficient recycling solutions. Additionally, regulatory requirements, such as adherence to Hazardous Waste Management Rules, 2016, and VOC emission limits, make compliance a critical success factor.

Despite growing opportunities, the industry presents significant entry barriers. High initial investment in infrastructure, technology, and compliance measures makes it challenging for new players to enter. The complex regulatory framework, governed by agencies like the Central Pollution Control Board (CPCB) and the Ministry of Environment, Forest & Climate Change (MoEFCC), requires multiple approvals, adding to time and cost burdens. Furthermore, the shortage of skilled professionals in hazardous waste management and logistics challenges in handling solvents increase operational difficulties. However, with industries moving toward green solvents, circular economy models, and sustainable manufacturing, companies that innovate and comply with evolving regulations are expected to thrive in the competitive landscape.

## KEY FACTORS SHAPING COMPETITION

- **Technological Advancements:**

Adoption of advanced solvent recovery technologies like distillation systems, membrane separation, and adsorption techniques enhances recovery rates and purity.

High-purity recycled solvents are in demand across industries like pharmaceuticals, paints & coatings, and chemicals, driving competition among players investing in innovation.

Technological advancements are emerging, offering higher efficiency, lower energy consumption, and better selectivity in solvent separation, making solvent recovery more attractive and feasible for a wider range of industries.

- **Automation & Digitalization:**

Integration of IoT-based sensors and AI-driven monitoring systems optimizes process efficiency by providing real-time data on solvent quality and system performance.

Automated predictive maintenance reduces operational downtime and increases plant efficiency, allowing businesses to maintain cost-effectiveness.

- **Regulatory Compliance:**

Compliance with stringent environmental regulations, such as Hazardous Waste Management Rules, 2016, is crucial for legal operations and maintaining industry credibility.

Adherence to volatile organic compound (VOC) emission norms helps companies secure long-term contracts, particularly with environmentally responsible organizations.

The Hazardous Waste Management Rules mandate comprehensive waste management strategies for solvents. Compliance with these regulations is essential for companies to operate legally and maintain credibility in the industry.

- **Adaptability to Changing Laws:**

The solvent recycling industry is subject to frequent regulatory updates due to environmental concerns. Companies must quickly adapt to new rules on emissions, disposal, and waste management.

Failure to comply can result in fines, operational shutdowns, or revocation of permits, making regulatory awareness a competitive necessity.

As governments and international bodies continue to tighten environmental regulations, companies are under pressure to adopt practices that minimize their environmental impact. Solvent recovery and recycling provide a practical solution for industries to comply with these regulations by reducing hazardous waste generation and promoting the reuse of resources.

- **Market Diversification:**

Companies that expand their product range by developing eco-friendly solvents (e.g., bio-based solvents, low-VOC alternatives) appeal to environmentally conscious consumers.

Recycling facilities offering customized solvent recovery solutions tailored to specific industries (e.g., pharma vs. automotive) gain a competitive advantage.

- **Strategic Partnerships:**

Collaborations with industrial manufacturers and waste management firms ensure a steady supply of waste solvents for recycling.

Companies providing on-site solvent recycling services at industrial plants can build long-term partnerships and reduce transportation costs.

Example: Polycycl and Re Sustainability have forged a strategic partnership to establish plastic feedstock preparation facilities for chemical recycling and circular economy initiatives.

### ENTRY BARRIERS:

- **High Initial Investment:**

Setting up a solvent recycling facility involves significant capital expenditure on infrastructure, including distillation units, separation systems, storage tanks, and safety mechanisms. The cost of land acquisition, construction, equipment installation, and compliance measures further increase the financial burden.

Example: The cost of fractional distillation units and advanced separation systems can run into crores of rupees, making it difficult for new entrants to establish operations.

- **Technology Costs:**

Advanced recycling technologies (e.g., fractional distillation, azeotropic distillation, and membrane filtration) are often imported or require specialized R&D, making them expensive. Scaling up operations requires continuous investment in process efficiency improvements and pollution control measures.

- **Regulatory Compliance Costs:**  
Companies need to obtain multiple approvals, including environmental impact assessments (EIA), pollution control board certifications, and hazardous waste disposal permits, which are time-consuming and costly. Regular audits and compliance checks add ongoing expenses to ensure adherence to safety and environmental regulations.
- **Need for Specialized Knowledge:**  
The technical complexity of solvent recycling requires expertise in chemical engineering, process optimization, and hazardous waste management. A shortage of skilled personnel trained in handling hazardous materials and operating complex recovery systems makes recruitment challenging.
- **Complex Regulatory Framework:**  
The industry operates under a stringent regulatory landscape, governed by multiple agencies like the Central Pollution Control Board (CPCB), State Pollution Control Boards (SPCBs), and the Ministry of Environment, Forest and Climate Change (MoEFCC). Lengthy bureaucratic procedures for licensing and regulatory approvals pose a significant hurdle for new entrants, delaying market entry. Example: Delays in obtaining Environmental Impact Assessments (EIA) can slow down project implementation.

**The NGT regulations** are driving stricter compliance, waste management, and emission controls in India's solvent recycling industry, increasing operational costs for advanced technology and audits. Industrial hubs like Gujarat and Maharashtra face scrutiny, pushing firms to upgrade or relocate. However, the shift toward eco-friendly solvent recovery, bio-based alternatives, and circular economy practices is creating growth opportunities. Government incentives and EPR policies further support sustainable recycling. While compliance is challenging, businesses adopting green solutions will gain a competitive edge in India's evolving environmental landscape.

## COMPETITION: PEER PROFILING

### Laxmi Organic Industrial Ltd.

#### Company Overview:

Founded in 1989, Laxmi Organic Industries Limited is based in Mumbai, India. The company has a presence in multiple regions, including India, Europe, North America, and the Asia-Pacific. Through steady growth and strategic initiatives, it has expanded its operations and built relationships with various industries.

The company operates manufacturing facilities in Mahad and Lote, Maharashtra, India, with a combined installed capacity of approximately 232,000 metric tons per annum (MTPA). Continuous improvements in production processes and technology contribute to operational efficiency and quality standards.

**Product Offerings:** Laxmi Organic Industries Limited offers a range of chemical products under its Essentials and Specialties business units.

- **Essentials:** This segment includes products such as bulk solvents and aldehydes, which are fundamental to various industrial applications. The company is recognized as a reliable supplier in this sector, addressing a market exceeding USD 12 billion.
- **Specialties:** This segment encompasses advanced chemical products like ketene and diketene derivatives, including esters, amides, and arylides. The company has also ventured into fluorospecialty chemicals, aiming to diversify its product portfolio and support profitable growth.

#### Key Strengths:

- **Customer-Centric Approach:** The Company emphasizes understanding customer needs and product stewardship, which has helped in expanding and strengthening its customer base. By adopting customer-

focused strategies, it has been able to develop business models that support long-term growth and adaptability.

- **Collaborations with Global Enterprises:** Laxmi Organic Industries Limited has established partnerships with international companies across different sectors. Its presence in multiple markets supports sales, marketing, and business development activities while also providing insights into industry trends, product demand, and regulatory requirements.
- **Commitment to Environmental Responsibility:** The Company integrates quality, safety, and sustainability into its business practices. In the fiscal year 2023-24, it successfully retained the Responsible Care certification following an external evaluation. Additionally, a portion of the energy used in its manufacturing operations comes from renewable sources such as hydro, wind, and solar power.
- **Focus on Research and Development:** Innovation is a key driver of the company's business, with research and development playing a crucial role in product development. Its efforts in technology advancement and execution have helped strengthen its position in the domestic specialty chemicals market while also expanding its presence in specific product segments internationally.

**Revenue and Growth:** Laxmi Organic Industries Limited recorded a total income of ₹2,893.24 crore in FY2024, reflecting a marginal increase from ₹2,808.70 crore in FY2023 but a decline from ₹3,099.05 crore in FY2022. Revenue from operations followed a similar trend, standing at ₹2,865.01 crore in FY2024, showing steady performance from the previous year's ₹2,791.17 crore but lower than ₹3,084.26 crore in FY2022. The revenue trend suggests stabilization after a high base in FY2022, indicating a focus on sustaining market presence.

**EBITDA and EBITDA Margin:** EBITDA for FY2024 was ₹255.60 crore, an increase from ₹238.97 crore in FY2023 but lower than ₹367.59 crore in FY2022. The EBITDA margin improved slightly to 8.92% in FY2024 from 8.56% in FY2023, though still below the 11.92% recorded in FY2022. This reflects efforts to optimize costs and maintain operational efficiency despite revenue fluctuations.

**Profitability (PAT and PAT Margin):** Profit after tax (PAT) stood at ₹120.50 crore in FY2024, slightly lower than ₹124.60 crore in FY2023 and significantly below ₹257.41 crore in FY2022. The PAT margin declined to 4.21% in FY2024 from 4.46% in FY2023 and 8.35% in FY2022, indicating pressures on net profitability. The decline in PAT margin suggests a combination of market conditions, cost structures, and industry factors affecting overall profitability.

## THIRUMALAI CHEMICALS LTD.

### Company Overview:

Thirumalai Chemicals Limited (TCL) is a leading manufacturer of industrial and specialty chemicals, including Phthalic Anhydride, Maleic Anhydride, Fumaric Acid, and Malic Acid, among others. Established in 1973, TCL has built a strong reputation for quality, innovation, and sustainability. The company exports to over 60 countries and serves industries such as plastics, paints, food, cosmetics, and pharmaceuticals.

TCL operates two manufacturing facilities in India, located in Ranipet, Tamil Nadu, and Dahej, Gujarat, with additional production units and offices in Malaysia, the USA, and Europe. The company is known for its world-class production facilities, efficient logistics, and adherence to global health and safety standards.

As part of its commitment to sustainability, TCL has implemented zero liquid discharge processes since 2006 and aims to reduce its Scope 1 and 2 greenhouse gas emissions by 25% by 2030. The company continues to expand its operations, including a new 90KTA Phthalic Anhydride plant in Dahej and a 40KTA Maleic Anhydride plant in the USA, reinforcing its global presence and commitment to responsible growth.

**Product Offerings:** TCL offered the following products:

- **Phthalic Anhydride:** Phthalic anhydride (PA) is a white, crystalline compound ( $C_8H_4O_3$ ) used in plasticizers, pigments, dyes, and resins. It is crucial in producing unsaturated polyester resins (UPR) for fiberglass-reinforced plastics. PA enhances PVC flexibility, is key in alkyd and polyester resins for coatings, and is used in organic pigments and agricultural chemicals.
- Malic Acid
- Fumaric Acid
- Fine Chemicals

### Key Strengths:

- **Diverse Product Portfolio:** TCL manufactures a range of industrial and specialty chemicals, including Phthalic Anhydride, Maleic Anhydride, Fumaric Acid, and Malic Acid, catering to multiple industries such as plastics, paints, food, cosmetics, and pharmaceuticals.
- **Global Presence & Market Leadership:** The Company exports to over 60 countries and is among the world's largest producers of Phthalic Anhydride. It is also the largest manufacturer of Maleic Anhydride and Fumaric Acid in Southeast Asia.
- **Advanced Manufacturing Capabilities:** TCL operates state-of-the-art production facilities in Ranipet (Tamil Nadu) and Dahej (Gujarat), with ongoing expansions, including a 90KTA Phthalic Anhydride plant in India and a 40KTA Maleic Anhydride plant in the USA.
- **Commitment to Sustainability:** The Company has been a Zero Liquid Discharge (ZLD) facility since 2006 and is working toward reducing Scope 1 and 2 greenhouse gas emissions by 25% by 2030.
- **Strong R&D and Innovation Focus:** TCL invests in cutting-edge research and technology to improve manufacturing efficiency, reduce costs, and develop new products, with patents granted for innovative processes.

- **Reliable Supply Chain & Customer Trust:** The Company has long-standing partnerships with leading global chemical firms and ensures efficient logistics and timely deliveries.
- **Financial Stability & Growth-Oriented Strategy:** TCL remains focused on cost optimization, capacity expansion, and strategic investments, including new projects in Gujarat and the USA, reinforcing its growth trajectory.

**Revenue and Growth:** TCL's total income declined by 2.8% in FY24 to ₹2,102 Cr, while revenue from operations fell by 2.3%. This indicates a slowdown in demand or price pressures, despite the company maintaining a stable market presence. Although the drop is not significant, it reflects industry challenges or competitive pricing pressures affecting top-line growth.

**EBITDA and EBITDA Margin:** EBITDA dropped 72.6% from ₹186.19 Cr in FY23 to ₹51.02 Cr in FY24, leading to a substantial margin contraction from 8.73% to 2.45%. This decline suggests higher input costs, reduced operational efficiencies, and potential pricing constraints, which influenced profitability at the operating level. Addressing cost structures and efficiency improvements will be crucial to restoring margins.

**Profitability (PAT and PAT Margin):** TCL reported a net loss of ₹38.79 Cr in FY24, compared to a profit of ₹89.83 Cr in FY23, marking a sharp downturn in profitability. The PAT margin declined from 4.21% to -1.86%, reflecting higher finance costs, increased depreciation, and weaker operational performance. To regain profitability, the company may need cost-cutting measures, improved pricing strategies, and enhanced operational efficiencies.

## Vinati Organics Ltd.

### **Company Overview:**

Vinati Organics Limited (VOL) is engaged in the manufacturing of specialty chemicals and organic intermediates, catering to industries such as pharmaceuticals, agrochemicals, personal care, and polymer additives. Established in 1989, the company has expanded its operations through process efficiencies, backward integration, and sustainability initiatives.

VOL exports to over 40 countries and has built a diverse product portfolio, including Isobutyl Benzene (IBB), Acrylamide Tertiary Butyl Sulfonic Acid (ATBS), and Butyl Phenols. With a focus on operational excellence, the company has achieved cost-efficient production while maintaining strict quality and environmental standards.

VOL operates two manufacturing facilities in Mahad (Raigad, Maharashtra) and Lote (Ratnagiri, Maharashtra), producing a range of specialty and performance chemicals. The company continues to expand its capacities, with recent developments in antioxidants and monomers, supporting its long-term growth objectives.

As part of its commitment to sustainability, VOL has invested in renewable energy sources, with 33 MW solar power capacity across its plants. The company actively implements waste management initiatives, resource recycling, and eco-friendly production processes.

**Product Offerings:** VOL manufactures a wide range of specialty chemicals and intermediates, including:

- Speciality Aromatics
- Speciality Monomers
- Butyl Phenols
- Antioxidants
- Other Speciality Products
- Miscellaneous Polymer
- Inorganic Chemical

### **Key Strengths:**

- **Diverse Product Portfolio:** VOL manufactures more than 30 specialty chemicals catering to pharmaceuticals, personal care, agrochemicals, coatings, and polymers. The company continuously enhances its portfolio through backward integration and process optimization.
- **Global Presence & Market Leadership:** With exports contributing 55% of total revenue, VOL serves customers across North America, Europe, and Asia. The company holds a 65% global market share in IBB and ATBS, reinforcing its presence in key industries.
- **Advanced Manufacturing Capabilities:** VOL operates two production units in Mahad and Lote (Maharashtra), India, focusing on high-purity chemical manufacturing.
  - Antioxidants Production Capacity: 24,000 TPA
  - ATBS Capacity Expansion: Expected commissioning in FY 2024-25
- **Commitment to Sustainability:** VOL has invested in clean energy initiatives and operates with 44% renewable energy usage. The company has implemented:
  - Zero Liquid Discharge (ZLD) systems for efficient waste management.
  - Solar Power Capacity: 33 MW across multiple locations
  - Water Recycling & Effluent Treatment: Multi-Effect Evaporators (MEE) and Reverse Osmosis (RO) systems.

- **Strong R&D and Innovation Focus:** The Company focuses on continuous process improvement and new product development, ensuring cost efficiency and sustainability in manufacturing. VOL's integration strategy allows for efficient use of by-products, reducing waste and improving profitability.
- **Reliable Supply Chain & Customer Trust:** With a strong distribution network and efficient logistics, VOL supplies specialty chemicals to leading global manufacturers in the pharmaceuticals, polymer, fragrance, and coatings industries.
- **Financial Stability & Growth-Oriented Strategy:** Despite market fluctuations, VOL remains focused on capacity expansion and operational efficiencies. The company is investing in new product lines and backward integration, positioning itself for long-term sustainable growth.

**Revenue & Growth:** Revenue from operations declined 8.8% in FY24 to ₹1,938.75 Cr, following strong 31.6% growth in FY23. The slowdown suggests lower demand, pricing pressure, or inventory adjustments in key markets.

**EBITDA & Margin:** EBITDA fell 19.0% to ₹547.31 Cr, with the EBITDA margin contracting to 28.23% from 31.81% in FY23. Higher raw material costs and reduced operating leverage impacted profitability, though margins remain above FY22 levels.

**Profitability (PAT & Margin):** PAT declined 22.9% to ₹322.96 Cr, with the PAT margin reducing from 19.72% to 16.66%. Increased depreciation and finance costs contributed to the decline, requiring a focus on cost optimization and pricing strategy.

## COMPANY PROFILE: SNEHAA ORGANICS LIMITED

Snehaa Organics Limited., based in Hyderabad, Telangana, specializes in the handling, purification, and recycling of solvents. Established in 2010, the company has built a strong reputation for delivering reliable recovered solvents to a diverse customer base.

In 2019, Snehaa Organics became a part of the Vestro Group, marking a significant phase in its development. This acquisition brought improvements across various operational areas, including production, technology, environmental practices, and market expansion. With access to Vestro Group's resources and expertise, Snehaa Organics has continued to advance its capabilities and industry presence.

### Manufacturing Capability:

- **Plant Location:** Plot No. 290 & 291, Dulapally, adjacent to IDA Jeedimetla, Quthbullapur, Hyderabad, Telangana, 500055, India
- **Installed Capacity & Production Volume:** The company boasts an installed capacity of 60 KL (kiloliters) kettles and 30 KL reactors, enabling efficient and effective processing of solvents and chemicals. These facilities allow Snehaa Organics to achieve production volumes exceeding 1,000 KL per month, meeting the high demands of its clients.

Snehaa Organics caters to a diverse clientele, primarily focusing on industries requiring solvent recovery and purification services. Through strategic partnerships with prominent industry players such as Glochem Industries, MSN Group, Radison Labs, and Agrisol Labs, the company provides top-notch job work services, addressing the needs of various sectors within the chemical and pharmaceutical industries.

### Product Profile:

Snehaa Organics specializes in the handling, purification, and recycling of solvents. The company utilizes advanced distillation and purification technologies to process collected solvents, producing high-quality recovered solvents. These solvents are either returned to customers for reuse or sold in the market, contributing to a circular economy and reducing waste.

- Collection and Handling
- Purification and Recycling
- Quality Assurance
- Distribution and Sales

### Key Strengths:

- **Strong Industry Partnerships:** Snehaa Organics collaborates with companies such as Glochem Industries, MSN Group, Radison Labs, and Agrisol Labs to provide solvent recovery and purification services. These partnerships enable the company to offer job work services that align with industry requirements, addressing the specific needs of its clients.
- **Quality & Regulatory Compliance:** Quality control is integrated into every stage of Snehaa Organics' operations to maintain consistency in recovered solvents. The company utilizes a pilot testing facility to develop customer-specific solutions and ensure process reliability. Compliance with environmental and industry standards is a core focus, supporting responsible and sustainable business practices.

- **Sustainability and Resource Efficiency:** Snehaa Organics emphasizes solvent recovery and reuse as part of its approach to reducing waste and minimizing environmental impact. The company adopts processing methods designed to lower emissions and optimize resource use. By integrating sustainable purification techniques, Snehaa Organics contributes to efforts aimed at reducing industrial carbon footprints.
- **Leadership and Technical Expertise:** The company is led by Kiran Nandigala, Technical Director, and Harish Nandigala, Marketing Director, who bring industry experience and strategic direction. As part of the Vestro Group, Snehaa Organics benefits from additional technological expertise and market insights. Investments in research and development focus on enhancing process efficiency and refining purification methods.
- **Market Reach & Expansion:** With an established presence in the domestic market, Snehaa Organics continues to explore opportunities for expansion. Its association with the Vestro Group has facilitated broader market access and strengthened business outreach. Branding and operational improvements support ongoing efforts to extend its reach within the industry.

#### THREATS AND CHALLENGES

The solvent and solvent recycling industry in India plays a crucial role in various sectors, including pharmaceuticals, paints, coatings, chemicals, and manufacturing. However, despite its importance, the industry

faces several threats and challenges that hinder its growth, efficiency, and sustainability. These challenges stem from regulatory constraints, economic factors, technological limitations, environmental concerns, and market dynamics.

Below is a detailed discussion of the key challenges affecting the industry:

➤ **Stringent Environmental Regulations**

- The Hazardous and Other Wastes (Management and Transboundary Movement) Rules, 2016, under the Ministry of Environment, Forest and Climate Change (MoEFCC), impose strict guidelines on handling, storage, transportation, and disposal of hazardous waste, including spent solvents.
- Industries handling hazardous solvents must obtain authorization from State Pollution Control Boards (SPCBs), which involves a complex and time-consuming process.
- The implementation of pollution control measures to meet compliance standards requires significant investment, increasing operational costs for industries engaged in solvent recycling.
- Regulatory changes and amendments create uncertainty for businesses, making long-term investment decisions difficult.
- Inspections and compliance audits by regulatory authorities increase the administrative burden on solvent recycling businesses.

➤ **Lack of Awareness and Adoption of Recycling Technologies**

- Many small and medium enterprises (SMEs) are unaware of the benefits of solvent recycling and continue to dispose of solvents improperly, leading to environmental pollution.

- A lack of knowledge about modern solvent recovery and purification technologies results in inefficient solvent usage and increased wastage.
- Businesses often perceive solvent recycling as technically complex or unviable, preventing widespread adoption.
- The industry lacks training programs and knowledge-sharing platforms that could help businesses understand best practices in solvent recycling.

➤ **High Initial Investment and Operational Costs**

- Establishing a solvent recycling plant requires substantial capital investment in distillation, filtration, and purification equipment.
- Energy-intensive processes, such as fractional distillation and solvent recovery, contribute to high operational costs.
- The costs associated with obtaining regulatory approvals, pollution control certifications, and safety compliance add to the financial burden.
- Many businesses, especially smaller ones, find it difficult to secure loans or government funding for investing in solvent recycling infrastructure.
- High maintenance costs for advanced solvent recovery units discourage industries from adopting them.

➤ **Poor Waste Management Infrastructure**

- Inadequate waste collection and segregation systems lead to contamination of solvents, reducing their recyclability.
- Many industrial zones lack centralized hazardous waste collection centres, making it difficult for companies to dispose of solvents responsibly.
- The absence of proper tracking mechanisms leads to the unauthorized dumping of spent solvents, which poses environmental hazards.
- Limited enforcement of waste management policies in some regions results in non-compliance and poor waste handling practices.

➤ **Competition from Virgin Solvents**

- Virgin solvents are often cheaper and more readily available than recycled solvents, making businesses less inclined to use recycled alternatives.
- Quality concerns related to recycled solvents lead industries to prefer virgin solvents, despite the environmental benefits of recycling.
- The lack of regulatory mandates requiring industries to use a minimum percentage of recycled solvents results in low demand.
- Price fluctuations in crude oil (a key raw material for virgin solvents) affect the market dynamics, sometimes making virgin solvents more affordable than recycled ones.

➤ **Health and Safety Risks**

- Exposure to toxic fumes and volatile organic compounds (VOCs) during solvent handling and recycling poses serious health hazards for workers.
- Fire and explosion risk due to the flammable nature of solvents require stringent safety measures, which many recycling units may lack.
- The absence of proper personal protective equipment (PPE) and safety training increases the risk of accidents in solvent recovery units.
- Improper storage and handling of spent solvents can lead to leaks and spills, causing environmental contamination and health hazards.

➤ **Inconsistent Quality of Recycled Solvents**

- The quality of recycled solvents depends on feedstock purity, recycling techniques, and contamination levels. Inconsistent quality affects industrial applications.
- Many industries hesitate to use recycled solvents due to concerns about purity, efficiency, and potential process failures.
- Lack of standardization and quality certification systems for recycled solvents makes it difficult for buyers to trust their effectiveness.
- Variability in recycled solvents can cause inconsistencies in manufacturing processes, leading industries to prefer virgin solvents for critical applications.

➤ **Limited Government Support and Incentives**

- The government provides limited subsidies or financial assistance to encourage the adoption of solvent recycling technologies.
- Unlike sectors such as renewable energy or plastic recycling, the solvent recycling industry does not receive strong policy-driven incentives.
- The absence of tax benefits or reduced GST rates on recycled solvents discourages businesses from investing in solvent recovery infrastructure.
- Lack of dedicated R&D funding for developing advanced solvent recovery technologies slows down innovation in the industry.

The solvent and solvent recycling industry in India has significant potential to contribute to environmental sustainability and resource efficiency. However, the sector faces multiple challenges, ranging from regulatory compliance and high costs to poor waste management infrastructure and quality inconsistencies.

To overcome these obstacles, a multi-stakeholder approach is needed, involving government policy support, industry awareness programs, financial incentives, and investment in advanced recycling technologies. Strengthening regulatory enforcement, improving waste collection mechanisms, and promoting the use of high-quality recycled solvents can help drive the growth and sustainability of this industry in India.

## SWOT Analysis of the Solvent and Solvent Recycling Industry in India

### Strength:

**Regulatory Push:** Government regulations, such as the Hazardous Waste Management Rules, 2016, encourage solvent recycling.

**Growing Industrial Demand:** Industries like pharmaceuticals, paints, and chemicals rely heavily on solvents, ensuring a steady market.

**Environmental Benefits:** Reduces hazardous waste, VOC emissions, and dependence on virgin solvents.

**Cost Savings:** Recycled solvents are often cheaper than virgin solvents, making them an attractive alternative for industries.

### Weakness:

**High Initial Investment:** Setting up solvent recovery plants requires significant capital.

**Quality Concerns:** Variability in recycled solvent purity affects its acceptability in critical applications.

**Limited Awareness:** Many industries are unaware of efficient solvent recovery technologies and potential cost benefits.

**Energy-Intensive Processes:** Certain recycling methods require high energy consumption, increasing operational costs.

### Threats:

**Competition from Virgin Solvents:** Price fluctuations may make virgin solvents cheaper and more attractive.

**Stringent Regulations:** Compliance with pollution control norms and waste disposal laws increases operational complexity.

**Health & Safety Risks:** Handling flammable and toxic solvents poses significant safety concerns.

**Market Volatility:** Demand for recycled solvents may fluctuate due to changing industrial preferences and economic conditions.

### Opportunities:

**Government Incentives:** Possible support through tax benefits and subsidies for recycling initiatives.

**Technological Advancements:** Improved solvent recovery techniques can enhance efficiency and reduce costs.

**Circular Economy Initiatives:** Rising focus on waste reduction and resource efficiency can boost solvent recycling.

**Export Potential:** Growing global demand for sustainable and recycled chemicals presents business opportunities.

## OVERVIEW

Snehaa Organics Limited was originally formed as partnership firm under the Indian Partnership Act, 1932 in the name and style of “M/s. Snehaa Pharma Chemicals”, pursuant to a deed of partnership dated October 26, 2017. Our Promoter has made a strategic investment by acquiring M/s Snehaa Pharma Chemicals, with a vision to revolutionize the solvent recovery industry.

As part of this transition, a **Partnership Deed for Reconstitution** was executed on **June 21, 2019**, marking a significant change in ownership. Under this agreement, the existing partner retired, and the firm welcomed new partners Mr. Ramasubba Reddy Nandigala, Mrs. Venkata Lakshmi Nandigala, Mr. Nandigala Venkata Sai Harish & Rama Subba Reddy HUF.

Further, “M/s Snehaa Pharma Chemicals” was converted from partnership firm to a Private Limited Company in the name of “Snehaa Organics Private Limited” vide Certificate of Incorporation dated July 05, 2022 issued by Registrar of Companies, Central Registration Centre bearing CIN U24290TG2022PTC164443.

Thereafter, our Company was converted into a Public Limited Company in pursuance of a special resolution passed by the members of our Company at the Extra Ordinary General Meeting held on December 18, 2024. A fresh Certificate of Incorporation consequent to conversion was issued on January 07, 2025 by the Registrar of

Companies, CPC Manesar Haryana and consequently the name of our Company was changed from “Snehaa Organics Private Limited” to “Snehaa Organics Limited”. The Company’s Corporate Identification Number is U24290TG2022PLC164443.

## ABOUT US

Snehaa Organics Limited operates in the solvent recovery and recycling sector, providing sustainable solutions for industries that utilize solvents in their processes. The company collects spent solvents from various industries and employs distillation and purification technologies to process them for reuse. Company’s workforce ensures efficient recovery from diverse solvent mixtures, including those with significant variability between batches.

Each batch undergoes comprehensive quality control measures to align with industry requirements. The company also maintains a testing facility to address specific customer needs. The recovered solvents are returned to the respective companies for reuse, while the additional purified solvents are sold in the market, supporting resource efficiency and waste reduction. Additionally, the company engages in direct trading of solvent, sourcing raw materials from suppliers, conducting quality assessments, and sold them in the open market.

The financial performance of our Company for the period ended December 31, 2024 and Fiscals 2024, 2023 and 2022, is as follows:

The Lessor, as mentioned above, is associated with Snehaa Organics Limited. Vestro Solvents Private Limited is a group company and part of the promoter group of Snehaa Organics Limited. Additionally, Nandigala Rama Subba Reddy is a member of the promoter group of Snehaa Organics Limited.

The aforementioned lease deed is adequately stamped. Snehaa Organics Limited has paid rent in accordance with the arm's length principle

## OUR PRODUCTS

Our main products are broadly categories in:

S.NO	Name of the Solvent	Description	Identification By GC (Retention Time) *	Density**	Boiling Point	Usage
01	METHANOL	A clear color less liquid with characteristic odor	1.90	0.792 Kg/Ltr	64.7°C	Used as reaction media, extraction agent, purification tools and formulation components. Essential for manufacturing active pharmaceutical ingredients (APIs) and drug products
02	ACETONE		2.89	0.784 Kg/Ltr	56°C	
03	ETHYL ACETATE		4.69	0.89 Kg/Ltr	77.1°C	
04	TOLUENE		7.76	0.867 Kg/Ltr	110.6°C	
05	DIMETHYL FORMAMIDE		9.35	0.944 Kg/Ltr	153°C	

**Note:** - \*Retention time (RT) in Gas Chromatography (GC) is the time taken by a compound to travel from the injection point to the detector. It is a key parameter for identifying compounds and assessing purity, as each substance has a characteristic RT under specific chromatographic conditions.

\*\*Density (or Specific Gravity) of a solvent is the ratio of its mass to its volume, typically expressed in g/mL or kg/m<sup>3</sup>. Specific Gravity (SG) is the ratio of the solvent's density to the density of water at a standard temperature, indicating how heavy the solvent is compared to water.

## PROCESS FLOW CHART FOR SOLVENT DISTILLATION

### Flow chart of Solvent Distillation Process

## SOLVENT DISTILLATION DETAIL BUSINESS PROCESS FLOW (JOB WORK)

The entire process at our Solvent Distillation Plant is carried out in a structured and systematic manner, ensuring efficiency, safety, and quality check at each stage. Below is a comprehensive breakdown of the entire process:

### 1. Raw Material Receipt and Initial Quality Control

- **Receipt of Spent Solvents:** Spent solvents are delivered to the plant in road tankers or drums from various customers for job work. Upon arrival, the materials are logged into the system by the security and staff.
- **Verification and Sample Collection:** The personnel verify and inward the raw material before notifying the QC (Quality Control) department. The QC team collects representative samples of the spent solvents following the established sampling procedure and performs initial analysis to ensure the material meets the required specifications.
- **Quality Approval:** The QC department evaluates the sample against established specifications. If the sample passes the tests, the material is approved for further processing. In case of non-compliance, the raw material is rejected.

### 2. Storage and Unloading

- **Initial Weighment:** Upon approval, the vehicle undergoes an initial weighment to capture the gross weight of the spent solvent.
- **Unloading into Storage Tanks:** The spent solvents are unloaded into spent solvent storage tanks. After unloading, the vehicle is weighed again to ensure the correct amount of material has been received and verify against the initial weighment for any discrepancies.

### 3. Pre-Treatment and Distillation

- **Neutralization (if required):** If the raw material requires neutralization (neutralization is a chemical process used to balance the potential of hydrogen of a substance by adding an acid or a base), it is transferred from the storage tanks into a reactor for neutralization. Following neutralization, the solvent is then pumped into a distillation kettle.
- **Distillation Process:** The spent solvents are processed through a packed distillation column. Some of the distillate is returned to the column as reflux to enhance the separation process. The distillation is performed at controlled temperatures, with the fraction collection beginning once the column reaches the necessary conditions.
- **Fraction Collection:** Operators collect the distillates in fractions while monitoring the purity at each stage. A sample from the reflux line is sent to QC for analysis to ensure the desired purity level is achieved.

### 4. Quality Control and Final Product Collection

- **QC Approval:** Once the sample from the reflux line attains the required purity level, the QC department gives final approval. At this stage, the distillate is considered the pure product and is collected in stainless steel (S.S.) storage tanks.
- **Residue Handling:** After the distillation process is completed, the residue left in the kettle is unloaded into MS drums. These residues are then sent to co-processing industries, such as cement plants, for safe disposal.
- **Final Quality Check:** The collected pure product undergoes thorough analysis. If the product (purified solvent) meets all specified quality parameters, QC approves it for dispatch. If the product does not meet the specifications, the batch is rejected and sent for redistillation.

## 5. Packaging, Documentation, and Dispatch

- **Product Packaging:** Once the finished product is approved by QC, it is stored in the storage area and prepared for dispatch. The storage area's personnel clean the road tanker and load the finished product. The product is weighed and ready for transport.
- **Documentation:** The following documents are prepared for dispatch:
  - Invoice
  - E-waybill
  - Certificate of Analysis (COA)
  - Tanker Cleaning Certificate

These documents ensure that the product meets all safety, quality, and legal requirements.

- **Final Approval and Dispatch:** After receiving the necessary approvals and documentation from all concerned departments, security logs the dispatch details in the outward register. The vehicle is then cleared for dispatch to the customer.

## 6. Customer Delivery and Post-Delivery Support

- **Customer Delivery:** The dispatched vehicle arrives at the customer's location, where the finished product is offloaded, and the customer receives the necessary documents, including the COA and invoice.
- **Post-Delivery Support:** Our marketing and customer service team ensures that the customer is satisfied with the product. Any concerns or feedback are promptly addressed to maintain strong relationships and ensure future business.

**BUSINESS PROCESS FLOW CHART (DIRECT TRADE)**

## Direct Trade Sales

### 1. Supplier communication regarding spent stock information

The supplier initiates the process by sending an email with detailed information about their current inventory of spent solvents, including the quantities available for sale. The email should also specify any relevant details regarding the condition of the material.

### 2. Response and Offer Pricing

Upon receiving the supplier's email, the Marketing Team will thoroughly review the details of the spent solvents, including the quantities, condition, and any other provided information. Based on this assessment, the Marketing Team will prepare a formal proposal outlining the competitive pricing structure for the specified stock and send it to the client.

### 3. Supplier's acceptance or decline of the offer

The supplier will review the proposed offer and respond with their decision—either accepting or declining the proposal. If the offer is accepted, the process moves forward; if declined, the team will negotiate with the supplier.

### 4. Sample Collection and Material Analysis

Upon acceptance of the offer, Snehaa Organics Limited will arrange for the collection of the spent material in sample quantities from the supplier's location. The material will then be sent for Quality Control (QC) analysis to assess its suitability for distillation.

### 5. Decision Process Based on QC Results

Once the QC analysis is completed, the decision process proceeds as follows:

- **If the material is suitable for distillation:** Snehaa Organics Limited will proceed to purchase the material and initiate the distillation process. Upon completion, the distilled product will be marketed and sold in the open market by identifying suitable customers.
- **If the material is not suitable for distillation:** The material will still be purchased, but it will be sold in its raw form in the open market to suitable customers.

The company carefully evaluates the reliability of all sourced materials to ensure compliance with regulatory and legal requirements, as well as adherence to applicable quality standards. Generally, there are multiple sources that can supply the raw materials that we require. Our raw material sourcing is not dependent on a single source of supply and we have access to alternate sources for our procurement of raw materials.

## SWOT ANALYSIS

STRENGTHS	WEAKNESS
Technology and Infrastructure Strategic Location Good Reputation in the Pharmaceutical Sector	High Dependence on Local Market Capital Intensity Operational Complexity
OPPORTUNITIES	THREATS
Expansion into New Markets Product Diversification and more profitable Opportunities Forward Integration	Regulatory Changes Pharmaceutical Market Instability Intense Competition Fluctuations in Raw Material Prices

### STRENGTHS:

#### 1. Technology and Infrastructure

Investing in modern infrastructure enables efficient and effective solvent recovery processes. Our Y-type 2.5-stage sheet metal structured packings offer significantly lower pressure drops and mass transfer efficiency compared to standard packings. This enhances operational efficiency, improves product quality, and reinforces the company's position within the industry.

## **2. Strategic Location**

Hyderabad, Telangana contributes 40% of the country's bulk drug production and has earned the titles of "Bulk Drug Capital of India" and "Vaccine Capital of the World." Based in Hyderabad, Telangana, Snehaa Organics benefits from proximity to a large, diverse market and a well-established supplier network. This location facilitates easier access to key resources, a skilled workforce, and customer bases, making logistics and expansion more feasible.

## **3. Good Reputation in the Pharmaceutical Sector**

Snehaa Organics has established a good image as provider recycled solvents to the pharmaceutical industry, strengthens customer loyalty. The company is recognized as a reliable supplier of eco-friendly solutions, fostering trust among pharmaceutical clients that prioritize sustainability. Our promoters and promoters group have a decade of experience in Pharmaceutical Sector

### **WEAKNESSES:**

#### **1. High Dependence on Local Market**

The company's limited geographic diversification poses a risk if the local market experiences economic downturns or disruptions. This reliance on the local market could affect revenue stability and limit growth potential.

#### **2. Capital Intensity**

The solvent recovery industry requires ongoing investment in technology and infrastructure. This high capital expenditure can strain financial resources and affect profitability, especially as the company works to scale and meet regulatory standards.

#### **3. Operational Complexity**

Managing a wide range of chemical processes and adhering to stringent environmental regulations introduces significant operational challenges. This complexity can result in higher costs and difficulties in maintaining consistent compliance across all stages of production.

### **OPPORTUNITIES:**

#### **1. Expansion into New Markets**

There is substantial potential for geographic diversification. Expanding operations internationally and into other Indian states could capture new customer segments, reducing dependence on the local market and driving long-term growth.

#### **2. Product Diversification and more profitable opportunities**

Developing new solvent products or expanding into related chemical services could diversify revenue streams. Additionally, the strategic focus on purchasing and recycling high-value materials like Acetonitrile, THF, and 2TB opens up opportunities in high-margin product markets, particularly the pharmaceutical sector.

### **3. Forward Integration into the Pharmaceutical Industry**

Entering the pharmaceutical industry, particularly through the direct recycling of materials for pharmaceutical use, represents a strategic growth opportunity. Increased demand for pharmaceutical-grade solvents provides a lucrative market for Snehaa Organics to expand into.

#### **THREATS:**

##### **1. Regulatory Changes**

Sudden or unexpected changes in environmental regulations or pollution control policies could lead to increased compliance costs and require significant operational adjustments. Staying ahead of regulatory shifts is essential to avoid disruptions and manage costs effectively.

##### **2. Pharmaceutical Market Instability**

Fluctuations or downturns in the pharmaceutical industry could impact demand for recycled solvents, particularly premium products. While diversification is a key strategy, over-reliance on the pharmaceutical sector poses risks to revenue stability.

##### **3. Intense Competition**

The solvent recovery and recycling sector is highly competitive, with both established players and new entrants vying for market share. Maintaining technological leadership, operational efficiency, and customer loyalty will be critical to staying ahead of competitors.

##### **4. Fluctuations in Raw Material Prices**

Volatility in the prices of raw materials like Acetonitrile, THF, and 2TB could impact profitability. While the company is transitioning to directly purchasing and recycling these materials, any disruptions in their supply or price fluctuations may pose challenges.

## **BUSINESS STRATEGIES**

##### **1. Expansion and Diversification within the Same Industry**

Snehaa Organics will continue to diversify its product portfolio and expand within the solvent recovery and recycling sector. We plan to significantly expand our existing solvent products such as Acetonitrile, THF (Tetrahydrofuran) and introduce new product i.e. 2TB (Tertiary Butyl Alcohol), catering to both established and emerging industries, particularly the pharmaceutical sector. This diversification will not only increase our revenue streams but also enable us to tap into more profitable business opportunities and strengthen our market position.

##### **2. Focus on Operational and Functional Efficiencies**

To maintain our competitive advantage, we will prioritize optimizing operational efficiencies. By continually refining our production processes and implementing advanced technology, we will reduce costs across all aspects of the business, from raw material procurement to final product delivery. Through process optimization, we will improve productivity while maintaining our quality standards.

### 3. Increase Market Share by Expanding Customer Base

Expanding our customer base remains a key focus of our growth strategy. We will leverage our reputation for recycled solvents and our commitment to sustainability to strengthen relationships with existing clients while acquiring new ones. Expanding into new geographic regions like Karnataka will help us capture a larger market share and drive revenue growth. Furthermore, we will implement targeted marketing campaigns and strategic partnerships to enhance brand awareness and vendor/customer engagement.

### 4. Sustainability and Environmental Compliance

The company is committed to sustainable operations and strict adherence to environmental regulations. As part of its environmental responsibility, all effluents and waste generated at the plant are systematically disposed of through third party ensuring full compliance with prescribed environmental guidelines. The company continuously monitors and follows best practices to minimize environmental impact, aligning its operations with regulatory standards and sustainable waste management principles

## SALES AND MARKETING STRATEGY

Snehaa Organics Limited operates in the B2B segment, providing solvent recovery and recycling solutions. We maintain direct contact with majority of our customers which allows us to understand the technical needs and specifications of our customers. As a B2B business, our channels of marketing are such that we need to reach and target our clients of various industries to offer our diversified products. Physical access to B2B decision makers is always difficult and restricted; hence the first step is to connect with them face to face interaction by visiting their respective offices. We have in-house team which looks after the sales and marketing of our products.

This team is also responsible for the marketing of our products, negotiating prices, procuring repeat orders and ensuring timely dispatch and deliveries. By fostering **long-term client relationships**, we support a **circular economy**, promoting solvent reuse and waste reduction.

## INVENTORY MANAGEMENT

At our solvent distillation unit, both raw materials and finished products are primarily stored at our designated warehouse facilities. After undergoing quality control checks, raw materials received from clients are stored in designated storage tanks earmarked for this purpose. Based on the client's requirements and delivery timelines, raw materials are recycled and converted into distilled products, which are then stored securely within these facilities. The materials are dispatched according to the requirements communicated by the Sales & Marketing team.

To ensure efficient and timely delivery, we maintain strategic stock reserves in certain cases, allowing us to shorten lead times and respond quickly to customer demands. These reserves are often aligned with customer stocking policies.

Our inventory management system is designed to maintain efficient stock levels for raw materials, packaging materials, and finished goods. These levels are determined through the Sales team, considering lead times for raw material procurement and production. We continuously assess factors such as estimated lead times and delivery schedules to manage inventory effectively across both our manufacturing and storage facility.

## LOGISTICS

As part of our Job Work Order, we are responsible for efficiently managing the collection of raw materials from our client's factory. After the recycling process, the materials are promptly delivered back to the client's facility. Additionally, any excess material generated during recycling is sold to customers and delivered directly to their respective locations.

To effectively handle these logistics operations, we currently operate a fleet of 3 commercial vehicles as on the stub period. These vehicles are essential for ensuring the timely pickup and delivery of products to our customers, giving us the advantage of full control over our supply chain and eliminating reliance on external service providers. Additionally, we utilize commercial vehicles from our group companies to facilitate deliveries as needed, further enhancing operational efficiency.

In the event of a vehicle shortfall due to unforeseen circumstances, we are well-equipped to hire external vehicles to ensure uninterrupted operations and maintain seamless logistics management.

## **UTILITIES & INFRASTRUCTURE FACILITIES**

### **Infrastructure Facilities**

Our Registered office is situated at Plot No 290 & 291, Dulapally, Adjacent to IDA, Jeedimetla, Quthbullapur, Rangareddi, Hyderabad, Telangana- 500055 well equipped with computer systems, internet connectivity, other communication and security etc.

Our Manufacturing facility is situated at Survey No. 296/4/AA & 296/4/E at IDA Bollaram Village, Jinnaram Mandal, Bollaram Road, Hyderabad, Sangareddy, Telangana - 502325.

Our manufacturing facility is also equipped with requisite utilities and infrastructure facilities including the following: -

### **Power**

We meet our power requirements by purchasing electricity from Southern Power Distribution Company of TG Limited for our Manufacturing facility. Our Contracted Maximum Demand with the Southern Power Distribution Company of TG Limited is of 150 (KVA).

### **Water**

Water is a key and indispensable resource requirement in our manufacturing process. Our Company has made adequate arrangements to meet its water requirements. Water is used in manufacturing process as well as for drinking and sanitary purpose. Water requirement at our manufacturing facility is met through private suppliers.

## **INFORMATION TECHNOLOGY**

Our registered office and manufacturing site are fully equipped with all the essential amenities to ensure seamless business operations. The facility is outfitted with advanced computer systems, CCTV surveillance for enhanced security, and reliable internet connectivity, all of which contribute to efficient communication, continuous monitoring, and robust data management. We use Tally Prime Gold 5.1 software, which supports various aspects of our business processes.

These resources are vital to maintaining smooth and effective operations, empowering our team to work with increased productivity and operational efficiency.

## RESEARCH AND DEVELOPMENT

Snehaa Organics Limited does not have a dedicated R&D team, we continuously optimize our solvent recovery and recycling processes through technological advancements. Our in-house testing facility ensures quality assessment, while process improvements enhance efficiency, sustainability, and compliance with industry standards.

## HUMAN RESOURCE

We believe that our employees are key contributors to our business success. We focus on attracting and retaining the best possible talent. Our Company looks for specific skill-sets, interests and background that would be an asset for our business.

As of February 28, 2025, there are total of 54 employees all of which are on payroll basis and none of them are employees are on contract basis.

We have encountered no significant work disruptions to date and we believe that we have maintained good relations with our employees.

## COMPETITION

We believe that the principal factors affecting competition in our business include client relationships, reputation, market focus and the relative quality, price of the products. We face competition from various domestic and other players in the market. Further, there are no entry barriers in this industry and any expansion in capacity of existing manufacturers would further intensify competition. As a result, to remain competitive in our markets, we must continuously strive to reduce our costs of production, transportation and distribution and improve our operating efficiencies. If we are unable to manage our business it might impede our competitive position and profitability. We intend to continue competing using the resources available at our disposal to capture more market share and adding more resources as required, including human resources to manage our growth in an optimal way.

## QUALITY CONTROL

Our Company has inhouse quality management systems which ensures good quality and at all steps from procurement till dispatch. We have established a quality control team which has the responsibility to ensure compliance with manufacturing practices. Before commencement of the manufacturing process, the materials purchased by our Company have to undergo a quality check, to ensure that they are of relevant quality and match the standards as specified.

## ENVIRONMENT, HEALTH & SAFETY

The personal health and safety of each employee of our organization is of primary importance. We believe that our employees are important assets and their safety at our worksite is our responsibility. Our Company provides the necessary equipment and facilities required for the personal safety and health of each employee. We implement work safety measures to ensure a safe working environment including general guidelines for health and safety at our manufacturing units. We believe that accidents and occupational health hazards can be significantly reduced through a systematic analysis and control of risks and by providing appropriate training to our management and our employees. We have implemented work safety measures to ensure a safe working environment at our facilities. Additionally, we conduct training programs to enhance employee awareness and preparedness for workplace safety. We have also installed fire detection systems for the safety of employee.

We are subject to extensive environmental laws and regulations in India, including those governing the prevention and control of water and air pollution, environmental protection, hazardous waste management, and noise pollution. To ensure compliance, we have implemented various measures, including entering into an agreement with third party. Under this agreement, we send pre-treated industrial waste water from our facility to them for proper disposal, thereby ensuring responsible waste management and adherence to regulatory standards.

## REPAIR AND MAINTAINANCE

We conduct daily, weekly, monthly, half yearly and annual repair and maintenance programs for our manufacturing facility based on the specific requirements of each machine. Our teams conduct periodic maintenance and repairs as needed to ensure optimal performance. A structured maintenance schedule helps minimize downtime, prevent unexpected breakdowns, and enhance operational efficiency.

## EXPORT AND EXPORT OBLIGATION

Our Company does not have any export obligations, as on date of this Draft Red Herring Prospectus.

No active compliance/registration needed as this Act is only applicable in case of injury to a workmen defined under the Act.

iv. **Employees (Provident Fund and Miscellaneous Provisions) Act, 1952-**

Applicable for companies having 20 or more employees. However, since the Company is registered under the Act, the Act is applicable.

v. **The Employees' State Insurance Act, 1948**

Applicable to Companies employing 10 or more workers in hazardous industries. Enacted to offer medical and financial benefits to employees in case of sickness, disability, or workplace injuries.

- vi. **Industrial Disputes Act, 1947;**

No active compliance/registration needed as this Act is only applicable in case of dispute in relation to employer & workmen.
- vii. **Payment of Bonus Act, 1965;**

The Payment of Bonus Act, 1965 is applicable to every factory and every other establishment employing twenty (20) or more persons. Every employee shall be entitled to be paid by his employer in an accounting year, bonus, in accordance with the provisions of this Act, provided he has worked in the establishment for not less than thirty working days in that year.
- viii. **The Minimum Wages Act, 1948;**

Applies to the whole of India and aims to prevent the exploitation of employees/workers with inadequate wages and delayed salary payments.
- ix. **The Payment of Wages Act, 1936;**

Ensures timely payment of wages to employees and prevents unauthorized deductions. It applies to factories, industrial establishments, and other notified sectors, covering employees earning up to a specified wage limit. The Act mandates regular payment, legal modes of transaction, and protection of workers' financial rights.
- x. **Maternity Benefit Act, 1961;**

Applicable to all establishments within which female employees/workers are employed.
- xi. **Payment of Gratuity Act, 1972;**

Applicable in case company has employed ten or more employees in preceding 12 months.
- xii. **Equal Remuneration Act, 1976**

Applicable to all establishments to which payment of gratuity act is applicable.
- xiii. **Industrial Disputes Act, 1947 And Industrial Dispute (Central) Rules, 1957**

Industrial Dispute Act, 1947 and the Rules made thereunder provide for the investigation and settlement of industrial disputes. The Industrial Disputes Act, 1947 was enacted to make provision for investigation and settlement of industrial disputes and for other purposes specified therein. Workmen under the ID Act have been provided with several benefits and are protected under various labour legislations, whilst those persons who have been classified as managerial employees and earning salary beyond a prescribed amount may not generally be afforded statutory benefits or protection, except in certain cases. The Industrial Dispute (Central) Rules, 1957 specify procedural guidelines for lock-outs, closures, lay-offs and retrenchment.

xiv. **The Child and Adolescent Labour (Prohibition and Regulation) Act, 1986**

Prohibits the employment of children under the age of 14 in any occupation and adolescents (14-18 years) in hazardous occupations, aiming to protect children from exploitation and ensure their education and well-being.

xv. **Sexual Harassment of Women at Workplace (Prevention, Prohibition and Redressal) Act, 2013**

Applicable to all establishments. However Internal Complaints Committee (ICC) compliance is only needed for establishments with ten or more employees.

xvi. **The Apprentices Act, 1961**

Aims to regulate and control the training of apprentices in India, ensuring a skilled workforce by providing practical training and bridging the gap between academia and industry. It applies to all establishments with 30 or more employees, mandating them to engage apprentices in designated trades.

xvii. **The Child and Adolescent Labour (Prohibition and Regulation) Act, 1986**

Prohibits the employment of children under the age of 14 in any occupation and adolescents (14-18 years) in hazardous occupations, aiming to protect children from exploitation and ensure their education and well-being.

xviii. **The Inter-State Migrant Workmen (Regulation of Employment and Conditions of Service) Act, 1979**

Aims to regulate the employment of inter-state migrant workers and ensure fair conditions of service, applying to establishments and contractors employing five or more such workers.

## **B) TAXATION LAWS**

The purpose of taxation laws in India for companies is to establish a framework for the collection of taxes from businesses and ensure compliance with tax regulations.

### **(i) Income-Tax Act, 1961**

The Act establishes the legal framework for the assessment, collection, and administration of income tax. It sets out the rights, duties, and obligations of income tax payers, including businesses, regarding tax compliance for all entities as well as individuals situated in India. The government of India imposes an income tax on taxable income of all persons including individuals, Hindu Undivided Families (HUFs), companies, firms, association of persons, body of individuals, local authority and any other artificial judicial person. Levy of tax is separate on each of the persons. The levy is governed by the Indian Income Tax Act, 1961. The Indian Income Tax Department is governed by CBDT and is part of the Department of Revenue under the Ministry of Finance, Govt. of India. Income tax is a key source of funds that the government uses to fund its activities and serve the public. The quantum of tax determined as

per the statutory provisions is payable as: a) Advance Tax; b) Self-Assessment Tax; c) Tax Deducted at Source (TDS); d) Tax Collected at Source (TCS); e) Tax on Regular Assessment.

**(ii) The Goods and Service Tax Act, 2017**

The GST Act establishes a legal framework for the collection, administration, and regulation of the Goods and Services Tax. It defines the rights, duties, and obligations of taxpayers, including businesses engaged in the sale of goods or provision of services. The GST Act mandates various compliance requirements for businesses. This includes obtaining a GST registration, filing regular GST returns, maintaining proper records, issuing tax invoices, and complying with specific provisions related to invoicing, input tax credit, and other aspects of the tax system. Further, Central Government levies GST on the inter-state supply of goods or services. The Act is applicable to the company.

**C) INTELLECTUAL PROPERTY LAWS**

The purpose of intellectual property (IP) laws in India for companies is to protect and promote innovation, creativity, and the rights of creators and inventors. These laws provide legal mechanisms for safeguarding various forms of intellectual property, such as patents, trademarks, copyrights, and industrial designs. The following laws are applicable to the company-

**(i) Trademarks Act, 1999 (TM Act)**

Trademark is used in relation to goods so as to indicate a connection in the trade and goods sold/services provided and a person having the right as proprietor or user to use the mark. The Trademarks Act, 1999. Trademarks Act governs the registration, acquisition, transfer and infringement of trademarks and remedies available to a registered proprietor or user of a trademark. The Act may be applicable to the Company in cases of infringement of a Trademark by the Company or if the Company registers a Trademark under the Act or wishes to enforce its trademark (registered or unregistered) against infringement by others.

**(ii) Copyrights Act, 1957**

The Copyrights Act governs copyright protection in India. Under the Copyright Act, copyright may subsist in original literary, dramatic, musical or artistic works, cinematograph films, and sound recordings. Following the issuance of the International Copyright Order, 1999, subject to certain exceptions, the provisions of the Copyright Act apply to nationals of all member states of the World Trade Organization.

While copyright registration is not a prerequisite for acquiring or enforcing a copyright, registration creates a presumption favoring ownership of the copyright by the registered owner. Copyright registration may expedite infringement proceedings and reduce delay caused due to evidentiary considerations. Once registered, the copyright protection of a work lasts for 60 years.

The Act may be applicable to the Company in case of any infringement of Copyright by the Company or in case the Companies enforced its copyright against infringement. The remedies available in the event of infringement of a copyright under the Copyright Act include civil proceedings for damages, account of profits, injunction and the delivery of the infringing copies to the copyright owner. The Copyright Act also provides for criminal remedies, including imprisonment of the accused, imposition of fines and seizure of infringing copies.

**(iii) Patents Act, 1970**

The purpose of the Patent Act in India is to protect inventions. Patents provide the exclusive rights for the owner of a patent to make, use, exercise, distribute and sell a patented invention. The patent registration confers on the patentee the exclusive right to use, manufacture and sell his invention for the term of the patent. Patents are used for the interests of inventors on one hand and the interests of the public on the other hand. The inventors are rewarded with a limited exclusive right on their invention, for providing technical progress to the public.

An application for a patent can be made by (a) person claiming to be the true and first inventor of the invention; (b) person being the assignee of the person claiming to be the true and first invention in respect of the right to make such an application; and (c) legal representative of any deceased person who immediately before his death was entitled to make such an application. Penalty for the contravention of the provisions of the Patents Act include imposition of fines or imprisonment or both.

**(D) ENVIRONMENTAL REGULATIONS**

The purpose of environmental laws in India is to protect nature and ensure sustainable development. These laws help control pollution, conserve forests and wildlife, and manage natural resources wisely. They also set rules for industries to prevent harm to the environment and promote eco-friendly practices. The following are applicable to the Company.

**(i) The Environment Protection Act, 1986**

The purpose of the Environment Protection Act is to act as an "umbrella" legislation designed to provide a framework for Central government co-ordination of the activities of various central and state authorities established under previous laws. The Environment Protection Act authorizes the central government to protect and improve environmental quality, control, and reduce pollution from all sources, and prohibit or restrict the setting and /or operation of any industrial facility on environmental grounds. The Act prohibits persons carrying on business, operation or process from discharging or emitting any environmental pollutant more than such standards as may be prescribed. Where the discharge of any environmental pollutant in excess of the prescribed standards occurs or is apprehended to occur due to any accident or other unforeseen act, the person responsible for such discharge and the person in charge of the place at which such discharge occurs or is apprehended to occur is bound to prevent or mitigate the environmental pollution caused as a result of such discharge and should intimate the fact of such occurrence or apprehension of such occurrence; and (b) be bound, if called upon, to render all assistance, to such authorities or agencies as may be prescribed.

**(ii) The Hazardous Wastes Management Rules, 2016**

These rules regulate the generation, collection, storage, packaging, transportation, use, treatment, processing, recycling, recovery, and disposal of hazardous wastes. They also control the import and export of hazardous wastes, making industries responsible for proper waste management. It provides that an occupier of a facility shall be responsible for safe and environmentally sound management of hazardous and other wastes generated in the establishment and hazardous and other wastes generated shall be sent or sold to an authorized actual user or shall be disposed of in an authorized disposal facility.

**(iii) Water (Prevention and Control of Pollution) Act, 1974**

The Water (Prevention and Control of Pollution) Act 1974 (the Act) was enacted with an objective to protect the rivers and streams from being polluted by domestic and industrial effluents. The Act provides for the prevention and control of water pollution and the maintaining or restoring of wholesomeness of water, for the establishment of Boards for the prevention and control of water pollution, for conferring on and assigning to such Boards powers and functions relating thereto and for matters connected therewith. It prohibits the discharge of toxic and poisonous matter in the river and streams without treating the pollutants as per the standard laid down by the Pollution control boards constituted under the Act. A person intending to commence any new industry, operation or process likely to discharge pollutants must obtain prior consent of the board constituted under the Act.

**(iv) Air (Prevention and Control of Pollution) Act, 1981**

Air (Prevention and Control of Pollution) Act 1981, provides for the prevention, control and abatement of air pollution, for the establishment, with a view to carrying out the aforesaid purposes, of Boards, for conferring on and assigning to such Boards powers and functions relating thereto and for matters connected therewith. It was enacted with an objective to protect the environment from smoke and other toxic effluents released in the atmosphere by industries. With a view to curb air pollution, the Act has declared several areas as air pollution control area and prior written consent is required of the board constituted under the Act, if a person intends to commence an industrial plant in a pollution control area.

**(v) Manufacture, Storage and Import of Hazardous Chemical Rules, 1989**

The Manufacture, Storage and Import of Hazardous Chemicals Rules, 1989, regulate the safe handling, storage, and import of hazardous chemicals in India. These rules mandate industries to identify and assess risks, maintain safety measures, and ensure proper labeling and documentation for hazardous chemicals. They also require setting up emergency plans, training personnel, and obtaining necessary licenses. Compliance with these rules helps minimize risks to health, safety, and the environment from the handling and storage of hazardous chemicals. These rules set safety requirements and procedures for industries involved in handling hazardous chemicals

**(vi) Bio-Medical Waste Management Rules, 2016**

The Bio-Medical Waste Management Rules, 2016, regulate the handling, segregation, transportation, and disposal of biomedical waste in India. It is applicable to healthcare facilities

and industries dealing with medical solvents and hazardous biological waste. Enacted to ensure safe collection, treatment, and disposal of biomedical waste to prevent infections and contamination.

**(vii) The Montreal Protocol on Substances that Deplete the Ozone Layer**

The Montreal Protocol, finalized in 1987, is a global agreement to protect the stratospheric ozone layer by phasing out the production and consumption of ozone-depleting substances (ODS). ODS are substances that were commonly used in products such as refrigerators, air conditioners, fire extinguishers, and aerosols. The landmark agreement was signed in 1987 and entered into force in 1989. India became party to the Montreal Protocol on June 19, 1992. The parties to the Protocol meet once a year to make decisions aimed at ensuring the successful implementation of the agreement. These include adjusting or amending the Protocol, which has been done six times since its creation. The most recent amendment, the Kigali Amendment, called for the phase-down of hydrofluorocarbons (HFCs) in 2016. The Montreal Protocol provided a set of practical, actionable tasks that were universally agreed on. The Protocol has successfully met its objectives thus far and continues to safeguard the ozone layer today.

**(viii) The Ozone Depleting Substances (Regulation and Control) Rules, 2000**

The Ozone Depleting Substances (Regulation and Control) Rules, 2000 are formulated under the EPA. The rules provide that no person shall produce or cause to produce any ozone depleting substance after the date specified in the schedule and unless he is registered with the authority specified in the schedule thereto. The rules provide for corresponding percentage calculated on base level for production of ozone depleting substances. Furthermore, the rules also prescribe regulation for purchase, sale and use of Ozone Depleting Substances.

**(ix) Environmental Impact Assessment (EIA) Notification, 1994**

The Environmental Impact Assessment (EIA) Notification, 1994, in India is a crucial regulatory framework under the Environment (Protection) Act, 1986. This notification outlines the process for evaluating the potential environmental impacts of proposed development projects before they are undertaken. It mandates that certain projects undergo a comprehensive environmental impact assessment, considering factors such as air and water quality, biodiversity, and socio-economic impacts. The EIA Notification establishes procedures for public consultation, disclosure of project-related information, and submission of environmental clearance applications. The goal is to integrate environmental considerations into decision-making processes, ensuring sustainable development while minimizing adverse effects on the environment. Over the years, the EIA framework has undergone amendments to enhance its effectiveness in addressing contemporary environmental challenges.

**(x) The Public Liability Insurance Act and Rules 1991 and Amendment, 1992**

Aims to provide immediate relief to victims of accidents involving hazardous substances, mandating owners to obtain insurance for such incidents.

**(xi) National Green Tribunal Act, 2010**

For effective and expeditious disposal of cases relating to environmental protection and conservation of forests and other natural resources including enforcement of any legal right relating to environment and giving relief and compensation for damages to persons and property and for matters connected therewith or incidental thereto. It is a specialized body equipped with the necessary expertise to handle environmental disputes involving multidisciplinary issues.

**(xii) The National Environment Appellate Authority Act, 1997**

Specialized body (NEAA) to hear appeals regarding environmental issues, particularly those related to restrictions on industries or operations under the Environment (Protection) Act, 1986. Its purpose was to provide a dedicated forum for resolving disputes and protecting environmental rights.

**(xiii) The Environment (Siting for Industrial Projects) Rules, 1999**

Lays down detailed provisions relating to areas to be avoided for siting of industries, precautionary measures to be taken for site selecting as also the aspects of environmental protection which should have been incorporated during the implementation of the industrial development projects.

**E) INDUSTRIAL SAFETY LAWS**

**(i) Chemical Accidents (Emergency, Planning, Preparedness and Response) Rules, 1996**

The Chemical Accidents (Emergency Planning, Preparedness and Response) Rules, 1996, in India constitute a regulatory framework designed to manage and respond to potential hazards associated with the handling and storage of hazardous chemicals. Formulated under the Environment (Protection) Act, 1986, these rules outline measures for the identification of hazardous installations, development of on-site and off-site emergency plans, and the constitution of a Crisis Group to coordinate emergency response efforts. They emphasize public information and awareness, require prompt notification of accidents, and mandate training and drills for personnel involved in handling hazardous chemicals. The rules aim to minimize the impact of chemical accidents by ensuring comprehensive emergency planning, preparedness, and response strategies.

**(ii) Transportation of Dangerous Goods Rules, 2008**

The Transportation of Dangerous Goods Rules, 2008, in India establish a regulatory framework to ensure the safe and secure transportation of hazardous materials. Formulated under the Motor Vehicles Act, 1988, these rules prescribe standards and procedures for the packaging, labelling, and transport of dangerous goods by road. The rules detail requirements for vehicle markings, documentation, and emergency response plans to mitigate potential risks during transportation. Emphasizing the protection of public safety and the environment, these rules aim to prevent accidents, spillages, and other incidents related to the transportation of hazardous materials.

**(iii) Chemicals (Management and Safety) Rules, 1980**

The Chemicals (Management and Safety) Rules, 1980, in India constitute a regulatory framework aimed at ensuring the safe management and handling of hazardous chemicals.

These rules, formulated under the Environment (Protection) Act, 1986, outline measures to control the import, transport, storage, and use of such chemicals to prevent adverse effects on human health and the environment. The rules encompass provisions for the classification of hazardous chemicals, labelling, safety data sheets, and the implementation of safety measures in industrial facilities. With a focus on risk assessment and prevention of chemical-related incidents, these rules play a crucial role in promoting the responsible management of chemicals across various industries.

**(iv) The Indian Boilers Act, 1923**

Aims to ensure the safety of life and property by regulating boilers, ensuring uniformity in registration and inspection, and preventing accidents related to boiler explosions.

**(v) The Occupational Safety, Health and Working Conditions Code, 2020**

Aims to consolidate and amend laws regulating occupational safety, health, and working conditions, applying to various sectors, including factories, construction, and more, with the purpose of improving worker safety and welfare.

**F) GENERAL/OTHER APPLICABLE LAWS**

General laws like the Contract Act, Competition Act, and Consumer Protection Act play a crucial role in regulating companies in India. These laws serve different purposes and provide a framework for fair and ethical business practices. Important laws inter alia applicable to the company are as follows:

**(i) The Companies Act, 2013**

The Act is applicable to the Company as it deals with incorporation of companies and post incorporation procedures and compliances. The conversion of private company into public company and vice versa is also laid down under the Act.

**(ii) Consumer Protection Act, 2019**

The Consumer Protection Act, 2019, aims to safeguard consumer rights in India by addressing unfair trade practices, deceptive advertising, and product defects. It establishes a robust mechanism for grievance redressal through Consumer Commissions at the district, state, and national levels. The Act introduces provisions for e-commerce platforms, ensures the right to health and safety, and strengthens the enforcement of consumer rights. It also empowers consumers with greater transparency, awareness, and access to timely dispute resolution. The Act is applicable as the company deals with sale/purchase of products to end consumers.

**(iii) The Information Technology Act, 2000**

The Act also aims to provide for the legal framework so that legal sanctity is accorded to all electronic records and other activities carried out by electronic means. The Act states that unless otherwise agreed, an acceptance of contract may be expressed by electronic means of communication and the same shall have legal validity and enforceability. The Act is applicable to the Company as it does carry out above activities.

**(iv) Micro, Small and Medium Enterprises Development Act, 2006:**

The Micro, Small, and Medium Enterprises Development (MSMED) Act, 2006 is a landmark legislation in India designed to foster the growth and development of micro, small, and medium enterprises (MSMEs), which are vital to the country's economic progress. The Act provides a clear classification of MSMEs based on their investment in plant and machinery or equipment and annual turnover. This classification is crucial for determining eligibility for various support measures and incentives under the Act.

The MSMED Act, 2006 also establishes a framework for supporting MSMEs through financial assistance, technology upgradation, and infrastructure development. It includes provisions for the Credit Guarantee Fund to offer collateral-free loans, enhancing access to finance for small businesses. Additionally, the Act promotes the registration of MSMEs to help them benefit from government schemes and subsidies. It also provides mechanisms for dispute resolution and the creation of institutions to support the sector's growth. By streamlining regulatory processes and providing targeted support, the MSMED Act aims to boost entrepreneurship, create jobs, and contribute to sustainable economic development. This Company is registered under this Act.

**(v) The Petroleum Act, 1934 & and rules thereunder**

Regulates the import, storage, transport, and handling of petroleum products in India to ensure safety and prevent hazards. It classifies petroleum based on flashpoints and provides a legal framework for licensing and safety compliance. The Act applies to industries, businesses, oil companies, and government bodies dealing with petroleum and is enforced nationwide.

**(vi) Indian Contract Act, 1872**

The Indian Contract Act, 1872 codifies the way in which a contract may be entered into, executed, implementation of the provisions of a contract and effects of breach of a contract. A person is free to contract on any terms he chooses. The Contract Act also provides for circumstances under which contracts will be considered as void or voidable. The Contract Act contains provisions governing certain special contracts, including indemnity, guarantee, bailment, pledge, and agency.

**(vii) The Competition Act, 2002**

The Competition Act, 2002 prohibits anti-competitive agreements, abuse of dominant positions by enterprises and regulates —combinations in India. The Competition Act also established the Competition Commission of India (the —CCI) as the authority mandated to implement the Competition Act. The provisions of the Competition Act relating to combinations were notified on March 4, 2011 and came into effect on June 1, 2011. Combinations which are likely to cause an appreciable adverse effect on competition in a relevant market in India are void under the Competition Act.

There are also different thresholds for those categorized as Individuals and Group. The CCI may enquire into all combinations, even if taking place outside India, or between parties outside India, if such combination is Likely to have an appreciable adverse effect on competition in India. Effective June 1, 2011, all combinations have to be notified to the CCI within 30 days of the

execution of any agreement or other document for any acquisition of assets, shares, voting rights or control of an enterprise under Section 5(a) and (b) of the Competition Act (including any binding document conveying an agreement or decision to acquire control, shares, voting rights or assets of an enterprise); or the board of directors of a company (or an equivalent authority in case of other entities) approving a proposal for a merger or amalgamation under Section 5(c) of the Competition Act. The obligation to notify a combination to the CCI falls upon the acquirer in case of an acquisition, and on all parties to the combination jointly in case of a merger or amalgamation.

**(viii) Transfer of Property Act, 1882**

Transfer of Property Act, 1882 establishes the general principles relating to transfer of property in India. This Act lays down the legal framework for the transfer of property rights, including the sale, mortgage, lease, and gift of real estate. It outlines the procedures and conditions under which property can be legally transferred from one party to another, ensuring that transactions are conducted in a lawful manner. The Act defines various types of property transfers and provides guidelines for executing and registering such transfers, aiming to protect the interests of all parties involved and to prevent disputes.

One of the key features of the Act is, its detailed provisions on the transfer of property through sale and mortgage. It specifies the requirements for a valid sale deed, including the necessity of a written instrument and registration with the relevant authorities. The Act also addresses the legal implications of mortgages, detailing the rights and obligations of both mortgagors and mortgagees. Transfer of property is subject to stamping and registration under the specific statutes enacted for that purpose. Additionally, it covers lease agreements, providing a framework for the duration, terms, and conditions of lease contracts. Overall, the Transfer of Property Act, 1882 ensures transparency and fairness in property transactions, contributing to a stable real estate market.

**(ix) The Indian Stamp Act, 1899**

Under the Indian Stamp Act, 1899, stamp duty is payable on instruments evidencing a transfer or creation or extinguishment of any right, title or interest in immovable property. The Indian Stamp Act, 1899 provides for the imposition of stamp duty at the specified rates on instruments listed in Schedule I of the Stamp Act. However, under the Constitution of India, the states are also empowered to prescribe or alter the stamp duty payable on such documents executed within the state. Instruments chargeable to duty under the Stamp Act but which have not been duly stamped, are incapable of being admitted in court as evidence of the transaction contained therein. The Stamp Act also provides for impounding of instruments by certain specified authorities and bodies and imposition of penalties, for instruments which are not sufficiently stamped or not stamped at all. Instruments which have not been properly stamped instruments can be validated by paying a penalty of up to 10 times of the total duty payable on such instruments.

**(x) Registration Act, 1908 (The “Registration Act”)**

The purpose of the Registration Act, amongst other things, is to provide a method of public registration of documents so as to give information to people regarding legal rights and obligations arising or affecting a particular property, and to perpetuate documents which may afterwards be of legal importance, and also to prevent fraud. The purpose of the Registration Act is the conservation of evidence, assurances, title and publication of documents and prevention of fraud. It details the formalities for registering an instrument. Section 17 of the Registration Act identifies documents for which registration is compulsory and includes, among other things, any non-testamentary instrument which purports or operates to create, declare, assign, limit or extinguish, whether in present or in future, any right, title or interest, whether vested or contingent, in any immovable property of the value of one hundred rupees or more, and a lease of immovable property for any term exceeding one year or reserving a yearly rent. A document will not affect the property comprised in it, nor be treated as evidence of any transaction affecting such property (except as evidence of a contract in a suit for specific performance or as evidence of part performance under the TP Act or as collateral), unless it has been registered. Evidence of registration is normally available through an inspection of the relevant land records, which usually contains details of the registered property. Further, registration of a document does not guarantee title of land.

**(xi) Arbitration and Conciliation Act, 1996 and subsequent amendments**

The Arbitration and Conciliation Act was enacted to consolidate and amend the law relating to domestic arbitration, international commercial arbitration and enforcement of foreign arbitral awards as also to define the law relating to conciliation and for matters connected therewith or incidental thereto. The Act provides for the arbitral tribunal to give reasons for its arbitral award, to ensure that the arbitral tribunal remains within the limits of its jurisdiction and thus minimizing the supervisory role of courts in the arbitral process. There are many provisions that also permit an arbitral tribunal to use mediation, conciliation or other procedures during the arbitral proceedings to encourage settlement of disputes, to provide that every final arbitral award is enforced in the same manner as if it were a decree of the court, to provide that a settlement agreement reached by the parties as a result of conciliation proceedings will have the same status and effect as an arbitral award on agreed terms on the substance of the dispute rendered by an arbitral tribunal and to provide that, for purposes of enforcement of foreign awards, every arbitral award made in a country to which one of the two International Conventions relating to foreign arbitral awards to which India is a party applies, will be treated as a foreign award.

**(xii) Legal Metrology Act, 2009**

The Legal Metrology Act, 2009, regulates the standards of weights and measures in India to ensure accuracy and fairness in trade. It establishes rules for the manufacture, sale, and use of weighing and measuring instruments. The Act mandates the use of standard units of measurement, prevents fraudulent practices, and ensures consumer protection. It also sets penalties for violations and requires manufacturers and traders to comply with prescribed standards to maintain transparency and accountability in commercial transactions. The Act is applicable to companies engaged in manufacturing, importing, packing, selling, or distributing certain products are subject to mandatory compliance requirements. The Act is applicable to the Company as it is engaged in sale of products having such compliances.

**(xiii) The Insolvency and Bankruptcy Code (IBC), 2016**

Aims to consolidate and streamline insolvency and bankruptcy laws in India, providing a time-bound resolution process for corporate, partnership, and individual debtors, while promoting entrepreneurship and balancing stakeholder interests.

**(xiv) Customs and Import/Export Regulations**

If the Company is involved in importing or exporting goods, the relevant customs laws, Foreign Trade Policy, and other related regulations would be applicable such as Customs Act, 1962, Customs Tariff Act, 1975, Foreign Trade (Development and Regulation) Act, 1992 etc.

### **Rationale of Related Party Transaction with respect to Sales and purchases.**

#### **Sales to Vestro Solvents Private Limited:**

Particulars	31 <sup>st</sup> December, 2024	31 <sup>st</sup> March, 2024	31 <sup>st</sup> March 2023	31 <sup>st</sup> March 2022
<b>Sales (₹ in lakhs)</b>	29.84	307.94	204.08	331.89
<b>% from Total Revenue from operations</b>	1.45%	12.98%	10.15%	15.27%

Vestro Solvents has an extensive customer base and large storage facilities in both Telangana and Andhra Pradesh. Due to space constraints and the hazardous nature of the products, Snehaa is unable to store large quantities on their premises. Additionally, handling small quantities for various customers is not feasible by Snehaa. To mitigate the risks associated with storing large hazardous quantities and to avoid dealing with multiple small customers, we intend to sell material in bulk (tankers) to Vestro Solvents. Vestro is well-equipped to handle these issues, allowing Snehaa to manage the supply chain more efficiently. It is also to be noted that even if the Snehaa doesn't sell these to its group company, it will sell in the market at similar rates.

#### **Purchases from Vestro Solvents Private Limited:**

Particulars	31 <sup>st</sup> December, 2024	31 <sup>st</sup> March, 2024	31 <sup>st</sup> March 2023	31 <sup>st</sup> March 2022
<b>Purchases (₹ in lakhs)</b>	230.00	201.54	96.38	157.20
<b>% from Total Purchases</b>	22.64%	17.96%	9.83%	10.28%

Snehaa Organics business has always been centered on satisfying customer needs and demands. Due to increased production requirements from customers, they received additional spent solvents for distillation on a job work basis. However, due to capacity constraints they were unable to distill the product on time. To remain committed to fulfilling their obligations to customers and maintain strong long-term relationships, they purchased the pure product from Vestro Solvents and provided the same to job work orders and distilled the job work material received at their own speed and sold the same in open market.

**Sales to Vedant Petrochem Private Limited (Previously known as Vedant Chemicals):**

Particulars	31 <sup>st</sup> December, 2024	31 <sup>st</sup> March, 2024	31 <sup>st</sup> March 2023	31 <sup>st</sup> March 2022
Sales (₹ in lakhs)	202.64	624.58	785.99	955.19
% from Total Revenue from operations	9.86%	26.33%	39.10%	43.95%

Vedant Petrochem operates branches in Andhra Pradesh, West Bengal, and Telangana. Rather than dealing with numerous small customers across these states, Snehaa intends to sell material in bulk (tankers) to Vedant Petrochem. They will, in turn, sell it to their end customers. This approach allows them to streamline their distribution and manage customer relationships more effectively.

**Purchases from Vedant Petrochem Private Limited:**

Particulars	31 <sup>st</sup> December, 2024	31 <sup>st</sup> March, 2024	31 <sup>st</sup> March 2023	31 <sup>st</sup> March 2022
Purchases (₹ in lakhs)	50.16	144.01	90.22	171.35
% from Total Purchases	4.94%	12.83%	9.20%	11.21%

As previously mentioned, Snehaa Organics is focused on meeting the needs of its customers. With an anticipated increase in the production demands from our clients, we receive additional job material for distillation on a job work basis. Due to the capacity constraints at our factory, Snehaa is not able to process the product immediately. However, out of commitment to customer satisfaction and long-term relationships, they will not refuse the material. As part of our business strategy, they plan to purchase the processed material from Vedant Petrochem, who acts as a dealer, and will send it back to the customer in the agreed-upon percentages.

**Purchases from Vestro Containers Private Limited:**

Particulars	31 <sup>st</sup> December, 2024	31 <sup>st</sup> March, 2024	31 <sup>st</sup> March 2023	31 <sup>st</sup> March 2022
Purchases (₹ in lakhs)	29.20	48.38	39.35	-
% from Total Purchases	2.87%	4.31%	4.01%	-

Vestro Containers Pvt. Ltd., based in Hyderabad, Telangana, is a manufacturer and supplier of high-quality HDPE drums. To store and sell our materials effectively, Snehaa purchases these drums from Vestro Containers, ensuring that their storage needs are met with reliable and safe packaging solutions.

**Sales to TCR Chemicals:**

<b>Particulars</b>	<b>31st December, 2024</b>	<b>31st March, 2024</b>	<b>31st March 2023</b>	<b>31st March 2022</b>
<b>Sales (₹ in lakhs)</b>	225.37	4.76	14.23	0.96
<b>% from Total Revenue from operations</b>	10.97%	0.20%	0.71%	0.04%

Snehaa Organics understands the importance of maintaining strong and collaborative relationships with business partners. TCR Chemicals, a key player in the distillation business, acts as a major job worker for a major player in the market. As with Snehaa, TCR Chemicals occasionally faces production constraints, which place pressure on them to close job work challans and meet their customer requirements in a timely manner.

In such instances, TCR Chemicals, in order to fulfill urgent customer needs and maintain a strong relationship with their clients, has reached out to us for material to be purchased from the open market. Given our excess stock, we have agreed to sell the required material to TCR at arm's length prices, just as we would in the open market.

This arrangement has enabled TCR to meet their production demands while allowing us to effectively manage our excess inventory. We believe this collaboration is beneficial for both parties, ensuring that customer requirements are met and business relationships are strengthened.

TCR chemicals, promoter group classified as related party under the applicable accounting and regulatory guidelines. Prior to February 2024, Its reclassification resulted from its inclusion in the promoter group, following the partnership of Mr. Joji Reddy Tera, father of Mrs. Samhitha Reddy, who is the wife of Mr. Sri Nandigala Venkata Sai Harish, the company's promoter. Consequently, after their marriage, TCR Chemicals became part of the promoter group of Snehaa Organics Limited.

For details on related party transactions of our company, please refer to Annexure XXXIII beginning on page 324 of “restated financial information” under the section titled, ‘Financial information’ of this Draft Red Herring Prospectus.

  - h) There are no revaluation reserves, which need to be disclosed separately in the Restated Financial Statements;
  - i) The Company has not paid dividend during the financial years under review.
  - j) The Company has mentioned in **Note-9** and **Annexure XI** of the restated financial statements that: **“The Company has not received any intimation from suppliers regarding their status under Micro, Small and Medium Enterprises Development Act, 2006 and hence required disclosures such as amounts unpaid as at the year-end together with interest paid/payable as required under the said Act have not been given.”**.

“Hence the company has not accounted for the interest provisions as per MSMED Act, 2006 as they don’t have the MSME bifurcation and they had a contractual credit period of more than the stipulated period as per MSMED Act, 2006. However, the company should maintain the bifurcation of the MSME creditors and the company should have accounted for the interest as per the provisions of the MSMED Act, 2006 and as a result of which the profit would have been lower by the interest amount payable as per the provisions of MSMED Act, 2006.

- k) The Company has mentioned in **Note-29** of the restated financial statements that: **“The closing balances of Debtors and Creditors are subject to Ledger Confirmations from the parties.”**

“The management has represented that they do not expect any material differences to arise upon receipt of such confirmations. As the auditors, we are unable to independently verify or quantify any potential adjustments that may arise from these confirmations, and consequently, we are unable to comment further on the accuracy of the balances with these parties. Our opinion is not modified in respect of this matter”.

- 7) We have also examined the following other Restated Financial Information as set out in the respective Annexure's to this report and forming part of the Restated Financial Statement, prepared by the management of the Company and approved by the Board of Directors of the company for the period/year ended 31st December, 2024, 31st March, 2024, 31st March, 2023, 04th July, 2022 and 31st March, 2022 proposed to be included in the Draft Red Hearing/Red Hearing/Prospectus ("Offer Document") for the proposed IPO:

#### 2. SIGNIFICANT ACCOUNTING POLICIES:

##### 2.1. Basis of preparation of restated financial statements

The restated financial statements of the Company comprise financial statements for the period/year ended 31st December, 2024, 31st March, 2024, 31st March, 2023, 04th July, 2022 and 31st March, 2022, that had been previously prepared and audited as per the requirements of Companies Act, 2013 and now restated as per the requirements of Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2018, as amended (the SEBI ICDR Regulations) issued by the Securities and Exchange Board of India (SEBI) on September 11, 2018 as amended from time to time in pursuance of the Securities and Exchange Board of India Act, 1992 and Guidance note on reports in Company Prospectus (Revised 2019) (Guidance Note) issued by the Institute of Chartered Accountants of India (ICAI). The financial statements have been prepared on an accrual basis and under the historical cost convention. The accounting policies adopted in the preparation of financial statements are consistent with those of previous years.

These Statements have been prepared by the Management for the purpose of inclusion in the Red Herring Prospectus (‘RHP’)/ Prospectus in connection with its proposed initial public offering of equity shares.

The Restated Financial Information have been compiled by the Management from:

The Audited Financial Statements of the Company as at and for the period/year ended 31st December, 2024, 31st March, 2024, 31st March, 2023, 04th July, 2022 and 31st March, 2022, prepared in accordance

with the IGAAP which has been approved by the Board of Directors.

**The Restated Financial Information have been prepared to contain information/disclosures and incorporating adjustments set out below in accordance with the ICDR Regulations:**

- i) Adjustments to the profits or losses of the earlier years for the changes in accounting policies if any to reflect what the profits or losses of those years would have been if a uniform accounting policy was followed in each of these years and of material errors, if any;
- ii) Adjustments for reclassification/regroupings of the corresponding items of income, expenses, assets and liabilities retrospectively for the period/year ended 31st December, 2024, 31st March, 2024, 31st March, 2023, 04th July, 2022 and 31st March, 2022, in order to bring them in line with the groupings as per the Restated Financial Information of the Company for the period ended 31st March, 2024 and the requirements of the SEBI Regulations, if any; and
- iii) The resultant impact of tax due to the aforesaid adjustments, if any.

**2.2. Use of Estimates:**

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure relating to contingent assets and contingent liabilities as on the date of the financial statements and the reported amounts of income and expense during the period. Actual results could differ from the estimates. Examples of estimates include provision for doubtful debt, future obligation under employees retirement benefit plans, income taxes, useful life of fixed assets, etc., Any revision to accounting estimates is recognized prospectively in current and future periods.

**2.3. Cash and Cash Equivalent**

Cash and cash equivalents for the purposes of financial statements comprise cash with banks and cash in hand. These are highly convertible in cash and are subject to insignificant risk of changes in value.

**2.4. Cash Flow Statements:**

Cash flows are reported using the indirect method, where by the net profit before tax is adjusted for the effects of transactions of a non cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing cash flows. The cash flows from operating, investing and financing activities of the Company are segregated and presented separately.

**2.5. Property, Plant & Equipment and Intangible Assets & Depreciation:**

- i) Property, Plant & Equipment are shown at Cost of acquisition. Cost of acquisition is inclusive of freight, duties, levies and all incidentals directly or indirectly attributable to bringing the asset to its working condition for its intended use. The cost of fixed assets include cost of initial warranty / insurance spares purchased along with the capital asset, which are grouped as single item under respective assets.
- ii) Depreciation is computed based on the rates specified in Income tax act, 1961 upto the date of conversion i.e. 05th July, 2023. after the conversion of Snehaa pharma chemicals (Partnership firm) into Snehaa organics private limited Depreciation is calculated based on a Straight line method, based on estimated useful life of the assets as mentioned below.

S.No.	Particulars	Useful life (in years)	
		As per schedule II	Estimated by management
1	Building	30	10
2	Plant and machinery	25	10
3	Furniture and fixtures	10	10
4	Computers	3	3
5	Electrical equipments	10	5
6	Vehicles	8	8

iii) Capital work in progress comprises outstanding advances paid to acquire assets and the cost of fixed asset (including expenditure during construction) that are not yet ready for their intended use before the balance sheet date.

iv) Intangible Assets: Intangible assets refer to non-physical assets that provide future economic benefits to the company. These assets do not have physical substance but are identifiable and controlled by the company. Common examples include goodwill, trademarks, copyrights, patents, and software.

(v) Amortization/Depreciation: The amortization of intangible assets is carried out over the useful life of the asset, reflecting the pattern in which the economic benefits are expected to be consumed by the company. The company assumes that the economic benefits will flow over a period of 5 years and accordingly calculated amortization and charged it to the profit and loss a/c.

(vi) Impairment – The company assesses at each balance sheet date whether there is any indication that an asset may be impaired. If any such indication exists the company estimates the recoverable amount of the asset. If such recoverable amount of the asset or the recoverable amount of cash generating unit to which the asset belongs is less than its carrying amount, the carrying amount is reduced to its recoverable amount. The reduction is treated as impairment loss and is recognized in the profit and loss account. For an asset that does not generate independent cash inflows, the recoverable amount is determined for the cash generating unit to which the asset belongs. If at the balance sheet there is an indication that a previously assessed impairment loss no longer exists, the recoverable amount is reassessed and the asset is reflected at the recoverable amount subject to a maximum of depreciation historical cost.

## 2.6. Inventory

Inventories comprising of raw materials, work in progress and finished goods are valued at lower of cost or net realizable value. Finished goods produced by the company are valued at net realizable value.

## 2.7. Revenue Recognition:

i) The Company recognizes revenue from the distillation of solvents and manufacture of pharma chemicals to the extent that the economic benefits will probably flow to the Company and the revenue can be reliably measured, regardless of when the payment is being made.

ii) The Company recognizes revenue from the distillation of solvents and manufacture of pharma chemicals on a job work basis is recognized upon the completion of the service when

a) The job work is completed and the processed solvents are delivered to the customer.

b) The significant risks and rewards of ownership of the processed solvents are transferred to the customer.

iii) Interest income is recognized on a time proportionate basis taking into account the amount of outstanding and the rate applicable.

## **2.8. Employee Retirement Benefits:**

### **Provident Fund**

Eligible employees receive benefits from a provident fund, which is a defined contribution scheme. Both the employee and the Company make monthly contributions to the provident fund plan equal to a specified percentage of the covered employee salary. The contribution made by the Company is charged to the Profit and Loss Account.

### **Employee State Insurance**

Contributions to the Employee State Insurance (ESI) scheme, as per the Employees' State Insurance Act, 1948, are recognized as part of employee benefits expense in the period the related services are rendered. The Company's obligation is limited to the contributions made to the ESI scheme.

### **Gratuity**

Post-employment defined benefit plan. Short-term and long-term liability recognized in the Balance Sheet represents the present value of the defined benefit obligation at the reporting date less the fair value of plan assets.

Gratuity is provided for on the basis of an actuarial valuation at the end of each financial year. Actuarial gains and losses are recognized in full in the statement of profit and loss for the period in which they occur."

### **Compensated absences**

The Company does not follow any Leave Encashment policy for its employees.

## **2.9. Earnings Per Share**

(i) Basic earnings per share are computed by dividing the net profit or loss after tax attributable to equity shareholders for the period by the weighted average number of equity shares outstanding during the period.

(ii) For the purpose of calculating diluted earnings per share, net profit or loss after tax attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares. Dilutive potential equity shares are deemed converted as at the beginning of the period, unless they have been issued at a later date. In computing the dilutive earnings per share, only potential equity shares that are dilutive and that either reduces the earnings per share or increases loss per share are included.

## **2.10. Provisions And Contingent Liabilities:**

The Company recognizes a provision when there is a present obligation as a result of past obligating event that probably requires an outflow of resources and a reliable estimate can be made of the amount of the obligation. A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but probably will not, require an outflow of resources. Where there is a possible obligation or a present obligation that the likelihood of outflow of resources is remote, no provision or disclosure is made.

## **2.11. Taxes On Income**

Income tax expense/(income ) comprises of current tax, deferred tax.

### *Current Tax*

Current tax is determined as the amount of tax payable in respect of taxable income for the year as per the provisions of the Income Tax Act, 1961.

### *Deferred Tax*

Deferred tax reflects the tax effects of the timing differences between accounting income and taxable income for the period. The deferred tax charge or credit and the corresponding deferred tax liabilities or assets are recognized using the rates that have been enacted or substantially enacted by the Balance Sheet date. Deferred tax assets are recognized only to the extent there is reasonable certainty that the assets can be realized in the future; however, where there is unabsorbed depreciation or carry forward of loss under taxation laws, deferred tax assets are recognized only if there is a virtual certainty of realization of such assets.

Deferred tax assets are reviewed at each balance sheet date and written down or written up to reflect the amount that is reasonably/virtually certain(as the case may be) to be realized.

The break up of the deferred tax assets and liabilities as at the Balance Sheet date has been arrived at after setting off deferred tax assets and liabilities where the company has a legally enforceable right and an intention to set off deferred tax assets against liabilities and where such assets and liabilities relate to taxes on income levied by the same governing taxation laws.

## ADDITIONAL NOTES TO RESTATED FINANCIAL INFORMATION

### NOTE 27

#### Employee Benefits

##### I. Defined contribution plans

The Company has classified the various benefits provided to employees as under:

##### a. Employee State Insurance Fund

Contributions to the Employee State Insurance (ESI) scheme, as per the Employees' State Insurance Act, 1948, are recognized as part of employee benefits expense in the period the related services are rendered. The Company's obligation is limited to the contributions made to the ESI scheme.

##### b. Employee Provident Fund

Eligible employees receive benefits from a provident fund, which is a defined contribution scheme. Both the employee and the Company make monthly contributions to the provident fund plan equal to a specified percentage of the covered employee salary. The contribution made by the Company is charged to the Profit and Loss Account.

The expense recognised during the period towards defined contribution plan –

**Notes :**

**Reasons for change in ratios more than 25%**

- The current ratio in FY 2023-24 has decreased by 27%, primarily due to an increase in current liabilities (specifically, the current portion of short-term borrowings related to vehicle loans), which outpaced the growth in current asset. As of 31st March 2023, the current ratio has increased by 63% compared to 4th July 2022, primarily due to a reduction in amounts payable to creditors. The increase in the current ratio during FY 2021-22 was driven by higher turnover, which resulted in an increase in accounts receivable.
- The debt-equity ratio for FY 2023-24 has decreased by 45% compared to the period ending 31st March 2023, primarily due to the increase in reserves and surplus. This increase is attributed to the fact that the reserves and surplus for the previous year were calculated for only eight months. As of 31st March 2023, the transfer of partners' capital to unsecured loans led to a change in the Debt to Equity ratio for that period. The pre-payment of the Adarsh Bank loan for the period ended 04th July 2022, along with the inclusion of restated profits, resulted in a change in the Debt to Equity ratio. The decrease in the

debt-equity ratio for FY 2021-22 is attributed to the increase in reserves, which resulted from a rise in profits during FY 2021-22 compared to FY 2020-21.

- The increase in loans for the period ended 31st December 2024 has resulted in a decrease in the interest service coverage ratio when compared to the FY 2023-24.
- The change in net profit after tax and shareholders' equity, when compared to the restated net profit and shareholders' equity for the financial year 2021-22, has led to an increase in the return on equity. The transfer of partners' capital to unsecured loans has resulted in an increase in the return on equity for the financial year ended 31st March 2023. The debt-equity ratio for FY 2023-24 has decreased by 45% compared to the period ending 31st March 2023, primarily due to the increase in reserves and surplus. This increase is attributed to the fact that the reserves and surplus for the previous year were calculated for only eight months.
- As of 31st December 2024, the change in the trade receivables ratio was due to an increase in sales and a reduction in receivables from debtors. A significant increase in turnover during FY 2022-23 led to an improvement in the trade receivables turnover ratio. As of 4th July 2022, the decrease in the trade receivables turnover ratio is attributable to the fact that sales for the period consisted of only four months, compared to FY 2021-22.
- The changes in net purchases and trade payables as of 31st March 2023 have resulted in alterations to the net trade payable turnover ratio when compared to the financial year 2021-22. A substantial increase in net purchases during FY 2021-22 resulted in a significant variance in the trade payables turnover ratio. As of 4th July 2022, the decrease in the trade payables turnover ratio is attributable to the fact that sales for the period consisted of only four months, compared to FY 2021-22.
- The significant increase in net sales for the financial year 2021-22, compared to the previous year, has led to a considerable increase in the working capital turnover ratio. Based on the audited figures and restated figures for the restatement period, changes in net sales in relation to current assets and current liabilities have led to a variation in the working capital turnover ratio.
- For the financial year 2021-22, a substantial increase in sales coupled with a relatively smaller increase in profit has resulted in a decline in the net profit ratio. The restated profit and the decrease in sales as of 31st December 2024, compared to the previous year, have resulted in an increase in the net profit ratio.
- Capital Employed = Total Assets - Current liabilities The restated EBIT for the financial year 2021-22, when compared to the audited EBIT of the previous year (2020-21), has led to an increase in the return on capital employed. The changes in shareholders' funds for the financial year 2022-23, resulting from the conversion of the partnership firm to a company, have led to an increase in the return on capital employed.
- In the financial year 2021-22, the increase in average inventory and net sales resulted in a decline in the inventory turnover ratio. Based on the company's performance, changes in net sales, when compared to average inventory, have resulted in variations in the inventory turnover ratio for the respective restatement periods.
- The significant increase in the debt service coverage ratio for the year ended 31st March 2023 is attributable to the fact that it includes EBITDA for 8 months, compared to the previous 4 months. The decrease in the debt service coverage ratio for the period ended 4th July 2022 is attributable to EBITDA being recognized for only four months. The significant increase in the debt service coverage ratio for the fiscal year 2021-22 is attributable to the substantial growth in EBITDA.
- The significant increase in the return on assets ratio is attributable to the rise in net profit, as it reflects an eight-month period for the year ended 31st March 2023. The decrease in the return on assets ratio is attributable to the decline in profit, as it reflects only a four-month period for the period ended 4th July 2022. The increase in the return on assets ratio is attributable to the rise in net profit compared to the previous year, 2020-21.

**PERIOD ENDED DECEMBER 31, 2024 COMPARED WITH THE FISCAL YEAR ENDED MARCH 31, 2024 (BASED ON RESTATED FINANCIAL STATEMENTS)**

**Revenues**

◆ **Total Income**

Total Income for the period ended December 31, 2024, stood at Rs. 2,057.72 Lakhs whereas in Financial Year 2023-24 it stood at Rs. 2,380.31 Lakhs, which is almost equivalent to 86.45% of the Total Income registered in full Financial Year 2023-24. This is due to increase in revenue from operations.

◆ **Revenue from operations**

Total Revenue from Operations for the period ended December 31, 2024, stood at Rs. 2,055.30 Lakhs whereas in Financial Year 2023-24 it stood at Rs. 2,371.79 Lakhs, which is almost equivalent to 86.66% of the Total Revenue from Operations registered in full Financial Year 2023-24. As company increased installed capacity from 660 MT per month to 720 MT per month. This growth is a result of both the addition of new equipment that is kettle and reactor, and targeted upgrades to existing machinery. Additionally, introduction of advanced machinery i.e. Quality check machinery has greatly enhanced the ability to analyze material with precision. This led to accurate calculation of return materials from vendors, ensuring greater accuracy in material handling and further boosting operational efficiency.

As of December 2024, company has successfully recycled 5,891 MT of solvents and in Financial Year 2023-24 it recycled 6,439 MT which is almost equivalent to 91.49% of the total recycled quantity in full financial year 2023-24.

◆ **Other Income**

Other Income for the Period ended December 31, 2024, stood at Rs. 2.42 Lakhs whereas in Financial Year 2023-24 it stood at Rs. 8.53 Lakhs, which represents 0.12% and 0.36% of the Total Income of corresponding periods respectively. It comprises of interest and discount received from suppliers.

**Expenditure**

◆ **Total Expenses**

Total Expenses for the Period ended December 31, 2024, stood at Rs. 1,202.39 Lakh whereas in Financial Year 2023-24 it stood at Rs. 1,878.00 Lakh, which represents 58.43% and 78.90% of the Total Income of corresponding periods respectively, which is mainly due to increased levels of operations, resulted into better utilization of the resources.

◆ **Cost of Material Consumed**

Total cost of Material consumed for the Period ended December 31, 2024, stood at Rs. 545.19 Lakh whereas in Financial Year 2023-24 it stood at Rs. 805.42 Lakh, which represents 26.49% and 33.84% of the Total Income of corresponding periods respectively and is almost equivalent to 67.69% of the cost of material consumed incurred in full financial year 2023-24. This lower cost of material consumed, despite higher production levels and an increase in recycled solvent volumes can be attributed to following factors:

- **Operational Efficiency Improvements:** The enhancements made to installed capacity and the introduction of advanced quality control machinery have led to more efficient use of materials. As the same gave more negotiation power to company due to accurate calculations of material examined. These improvements have allowed company to maximize output without proportionally increasing the material consumption, thus reducing wastage and optimizing material usage.
- **Increased Recycling Activity:** With a significant rise in solvent recycling (from 6,439 MT in FY 2023-24 to a 5,891 MT till 31<sup>st</sup> December, 2024 representing 91.49% solvent recycled in full Financial Year 2023-24, reliance on raw materials had been reduced. By recycling a larger portion of solvents, company effectively lower the need for new materials, which in turn brings down the overall cost of materials consumed.
- **Boiler Steam Efficiency Improvement:** The processing of higher-quality materials, made possible by the introduction of new machinery, has led to an improvement in boiler steam efficiency. With better-quality feedstock, the boiler system requires less energy to achieve optimal performance, resulting in lower energy consumption per unit of production. This reduction in energy costs further contributes to a decrease in the overall material costs.
- **Process Optimization and Waste Reduction:** Our focus on precision, enabled by the advanced QC machinery, has minimized errors and material losses during production. As a result, company has been able to reduce scrap and waste, which further derived down the cost of materials used.

◆ **Purchase of Stock in Trade**

Purchase of Stock in Trade for the period ended December 31, 2024, stood at Rs. 453.06 Lakh whereas in Financial Year 2023-24 it stood at Rs. 320.11 Lakh which represents 22.02% and 13.45% of the Total Income of corresponding periods respectively. This growth aligns with the significant increase in direct trade business as compared to previous year. As company procured more material this year for distillation, but due to lower plant capacity the same was sold directly in the market. This was done to increase the customer base of the

Company.

◆ **Change in Inventory**

Total change in inventory for the Period ended December 31, 2024, stood at Rs. (326.16) lakhs whereas in financial year 2023-24 it stood at Rs. 56.08 lakhs, which represents (15.85) % and 2.36% of the total income of corresponding periods respectively. This is primarily due to closing stock of finished goods of ₹359.36 lakhs with the company. Considering the space constraint in factory, company has rented additional storage space in Jan'23 which was later modified in April 2024 with shed to use it as additional storage space which came into operational and fully utilized in FY 24-25.

◆ **Employment Benefit Expenses**

Employee benefit expenses for the Period ended December 31, 2024, stood at Rs. 149.92 Lakhs whereas in Financial Year 2023-24 it stood at Rs 149.88 Lakhs which represents 7.29% and 6.30% of the Total revenue of corresponding periods respectively. This increase was due to following key factors:

- **Capacity Expansion and Operational Enhancements:** With the increase in installed capacity and the introduction of advanced QC machinery, there has been a need to employ additional staff with specialized skills to operate and maintain new equipment. Additionally, higher production levels require more workforce to ensure smooth operations across all departments, including quality control, logistics, and maintenance.
- **Improved Benefits and Employee Retention:** To retain top talent and ensure a motivated workforce amidst the business growth, company has enhanced employee benefits, including health coverage, performance-based incentives, and other support programs.
- **Scaling of Operations and Increased Workload:** As company has scaled business, production volumes rise, the overall workload has increased across departments. To handle the additional responsibilities, company has made necessary adjustments in staffing levels and compensation packages to ensure the team is adequately supported, reflecting in the rise in employee benefit expenses.

◆ **Other Expenses**

The Other Expenses for the Period ended December 31, 2024, stood at Rs. 267.46 Lakhs whereas in Financial Year 2023-24 it stood at Rs. 457.20 Lakhs, which represents 13.00% and 19.21% of the total Income of corresponding periods respectively. This was primarily attributed to a one-time Corporate Meet & Greet event held in the previous fiscal year in Telangana and Andhra Pradesh. This event, aimed at boosting brand image, enhancing employee morale, and ultimately driving revenue growth, incurred a cost of ₹104.70 lakhs. This event was a one-time expense and is a key reason for the higher Other Expenses in the previous year, making the comparison favorable for the current stub period.

◆ **Depreciation and Amortization Expenses**

The Depreciation and Amortization Expenses for the Period ended December 31, 2024, stood at Rs. 81.94 Lakhs whereas in Financial Year 2023-24 it stood at Rs. 80.04 Lakhs, which represents 3.98% and 3.36% of the total income of corresponding period respectively. It is calculated for the period and values, as per the utilization of assets for the Company's business. It was increased due to new additions and improvements made during the year of ₹440.33 lakhs in tangible assets of the company. This was primarily attributed to addition of new plant and machinery of ₹258.14 lakhs. As a result, higher value of assets led to higher depreciation expenses.

◆ **Finance Cost**

Finance Cost for the Period ended December 31, 2024, stood at Rs. 30.98 Lakhs whereas in Financial Year 2023-24 it stood at Rs. 9.27 Lakhs, which represents 1.51% and 0.39% of the Total Income of corresponding periods respectively. This was due to following factors:

- **New Loans for Working Capital:** Company has availed new cash credit facility from HDFC bank of ₹400.97 lakhs with sanctioned amount of ₹500 lakhs. It carries an interest rate of 9.10% p.a. thus, increasing our finance cost for the stub period.
- **Purchase of New Vehicles:** In line with the strategy to reduce logistics costs, company made a strategic investment in new vehicles rather than continuing to hire external transportation services, which were costing around 12 Lakhs annually. The financing for these new vehicles has also contributed to the increase in Finance Charges, as company now incurs interest expenses on the vehicle loans.

◆ **Restated Profit before Tax**

The restated profit before tax for the Period ended December 31, 2024, stood at Rs. 855.32 Lakhs whereas in Financial Year 2023-24 it stood at Rs. 502.32 Lakhs, which represents 41.57% and 21.10% of the Total Income of corresponding periods respectively.

◆ **Restated Profit after Tax**

The restated profit after tax for the Period ended December 31, 2024, stood at Rs. 637.29 Lakhs whereas in Financial Year 2023-24 it stood at Rs. 365.98 Lakhs which represents 30.97% and 15.38% of the Total Income of corresponding periods respectively, in line with Profit before Tax.

**Reasons for increase in profit margins of the company:**

1. Installed Capacity has gone up from 660 MT per month to 720 MT per month.
2. Capacity utilization has increased from 81% to 91% during this period.
3. Operational efficiency (as system of Quality Control was automated leading to better efficiency)
4. Due to addition of bigger boilers and tankers with better yield production, lead to generation of high percentage of pure solvent, which gives more distilled product for selling in the market, generating higher profits.

**DETAILS OF FINANCIAL YEAR 2024 COMPARED TO FINANCIAL YEAR 2023 (BASED ON RESTATED FINANCIAL STATEMENTS)**

**Revenues**

◆ **Total Income**

Total Income for the Financial Year 2023-24, it stood at Rs. 2,380.31 Lakhs whereas in Financial Year 2022-23 it stood at Rs. 2,041.42 Lakhs representing an increase of 16.60%. This is due to increase in revenue from operations.

◆ **Revenue of operations**

Net revenue from operations For the Financial Year 2023-24 stood at Rs. 2,371.79 Lakhs. Whereas for the Financial Year 2022-23, it stood at Rs. 2,010.25 Lakhs representing an increase of 17.98%. This growth is attributed to mainly two factors:

- **Significant Growth in Direct Trade Business:** Direct Trade Business has experienced a substantial increase, growing from ₹147.95 Lakhs in FY 22-23 to ₹350.12 lakhs in FY 23-24. This increase reflects successful efforts to expand and strengthen relationships with key clients, as well as company's ability to capture a larger share of the market.
- **Increase in Solvent Recycling Volume:** Company has seen a growth in the volume of solvents recycled, which increased from 5,920 MT in FY 22-23 to 6,439 MT in FY 23-24. This 9% increase in recycling volume has directly contributed to higher revenue, driven by the expanded recycling activities and a greater demand for our sustainable solutions.

Both of these factors—growth in Direct Trade Business and an increase in recycled solvents—have played a key role in driving the overall 17.98% revenue growth in FY 23-24 compared to FY 22-23.

#### ◆ **Other Income**

Other Income for the Financial Year 2023-24 stood at Rs. 8.53 Lakhs. Whereas for the Financial Year 2022-23, it stood at Rs. 31.17 Lakhs representing a decrease of ₹ 22.64 lakhs. This was primarily due to write-off of liabilities carried out in FY 2022-23 which was associated with unpaid sundry creditors that had remained in the books for more than three years. These long outstanding liabilities were reviewed and following a thorough assessment were determined to no longer be payable, hence it was written off and was recognized in other income.

### Expenditure

#### ◆ **Total Expenses**

Total Expenses for the Financial Year 2023-24 stood at Rs. 1,878.00 Lakhs. Whereas for the Financial Year 2022-23, it stood at Rs. 1,585.02 Lakhs representing increase of 18.48%. This can be contributed to many factors as discussed below:

#### ◆ **Cost of Material Consumed**

Total cost of material consumed for the Financial Year 2023-24, stood at Rs. 805.42 Lakh. Whereas for the financial year 2022-23, it stood at Rs. 838.31 lakhs representing a decrease of 3.92%. This decrease can be attributed to following key factors:

- **Better Supply Chain Management:** Company have successfully implemented more efficient supply chain management practices, including negotiating better pricing for coal purchases and other consumables. By leveraging our purchasing power and fostering stronger supplier relationships, we were able to secure more favorable terms, resulting in lower material costs.
- **Improved Quality of Crude Material for Recycling:** Additionally, the quality of crude materials received for recycling has improved significantly. Higher-quality materials require less processing, leading to reduced operational costs and lower material wastage. This improvement has directly contributed to lowering the overall cost of materials consumed.

#### ◆ **Purchase of Stock in Trade**

Purchase of Stock in Trade for the Financial Year 2023-24 stood at Rs. 320.11 Lakh whereas in Financial Year 2022-23 it stood at Rs. 142.53 Lakh representing an increase of 124.59% of the purchases stock in trade of FY 2023-24. The increase of ₹170.58 lakhs in Purchase of Stock in Trade is directly aligned with the growth in our Direct Trade Business. As our Direct Trade Business experienced significant expansion, with revenues increasing from ₹147.95 Lakhs to ₹350.12 Lakhs, the need for additional inventory to support this growth also rose. This led to higher purchases of stock in trade to meet the growing demand and ensure timely delivery to

our clients.

◆ **Change in Inventory**

Total change in inventory for the Financial Year 2023-24, stood at Rs. 56.08 lakhs whereas in financial year 2022-23 it stood at Rs. (10.89) lakhs, representing an increase of ₹66.97 lakhs. It was due to increased sales demand in FY 23-24, products were sold, which led to a reduction in closing stock levels.

◆ **Employment Benefit Expenses**

Employee benefit expenses for the Financial Year 2023-24 stood at Rs. 149.88 Lakhs. Whereas for the Financial Year 2022-23, it stood at Rs. 172.29 Lakhs representing a decrease of 13.01%, this was due to Director's Remuneration of ₹65 Lakhs paid in the previous financial year. This one-time, payment to the Directors was a significant factor driving up employee benefit costs in FY 22-23. As this payment was not repeated in FY 23-24 as directors withdrew their salary from Vestro Solvents (Promoter Group Company), it has contributed to the overall reduction in Employee Benefit Expenses compared to the prior year.

◆ **Other Expenses**

The Other Expenses for the Financial Year 2023-24 stood at Rs. 457.20 Lakhs. Whereas for the Financial Year 2022-23, it stood at Rs. 357.15 Lakhs representing an increase of 28.01%, this is primarily because of a one-time Corporate Meet & Greet event held in the previous fiscal year in Telangana and Andhra Pradesh. This event, aimed at boosting brand image, enhancing employee morale, and ultimately driving revenue growth, incurred a cost of ₹104.70 lakhs. Since this was one time expense incurred in FY 2023-24, it inflated the other expenses for that year.

◆ **Depreciation and Amortization Expenses**

The Depreciation and Amortization Expenses for the Financial Year 2023-24, stood at Rs. 80.04 Lakhs whereas in Financial Year 2022-23 it stood at Rs. 67.06 Lakhs, representing an increase of 19.36% mainly due to purchase of new machinery of Rs. 118.45 lakhs and vehicles of Rs. 310.50 lakhs, which increased the asset base of the company resulting in increase in depreciation expenses.

◆ **Finance Cost**

Finance Cost for the Financial Year 2023-24, stood at Rs. 9.27 Lakhs whereas in Financial Year 2022-23 it stood at Rs. 18.57 Lakhs representing a decrease of 50.09% or Rs. 9.30 lakhs. This was due to the reduction of interest burden resulting from the repayment of loans. As the company has made steady progress in repaying its loans, the overall outstanding loan balance has decreased, leading to lower interest expenses for the year. This reduction in interest costs has directly contributed to the decrease in Finance Charges.

◆ **Restated Profit before Tax**

The restated profit before tax For the Financial Year 2023-24 stood at Rs. 502.32 Lakhs. Whereas for the Financial Year 2022-23, it stood at Rs. 456.39 Lakhs, representing an increase of 10.06%. It is primarily due to increase capacity utilization from 600 MT per month to 660 MT per month and the same was utilized with 81% utilization.

◆ **Restated Profit after Tax**

The restated profit after tax For the Financial Year 2023-24 stood at Rs. 365.98 Lakhs. Whereas for the Financial Year 2022-23, it stood at 324.49 Lakhs, representing an increase of 12.79% in line with profit before tax.

## **FISCAL YEAR ENDED MARCH 31, 2023 COMPARED WITH THE FISCAL YEAR ENDED MARCH 31, 2022 (BASED ON RESTATED FINANCIAL STATEMENTS)**

### **Revenues**

#### **◆ Total Income**

Total Income for the Financial Year 2022-23 stood at Rs. 2,041.42 Lakhs. Whereas for the Financial Year 2021-22, it stood at 2,180.81 Lakhs, representing decrease of 6.39%. The decrease is due to lower revenue from operations.

#### **◆ Revenue from operations**

Revenue from Operations for the Financial Year 2022-23 stood at Rs. 2,010.25 Lakhs. Whereas for the Financial Year 2021-22, it stood at 2,173.40 Lakhs representing decrease of 7.51% due to the shift in the composition of our revenue sources, particularly in relation to Job Work Material received from vendors.

- **Change in Material Sourcing:** In FY 2022-23, the company significantly expanded its Job Work services, making it the primary contributor to both revenue and profit margins. With this increase in Job Work services, revenue was recorded primarily through job work charges or commissions which generally yield higher margins. This was because excess product distilled from Job Work material was sold in the open market at a very low distillation cost, without the need for material procurement. As a result, while profit margins improved, the overall revenue remained lower compared to the previous year, as revenue from direct distillation was comparatively higher in the past.

In contrast, in FY 2021-22, a shortage of Job Work Material from vendors led the company to procure materials from external suppliers and carry out flash recycling (simple recycling) instead. This purchase and sale activity generated higher revenue in FY 2021-22, as the additional material transactions contributed to overall revenue growth.

- **Revenue vs. Margin Composition:** While Job Work leads to lower revenue numbers (since there is no purchase or sale of materials), it generates higher margins compared to simple recycling activities. The decrease in revenue in FY 22-23 is mainly due to the shift back to Job Work, which involves less direct material purchase and sale activity, thereby lowering the overall revenue figure. However, the margin from Job Work activities in FY 22-23 was significantly higher compared to FY 21-22, where margins were diluted by the material purchase and sale.

#### **◆ Other Income**

Other Income for the Financial Year 2022-23 stood at Rs. 31.17 Lakhs. Whereas for the Financial Year 2021-22, it was ₹7.41 Lakhs representing an increase of ₹23.76 lakhs. This is due to the write-off of liabilities associated with unpaid sundry creditors that had remained in the books for more than three years. These long-outstanding liabilities were reviewed and, following a thorough assessment, were determined to no longer be payable. As a result, the amount was written off. In FY 2022-23 company had written off Rs. 26.70 lakhs.

### **Expenditure**

#### **◆ Total Expenses**

Total Expenses for the Financial Year 2022-23 stood at Rs. 1,585.02 Lakhs. Whereas for the Financial Year 2021-22, it stood at 1,836.57 Lakhs representing a decrease of 13.70% due to factors mentioned below.

◆ **Cost of Material Consumed**

Cost of Material Consumed for the Financial Year 2022-23 stood at Rs. 838.31 Lakh whereas in Financial Year 2021-22 it stood at Rs. 1,392.61 Lakh representing a decrease of 39.80% of the cost of material consumed due to shift from purchasing materials externally to job work material received from vendors.

- **Change in Material Sourcing:** In FY 21-22, due to a shortage of Job Work material from vendors, company had to purchase materials externally and carry out flash recycling (simple recycling), which involved higher material costs. This increased the overall Cost of Materials in FY 21-22.
- **Shift to Job Work:** In FY 22-23, it returned to receiving a higher volume of Job Work materials from vendors. Since Job Work involves less direct material purchase and sale activity, the material costs were significantly lower. The reduction in material purchases and reliance on external sources contributed to the overall decrease in the Cost of Materials by 39.80%.

Thus, the decrease in the Cost of Materials aligns with the shift back to Job Work, which involves lower material costs and higher margins, in contrast to the external material purchases made in FY 21-22.

◆ **Purchase of Stock in Trade**

Purchase of Stock in Trade for the Financial Year 2022-23 stood at Rs. 142.53 Lakh whereas in Financial Year 2021-22 it stood at Rs. 127.16 Lakh representing an increase of 12.09% of the purchases stock in trade primarily driven by an increase in material prices, despite a 1.09% increase in Direct Trade Business. While the overall volume of Direct Trade Business increased marginally, the rise in material costs resulted in a higher value of stock purchases to maintain the business operations.

The increased material prices led to higher purchase costs, which subsequently raised the value of stock in trade. Although the Direct Trade Business contributed less in terms of volume, the overall margin was significantly impacted by these rising material prices, leading to an increase in stock purchases to accommodate the cost inflation.

Thus, the rise in Purchase of Stock in Trade reflects the adjustment to higher material costs, even with a lower increase in Direct Trade Business.

◆ **Change in Inventory**

Total change in inventory for the Financial Year 2022-23, stood at Rs. (10.89) lakhs whereas in financial year 2021-22 it stood at Rs. (73.27) lakhs, representing increase of ₹62.38 lakhs due to lower opening stock of ₹5.12 lakhs as on 01<sup>st</sup> April, 2021.

◆ **Employment Benefit Expenses**

The Employee Benefit Expenses for the Financial Year 2022-23 stood at Rs. 172.29 Lakhs. Whereas for the Financial Year 2021-22, it stood at Rs. 101.58 Lakhs representing an increase of 69.61%. The ₹70.71 Lakhs increase in Employee Benefit Expenses for FY 22-23 is primarily due to the Director's Remuneration paid during the year. As mentioned earlier, a significant portion of this increase is attributable to the Director's Remuneration amounting to ₹65 Lakhs, which was paid in FY 22-23 due to high margins incurred in the year. This substantial remuneration led to a significant rise in overall employee benefit expenses, contributing to the ₹71 Lakhs increase when compared to the previous financial year.

◆ **Other Expenses**

The Other Expenses for the Financial Year 2022-23 stood at Rs. 357.15 Lakhs. Whereas for the Financial Year 2021-22, it stood at Rs. 176.92 Lakhs representing an increase of 101.87%, this was due to significant rises in Freight Expenses and Plant Repairs & Maintenance:

- **Increase in Freight Expenses:** Due to higher transportation and logistics costs, Freight Expenses saw a considerable rise, contributing to the overall increase in Other Expenses.
- **Higher Plant Repairs & Maintenance:** The company also invested more in Plant Repairs & Maintenance to ensure the smooth operation and longevity of machinery and equipment. These increased maintenance activities were necessary to support the higher operational demand.

◆ **Depreciation and Amortization Expenses**

The Depreciation and Amortization Expenses for the Financial Year 2022-23 stood at Rs. 67.06 Lakhs. Whereas for the Financial Year 2021-22, it stood at Rs. 75.58 Lakhs which is calculated for the period and values, as per the utilization of assets for the Company's business.

◆ **Finance Cost**

The finance costs for the Financial Year 2022-23 stood at Rs. 18.57 Lakhs. Whereas for the Financial Year 2021-22, it stood at Rs. 35.99 Lakhs representing a decrease of 48.40%. The ₹17.42 Lakhs decrease in Finance Charges for FY 22-23 is primarily due to the repayment of term loans. As mentioned earlier, the company made significant progress in reducing its outstanding loan balances, which resulted in a lower interest burden. This reduction in loan balances directly led to the decrease in Finance Charges, as the company incurred less interest expense during the year.

◆ **Restated Profit before Tax**

The restated profit before tax For the Financial Year 2022-23 stood at Rs. 456.39 Lakhs. Whereas for the Financial Year 2021-22, it stood at 286.16 Lakhs representing an increase of 59.49%. This is primarily as Capacity was increased from 500 MT Per month to 600 MT per month. Also, utilisation percentage has gone up from 75% to 82%.

◆ **Restated Profit after Tax**

The restated profit after tax For the Financial Year 2022-23 stood at Rs. 324.48 Lakhs. Whereas for the Financial Year 2021-22, it stood at 153.62 Lakhs. Representing an increase of 111.22% in line with the increase in profit before tax.

**Reasons for increase in PAT margins, despite decrease in Revenue from operations:**

- **Change in Material Sourcing:** In FY 22-23, major revenue and margin contributor remained Job Work Material received from vendors, which directly impacted both the revenue and the margin. However, in FY 21-22, there was a shortage of Job Work material from vendors, which led us to purchase material from external suppliers and carry out flash recycling (simple recycling) instead. This purchase and sale activity resulted in higher revenue in FY 21-22 because of the added material transactions. Since job work had more margins than flash recycling, its margins improved.
- **More Margins in Job work.** With the increase in Job Work services, revenue was recorded

primarily through job work charges or commissions which generally yield higher margins. This was because excess product distilled from Job Work material was sold in the open market at a very low distillation cost, without the need for material procurement. As a result, while profit margins improved, the overall revenue remained lower compared to the previous year, as revenue from direct distillation was comparatively higher in the past year.

Thus, change in business model and material sourcing led to increase in PAT margins despite lower revenue from operations.

## SECTION VII - LEGAL AND OTHER INFORMATION

### OUTSTANDING LITIGATIONS AND MATERIAL DEVELOPMENTS

*Except, as stated in this section and mentioned elsewhere in this Draft Red Herring Prospectus there are no litigations including, but not limited to suits, criminal proceedings, civil proceedings, actions taken by regulatory or statutory authorities or legal proceedings, including those for economic offences, tax liabilities, show cause notice or legal notices pending against our Company, Directors, Promoters, Group Companies or against any other company or person/s whose outcomes could have a material adverse effect on the business, operations or financial position of the Company and there are no proceedings initiated for economic, civil or any other offences (including past cases where penalties may or may not have been awarded and irrespective of whether they are specified under paragraph (a) of Part I of Schedule V of the Companies Act, 2013) other than unclaimed liabilities of our Company, and no disciplinary action has been taken by SEBI or any stock exchange against the Company, Directors, Promoters or Group Companies.*

Except as disclosed below there are no:

- a) litigation or legal actions, pending or taken, by any Ministry or department of the Government or a statutory authority against our Promoters during the last five years;
- b) direction issued by such Ministry or Department or statutory authority upon conclusion of such litigation or legal action;
- c) pending proceedings initiated against our Company for economic offences;
- d) default and non-payment of statutory dues by our Company;
- e) inquiries, inspections or investigations initiated or conducted under the Companies Act, 2013 or any previous companies' law in the last five years against our Company, including fines imposed or compounding of offences done in those five years;
- f) material frauds committed against our Company in the last five years.

Pursuant to SEBI ICDR Regulations, all other pending litigations except criminal proceedings, statutory or regulatory actions and taxation matters involving our Company, Promoters, Directors and Group Companies/entities, would be considered material for the purposes of disclosure based on lower of threshold criteria mentioned below:

A) As per the policy of materiality defined by the board of directors:

- i) If the aggregate amount involved in such individual litigation, to the extent quantifiable, exceeds 5% of the Company's profit after tax for the most recently completed fiscal year, as per the Restated Financial Statements; or
- ii) Where the monetary impact is not quantifiable or the amount involved may not exceed the materiality threshold set out under (i) above, but where an adverse outcome in any litigation would materially and adversely affect our Company's business, prospects, operations, financial position or reputation, irrespective of the amount involved in such litigation. Or

B) Litigation where the value or expected impact in terms of value, exceeds the lower of the following:

- (a) two percent of turnover, as per the latest annual restated financial statements of the issuer; or
- (b) two percent of net worth, as per the latest annual restated financial statements of the issuer, except in case the arithmetic value of the net worth is negative; or
- (c) five percent of the average of absolute value of profit or loss after tax, as per the last three annual restated consolidated financial statements of the issuer.

Accordingly, we have disclosed all outstanding litigations involving our Company, Promoters, Directors and Group Companies which are considered to be material. In case of pending civil litigation proceedings wherein the monetary amount involved is not quantifiable, such litigation has been considered material only in the event that the outcome of such litigation has an adverse effect on the operations or performance of our Company. Unless otherwise stated to contrary, the information provided is as of date of this Draft Red Herring Prospectus.

#### **ALLOTMENT ONLY IN DEMATERIALIZED FORM**

As per the provisions of the Depositories Act, 1996 & regulations made thereunder and Section 29 of the Companies Act, the Equity Shares shall be allotted only in dematerialized form. As per SEBI ICDR Regulations, the trading of the Equity Shares shall only be in dematerialized form. In this context, two agreements will be signed by our Company with the respective Depositories and the Registrar to the Issue before filing this Draft Red Herring Prospectus:

- Tripartite agreement dated March 21, 2025 among Central Depository Services (India) Limited (CDSL), our Company and the Registrar to the Issue; and
- Tripartite agreement dated February 19, 2025 among National Securities Depository Limited (NSDL), our Company and the Registrar to the Issue.

As per the provisions of the Depositories Act, 1996 & regulations made there under and Section 29 (1) of the Companies Act, 2013, the equity shares of a body corporate shall be in dematerialized form i.e. not in the form of physical certificates, but be fungible and be represented by the statement issued through electronic mode. The trading of the Equity Shares will happen in the minimum contract size of [●] Equity Shares and the same may be modified by the NSE Limited from time to time by giving prior notice to investors at large. Allocation and allotment of Equity Shares through this Issue will be done in multiples of [●] Equity Shares subject to a minimum allotment of [●] Equity Shares to the successful Applicants in terms of the SEBI circular No. CIR/MRD/DSA/06/2012 dated February 21, 2012.

#### **MINIMUM APPLICATION VALUE, MARKET LOT AND TRADING LOT**

In accordance with Regulation 267 (2) of the SEBI ICDR Regulations, our Company shall ensure that the minimum application size shall not be less than two lots (which shall be above ₹2 lakhs).

Pursuant to Section 29 of the Companies Act, the Equity Shares shall be Allotted only in dematerialised form. As per SEBI ICDR Regulations, the trading of the Equity Shares shall only be in dematerialised form. In this context, two agreements have been signed by our Company with the respective Depositories and the Registrar to the Issue before filing this Draft Red Herring Prospectus:

The trading of the Equity Shares will happen in the minimum contract size of [●] Equity Shares and the same may be modified by the EMERGE Platform of NSE from time to time by giving prior notice to investors at large. For further details, see “*Issue Procedure*” on page 393 of this Draft Red Herring Prospectus.

#### **MINIMUM NUMBER OF ALLOTTEES**

Further in accordance with the Regulation 268(1) of SEBI (ICDR) Regulations, the minimum number of allottees in this Issue shall be 200 shareholders. In case the minimum number of prospective allottees is less than 200, no allotment will be made pursuant to this Issue and all the monies blocked by SCSBs shall be unblocked within two (2) working days of closure of Issue.

## **JOINT HOLDERS**

Where 2 (two) or more persons are registered as the holders of any Equity Shares, they will be deemed to hold such Equity Shares as joint-holders with benefits of survivorship.

## **JURISDICTION**

Exclusive Jurisdiction for the purpose of this Issue is with the competent courts/authorities in India.

The Equity Share have not been and will not be registered under the U.S. Securities Act or any state securities laws in the United States and may not be issued or sold within the United States or to, or for the account or benefit of, U.S. persons (as defined in Regulation S), except pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the U.S. Securities Act and applicable U.S. state securities laws. Accordingly, the Equity Shares are being issued and sold only outside the United States in off-shore transactions in reliance on Regulation S under the U.S. Securities Act and the applicable laws of the jurisdiction where those issues and sales occur.

The Equity Shares have not been and will not be registered, listed or otherwise qualified in any other jurisdiction outside India and may not be issued or sold, and applications may not be made by persons in any such jurisdiction, except in compliance with the applicable laws of such jurisdiction.

## **NOMINATION FACILITY TO THE INVESTOR**

In accordance with Section 72 of the Companies Act, 2013, read with Companies (Share Capital and Debentures) Rules, 2014, the sole Applicant, or the first Applicant along with other joint Applicants, may nominate any one person in whom, in the event of the death of sole Applicant or in case of joint Applicants, death of all the Applicants, as the case may be, the Equity Shares Allotted, if any, shall vest. A person, being a nominee, entitled to the Equity Shares by reason of the death of the original holder(s), shall be entitled to the same advantages to which he or she would be entitled if he or she were the registered holder of the Equity Share(s). Where the nominee is a minor, the holder(s) may make a nomination to appoint, in the prescribed manner, any person to become entitled to equity share(s) in the event of his or her death during the minority. A nomination shall stand rescinded upon a sale/transfer/alienation of Equity Share(s) by the person nominating. A buyer will be titled to make afresh nomination in the manner prescribed. Fresh nomination can be made only on the prescribed form available on request at our Registered Office or Corporate Office or to the registrar and transfer agents of our Company.

Any person who becomes a nominee by virtue of the provisions of Section 72 of the Companies Act shall upon production of such evidence, as may be required by the Board, elect either:

1. to register himself or herself as the holder of the equity shares; or
2. to make such transfer of the equity shares, as the deceased holder could have made.

Further, the Board may at any time give notice requiring any nominee to choose either to be registered himself or herself or to transfer the equity shares, and if the notice is not complied with within a period of ninety (90) days, the Board may thereafter withhold payment of all dividends, bonuses or other monies payable in respect of the equity shares, until the requirements of the notice have been complied with.

Since the Allotment of Equity Shares in the Issue will be made only in dematerialized form, there is no need to make a separate nomination with our Company. Nominations registered with respective depository participant of the applicant would prevail. If the Applicants require changing of their nomination, they are requested to inform their respective depository participant.

## **ARRANGEMENTS FOR DISPOSAL OF ODD LOTS**

The trading of the equity shares will happen in the minimum contract size of [●] Equity Shares in terms of the SEBI circular No. CIR/MRD/DSA/06/2012 dated February 21, 2012. However, in terms of Regulation 261(5) of the SEBI (ICDR) Regulations, 2018, the market maker shall buy the entire shareholding of a shareholder in one lot, where value of such shareholding is less than the minimum contract size allowed for trading on the Emerge Platform of National Stock Exchange of India Limited.

## **NEW FINANCIAL INSTRUMENT**

There are no new financial instruments such as deep discounted bonds, debenture, warrants, secured premium notes, etc. issued by our Company. Application by eligible NRIs, FPIs Registered with SEBI, VCFs, AIFs registered with SEBI and QFIs. It is to be understood that there is no reservation for Eligible NRIs or FPIs or QFIs or VCFs or AIFs registered with SEBI. Such Eligible NRIs, QFIs, FPIs, VCFs or AIFs registered with SEBI will be treated on the same basis with other categories for the purpose of Allocation.

## **WITHDRAWAL OF THE ISSUE**

Our Company in consultation with the LM, reserve the right to not to proceed with the Issue after the Issue Opening Date but before the Allotment. In such an event, our Company would issue a public notice in the newspapers in which the pre-Issue advertisements were published, within two (2) days of the Issue Closing Date or such other time as may be prescribed by SEBI, providing reasons for not proceeding with the Issue. The Lead Manager through, the Registrar to the Issue, shall notify the SCSBs to unblock the bank accounts of the ASBA applicant within one (1) Working Day from the date of receipt of such notification. Our Company shall also inform the same to the Stock Exchange on which Equity Shares are proposed to be listed.

Notwithstanding the foregoing, this Issue is also subject to obtaining the final listing and trading approvals of the Stock Exchange, which our Company shall apply for after Allotment. If our Company withdraws the Issue after the Issue Closing Date and thereafter determines that it will proceed with an issue/issue for sale of the Equity Shares, our Company shall file a fresh Draft Red Herring Prospectus with Stock Exchange.

## **MINIMUM SUBSCRIPTION**

This Offer is not restricted to any minimum subscription level. This Offer is 100% underwritten. If the Issuer does not receive the subscription of 100% of the Issue through this offer document including devolvement of Underwriter within sixty days from the date of closure of the Offer, the Issuer shall forthwith refund the entire subscription amount received within the time limit as prescribed under the SEBI (ICDR) Regulations and Companies Act, 2013.

In terms of Regulation 272(2) of SEBI ICDR Regulations, in case the issuer fails to obtain listing or trading permission from the stock exchanges where the specified securities were to be listed, it shall refund through verifiable means the entire monies received within four (4) days of receipt of intimation from stock exchanges rejecting the application for listing of specified securities, and if any such money is not repaid within four (4) days after the issuer becomes liable to repay it the issuer and every director of the company who is an officer in default shall, on and from the expiry of the fourth day, be jointly and severally liable to repay that money with interest at the rate of fifteen per cent. per annum. In terms of Regulation 260 of the SEBI (ICDR) Regulations, 2018, the Offer is 100% underwritten. For details of underwriting arrangement, kindly refer the chapter titled “General Information - Underwriting” on page 83 of this Draft Red Herring Prospectus.

Further, in accordance with Regulation 267 of the SEBI ICDR Regulations, 2018, the minimum application size shall not be less than two lots (which shall be above ₹2 lakhs).

Further, in accordance with Regulation 268 of the SEBI (ICDR) Regulations, our Company shall ensure that the number of prospective allottees to whom the Equity Shares will allotted will not be less than 200 (Two Hundred).

The Equity Shares have not been and will not be registered, listed or otherwise qualified in any other jurisdiction outside India and may not be offered or sold, and applications may not be made by persons in any such jurisdiction, except in compliance with the applicable laws of such jurisdiction.

### **Submission of Bids**

#### **Bid/Issue Period (except the Bid/Issue Closing Date)**

Submission and Revision in Bids: Only between 10.00 a.m. and 5.00 p.m. (Indian Standard Time (“IST”))

#### **Bid/Issue Closing Date**

Submission and Revision in Bids: Only between 10.00 a.m. and 3.00 p.m. IST

#### **On the Bid/Issue Closing Date, the Bids shall be uploaded until:**

- i. 4.00 p.m. IST in case of Bids by QIBs and Non-Institutional Bidders, and
- ii. until 5.00 p.m. IST or such extended time as permitted by the Stock Exchange, in case of Bids by Individual Bidders.

On the Bid/Issue Closing Date, extension of time will be granted by the Stock Exchange only for uploading Bids received from Individual Bidders after taking into account the total number of Bids received and as reported by the LM to the Stock Exchange.

The Registrar to the Issue shall submit the details of cancelled/ withdrawn/ deleted applications to the SCSBs on a daily basis within 60 minutes of the Bid closure time from the Bid/ Issue Opening Date till the Bid/ Issue Closing Date by obtaining the same from the Stock Exchanges. The SCSBs shall unblock such applications by the closing hours of the Working Day and submit the confirmation to the BRLM and the RTA on a daily basis.

To avoid duplication, the facility of re-initiation provided to Syndicate Members, if any shall preferably be allowed only once per Bid/batch and as deemed fit by the Stock Exchange, after closure of the time for uploading Bids.

**It is clarified that Bids not uploaded on the electronic bidding system or in respect of which the full Bid Amount is not blocked by SCSBs or not blocked under the UPI Mechanism in the relevant ASBA Account, as the case may be, would be rejected.**

Due to limitation of time available for uploading the Bids on the Bid/Issue Closing Date, Bidders are advised to submit their Bids one day prior to the Bid/Issue Closing Date. Any time mentioned in this Draft Red Herring Prospectus is Indian Standard Time. Bidders are cautioned that, in the event, large number of Bids are received on the Bid/Issue Closing Date, as is typically experienced in public offerings, some Bids may not get uploaded due to lack of sufficient time. Such Bids that cannot be uploaded will not be considered for allocation under the Issue. Bids will be accepted only during Monday to Friday (excluding any public holiday). None among our Company or any Member of the Syndicate shall be liable for any failure in (i) uploading the Bids due to faults in any software/ hardware system or blocking of application amount by the SCSBs on receipt of instructions from the Sponsor Bank on account of any errors, omissions or non-compliance by various parties involved in, or any other fault, malfunctioning or breakdown in, or otherwise, in the UPI Mechanism.

In case of any discrepancy in the data entered in the electronic book *vis-a-vis* data contained in the physical Bid cum Application Form, for a particular Bidder, the details of the Bid file received from the Stock Exchanges may be taken.

Our Company in consultation with the BRLM, reserve the right to revise the Price Band during the Bid/Issue Period, provided that the Cap Price shall be less than or equal to 120% of the Floor Price and the Floor Price shall not be less than the face value of the Equity Shares. The revision in the Price Band shall not exceed 20% on either side, i.e. the Floor Price can move up or down to the extent of 20% of the Floor Price and the Cap Price will be revised accordingly. The Floor Price shall not be less than the face value of the Equity Shares.

**In case of any revision to the Price Band, the Bid/Issue Period will be extended by at least three additional Working Days following such revision of the Price Band, subject to the Bid/Issue Period not exceeding a total of 10 Working Days. In cases of force majeure, banking strike or similar circumstances, our Company in consultation with the BRLM, for reasons to be recorded in writing, extend the Bid/Issue Period for a minimum of three Working Days, subject to the Bid/ Issue Period not exceeding 10 Working Days. Any revision in the Price Band and the revised Bid/Issue Period, if applicable, will be widely disseminated by notification to the Stock Exchange, by issuing a public notice, and also by indicating the change on the respective websites of the BRLM and the terminals of the Syndicate Members, if any and by intimation to SCSBs, other Designated Intermediaries and the Sponsor Bank, as applicable. In case of revision of Price Band, the Bid Lot shall remain the same.**

Bids will be accepted only on Working Days, i.e., Monday to Friday (excluding any public holiday).

## **MIGRATION TO MAIN BOARD**

In accordance with the National Stock Exchange of India Limited Circular dated April 20, 2023, our Company will have to be mandatorily listed and traded on the Emerge Platform of the NSE for a minimum period of 3 (Three) years from the date of listing and only after that it can migrate to the Main Board of National Stock Exchange of India Limited as per the guidelines specified by SEBI and as per the procedures laid down under Chapter IX of the SEBI (ICDR) Regulations. Our company may migrate to the main board of NSE Limited at a later date subject to the following:

- a. *If the Paid up Capital of our Company is likely to increase above Rs. 25 crores by virtue of any further issue of capital by way of rights, preferential issue, bonus issue etc. (which has been approved by a special resolution through postal ballot wherein the votes cast by the shareholders other than the Promoters in favor of the proposal amount to at least two times the number of votes cast by shareholders other than promoter shareholders against the proposal and for which the company has obtained in- principal approval from the main board), our Company shall apply to NSE Limited for listing of its shares on its Main Board subject to the fulfilment of the eligibility criteria for listing of specified securities laid down by the Main Board.*
- b. *If the paid-up Capital of our company is more than Rs. 10 Crores but below Rs. 25 Crores, our Company may still apply for migration to the main board if the same has been approved by a special resolution through postal ballot wherein the votes cast by the shareholders other than the Promoters in favor of the proposal amount to at least two times the number of votes cast by shareholders other than promoter shareholders against the proposal.*

### **Phased implementation of unified payments interface**

SEBI has issued UPI Circulars in relation to streamlining the process of public issue of equity shares and convertibles. Pursuant to the UPI Circulars, UPI will be introduced in a phased manner as a payment mechanism (in addition to mechanism of blocking funds in the account maintained with SCSBs under the ASBA) for applications by Individual Investors through intermediaries with the objective to reduce the time duration from public issue closure to listing from six Working Days to up to three Working Days. Considering the time required for making necessary changes to the systems and to ensure complete and smooth transition to the UPI Mechanism, the UPI Circulars proposes to introduce and implement the UPI Mechanism in three phases in the following manner:

- a. Phase I: This phase was applicable from January 01, 2019 and lasted till June 30, 2019. Under this phase, a Individual Bidder, besides the modes of Bidding available prior to the UPI Circulars, also had the option to submit the Bid cum Application Form with any of the intermediary and use his / her UPI ID for the purpose of blocking of funds. The time duration from public issue closure to listing continued to be six (6) Working Days.
- b. Phase II: This phase commenced on completion of Phase I i.e., with effect from July 1, 2019 and was to be continued for a period of three months or launch of five main board public issues, whichever is later. Further, as per the SEBI circular SEBI/HO/CFD/DCR2/CIR/P/2019/133 dated November 8, 2019, the UPI Phase II has been extended until March 31, 2020. Further still, as per SEBI circular SEBI/HO/CFD/DIL2/CIR/P/2020/50 dated March 30, 2020, the current Phase II of Unified Payments Interface with Application Supported by Blocked Amount be continued till further notice. Under this phase, submission of the Application Form by a Individual Bidder through intermediaries to SCSBs for

blocking of funds will be discontinued and will be replaced by the UPI Mechanism. However, the time duration from public issue closure to listing would continue to be six Working Days during this phase.

- c. Phase III: This phase has become applicable on a voluntary basis for all issues opening on or after September 1, 2023 and on a mandatory basis for all issues opening on or after December 1, 2023, vide SEBI circular bearing number SEBI/HO/CFD/TPD1/CIR/P/2023/140 dated August 9, 2023 ("T+3 Notification"). In this phase, the time duration from public issue closure to listing has been reduced to three Working Days. The Issue shall be undertaken pursuant to the processes and procedures as notified in the T+3 Notification as applicable, subject to any circulars, clarification or notification issued by the SEBI from time to time, including any circular, clarification or notification which may be issued by SEBI.

The Issue is being made under Phase III of the UPI (on a mandatory basis).

All SCSBs offering the facility of making applications in public issues are required to provide a facility to make applications using the UPI Mechanism. Further, in accordance with the UPI Circulars, our Company has appointed [●] as the Sponsor Bank to act as a conduit between the Stock Exchanges and NPCI in order to facilitate collection of requests and / or payment instructions of the Individual Investors into the UPI mechanism.

Pursuant to the UPI Circular, SEBI has set out specific requirements for redressal of investor grievances for applications that have been made through the UPI Mechanism. The requirements of the UPI Circular include, appointment of a nodal officer by the SCSB and submission of their details to SEBI, the requirement for SCSBs to send SMS alerts for the blocking and unblocking of UPI mandates, the requirement for the Registrar to submit details of cancelled, withdrawn or deleted applications, and the requirement for the bank accounts of unsuccessful Bidders to be unblocked no later than one day from the date on which the Basis of Allotment is finalised. Failure to unblock the accounts within the timeline would result in the SCSBs being penalised under the relevant securities law. Additionally, if there is any delay in the redressal of investors' complaints in this regard, the relevant SCSB as well as the post – Offer LM will be required to compensate the concerned investor.

SEBI through its circular (SEBI/HO/CFD/DIL2/CIR/P/2022/45) dated April 5, 2022, has prescribed that all individual investors applying in initial public offerings opening on or after May 1, 2022, where the application amount is up to Rs. 5,00,000, shall use UPI. Individual investors bidding under the Non-Institutional Portion bidding for more than Rs. 200,000 and up to Rs. 5,00,000, using the UPI Mechanism, shall provide their UPI ID in the Bid-cum-Application Form for Bidding through Syndicate, sub-syndicate members, Registered Brokers, RTAs or CDPs, or online using the facility of linked online trading, demat and bank account (3 in 1 type accounts), provided by certain brokers.

The processing fees for applications made by Individual Bidders using the UPI Mechanism may be released to the remitter banks (SCSBs) only after such banks provide a written confirmation on compliance with SEBI Circular No: SEBI/HO/CFD/DIL2/P/CIR/2021/570 dated June 2, 2021 read with SEBI Circular No: SEBI/HO/CFD/DIL2/CIR/P/2021/2480/1/M dated March 16, 2021.

For further details, refer to the "General Information Document" available on the websites of the Stock Exchange and the BRLM.

### **Bid cum Application Form**

Copies of the Bid cum Application Form (other than for Anchor Investors) and the abridged prospectus will be available with the Designated Intermediaries at the Bidding Centres, and our Registered Office. An electronic copy of the Bid cum Application Form will also be available for download on the websites of NSE ([www.nseindia.com](http://www.nseindia.com)) at least one day prior to the Bid/Offer Opening Date.

Copies of the Anchor Investor Application Form will be available at the office of the LM.

All Bidders (other than Anchor Investors) shall mandatorily participate in the Offer only through the ASBA process. Anchor Investors are not permitted to participate in the Offer through the ASBA process. The Individual Investor's Bidding in the Individual Investor Portion can additionally Bid through the UPI Mechanism.

A Individual Investor making applications using the UPI Mechanism shall use only his / her own bank account or only his / her own bank account linked UPI ID to make an application in the Issue. The SCSBs, upon receipt of the Application Form will upload the Bid details along with the UPI ID in the bidding platform of the Stock Exchange. Applications made by the Individual Investors using third party bank accounts or using UPI IDs linked to the bank accounts of any third parties are liable for rejection. The Bankers to the Issue shall provide the investors' UPI linked bank account details to the RTA for the purpose of reconciliation. Post uploading of the Bid details on the bidding platform, the Stock Exchanges will validate the PAN and demat account details of Individual Investors with the Depositories.

ASBA Bidders shall submit a Bid cum Application Form either in physical or electronic form to the SCSB's authorizing blocking funds that are available in the bank account specified in the Bid cum Application Form used by ASBA Bidders.

ASBA Bidders (other than Individual Investor bidder using UPI Mechanism) must provide bank account details and authorization to block funds in their respective ASBA Accounts in the relevant space provided in the ASBA Form and the ASBA Forms that do not contain such details are liable to be rejected.

ASBA Bidders shall ensure that the Bids are made on ASBA Forms bearing the stamp of the Designated Intermediary, submitted at the Bidding Centres only (except in case of electronic ASBA Forms) and the ASBA Forms not bearing such specified stamp are liable to be rejected. Individual Investor Bidder's Bidding in the Portion using UPI Mechanism, may submit their ASBA Forms, including details of their UPI IDs, with the Syndicate, Sub-Syndicate members, Registered Brokers, RTAs or CDPs. RIBs authorizing an SCSB to block the Bid Amount in the ASBA Account may submit their ASBA Forms with the SCSBs. ASBA Bidders must ensure that the ASBA Account has sufficient credit balance such that an amount equivalent to the full Bid Amount can be blocked by the SCSB or the Sponsor Bank, as applicable at the time of submitting the Bid.

In accordance with the SEBI circular no. CIR/CFD/POLICYCELL/11/2015 dated November 10, 2015 all the Bidders have to compulsorily apply through the ASBA Process. Bidders shall only use the specified Bid cum Application Form for the purpose of making a Bid in terms of the Red Herring Prospectus.

The prescribed colour of the Application Form for various categories is as follows:

Category	Colour of Application Form

**As per the existing regulations, OCBs are not eligible to participate in this Issue. The RBI has however clarified in its circular, A.P. (DIR Series) Circular No. 44, dated December 8, 2003 that OCBs which are incorporated and are not under the adverse notice of the RBI are permitted to undertake fresh investments as 138 incorporated non-resident entities in terms of Regulation 5(1) of RBI Notification No.20/2000-RB dated May 3, 2000 under FDI Scheme with the prior approval of Government if the investment is through Government Route and with the prior approval of RBI if the investment is through Automatic Route on case by case basis. OCBs may invest in this Issue provided it obtains a prior approval from the RBI. On submission of such approval along with the Bid Cum Application Form, the OCB shall be eligible to be considered for share allocation.**

#### **MAXIMUM AND MINIMUM APPLICATION SIZE**

##### **a) For Individual Applicants**

The Application must be for a minimum of [●] Equity Shares and in multiples of [●] Equity Shares.

##### **b) For Other Applicants (Non-Institutional Applicants and QIBs):**

The Application must be more than Minimum Bid Lot Size of such number of Equity Shares that the Application Amount exceeds ₹ 2, 00,000 and in multiples of [●] Equity Shares thereafter. An application cannot be submitted for more than the Net Issue Size. However, the maximum Application by a QIB investor should not exceed the investment limits prescribed for them by applicable laws. Under existing SEBI Regulations, a QIB Bidder cannot withdraw its Application after the Issue Closing Date and is required to pay 100% QIB Margin upon submission of Application.

In case of revision in Applications, the Non-Institutional Bidders, who are individuals, have to ensure that the Application size shall be more than two lots and application amount is greater than ₹ 2,00,000 for being considered for allocation in the Non-Institutional Portion.

**Bidders are advised to ensure that any single Application form does not exceed the investment limits or maximum number of Equity Shares that can be held by them under applicable law or regulation or as specified in this DRHP.**

**The above information is given for the benefit of the Bidders. The Company and the BRLM are not liable for any amendments or modification or changes in applicable laws or regulations, which may occur after the date of this Draft Red Herring Prospectus. Bidders are advised to make their independent investigations and ensure that the number of Equity Shares applied for do not exceed the applicable limits under laws or regulations.**

## **METHODS OF BIDDING PROCESS**

Our Company, in consultation with the BRLM will decide the Price Band and the minimum Bid lot size for the Issue and the same shall be advertised in one widely circulated English language national daily newspaper; one widely circulated Hindi language national daily newspaper and one regional newspaper with wide circulation at least two Working Days prior to the Bid / Issue Opening Date. The BRLM and the SCSBs shall accept Bids from the Bidders during the Bid / Issue Period.

- a) The Bid / Issue Period shall be for a minimum of three Working Days and shall not exceed 10 Working Days. The Bid/ Issue Period maybe extended, if required, by an additional three Working Days, subject to the total Bid/ Issue Period not exceeding 10 Working Days. Any revision in the Price Band and the revised Bid / Issue Period, if applicable, will be published one widely circulated English language national daily newspaper; one widely circulated Hindi language national daily newspaper and one regional newspaper with wide circulation where the registered office of the company is situated, and also by indicating the change on the websites of the Book Running Lead Manager.
- b) Each Bid cum Application Form will give the Bidder the choice to Bid for up to three optional prices (for details refer to the paragraph titled “Bids at Different Price Levels and Revision of Bids” below) within the Price Band and specify the demand (i.e., the number of Equity Shares Bid for) in each option. The price and demand options submitted by the Bidder in the Bid cum Application Form will be treated as optional demands from the Bidder and will not be cumulated. After determination of the Issue Price, the maximum number of Equity Shares Bid for by a Bidder/Applicant at or above the Issue Price will be considered for allocation/Allotment and the rest of the Bid(s), irrespective of the Bid Amount, will become automatically invalid.
- c) The Bidder / Applicant cannot Bid through another Bid cum Application Form after Bids through one Bid cum Application Form have been submitted to a BRLM or the SCSBs. Submission of a second Bid cum Application Form to either the same or to another BRLM or SCSB will be treated as multiple Bid and is liable to be rejected either before entering the Bid into the electronic bidding system, or at any point of time prior to the allocation or Allotment of Equity Shares in this Issue. However, the Bidder can revise the Bid through the Revision Form, the procedure for which is detailed under the paragraph “Buildup of the Book and Revision of Bids”.
- d) The BRLM/the SCSBs will enter each Bid option into the electronic bidding system as a separate Bid and generate a Transaction Registration Slip, (“TRS”), for each price and demand option and give the same to the Bidder. Therefore, a Bidder can receive up to three TRSs for each Bid cum Application Form
- e) Upon receipt of the Bid cum Application Form, submitted whether in physical or electronic mode, the Designated Branch of the SCSB shall verify if sufficient funds equal to the Bid Amount are available in the ASBA Account, as mentioned in the Bid cum Application Form, prior to uploading such Bids with the Stock Exchange.

- f) If sufficient funds are not available in the ASBA Account, the Designated Branch of the SCSB shall reject such Bids and shall not upload such Bids with the Stock Exchange.
- g) If sufficient funds are available in the ASBA Account, the SCSB shall block an amount equivalent to the Bid Amount mentioned in the Bid cum Application Form and will enter each Bid option into the electronic bidding system as a separate Bid and generate a TRS for each price and demand option. The TRS shall be furnished to the ASBA Bidder on request.
- h) The Bid Amount shall remain blocked in the aforesaid ASBA Account until finalization of the Basis of Allotment and consequent transfer of the Bid Amount against the Allotted Equity Shares to the Public Issue Account, or until withdrawal/failure of the Issue or until withdrawal/rejection of the Bid cum Application Form, as the case may be. Once the Basis of Allotment is finalized, the Registrar to the Issue shall send an appropriate request to the SCSB for unblocking the relevant ASBA Accounts and for transferring the amount allocable to the successful Bidders to the Public Issue Account. In case of withdrawal/failure of the Issue, the blocked amount shall be unblocked on receipt of such information from the Registrar to the Issue.

#### **BIDS AT DIFFERENT PRICES LEVELS AND REVISION OF BIDS**

- a) Our Company in consultation with the BRLM, and without the prior approval of, or intimation, to the Bidders, reserves the right to revise the Price Band during the Bid/ Issue Period, provided that the Cap Price shall be less than or equal to 120% of the Floor Price and the Floor Price shall not be less than the face value of the Equity Shares. The revision in Price Band shall not exceed 20% on the either side i.e. the floor price can move up or down to the extent of 20% of the floor price disclosed. If the revised price band decided, falls within two different price bands than the minimum application lot size shall be decided based on the price band in which the higher price falls into.
- b) Our Company in consultation with the BRLM, will finalize the Issue Price within the Price Band, without the prior approval of, or intimation, to the Bidders.
- c) The Bidders can Bid at any price within the Price Band. The Bidder has to Bid for the desired number of Equity Shares at a specific price. Individual Bidders may Bid at the Cut-off Price. However, bidding at the Cut-off Price is prohibited for QIB and Non-Institutional Bidders and such Bids from QIB and Non-Institutional Bidders shall be rejected.
- d) Individual Bidders, who Bid at Cut-off Price agree that they shall purchase the Equity Shares at any price within the Price Band. Individual Bidders shall submit the Bid cum Application Form along with a cheque/demand draft for the Bid Amount based on the Cap Price with the Syndicate. In case of ASBA Bidders (excluding Non-Institutional Bidders and QIB Bidders) bidding at Cut-off Price, the ASBA Bidders shall instruct the SCSBs to block an amount based on the Cap Price.

#### **PARTICIPATION BY ASSOCIATES OF BRLM**

The BRLM shall not be entitled to subscribe to this Issue in any manner except towards fulfilling their underwriting obligations. However, associates and affiliates of the BRLM may subscribe to Equity Shares in the Issue, either in the QIB Portion and Non-Institutional Portion where the allotment is on a proportionate basis. All categories of Applicants, including associates and affiliates of the BRLM, shall be treated equally for the purpose of allocation to be made on a proportionate basis.

#### **OPTION TO SUBSCRIBE IN THE ISSUE**

- a) As per Section 29(1) of the Companies Act 2013, Investors will get the allotment of Equity Shares in dematerialization form only.
- b) The Equity Shares, on allotment, shall be traded on Stock Exchange in demat segment only.

- c) In a single Application Form any investor shall not exceed the investment limit/minimum number of specified securities that can be held by him/her/it under the relevant regulations/statutory guidelines and applicable law.

The Bidder should specify that the Application is being made in the name of the HUF in the Bid cum Application Form as follows: “Name of sole or first Applicant: XYZ Hindu Undivided Family applying through XYZ, where XYZ is the name of the Karta”. Bid cum Applications by HUFs may be considered at par with Bid cum Applications from individuals.

#### **APPLICATIONS BY ELIGIBLE NRI**

Eligible NRIs may obtain copies of Bid cum Application Form from the Designated Intermediaries. Eligible NRI Bidders bidding on a repatriation basis by using the Non-Resident forms should authorize their respective SCSB or confirm or accept the UPI Mandate Request (in case of UPI Bidders bidding through UPI Mechanism) to block their Non-Resident External (“NRE”) accounts (including UPI ID, if activated), or Foreign Currency Non-Resident (“FCNR”) accounts, and eligible NRI Bidders bidding on a non-repatriation basis by using resident forms should authorize their SCSB to block their Non-Resident Ordinary (“NRO”) accounts or

accept the UPI Mandate Request (in case of UPI Bidders Bidding through the UPI Mechanism) for the full Bid Amount, at the time of the submission of the Bid cum Application Form. NRIs applying in the Issue through the UPI Mechanism are advised to enquire with the relevant bank, whether their account is UPI linked, prior to submitting a Bid cum Application Form.

Eligible NRIs will be permitted to apply in the Issue through Channel I or Channel II (as specified in the SEBI UPI Circulars). Further, subject to applicable law, Eligible NRIs may use Channel IV (as specified in the SEBI UPI Circulars) to apply in the Issue, provided the UPI facility is enabled for their NRE/NRO accounts. Eligible NRIs Bidding on non-repatriation basis are advised to use the Bid cum Application Form for residents (white colour). Eligible NRIs Bidding on a repatriation basis are advised to use the Bid cum Application Form meant for Non-Residents (blue colour).

In accordance with the FEMA Rules, the total holding by any individual NRI, on a repatriation basis, shall not exceed 5% of the total paid-up equity capital on a fully diluted basis or shall not exceed 5% of the paid-up value of each series of debentures or preference shares or share warrants issued by an Indian company and the total holdings of all NRIs and OCIs put together shall not exceed 10% of the total paid-up equity capital on a fully diluted basis or shall not exceed 10% of the paid-up value of each series of debentures or preference shares or share warrant. Provided that the aggregate ceiling of 10% may be raised to 24% if a special resolution to that effect is passed by the general body of the Indian company. Participation of Eligible NRIs in the Issue shall be subject to the FEMA Non-debt Instrument Rules.

Only bids accompanied by payment in Indian rupees or fully convertible foreign exchange will be considered for allotment. For details of restrictions on investment by NRIs, please refer to the chapter titled “Restrictions on Foreign Ownership of Indian Securities” beginning on page 428 of this Draft Red Herring Prospectus.

#### **APPLICATIONS BY ELIGIBLE FIIs/FPIs**

In terms of the SEBI FPI Regulations, the issue of Equity Shares to a single FPI or an investor group (which means the same multiple entities having common ownership directly or indirectly of more than 50% or common control) must be below 10% of our post-Issue Equity Share capital. Further, in terms of the FEMA NDI Rules, with effect from April 1, 2020, the aggregate FPI investment limit is the sectoral cap applicable to an Indian company as prescribed in the FEMA NDI Rules with respect to its paid-up equity capital on a fully diluted basis. Currently, the sectoral cap for relevant business sector in India is 100% under automatic route.

FPIs are permitted to participate in the Issue subject to compliance with conditions and restrictions which may be specified by the Government from time to time. In case of Bids made by FPIs, a certified copy of the certificate of registration issued under the SEBI FPI Regulations is required to be attached to the Bid cum Application Form, failing which our Company reserves the right to reject any Bid without assigning any reason. FPIs who wish to participate in the Issue are advised to use the Bid cum Application Form for Non-Residents.

In terms of the FEMA, for calculating the aggregate holding of FPIs in a company, holding of all registered FPIs shall be included.

The FEMA NDI Rules were enacted on October 17, 2019 in supersession of the Foreign Exchange Management (Transfer or Issue of Security by a Person Resident Outside India) Regulations, 2017, except as respects things done or omitted to be done before such supersession. FPIs are permitted to participate in the Issue subject to compliance with conditions and restrictions which may be specified by the Government from time to time.

Subject to compliance with all applicable Indian laws, rules, regulations, guidelines and approvals in terms of Regulation 21 of the SEBI FPI Regulations, an FPI, may issue, subscribe to or otherwise deal in offshore derivative instruments (as defined under the SEBI FPI Regulations as any instrument, by whatever name called, which is issued overseas by a FPI against securities held by it in India, as its underlying) directly or indirectly,

only in the event (i) such offshore derivative instruments are issued only by persons registered as Category I FPIs; (ii) such off shore derivative instruments are issued only to persons eligible for registration as Category I FPIs; (iii) such offshore derivative instruments are issued after compliance with 'know your client' norms; and (iv) such other conditions as may be specified by SEBI from time to time.

An FPI issuing off-shore derivate instruments is also required to ensure that any transfer of off-shore derivative instruments issued by, or on behalf of it subject to, inter alia, the following conditions:

- (i). such offshore derivative instruments are transferred to person subject to fulfilment of SEBI FPI Regulations; and
- (ii). Prior consent of the FPI is obtained for such transfer, except when the persons to whom the offshore derivative instruments are to be transferred are pre-approved by the FPI.

Bids by FPIs which utilise the multi-investment manager structure in accordance with the Operational Guidelines for Foreign Portfolio Investors and Designated Depository Participants issued to facilitate implementation of the SEBI FPI Regulations ("Operational FPI Guidelines"), submitted with the same PAN but with different beneficiary account numbers, Client IDs and DP IDs shall not be treated as multiple Bids ("MIM Bids"). It is hereby clarified that FPIs bearing the same PAN may be treated as multiple Bids by a Bidder and may be rejected, except for Bids from FPIs that utilise the multi-investment manager structure in accordance with the Operational FPI Guidelines (such structure referred to as "MIM Structure"). In order to ensure valid Bids, FPIs making MIM Bids using the same PAN and with different beneficiary account numbers, Client IDs and DP IDs, are required to submit a confirmation that their Bids are under the MIM Structure and indicate the name of their investment managers in such confirmation which shall be submitted along with each of their Bid cum Application Forms. In the absence of such confirmation from the relevant FPIs, such MIM Bids shall be rejected.

#### **APPLICATIONS BY SEBI REGISTERED ALTERNATIVE INVESTMENT FUND (AIF), VENTURE CAPITAL FUNDS AND FOREIGN VENTURE CAPITAL INVESTORS**

The Securities and Exchange Board of India (Venture Capital Funds) Regulations, 1996 as amended, (the "SEBI VCF Regulations") and the Securities and Exchange Board of India (Foreign Venture Capital Investor) Regulations, 2000, as amended, among other things prescribe the investment restrictions on VCFs and FVCIs registered with SEBI. Further, the Securities and Exchange Board of India (Alternative Investment Funds) Regulations, 2012 (the "SEBI AIF Regulations") prescribe, amongst others, the investment restrictions on AIFs.

The holding by any individual VCF registered with SEBI in one venture capital undertaking should not exceed 25% of the corpus of the VCF. Further, VCFs and FVCIs can invest only up to 33.33% of the investible funds by way of subscription to an initial public offering.

The category I and II AIFs cannot invest more than 25% of the corpus in one Investee Company. A category III AIF cannot invest more than 10% of the corpus in one Investee Company. A venture capital fund registered as a category I AIF, as defined in the SEBI AIF Regulations, cannot invest more than 1/3rd of its corpus by way of subscription to an initial public offering of a venture capital undertaking. Additionally, the VCFs which have not re-registered as an AIF under the SEBI AIF Regulations shall continue to be regulated by the VCF Regulation until the existing fund or scheme managed by the fund is wound up and such funds shall not launch any new scheme after the notification of the SEBI AIF Regulations.

All FIIs and FVCIs should note that refunds, dividends, and other distributions, if any, will be payable in Indian Rupees only and net of Bank charges and commission.

Our Company or the Lead Manager will not be responsible for loss, if any, incurred by the Applicant on account of conversion of foreign currency.

There is no reservation for Eligible NRIs, FPIs and FVCIs and all Applicants will be treated on the same basis with other categories for the purpose of allocation.

#### **APPLICATIONS BY LIMITED LIABILITY PARTNERSHIPS**

In case of applications made by limited liability partnerships registered under the Limited Liability Partnership Act, 2008, a certified copy of certificate of registration issued under the Limited Liability Partnership Act, 2008, must be attached to the Application Form. Failing this, our Company reserves the right to reject any application, without assigning any reason thereof. Limited Liability Partnerships can participate in the Issue only through the ASBA Process.

#### **APPLICATIONS BY INSURANCE COMPANIES**

In case of applications made by insurance companies registered with the IRDA, a certified copy of certificate of registration issued by IRDA must be attached to the Application Form. Failing this, our Company reserves the right to reject any application, without assigning any reason thereof.

The exposure norms for insurers are prescribed under the IRDAI Investment Regulations, based on investments in equity shares of the investee company, the entire group of the investee company and the industry sector in which the investee company operates. Insurance companies participating in the Issue are advised to refer to the IRDAI Investment Regulations 2016, as amended, which are broadly set forth below:

- a) equity shares of a company: the lower of 10%\* of the outstanding equity shares (face value) or 10% of the respective fund in case of life insurer or 10% of investment assets in case of general insurer or reinsurer;
- b) the entire group of the investee company: not more than 15% of the respective fund in case of a life insurer or 15% of investment assets in case of a general insurer or reinsurer or 15% of the investment assets in all companies belonging to the group, whichever is lower; and
- c) the industry sector in which the investee company operates: not more than 15% of the fund of a life insurer or a general insurer or a reinsurer or 15% of the investment asset, whichever is lower.

The maximum exposure limit, in the case of an investment in equity shares, cannot exceed the lower of an amount of 10% of the investment assets of a life insurer or general insurer and the amount calculated under (a), (b) and (c) above, as the case may be.

*\*The above limit of 10% shall stand substituted as 15% of outstanding equity shares (face value) for insurance companies with investment assets of ₹ 25,000,000 lakhs or more and 12% of outstanding equity shares (face value) for insurers with investment assets of ₹ 5,000,000 lakhs or more but less than ₹ 25,000,000 lakhs.*

Insurance companies participating in this Issue, shall comply with all applicable regulations, guidelines and circulars issued by IRDA from time to time.

#### **APPLICATIONS BY BANKING COMPANIES**

**Applications by Banking Companies:** In case of Bids made by banking companies registered with RBI, certified copies of: (i) the certificate of registration issued by RBI, and (ii) the approval of such banking company's investment committee are required to be attached to the Bid cum Application Form. Failing this, our Company, in consultation with the BRLM, reserves the right to reject any Bid without assigning any reason thereof. The investment limit for banking companies in non-financial services companies as per the Banking Regulation Act, the Reserve Bank of India (Financial Services provided by Banks) Directions, 2016, as amended and Master Circular on Basel III Capital Regulations dated July 01, 2014, as amended, is 10.00% of the paid up share capital of the investee company, not being its subsidiary engaged in non-financial services, or 10.00% of the bank's own paid-up share capital and reserves, whichever is lower.

However, a banking company would be permitted to invest in excess of 10% but not exceeding 30% of the paid up share capital of such investee company, subject to prior approval of the RBI if (i) the investee company is engaged in nonfinancial activities permitted for banking companies in terms of Section 6(1) of the Banking Regulation Act; or (ii) the additional acquisition is through restructuring of debt, or to protect the banking company's interest on loans/investments made to a company. The bank is required to submit a time bound action plan to the RBI for the disposal of such shares within a specified period. The aggregate investment by a banking company along with its subsidiaries, associates or joint ventures or entities directly or indirectly controlled by the bank; and mutual funds managed by asset management companies controlled by the bank, more than 20% of the investee company's paid up share capital engaged in nonfinancial services. However, this cap doesn't apply to the cases mentioned in (i) and (ii) above. The aggregate equity investments made by a banking company in all subsidiaries and other entities engaged in financial services and nonfinancial services, including overseas investments shall not exceed 20% of the bank's paid-up share capital and reserves.

In terms of the Master Circular on Basel III Capital Regulations dated July 1, 2014, as amended (i) a bank's investment in the capital instruments issued by banking, financial and insurance entities should not exceed 10% of its capital funds; (ii) banks should not acquire any fresh stake in a bank's equity shares, if by such acquisition, the investing bank's holding exceeds 5% of the investee bank's equity capital; (iii) equity investment by a bank in a subsidiary company, financial services company, financial institution, stock and other exchanges should not exceed 10% of the bank's paid-up share capital and reserves; (iv) equity investment by a bank in companies engaged in non-financial services activities would be subject to a limit of 10% of the investee company's paid-up share capital or 10% of the bank's paid-up share capital and reserves, whichever is less; and (v) a banking company is restricted from holding shares in any company, whether as pledgee, mortgagee or absolute owner, of an amount exceeding 30% of the paid-up share capital of that company or 30% of its own paid-up share capital and reserves, whichever is less. For details in relation to the investment limits under Master Direction – Ownership in Private Sector Banks, Directions, 2016, please refer chapter titled “Key Regulations & Policies” beginning on Page No. 226 of this Draft Red Herring Prospectus.

**Applications by SCSBs:** SCSBs participating in the Offer are required to comply with the terms of the SEBI circulars dated September 13, 2012 and January 02, 2013. Such SCSBs are required to ensure that for making applications on their own account using ASBA, they should have a separate account in their own name with any other SEBI registered SCSBs. Further, such account shall be used solely for the purpose of making application in public issues and clear demarcated funds should be available in such account for such applications.

**Applications by Systemically Important NBFCs:** In case of Bids made by Systemically Important NBFCs registered with RBI, certified copies of: (i) the certificate of registration issued by RBI, (ii) the last audited financial statements on a standalone basis, (iii) a net worth certificate from its statutory auditors, and (iv) such other approval as may be required by the Systemically Important NBFCs are required to be attached to the Bid cum Application Form. Failing this, our Company, in consultation with the BRLM, reserves the right to reject any Bid without assigning any reason thereof. Systemically Important NBFCs participating in the Issue shall comply with all applicable regulations, directions, guidelines and circulars issued by the RBI from time to time. The investment limit for Systemically Important NBFCs shall be as prescribed by RBI from time to time.

#### **APPLICATION BY PROVIDENT FUNDS/ PENSION FUNDS**

In case of applications made by provident funds/pension funds, subject to applicable laws, with minimum corpus of Rs. 2,500 Lakhs, a certified copy of certificate from a chartered accountant certifying the corpus of the provident fund/ pension fund must be attached to the Application Form. Failing this, our Company reserves the right to reject any application, without assigning any reason thereof.

In case of applications made pursuant to a power of attorney by limited companies, corporate bodies, registered societies, FIIs, Mutual Funds, insurance companies and provident funds with minimum corpus of Rs. 2,500 Lakhs (subject to applicable law) and pension funds with a minimum corpus of Rs. 2,500 Lakhs a certified copy of the power of attorney or the relevant resolution or authority, as the case may be, along with a certified copy of the memorandum of association and articles of association and/or bye laws must be lodged with the Application Form. Failing this, our Company reserves the right to accept or reject any application in whole or in part, in either case, without assigning any reason therefore.

In addition to the above, certain additional documents are required to be submitted by the following entities:

- (a) With respect to applications by VCFs, FVCIs, FIIs and Mutual Funds, a certified copy of their SEBI registration certificate must be lodged along with the Application Form. Failing this, our Company reserves the right to accept or reject any application, in whole or in part, in either case without assigning any reasons thereof.
- (b) With respect to applications by insurance companies registered with the Insurance Regulatory and Development Authority, in addition to the above, a certified copy of the certificate of registration issued by the Insurance Regulatory and Development Authority must be lodged with the Application Form as applicable. Failing this, our Company reserves the right to accept or reject any application, in whole or in part, in either case without assigning any reasons thereof.
- (c) With respect to applications made by provident funds with minimum corpus of Rs. 2,500 Lakhs (subject to applicable law) and pension funds with a minimum corpus of Rs. 2,500 Lakhs, a certified copy of a certificate from a chartered accountant certifying the corpus of the provident fund/pension fund must be lodged along with the Application Form. Failing this, our Company reserves the right to accept or reject such application, in whole or in part, in either case without assigning any reasons thereof.

Our Company in its absolute discretion, reserves the right to relax the above condition of simultaneous lodging of the power of attorney along with the Application Form, subject to such terms and conditions that our Company, the lead manager may deem fit.

Our Company, in its absolute discretion, reserves the right to permit the holder of the power of attorney to request the Registrar to the Issue that, for the purpose of mailing of the Allotment Advice / CANs / letters notifying the unblocking of the bank accounts of ASBA applicants, the Demographic Details given on the Application Form should be used (and not those obtained from the Depository of the application). In such cases, the Registrar to the Issue shall use Demographic Details as given on the Application Form instead of those obtained from the Depositories.

**The above information is given for the benefit of the Applicants. The Company and the LM are not liable for any amendments or modification or changes in applicable laws or regulations, which may occur after the date of this Draft Red Herring Prospectus. Applicants are advised to make their independent investigations and ensure that the number of Equity Shares applied for do not exceed the applicable limits under laws or regulations.**

2,500	20	7,500	250.00%

The price discovery is a function of demand at various prices. The highest price at which the Issuer is able to Offer the desired number of Equity Shares is the price at which the book cuts off, i.e., ₹ 22.00 in the above example. The Issuer, in consultation with the BRLM, may finalise the Offer Price at or below such Cut-Off Price, i.e., at or below ₹ 22.00. All Bids at or above this Offer Price and cut-off Bids are valid Bids and are considered for allocation in the respective categories.

The aforesaid intermediaries shall, at the time of receipt of application, give an acknowledgement to investor, by giving the counter foil or specifying the application number to the investor, as a proof of having accepted the application form, in physical or electronic mode, respectively.

## **BASIS OF ALLOTMENT**

The Allotment of Equity Shares to Bidders other than Individual Investors and Anchor Investors may be on proportionate basis. For Basis of Allotment to Anchor Investors, Bidders may refer to RHP. No Individual Investor will be Allotted less than the minimum Bid Lot subject to availability of shares in Individual Investor Category and the remaining available shares, if any will be Allotted on a proportionate basis. The Issuer is required to receive a minimum subscription of 90% of the Issue. However, in case the Issue is in the nature of Offer for Sale only, then minimum subscription may not be applicable.

### **Flow of Events from the closure of Bidding period (T DAY) Till Allotment:**

- On T Day, RTA to validate the electronic bid details with the depository records and also reconcile the final certificates received from the Sponsor Bank for UPI process and the SCSBs for ASBA and Syndicate ASBA process with the electronic bid details
- RTA identifies cases with mismatch of account number as per bid file / FC and as per applicant's bank account linked to depository demat account and seek clarification from SCSB to identify the applications with third party account for rejection.
- Third party confirmation of applications to be completed by SCSBs on T+1 day.
- RTA prepares the list of final rejections and circulate the rejections list with BRLM(s)/ Company for their review/comments.
- Post rejection, the RTA submits the basis of allotment with the Designated Stock Exchange (DSE).
- The Designated Stock Exchange DSE, post verification approves the basis and generates drawal of lots wherever applicable, through a random number generation software.
- The RTA uploads the drawal numbers in their system and generates the final list of allottees as per process mentioned below.

### **Process for generating list of Allottees:**

- Instruction is given by RTA in their Software System to reverse category wise all the application numbers in the ascending order and generate the bucket /batch as per the allotment ratio. For example, if the application number is 78654321 then system reverses it to 12345687 and if the ratio of allottees to applicants in a category is 2:7 then the system will create lots of 7. If the drawal of lots provided by Designated Stock Exchange (DSE) is 3 and 5 then the system will pick every 3rd and 5th application in each of the lot of the category and these applications will be allotted the shares in that category.
- In categories where there is proportionate allotment, the Registrar will prepare the proportionate working based on the oversubscription times.
- In categories where there is undersubscription, the Registrar will do full allotment for all valid applications.
- On the basis of the above, the RTA will work out the allottees, partial allottees and non- allottees, prepare the fund transfer letters and advice the SCSBs to debit or unblock the respective accounts.

**a. For Individual Bidders**

Bids received from the Individual Bidders at or above the Issue Price shall be grouped together to determine the total demand under this category. The Allotment to all the successful Individual Bidders will be made at the Issue Price.

The Issue size less Allotment to Non-Institutional and QIB Bidders shall be available for allotment to Individual Bidders who have Bid in the Issue at a price that is equal to or greater than the Issue Price. If the aggregate demand in this category is less than or equal to [●] Equity Shares of face value of ₹ 10 each at or above the Issue Price, full Allotment shall be made to the Individual Bidders to the extent of their valid Bids.

If the aggregate demand in this category is greater than [●] Equity Shares of face value of ₹ 10 each at or above the Issue Price, the Allotment shall be made on a proportionate basis up to a minimum of [●] Equity Shares of face value of ₹ 10 each and in multiples of [●] Equity Shares of face value of ₹ 10 each thereafter. If the aggregate demand in this category is less than or equal to [●] Equity Shares of face value of ₹ 10 each at or above the Issue Price, full allotment shall be made to Non-Institutional Bidders to the extent of their demand.

In case the aggregate demand in this category is greater than [●] Equity Shares of face value of ₹ 10 each at or above the Issue Price, Allotment shall be made on a proportionate basis up to a minimum of [●] Equity Shares of face value of ₹ 10 each and in multiples of [●] Equity Shares of face value of ₹ 10 each thereafter. For the method of proportionate Basis of Allotment refer below.

**c. Allotment To Anchor Investor (If Applicable)**

- a) Allocation of Equity Shares to Anchor Investors at the Anchor Investor Allocation Price will be at the discretion of the Issuer, in consultation with the BRLM, subject to compliance with the following requirements:
  - i. not more than 60% of the QIB Portion will be allocated to Anchor Investors;
  - ii. one-third of the Anchor Investor Portion shall be reserved for domestic Mutual Funds, subject to valid Bids being received from domestic Mutual Funds at or above the price at which allocation is being done to other Anchor Investors; and
  - iii. allocation to Anchor Investors shall be on a discretionary basis and subject to:
    - maximum number of two Anchor Investors for allocation up to ₹ 2 crores; a minimum number of two Anchor Investors and maximum number of 15 Anchor Investors for allocation of more than ₹ 2 crores and up to ₹ 25 crores subject to minimum allotment of ₹ 1 crores per such Anchor Investor; and

- in case of allocation above twenty-five crore rupees; a minimum of 5 such investors and a maximum of 15 such investors for allocation up to twenty-five crore rupees and an additional 10 such investors for every additional twenty-five crore rupees or part thereof, shall be permitted, subject to a minimum allotment of one crore rupees per such investor.

**d. For QIBs**

Bids received from QIBs Bidding in the QIB Category at or above the Issue Price may be grouped together to determine the total demand under this category. The QIB Category may be available for Allotment to QIBs who have Bid at a price that is equal to or greater than the Issue Price. Allotment may be undertaken in the following manner: Allotment shall be undertaken in the following manner:

- i. In the first instance, allocation to Mutual Funds for [●] % of the QIB Portion shall be determined as follows:
  - In the event that Bids by Mutual Fund exceeds [●] % of the QIB Portion, allocation to Mutual Funds shall be done on a proportionate basis for [●] % of the QIB Portion.
  - In the event that the aggregate demand from Mutual Funds is less than [●] % of the QIB Portion then all Mutual Funds shall get full Allotment to the extent of valid Bids received above the Issue Price.
  - Equity Shares remaining unsubscribed, if any, not allocated to Mutual Funds shall be available for Allotment to all QIB Bidders as set out in (b) below;
- ii. In the second instance, allotment to all QIBs shall be determined as follows:
  - In the event of oversubscription in the QIB Portion, all QIB Bidders who have submitted Bids above the Issue Price shall be allotted Equity Shares on a proportionate basis, upto a minimum of [●] Equity Shares and in multiples of [●] Equity Shares of face value of ₹ 10 each thereafter for [●] % of the QIB Portion.
  - Mutual Funds, who have received allocation as per (a) above, for less than the number of Equity Shares Bid for by them, are eligible to receive Equity Shares on a proportionate basis, upto a minimum of [●] Equity Shares of face value of ₹ 10 each and in multiples of [●] Equity Shares of face value of ₹ 10 each thereafter, along with other QIB Bidders.
  - Under-subscription below [●] % of the QIB Portion, if any, from Mutual Funds, would be included for allocation to the remaining QIB Bidders on a proportionate basis. The aggregate Allotment to QIB Bidders shall not be more than [●] Equity Shares of face value of ₹ 10 each.
- iii. Basis of Allotment for QIBs and NIIs in case of Over Subscribed Issue:

In the event of the Issue being Over-Subscribed, the Issuer may finalise the Basis of Allotment in consultation with the EMERGE Platform of NSE (The Designated Stock Exchange). The allocation may be made in marketable lots on proportionate basis as set forth hereunder:

- a) The total number of Shares to be allocated to each category as a whole shall be arrived at on a proportionate basis i.e. the total number of Shares applied for in that category multiplied by the inverse of the oversubscription ratio (number of Bidders in the category multiplied by

number of Shares applied for).

- b) The number of Shares to be allocated to the successful Bidders will be arrived at on a proportionate basis on marketable lots (i.e. Total number of Shares applied for into the inverse of the over subscription ratio).
- c) For Bids where the proportionate allotment works out to less than [●] Equity Shares of face value of ₹ 10 each the allotment will be made as follows:
  - Each successful Bidder shall be allotted [●] Equity Shares of face value of ₹ 10 each; and
  - The successful Bidder out of the total bidders for that category shall be determined by draw of lots in such a manner that the total number of Shares allotted in that category is equal to the number of Shares worked out as per (b) above.
- d) If the proportionate allotment to a Bidder works out to a number that is not a multiple of [●] Equity Shares of face value of ₹ 10 each, the Bidder would be allotted Shares by rounding off to the nearest multiple of [●] Equity Shares of face value of ₹ 10 each subject to a minimum allotment of [●] Equity Shares of face value of ₹ 10 each.
- e) If the Shares allotted on a proportionate basis to any category is more than the Shares allotted to the Bidders in that category, the balance available Shares or allocation shall be first adjusted against any category, where the allotted Shares are not sufficient for proportionate allotment to the successful Bidder in that category, the balance shares, if any, remaining after such adjustment will be added to the category comprising Bidder applying for the minimum number of Shares.

**Individual investors who applies for minimum application size. Investors may note that in case of over subscription allotment shall be on proportionate basis and will be finalized in consultation with NSE**

**The Executive Director / Managing Director of NSE – the Designated Stock Exchange in addition to Lead Manager and Registrar to the Public Issue shall be responsible to ensure that the basis of allotment is finalized in a fair and proper manner in accordance with the SEBI (ICDR) Regulations.**

## **OTHER INSTRUCTIONS**

### ***Joint Applications in the case of Individuals***

Applications may be made in single or joint names (not more than three). In the case of joint Applications, all payments will be made out in favour of the Applicant whose name appears first in the Application Form or Revision Form. All communications will be addressed to the First Applicant and will be dispatched to his or her address as per the Demographic Details received from the Depository.

### ***Multiple Applications***

An Applicant should submit only one Application (and not more than one) for the total number of Equity Shares required. Two or more Applications will be deemed to be multiple Applications if the sole or First Applicant is one and the same.

In this regard, the procedures which would be followed by the Registrar to the Issue to detect multiple applications are given below:

- (i) All applications are electronically strung on first name, address (1<sup>st</sup> line) and applicant's status. Further, these applications are electronically matched for common first name and address and if matched, these are checked manually for age, signature and father/ husband's name to determine if they are multiple applications.
- (ii) Applications which do not qualify as multiple applications as per above procedure are further checked for common DP ID/ beneficiary ID. In case of applications with common DP ID/ beneficiary ID, are manually checked to eliminate possibility of data entry error to determine if they are multiple applications.
- (iii) Applications which do not qualify as multiple applications as per above procedure are further checked for common PAN. All such matched applications with common PAN are manually checked to eliminate possibility of data capture error to determine if they are multiple applications.

In case of a mutual fund, a separate Application can be made in respect of each scheme of the mutual fund registered with SEBI and such Applications in respect of more than one scheme of the mutual fund will not be treated as multiple Applications provided that the Applications clearly indicate the scheme concerned for which the Application has been made.

In cases where there are more than 20 valid applications having a common address, such shares will be kept in abeyance, post allotment and released on confirmation of know your client's norms by the depositories. The Company reserves the right to reject, in our absolute discretion, all or any multiple Applications in any or all categories.

After submitting an ASBA Application either in physical or electronic mode, an ASBA Applicant cannot apply (either in physical or electronic mode) to either the same or another Designated Branch of the SCSB. Submission of a second Application in such manner will be deemed a multiple Application and would be rejected. More than one ASBA Applicant may apply for Equity Shares using the same ASBA Account, provided that the SCSBs will not accept a total of more than five Application Forms with respect to any single ASBA Account.

Duplicate copies of Application Forms downloaded and printed from the website of the Stock Exchange bearing the same application number shall be treated as multiple applications and are liable to be rejected. The Company, in consultation with the Lead Manager reserves the right to reject, in its absolute discretion, all or any multiple applications in any or all categories. In this regard, the procedure which would be followed by the Registrar to the Issue to detect multiple applications is given below:

1. All Applications will be checked for common PAN. For Applicants other than Mutual Funds and FII subaccounts, Applications bearing the same PAN will be treated as multiple Applications and will be rejected.
2. For Applications from Mutual Funds and FII sub-accounts, submitted under the same PAN, as well as Applications on behalf of the Applicants for whom submission of PAN is not mandatory such as the Central or State Government, an official liquidator or receiver appointed by a court and residents of Sikkim, the Application Forms will be checked for common DP ID and Client ID.

### PERMANENT ACCOUNT NUMBER OR PAN

Pursuant to the circular MRD/DoP/Circ 05/2007 dated April 27, 2007, SEBI has mandated Permanent Account Number (PAN) to be the sole identification number for all participants transacting in the securities market, irrespective of the amount of the transaction w.e.f. July 02, 2007. Each of the Applicants should mention his/her PAN allotted under the IT Act. **Applications without this information will be considered incomplete and are liable to be rejected.** It is to be specifically noted that Applicants should not submit the GIR number instead of the PAN, as the Application is liable to be rejected on this ground.

### GROUND FOR REJECTIONS

In addition to the grounds for rejection of Bids on technical grounds as provided in the General Information Document, Bidders are requested to note that Bids may be rejected on the following additional technical grounds:

1. Bids submitted without instruction to the SCSBs to block the entire Bid Amount;

## **RESTRICTION ON FOREIGN OWNERSHIP OF INDIAN SECURITIES**

Foreign investment in Indian securities is regulated through the Industrial Policy, 1991 of the Government of India and FEMA. While the Industrial Policy, 1991 prescribes the limits and the conditions subject to which foreign investment can be made in different sectors of the Indian economy, FEMA regulates the precise manner in which such investment may be made. Under the Industrial Policy, unless specifically restricted, foreign investment is freely permitted in all sectors of Indian economy up to any extent and without any prior approvals, but the foreign investor is required to follow certain prescribed procedures for making such investment. Foreign investment is allowed up to 100% under automatic route in our Company.

The Government has from time to time made policy pronouncements on FDI through press notes and press releases. The Department of Industrial Policy and Promotion, Ministry of Commerce and Industry, Government of India (DIPP), issued consolidated FDI Policy, which with effect from August 28, 2017 consolidates and supersedes all previous press notes, press releases and clarifications on FDI issued by the DIPP that were in force and effect as on August 27, 2017. The Government proposes to update the consolidated circular on FDI Policy once every year and therefore, the Consolidation FDI Policy will be valid until the DIPP issues an updated circular.

The transfer of shares by an Indian resident to a Non-Resident does not require the prior approval of the FIPB or the RBI, provided that (i) the activities of the investee company are under the automatic route under the Consolidated FDI Policy and transfer does not attract the provisions of the SEBI (Substantial Acquisition of Shares and Takeovers) Regulations, 2011; (ii) the non-resident shareholding is within the sectoral limits under the Consolidated FDI Policy; and (iii) the pricing is in accordance with the guidelines prescribed by SEBI/RBI.

**As per the existing policy of the Government of India, OCBs cannot participate in this Issue. The Equity Shares offered in the Issue have not been and will not be registered under the Securities Act and may not be offered or sold within the United States, except pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the Securities Act and applicable U.S. state securities laws.**

**Accordingly, the Equity Shares are being offered and sold (i) within the United States to persons reasonably believed to be “qualified institutional investors” (as defined in Rule 144A under the Securities Act) pursuant to Rule 144A under the Securities Act or other applicable exemption under the Securities Act and (ii) outside the United States in offshore transactions in reliance on Regulations under the Securities Act and the applicable laws of the jurisdictions where such offers and sales occur.**

**The above information is given for the benefit of the Applicants. Our Company and the LM are not liable for any amendments or modification or changes in applicable laws or regulations, which may occur after the date of this Draft Red Herring Prospectus. Applicants are advised to make their independent investigations and ensure that the Applications are not in violation of laws or regulations applicable to them.**

#### **DEMATERIALISATION OF SECURITIES**

21. The provisions of this Article shall apply notwithstanding anything to the contrary contained in any other Articles.
22. The Board or any Committee thereof shall be entitled to dematerialize Securities or to offer securities in a dematerialized form pursuant to the Depositories Act, 1996, as amended. The provisions of this Section will be applicable in case of such Securities as are or are intended to be dematerialized.
23. Every holder of or subscriber to Securities of the Company shall have the option to receive certificates for such securities or to hold the securities with a Depository. Such a person who is the Beneficial Owner of the securities can at any time opt out of a Depository, if permitted by law, in respect of any securities in the manner provided by the Depositories Act, 1996, and the Company shall, in the manner and within the time prescribed by law, issue to the Beneficial Owner the required certificates for the Securities.
24. If a person opts to hold his securities with the Depository, the Company shall intimate such Depository the details of allotment of the securities, and on receipt of the information, the Depository shall enter in its record the name of the allottee as the Beneficial Owner of the securities.
25. All securities held by a Depository shall be dematerialized and be in fungible form. Nothing contained in Sections 89 of the Act shall apply to a Depository in respect of the securities held by

on behalf of the Beneficial Owners.

26. (i) Notwithstanding anything to the contrary contained in these Articles, a Depository shall be deemed to be the registered owner for the purposes of effecting transfer of ownership of Securities of the Company on behalf of the Beneficial Owner.
- (ii) Save as otherwise provided in sub-clause above, the Depository as the registered owner of the Securities shall not have any voting rights or any other rights in respect of the Securities held by it.
- (iii) Every person holding Securities of the Company and whose name is entered as the Beneficial Owner of securities in the record of the Depository shall be entitled to all the rights and benefits and be subject to all the liabilities in respect of the Securities which are held by a Depository and shall be deemed to be a Member of the Company.
27. Notwithstanding anything to the contrary contained in these Articles, where Securities of the Company are held in a Depository, the records of the beneficiary ownership may be served by such Depository on the Company by means of Electronic Mode or by delivery of floppies or discs.
28. Nothing contained in Section 56 of the Act or anything to the contrary contained in these Articles shall apply to a transfer of Securities effected by a transferor and transferee both of whom are entered as Beneficial Owners in the records of a Depository.
29. Notwithstanding anything to the contrary contained in these Articles, where Securities are dealt with by a Depository, the Company shall intimate the details thereof to the Depository immediately on allotment of such Securities.
30. Notwithstanding anything to the contrary contained in these Articles regarding the necessity of having distinctive numbers for Securities issued by the Company shall apply to securities held with a Depository.
31. The Register and Index of Beneficial Owners maintained by Depository under the Depositories Act, 1996, as amended shall be deemed to be the Register and Index of Members and Security holders for the purposes of these Articles.

#### **UNDERWRITING AND BROKERAGE**

32. Subject to the provisions of section 40 of the Act:
- (i) The company may exercise the powers of paying commissions conferred by sub-section (6) of section 40, provided that the rate per cent or the amount of the commission paid or agreed to be paid shall be disclosed in the manner required by that section and rules made thereunder.
- (ii) The rate or amount of the commission shall not exceed the rate or amount prescribed in rules made under sub-section (6) of section 40.
- (iii) The commission may be satisfied by the payment of cash or the allotment of fully or partly paid shares or partly in the one way and partly in the other.
33. The company may pay a reasonable sum for brokerage.

#### **CALL ON SHARES**

34. (i) The Board may, from time to time, make calls upon the members in respect of any monies unpaid on their shares (whether on account of the nominal value of the shares or by way of premium) and not by the conditions of allotment thereof made payable at fixed times:

Provided that no call shall exceed one-fourth of the nominal value of the share (or such other per cent. determined the Board or prescribed under applicable law) or be payable at less than one month or such other period prescribed under applicable law from the date fixed for the payment of the last preceding call.

(ii) Each member shall, subject to receiving at least fourteen days' notice specifying the time or times and place of payment, pay to the company, at the time or times and place so specified, the amount called on his shares.

(iii) A call may be revoked or postponed at the discretion of the Board.

35. A call shall be deemed to have been made at the time when the resolution of the Board authorising the call was passed and may be required to be paid by instalments.

36. The joint holders of a share shall be jointly and severally liable to pay all calls in respect thereof.

37. (i) If a sum called in respect of a share is not paid before or on the day appointed for payment thereof, the person from whom the sum is due shall pay interest thereon from the day appointed for payment thereof to the time of actual payment at ten per cent. per annum or at such lower rate, if any, as the Board may determine.

(ii) The Board shall be at liberty to waive payment of any such interest wholly or in part.

38. (i) Any sum which by the terms of issue of a share becomes payable on allotment or at any fixed date, whether on account of the nominal value of the share or by way of premium, shall, for the purposes of these regulations, be deemed to be a call duly made and payable on the date on which by the terms of issue such sum becomes payable.

(ii) In case of non-payment of such sum, all the relevant provisions of these regulations as to payment of interest and expenses, forfeiture or otherwise shall apply as if such sum had become payable by virtue of a call duly made and notified.

39. The Board—

(a) may, if it thinks fit, receive from any member willing to advance the same, all or any part of the monies uncalled and unpaid upon any shares held by him; and

(b) upon all or any of the monies so advanced, may (until the same would, but for such advance, become presently payable) pay interest at such rate not exceeding, unless the company in general meeting shall otherwise direct, twelve per cent. per annum, as may be agreed upon between the Board and the member paying the sum in advance.

The provisions of these Articles shall mutatis mutandis apply to the calls on debentures of the company.

## LIEN

40. (i) The company shall have a first and paramount lien:
- (a) upon all share/debenture (not being a fully paid share/debenture), (other than fully paid-up shares/debentures) registered in the name of each member (whether solely or jointly with others) and upon the proceeds of sale thereof for all monies (whether presently payable or not) called, or payable at a fixed time, in respect of that share/debenture; and no equitable interest in any share shall be created except upon the footing and condition that this Article will have full effect and such lien shall extend to all dividends and bonuses from time to time declared in respect of such shares/debentures.
  - (b) Unless otherwise agreed the registration of a transfer of shares/debentures shall operate as a waiver of the company's lien If any, on such shares/debentures. The Directors may at any time declare any shares/debentures wholly or in part to be exempt from the provisions of this Article.
  - (c) The fully paid up shares shall be free from all lien and in the case of partly paid up shares the Company's lien shall be restricted to moneys called or payable at a fixed time in respect of such shares.
41. The company may sell, in such manner as the Board thinks fit, any shares on which the company has a lien:
- Provided that no sale shall be made:
- (i) unless a sum in respect of which the lien exists is presently payable; or
  - (ii) until the expiration of fourteen days after a notice in writing stating and demanding payment of such part of the amount in respect of which the lien exists as is presently payable, has been given to the registered holder for the time being of the share or the person entitled thereto by reason of his death or insolvency.
42. (i) To give effect to any such sale, the Board may authorise some person to transfer the shares sold to the purchaser thereof.
- (ii) The purchaser shall be registered as the holder of the shares comprised in any such transfer.
- (iii) The purchaser shall not be bound to see to the application of the purchase money, nor shall his title to the shares be affected by any irregularity or invalidity in the proceedings in reference to the sale.
43. (i) The proceeds of the sale shall be received by the company and applied in payment of such part of the amount in respect of which the lien exists as is presently payable.
- (ii) The residue, if any, shall, subject to a like lien for sums not presently payable as existed upon the shares before the sale, be paid to the person entitled to the shares at the date of the sale.

#### **FORFEITURE OF SHARES**

44. If a member fails to pay any call, or installment of a call, on the day appointed for payment thereof, the Board may, at any time thereafter during such time as any part of the call or installment remains unpaid, serve a notice on him requiring payment of so much of the call or installment as is unpaid, together with any interest which may have accrued.
45. The notice aforesaid shall:

- (i) name a further day (not being earlier than the expiry of fourteen days from the date of service of the notice) on or before which the payment required by the notice is to be made; and
  - (ii) state that, in the event of non-payment on or before the day so named, the shares in respect of which the call was made shall be liable to be forfeited.
46. If the requirements of any such notice as aforesaid are not complied with, any share in respect of which the notice has been given may, at any time thereafter, before the payment required by the notice has been made, be forfeited by a resolution of the Board to that effect. Such forfeiture shall include all dividends declared in respect of forfeited shares and not actually paid before the forfeiture.
47. When any shares shall have been so forfeited, notice of the forfeiture shall be given to the member in whose name it stood immediately prior to the forfeiture and an entry of the forfeiture, with the date thereof, shall forthwith be made in any manner invalidated, by any omission or neglect to give such notice or to make any such entry as aforesaid.
48. The forfeiture of a share shall involve extinction, at the time of the forfeiture, of all interest in all claims and demands against the Company in respect of the share and all other rights, incidental to the share except only such of those rights as by these Articles are expressly saved.
49. (i) A forfeited share may be sold or otherwise disposed of on such terms and in such manner as the Board thinks fit.
- (ii) At any time before a sale or disposal as aforesaid, the Board may cancel the forfeiture on such terms as it thinks fit.
50. (i) A person whose shares have been forfeited shall cease to be a member in respect of the forfeited shares, but shall, notwithstanding the forfeiture, remain liable to pay to the company all monies (calls, installments, interest and expenses) which, at the date of forfeiture, were presently payable by him to the company in respect of the shares and Board may enforce the payment thereof or any part thereof, without any deduction or allowance for the value for the shares at the time of forfeiture, but shall not be under any obligation to do so.
- (ii) The liability of such person shall cease if and when the company shall have received payment in full of all such monies in respect of the shares.
51. (i) A duly verified declaration in writing that the declarant is a director, the manager or the secretary, of the company, and that a share in the company has been duly forfeited on a date stated in the declaration, shall be conclusive evidence of the facts therein stated as against all persons claiming to be entitled to the share;
- (ii) The company may receive the consideration, if any, given for the share on any sale or disposal thereof and may execute a transfer of the share in favour of the person to whom the share is sold or disposed of;
- (iii) The transferee shall thereupon be registered as the holder of the share; and
- (iv) The transferee shall not be bound to see to the application of the purchase money, if any, nor shall his title to the share be affected by any irregularity or invalidity in the proceedings in reference to the forfeiture, sale or disposal of the share.
52. Upon any sale, re-allotment or other disposal under the provisions of the preceding Articles, the certificate or certificates originally issued in respect of the relative shares shall (unless the same shall on demand by the company have been seen previously surrendered to it by the defaulting member) stand cancelled and become null and void and of no effect, and the Directors, shall be entitled to issue a duplicate certificate or certificates in respect of the said shares to the person or persons, entitled thereto.
53. The provisions of these regulations as to forfeiture shall apply in the case of nonpayment of any

sum which, by the terms of issue of a share, becomes payable at a fixed time, whether on account of the nominal value of the share or by way of premium, as if the same had been payable by virtue of a call duly made and notified.

### **TRANSFER AND TRANSMISSION OF SHARES**

54. (i) The instrument of transfer of any share in the company shall be executed by or on behalf of both the transferor and transferee.

(ii) The transferor shall be deemed to remain a holder of the share until the name of the transferee is entered in the register of members in respect thereof.

(iii) The Instrument of transfer shall be in writing and all provisions of Section 56 of the Act, and statutory modification thereof for the time being shall be duly complied with in respect of all transfer of shares and registration thereof.

(iv) No fee shall be charged for registration of transfer, transmission, probate, succession certificate and Letters of administration, Certificate of Death or Marriage, Power of Attorney or similar other document.

55. The Board may, subject to the right of appeal conferred by section 58 decline to register:

- (i) the transfer of a share, not being a fully paid share, to a person of whom they do not approve;  
or
- (ii) any transfer of shares on which the company has a lien.

56. The Board may decline to recognise any instrument of transfer unless:

- (i) the instrument of transfer is in the form as prescribed in rules made under sub-section (1) of section 56;
- (ii) the instrument of transfer is accompanied by the certificate of the shares to which it relates, and such other evidence as the Board may reasonably require to show the right of the transferor to make the transfer; and
- (iii) the instrument of transfer is in respect of only one class of shares.

57. On giving not less than seven days' previous notice in accordance with section 91 and rules made thereunder, the registration of transfers may be suspended at such times and for such periods as the Board may from time to time determine:

Provided that such registration shall not be suspended for more than thirty days at any one time or for more than forty-five days in the aggregate in any year.

58. (i) On the death of a member, the survivor or survivors where the member was a joint holder, and his nominee or nominees or legal representatives where he was a sole holder, shall be the only persons recognized by the company as having any title to his interest in the shares.

(ii) Nothing in clause (i) shall release the estate of a deceased joint holder from any liability in respect of any share which had been jointly held by him with other persons.

59. (i) Any person becoming entitled to a share in consequence of the death or insolvency of a member may, upon such evidence being produced as may from time to time properly be required by the Board and subject as hereinafter provided, elect, either:

- (a) to be registered himself as holder of the share; or
- (b) to make such transfer of the share as the deceased or insolvent member could have made.

(ii) The Board shall, in either case, have the same right to decline or suspend registration as it would

have had, if the deceased or insolvent member had transferred the share before his death or insolvency.

60. (i) If the person becoming entitled to shares in consequence of the death, lunacy, bankruptcy or insolvency of any member of the marriage of a female member, or by any lawful means other than by a transfer in accordance with these presents may with the consent of Board of Directors (which shall not be under any obligation to give) upon producing such evidence that he sustains the character in respects of which he proposes to act under his article of his title, as the Board of Directors thinks sufficient, either be registered himself as holder of the shares or elect to have some person nominated by him and approved by the Board of Directors registered as such holder.

(ii) If the person aforesaid shall elect to transfer the share, he shall testify his election by executing a transfer of the share.

(iii) All the limitations, restrictions and provisions of these regulations relating to the right to transfer and the registration of transfers of shares shall be applicable to any such notice or transfer as aforesaid as if the death or insolvency of the member had not occurred and the notice or transfer were a transfer signed by that member.

61. A person becoming entitled to a share by reason of the death or insolvency of the holder shall be entitled to the same dividends and other advantages to which he would be entitled if he were the registered holder of the share, except that he shall not, before being registered as a member in respect of the share, be entitled in respect of it to exercise any right conferred by membership in relation to meetings of the company:

Provided that the Board may, at any time, give notice requiring any such person to elect either to be registered himself or to transfer the share, and if the notice is not complied with within ninety days, the Board may thereafter withhold payment of all dividends, bonuses or other monies payable in respect of the share, until the requirements of the notice have been complied with.

62. No share shall in any circumstances be transferred to any infant, insolvent or persons of unsound mind.
63. Every instrument of transfer shall be presented to the Company duly stamped for registration accompanied by such evidence as the Board of Directors may require to prove the title of the transferor, his right to transfer the shares and generally under and subject to such conditions and regulations as the board of Directors shall from time to time prescribe, and every registered instrument of transfer shall remain in the custody of the Company until destroyed by order of the Board of Directors. The Company shall also use a common form of transfer. Subject to applicable law, the Board may delegate the power of transfer of securities to a committee or to compliance officer or to the registrar to an issue and/or share transfer agent(s).
64. The Company shall incur no liability or responsibility whatever in consequence of its registering or giving effect to any of shares made or purporting to be made by any apparent legal owner thereof (as shown or appearing in the Register of Members) to the prejudice of persons having or claiming any equitable right title or interest to or in the said shares, notwithstanding that the Company may have had notice of such equitable right, title or interest or notice prohibiting registration of such transfer and may have entered such notice, or referred thereto, in any book or the Company, and the Company shall not be bound or required to regard or attend or give effect to any notice which may be given to it of any equitable right, title or interest, or be under any liability whatsoever for refusing or neglecting so to do, though it may been entered or referred to in some book of the Company, but the company shall nevertheless be at liberty to regard and attend to any such notice and given effect thereto, if the Board of Directors shall so think fit.

65. Subject to the provisions of the Act, these Articles, or any other law for the time being in force, the Board may refuse whether in pursuance of any power of the company under these Articles or otherwise to register the transfer of, or the transmission by operation of law of the right to any shares or interest of a Member in or debentures of the Company. The Company shall within one month from the date on which the instrument of transfer, or the intimation of such transmission, as the case may be, was delivered to Company, send notice of the refusal to the transferee and the transferor or to the person giving intimation of such transmission, as the case may be, giving reasons for such refusal. Provided that the registration of a transfer shall not be refused on the ground of the transferor being either alone or jointly with any other person or persons indebted to the Company on any account whatsoever except where the Company has a lien on shares.

### **BOARD TO RECOGNIZE BENEFICIAL OWNERS OF SECURITIES**

66. Notwithstanding anything to the contrary contained in these Articles, a Depository shall be deemed to be the registered owner for the purpose of effecting transfer of ownership of Securities on behalf of a Beneficial Owner.
67. Save as otherwise provided hereinabove, the Depository as a registered owner shall not have any voting rights or any other rights in respect of securities held by it, and the Beneficial Owner shall be entitled to all the rights and benefits and be subject to all the liabilities in respect of its securities held by a Depository.
68. Except as ordered by a Court of competent jurisdiction or as required by law, the Company shall be entitled to treat the person whose name appears as the Beneficial Owner of the securities in the records of the Depository as the absolute owner thereof and accordingly the Company shall not be bound to recognise any benami, trust or equitable, contingent, future or partial interest in any Security or (except otherwise expressly provided by the Articles) any right in respect of a Security other than an absolute right thereto, in accordance with these Articles on the part of any other person whether or not it shall have express or implied notice thereof.

### **NOMINATION**

69. Every holder of Shares in, or Debentures of the Company may at any time nominate, in the manner prescribed under the Act, a person to whom his shares in or Debentures of the Company shall vest in the event of death of such holder.
70. Where the Shares in, or Debentures of the Company are held by more than one person jointly, the joint holders may together nominate, in the prescribed manner, a person to whom all the rights in the shares or Debentures of the Company, as the case may be, held by them shall vest in the event of death of all joint holders.
71. Notwithstanding anything to the contrary contained in any other law for the time being in force or in any disposition, whether testamentary or otherwise, or in these Articles, in respect of such shares in or Debentures of the Company, where a nomination made in the prescribed manner purports to confer on any person the right to vest the shares in, or Debentures of the Company, the nominee shall, on the death of the shareholders or holder of Debentures of the Company or, as the case may be, on the death of all the joint holders become entitled to all the rights in the shares or Debentures of the Company to the exclusion of all other persons, unless the nomination is varied or cancelled in the prescribed manner under the provisions of the Act.
72. Where the nominee is a minor, it shall be lawful for the holder of the shares or holder of Debentures to make the nomination to appoint, in the prescribed manner under the provisions of the Act, any

person to become entitled to the shares in or Debentures of the Company, in the event of his death, during the minority.

### **COPIES OF MEMORANDUM AND ARTICLES TO BE SENT TO MEMBERS**

73. Copies of the Memorandum and Articles of Association of the Company and of other documents referred to in Section 17 of the Act shall be sent by the Board to every Member at his request, within 7 days of the request, on payment of rupee one hundred for each copy.

### **BORROWING POWER**

74. The Board may, from time to time at its discretion subject to the provisions of Sections 179 and of the Act, raise or borrow, either from the Directors or from elsewhere and secure the payment of any sum or sums of money for the purpose of the Company, provided that the Board shall not without the sanction of the Company in General Meeting borrow any sum of money which together with money borrowed by the Company (apart from temporary loans obtained from the Company's bankers in the ordinary course of business) exceed the aggregate for the time being of the paid up capital of the Company and its free reserves, that is to say, reserves not set aside for any specific purpose.
75. The Board may raise or secure the repayment of such sum or sums in such manner and upon such terms and conditions in all respects as it may think fit, and in particular by the issue of bonds, perpetual or redeemable, debentures or debenture-stock, or any mortgage, or other security on the undertaking of the whole or any part of the property of the Company (both present and future), including its uncalled capital for the time being.
76. Any debentures, debenture-stock, bonds or other securities may be issued at a premium or otherwise and may be issued on condition that they shall be convertible into shares of any denomination and with any privileges and conditions as to redemption, surrender, drawing, allotment of shares, attending (but not voting) at the General Meeting, appointment of Directors and otherwise Debentures with the right to conversion into or allotment of shares shall be issued only with the consent of the Company in General Meeting by a Special Resolution.
77. Save as provided in Section 56 of the Act no transfer of debentures shall be registered unless a proper instrument of transfer duly stamped and executed by the transferor and transferee has been delivered to the Company together with the certificate or certificates of the debentures.
78. If the Board refuses to register transfer of any debentures the company shall, within one month from the date on which the instrument of transfer was lodged with the Company send to the transferee and to the transferor notice of the refusal.
79. The Board shall cause a proper Register to be kept in accordance with the provisions of Section 85 of the Act of all mortgages, debentures and charges specifically affecting the property of the Company, and shall cause the requirements of the Act in that behalf to be duly complied with, so far as they fail to be complied with by the Board.
80. The Company shall if at any time it issues debentures, keep a Register and Index of Debenture holders in accordance with Section 88 of the Act. The Company shall have the power to keep in any state or Country outside India a branch of Debenture-holders resident in that State or country.

## **CONVERSION OF SHARES INTO STOCK AND RECONVERSION**

81. The Company in General Meeting may convert any paid-up shares into stock, and when any shares shall have been converted into stock, the several holders of such stock may henceforth transfer their respective interest therein, or any part of such interest, in the same manner and subject to the same regulations as, and subject to which shares from which the stock arose might have been transferred, if no such conversion had taken place or as near thereto as circumstance will admit. The company may at any time reconvert any stock into paid-up shares of any denomination.
82. The holders of stock shall, according to the amount of stock held by them have the same rights, privileges and advantages as regards dividends, voting at meeting of the Company and matters as if they held the shares from which the stock arose, but no such privileges or advantage (except participation in the Dividends and profits of the Company and in the assets of winding up) shall be conferred by an amount of stock which would not, if existing in shares, have conferred that privilege or advantage.

## **MEETINGS OF MEMBERS**

83. The Company shall in each year hold a General Meeting as its Annual General Meeting in addition to any other meetings in that year. All General Meetings other than Annual general meetings shall be Extra-ordinary General Meetings. The first Annual General Meeting shall be held within a period of nine month from the date of closing of the first financial year of the Company and in any case, within a period of six months, from the date of closing of the year, provided that not more than fifteen months shall elapse between the date of one annual general meeting of a Company and that to the next. Nothing contained in the foregoing provisions shall be taken as affecting the right conferred upon the register under provisions of Section 96(1) of the Act to extend the time within which any Annual General Meeting may be held. Every Annual General Meeting shall be called during business hours, that is between 9.00 AM to 6.00 PM on any day that is not a National Holiday and shall be held at the registered office of the Company or at some other place within the city in which the registered office of the Company is situated, as the Board may determine and the Notices calling the Meeting shall specify it as the Annual General Meeting. The Company may in any one Annual General Meeting fix the time for its Subsequent Annual General Meetings. Every member of the Company shall be entitled to attend either in person or by proxy and the Auditor of the Company shall be entitled to attend and to be heard at any General Meeting which he attends on any part of the business, concerns him as auditor. At every Annual General Meeting of the Company there shall be laid on the table the Director's Report (if not already incorporated in the Audited Statement of Accounts) the proxy Register with proxies and the Register open and accessible during the continuance of the meeting. The Board shall cause to be prepared the Annual List of Members, Summary of the Share Capital, Balance Sheet and Profit and Loss Account and forward the same to the Register in accordance with Section 92 and 137 of the Act.
84. The Board may, whenever it deems fit, call an extra ordinary general meeting of the Company.
85. The extraordinary general meeting shall be called by the Board, at the requisition in writing made by such number of members who hold, on the date of receipt of requisition, not less than one-tenth of such of paid-up capital of the Company as on the date carries the right of voting in regard to the matter in respect of which the requisition has been made.
86. Any valid requisition so made by members must state the object or objects of the meeting proposed to be called, and must be signed by the requisitioners and be deposited at the registered office of the Company, provided that such requisition may consist of several documents in loose form and each shall be signed by one or more requisitioners.

87. Upon the receipt of any such requisition the Board shall within twenty-one days from the date of receipt of a valid requisition in regard to any matter, proceed to call an extra ordinary general meeting for the consideration of that matter on a day not later than forty -five days from the date of receipt of such requisition. The requisitionists, or such of their number as represent either a majority in value of the paid-up share capital held by all of them or not less than one-tenth of the paid-up share capital of the Company as is referred to section 100 of the Act, whichever is less, may themselves call the meeting, but in either case, any meeting so called may be held within three months from the date of the delivery of the requisition as aforesaid.
88. Any reasonable expenses incurred by the requisitionist in calling an extraordinary meeting shall be reimbursed to the requisitionists by the company and the sums so paid shall be deducted from any fee or other remuneration under section 197 payable to such directors who were in default in calling the meeting.
89. Any meeting called under the foregoing Articles by the requisitionists shall be called and held in the same manner, as nearly as possible, as that in which meeting is to be called and held by the Board.
90. A general meeting of the Company may be called by giving not less than clear twenty-one days' notice either in writing or through electronic mode in such manner as may be prescribed.

Provided that a general meeting may be called after giving a shorter notice if consent is given in writing or in electronic mode by not less than 95% of the members entitled to vote at such meeting.

Notice shall, specifying the day, place and hour of meeting, and the general nature of the business to be transacted thereat, shall be given in the manner hereinafter provided, to such persons as are under these Article entitled to receive notice from the Company.

91. A notice calling the meeting shall be annexed with the statement setting out the following material facts concerning each item of special business to be transacted at a general meeting:

98. A body corporate being a member shall be deemed to be personally present if it is represented in accordance with Section 113 of the Act.
99. If, at the quorum is not present within half-an-hour from the time appointed for holding a meeting of the company:
  - (i) the meeting shall stand adjourned to the same day in the next week at the same time and place or to such other date and such other time and place as the Board may determine; or
  - (ii) the meeting called by requisitionist under section 100 of the Act, shall stand cancelled.

Provided, that in case of an adjourned meeting or of a change of day, time or place of meeting under clause (i), the company shall give not less than three days notice to the members either individually or by publishing an advertisement in the newspapers (one in English and one in vernacular language) which is in circulation at the place where the registered office of the company is situated.

If at the adjourned meeting also, a quorum is not present within half-an-hour from the time appointed for holding meeting, the members present shall be the quorum.

100. The Chairman (if any) of the Board shall be entitled to take the chair at every General Meeting, whether Annual or Extraordinary. If there be no such Chairman of the Board, or if at any meetings he shall not be present within fifteen minutes of the time appointed for holding such meeting, or if he shall be unable or unwilling to take the chair, then the directors present may choose one of their member to be the Chairman of the meetings. If no director be present or if all the director present decline to take the chair, then the Members present shall elect one of themselves to be the Chairman thereof on a show of hands. If a poll is demanded on the election of the Chairman, it shall be taken forthwith in accordance with the provisions of the Act and the Chairman elected on a show of hands under sub-section (1) of section 104, shall continue to be the Chairman of the meeting until some other person is elected as Chairman as a result of the poll, and such other person shall be the Chairman for the rest of the meeting.
101. No business shall be discussed at any General Meeting except the election of a chairman, while the Chair is vacant.

102. The chairman with the consent of the members may adjourn any meeting from time to time and from place to place in the city in which it is held but, no business shall be transacted at any adjourned meeting other than the business left unfinished at the meeting from which the adjournment took place.

### **VOTING RIGHTS AND PROXY**

103. No member shall be entitled to vote either personally or by proxy, at any General Meeting or meeting of class of shareholders either upon show of hands or upon a poll in respect of any shares registered in his name on which any calls or other sums presently payable by him have not been paid or, in regard to which the Company has, and has exercised any right of lien.
104. Subject to the provisions of these Articles and without prejudice to any special privileges or restriction as to voting for the time being attached to any class of shares for the time being forming part of the Capital of the Company every member not disqualified by the last preceding Article shall be entitled to be present, and to speak and vote at such meeting, and on show of hands every member present in person shall have one vote and upon a poll the voting rights of every member present in person or by proxy shall be in proportion to his shares of the paid-up equity share capital of the Company provided, however if any preference shareholder be present at any meeting of the Company, save as provided in clause (b) of sub-section (2) of Section 47, he shall have a right to vote only on resolutions placed before the meeting which directly affect the rights attached to his preference shares.

  - (iv) by any Member or Members present in person or by proxy and holding shares in the Company conferring a right to vote on the resolution being shares on which an aggregate sum has been paid up which is not less than one-tenth of the total sum paid on all the shares conferring that right.

Unless a poll be so demanded, a declaration by the chairman of the meeting that a resolution has, on a show of hands, been carried unanimously or by a particular majority, or lost or not carried by a particular majority and an entry to that effect in the book containing the minutes of the proceedings of the Meeting of the company shall be conclusive evidence of the fact without proof of the number or proportion of the votes recorded in favour of or against that resolution.

The demand for a poll may be withdrawn at any time by the person or persons who made the demand.

113. In the case of an equality of votes, the Chairman shall both on a show of hands and at a poll (if any) have a casting vote in addition to the vote or votes to which he may be entitled as a member.
114. The Chairman of any meeting shall be the sole judge of the validity of every vote tendered at such meeting. The Chairman present at the taking of poll shall be sole judge of the validity of every vote tendered at poll.
115. If a poll is demanded as aforesaid the same shall, subject to Articles be taken at such time (not later than forty-eight hours from the time when the demand was made) and place in the city or town in which the office of the Company is for the time being situate and either at once or after an interval or adjournment or otherwise, and the result of the poll shall be deemed to be the resolution of the meeting at which the poll was demanded. The demand for a poll may be withdrawn at any time by the person or persons who made the demand.
116. Where a poll is to be taken, the Chairman of the meeting shall appoint two scrutineers to scrutinize the vote given on the poll and to report thereon to time. Once the scrutineers so appointed shall always be a member (not being an officer or employee of the Company) present at the meeting provided such a member is available and willing to be appointed. The Chairman shall have power at any time before the result of the poll is declared to remove a scrutineer from office and fill vacancies in the office of scrutineer arising from each removal or from any other cause.
117. The demand for a poll except on the questions of the election of the Chairman and of an adjournment shall prevent the continuance of a meeting for the transaction of any business other than the question on which the poll has been demanded.

118. If there be joint holders of any shares, any one of such person may vote at any meeting or may appoint another person (whether a member or not) as his proxy in respect of such shares, as if he were solely entitled thereto but the proxy so appointed shall not have any right to speak at the meeting and, if more than one of such joint holders be present at any meeting, that one of the said persons so present whose name stands higher on the Register shall alone be entitled to speak and to vote in respect of such shares, but the other or others of the joint holders shall be entitled to be present at the meeting, several executors or administrators of a deceased member in whose name shares stand shall for the purpose of these Articles to be deemed joint holders thereof.
119. A member of unsound mind, or in respect of whom an order has been made by any court having jurisdiction in lunacy, may vote, whether on a show of hands or on a poll, by his committee or other legal guardian, and any such committee or guardian may, on a poll, vote by proxy, if any member be a minor the vote in respect of his share or shares shall be by his guardian or any of his guardian if more than one to be selected in case of dispute by the Chairman of the meeting.
120. Any business other than that upon which a poll has been demanded may be proceeded with, pending the taking of the poll.
121. (i) No objection shall be raised to the qualification of any voter except at the meeting or adjourned meeting at which the vote objected to is given or tendered, and every vote not disallowed at such meeting shall be valid for all purposes.
- (ii) Any such objection made in due time shall be referred to the Chairperson of the meeting, whose decision shall be final and conclusive.
122. The instrument appointing a proxy and the power-of-attorney or other authority, if any, under which it is signed or a notarised copy of that power or authority, shall be deposited at the registered office of the company not less than 48 hours before the time for holding the meeting or adjourned meeting at which the person named in the instrument proposes to vote, or, in the case of a poll, not less than 24 hours before the time appointed for the taking of the poll; and in default the instrument of proxy shall not be treated as valid.
123. An instrument appointing a proxy shall be in the form as prescribed in the rules made under section 105.
124. A vote given in accordance with the terms of an instrument of proxy shall be valid, notwithstanding the previous death or insanity of the principal or the revocation of the proxy of any power of attorney under which the proxy was executed, or the transfer of the shares in respect of which the proxy is given, provided that no intimation in writing of such death, insanity, revocation or transfer shall have been received by the company at its office before the commencement of the meeting or adjourned meeting at which the proxy is used.
125. (i) The Company shall cause minutes of all proceedings of every General Meeting to be kept by making within thirty days of the conclusion of every such meeting concerned, entire thereof in books kept for that purpose with their pages consecutively numbered.
- (ii) Each page of every such book shall be initialled or signed and the last page of the record of proceedings of such meeting in such books shall be dated and signed by the Chairman of the same meeting within the aforesaid period of thirty days or in the event of the death or liability of that Chairman within that period by a Director duly authorised by the Board for the purpose.
- (iii) In no case the minutes of proceedings of a meeting shall be attached to any such book as aforesaid by pasting or otherwise.

(iv) The minutes of each meetings shall contain a fair and correct summary of the proceedings thereat.

(v) All appointments of officers made at any meeting aforesaid shall be included in the minutes of the meetings.

(vi) Nothing herein contained shall require or be deemed to require the inclusion in such minutes of any matter which in the opinion of the Chairman of the meeting:

- (a) is or could reasonably be regarded, as, defamatory of any person; or
- (b) is irrelevant or immaterial to the proceeding; or
- (c) is detrimental to the interest of the Company.

The Chairman of the meeting shall exercise on absolute discretion in regard to the inclusion or non-inclusion of any matter in the minutes on the aforesaid grounds.

(vii) Any such minutes shall be evidence of the proceedings recorded therein.

(viii) The book containing that minutes of proceedings of general meetings shall be kept at the registered office of the Company and shall be open during business hours for such periods not being less in the aggregate than two hours in each day as the directors determine, to the inspection of any member without charge.

## **BOARD OF DIRECTORS**

126.

- (i) Until otherwise determined by a General Meeting of the Company and subject to the provisions of Sections 2(10), 149, 162 and 152 of the Act, the company shall have a Board of Directors consisting of individuals as directors and shall have a minimum of three directors and a maximum of fifteen directors.

Provided, that the Company in General Meeting by passing a special resolution, may appoint more than fifteen directors.

Provided further that the Company shall have at least one women director.

(ii) The first directors of the Company shall be:

- (a) Mr. Venkata Sai Kiran Nandigala
- (b) Mrs. Venkata Lakshmi Nandigala
- (c) Mr. Venkata Sai Harish Nandigala

A Director of the Company shall not be bound to hold any Qualification Shares in the Company.

127. If at any time the company obtains any loans or any assistance in connection therewith by way of guarantee or otherwise from any person, firm, body corporate, local authority or public body (hereinafter called "the institution") or if any time the Company issues any shares, debentures and enters into any contract or arrangement with the institution whereby the institution subscribes for or underwriters the issue of the Company's shares or debentures or provides any assistance to the Company in any manner and it is a term of the relative loan, assistance, contract or agreement that the institution shall have the right to appoint one or more nominee directors at the Board the Company, then provisions of Section 161 of the Act and subject to the term and conditions of such

loan, assistance, contract or arrangement with the institution shall be entitled to appoint one or more nominee Director or Directors, as the case may be, to the Board of the company and to remove from office of Board of Directors, any Director so appointed and to appoint another in his place or in the place of Director so appointed who resigns or otherwise vacates his office. Any such appointment or removal shall be made in writing and shall be served at the office of the Company. The nominee Director or Directors so appointed shall neither be required to hold any qualification share nor be liable to retire by rotation and shall continue on office for so long as the relative loan, assistance, contract or arrangement as the case may be, subsists.

128. If it is provided by the Trust Deed, securing or otherwise in connection with any issue of debentures of the Company, that any person or persons shall have power to nominate a Director of the company, then in the case of any and every such issue of Debenture, the person or persons having such power may exercise such power from time to time and appoint a Director accordingly. A Debenture Director may be removed from office at any time by the person or persons in whom for the time being is vested the power under which he was appointed and another Director may be appointed in his place. A debenture director shall not be appointed in his place. A debenture director shall not be liable to retire by rotation. A Debenture director shall not be bound to hold any qualification shares.
